THURSDAY, APRIL 25, 1940

NUMBER 37

COUNTY SCHOOL LUNCH PROJECT

Objectives:
To prepare and serve without cost lunches to needy Tishomingo County School children.
To operate vegetable gardens. The products to be used in school lunches.
To can and conserve garden products for the use of school lunches.

Results:
Five lunch room units operating in Tishomingo County.
450 lunches served daily.
During the Month of March, 1940 this project served 6824 lunches to school children.
Five school gardens have been planted.

CAPITOL ACTIVITIES

By Walker Wood,
Secretary of State

The State of Mississippi, under House Bill 761 approved April 10, will sell to the Beth-Israel Congregation of Jackson for \$2000, 1.15 acres of land adjoining the Women's Building of the Mississippi Federation of Women's Clubs. The state reserves all gas, oil and mineral rights of said land.

On April 12th Governor Johnson approved House Bill 112 which fixes a maximum of 6 mills on the dollar for ad valorem taxation for the years 1940 and 1941. The levy can not be reduced below 2 mills.

Senate Bill 263, now a law, provides that teachers' contracts may be valid for a period of two scholastic years under certain restrictions.

It is now legal in Mississippi to establish schools, classes or courses in trade, industrial and distributive pursuits under the provisions of House 736, approved by Governor Johnson on April 15. The law also provides it lawful to accept donations and contributions for supplies, equipment and materials for such schools, classes or courses so established. The purpose of the law is to prepare, equip and train citizens for employment in gainful occupations in trade, industrial and distributive pursuits.

Senate Bill 471 seeks to change the qualifications of the State Comptroller. The present law states: "No person heretofore connected officially as director or officer of any failed bank shall be appointed Comptroller or be qualified to act as such." The amendment to the law would read: "No person heretofore connected officially as president or vice-president of any failed bank shall be appointed Comptroller or be qualified to act as such."

House Bill 1007 seeks to abolish the office of attorney for the State Comptroller of Banks, and the State Department of Bank Supervision and transfer the duties to the Attorney General of Mississippi.

A list of all Mississippi certified sweet potato plant growers has been prepared by the State (Continued on page 4)

MT. EVERGREEN NEWS

Health in our community at this writing is very good, except the ones that were in the wreck, and they are rapidly improving.

Mrs. Mat Davis has been spending a week with Mrs. George Hudson.

Mr. Mack Hubbard of Burnsville spent Friday night with his brother-in-law, Mr. Odie Johnson.

William Walker spent afternoon with his

LEGISLATIVE NEWS

By J. O. Clark

It has been several days since I last wrote you people back home about what is going on down here in Jackson, due to the fact that we have been working day and night in order to try and reach some date for adjournment as we are now past due and most of the Legislators are like myself they are going broke fast, and would like to get back home where we can try and make enough money to tide us over until we come back down here in 1942.

For the past three weeks the most that has been done in the way of legislation have been Revenue bills and appropriations bills which have been on the floor almost continuously for the past three weeks.

We did have one bill that passed in the house increasing the number of Highway Patrolmen from 53 to 83 which is now before the Senate and it is believed that this bill will pass over there in almost the form as it passed the house. We so seldom see a Patrolman in Tishomingo County that I offered an amendment providing that one be required to visit Tishomingo County at least once every thirty days so the people could at least look him over.

One of the most important bills that we have passed in the house was passed this past Friday which provided for a refunding of the outstanding Highway bonds for the years 1940 and 1941 which will give to the Highway Commission something like \$5,000,000.00 including Federal Aid money in which to construct new highways during the next two years. This amount of money will be divided among the three Commissioners equally. When this bill is passed by the Senate I want the people back home to petition Mr. Lowrey our Commissioner, to spend at least a part of this money for the Construction of Highway No. 25 and I will assure you that I will be down here doing my part in trying to get some money in our county for this purpose. It seemed for a while that we were not going to be able to raise any money for construction purposes and now that we have we certainly want to fight and see that we get our just part, in the construction program for the next two years.

The house last week passed a bill providing \$1,250,000.00 for free text books in Mississippi and \$3,500,000.00 including \$3,500,000.00 which will be used for old age pensions this is an increase of \$3,000,000.00 over the amount which has been used for this purpose heretofore.

We hoped to finish up this week but it is now talked that we will be finished by around the first of May, so I cannot tell just when we will adjourn, but as I said before I have been ready for sometime, although I can stay as long as anyone.

We have more Revenue bills to bring up this week and hope that the Senate will act on them quickly so that we will be able to get through as soon as possible.

aunt, Mrs. B. B. Lambert.
Miss Star Maie Walker spent part of the week with her uncle Mr. Marshal Walker.

Brother Guy, of Riverton held preaching services at Ben nett's Chapel school house in Brother Bowers' place. A large crowd was present. Everybody invited next Sunday night.

Miss Virginia Sparks and Miss Louise Beard from Iuka, spent Sunday afternoon with Miss Star Maie Walker. Also Miss Montez Hudson and Maybelle Williams.

Mrs. Blanche Hudson spent Friday night at Burnsville with her mother, Mrs. Mennie Hubbard.

—Sparkling Blue Eyes.

W. P. A. RECREATION ACTIVITIES

The Recreation Project has centers for recreation, with a skilled attendant at the following locations and will also have play grounds at these places: Belmont, Paden, Burnsville, Mt. Joy, Martin and Iuka. These are maintained for the benefit of citizens of these communities and should be taken advantage of, as they should be of great help and enjoyment to every one.

Talk things over with the recreation leader in your community and help plant what you like best. If there is no recreation program in your community and there is enough interest in starting one you may get in touch with Miss Billie Burke Whitehurst, Unit Supervisor or Mr. Morrison B. White, County Director, both maintain offices at Iuka above Phillips & Yates grocery.

TISHOMINGO, MISS.

April 22, 1940.

School closed here Friday night with address by Dr. A. B. Butts, chancellor of the University of Mississippi. Billie Nettles was valedictorian and Juanita McRae salutatorian.

The Senior play was given Thursday night. Eighth grade graduation at Forest Grove Wednesday night and Tishomingo Tuesday night.

Medal winners—Neutrene Deaton, gold watch in home economics; Orville McNutt, gold watch in agriculture; Patsy Burns, scholarship; Billie Nettles, scholarship; Dorothy McRae, citizenship; L. C. McDougal best athlete; Pat Burns, music; Billie Nettles, activities or best all round student; Christine McNutt, best theme on alcohol as a beverage.

Awards of attendance, present each day of school: Doris Malone, Willa Jean Rushing, Grace Smiley, Quinton Claunch, Orvis Flurry, Frank Daily, Sherben McNutt, Patsy Burns, Shirley Long, Elizabeth Timbes, Otha Deaton. Elizabeth Timbes also received one for being present for twelve years.

Award for average grade of 85 or more: Billie Nettles, Juanita McRae, Earlene Blunt, Ruby Gilley, Elizabeth Timbes, Mireese Delp, Colene Southward, Christine McNutt, Carlene Solomon, Annie Lee Whitener, Bluford Underwood, Wayne Lindsey, Quinton Claunch, Frank Dailey, Elizabeth Whitworth, Beckie Delp, Jewel Page, Mary Starley, Marie Cornelius, Dorothy McRae, Jessie Blanche Sheppard, Juanita Hinkle, Lorene Edmondson, Neptrene Deaton, Gradis Deaton, Orvis Flurry, Patsy Burns, Madine Armstrong, Lizzie Stormont, Annette Finch, Orville McNutt, Louise Branson, Mary Ruth Deaton.

High School Graduates—Earlene Blunt, Walter Buchanan, Archie Burns, Verlan Bryant, Rex Butler, Ilene Dean, Colas Deaton, Mireese Delp, Warren Finch, Ruby Gilley, Wayne Lindsey, Eva Mann, L. C. McDougal, Jr., Christine McNutt, Juanita McRae, Tucker Morgan, Billie Nettles, Pascal Sappington, Carlene Solomon, Colene Southward, Hal Binford Southward, Myrl Tennyson, Elizabeth Timbes, Bluford, Underwood, Edward Ward, Annie Lee Whitener.

Eighth Grade Graduates: Geraldine Armstrong, Dorothy Buchanan, Gelma Coker, Veda Ruth Cornelius, Christine Deaton, Lucile Edmondson, Avis Elliott, Johnnie Gray, Ethel Hinkle, Evelyn Hendrix, Maurine Keenam, Rachel Pennington, Stella Starkey, Emily Ann Bickerstaff, Irene Moore, Hershel Clark, Chris Clifton, Hermon Enlow, Charles Edward Goddard, Lyman Hellums, Howard King, Billie Starkey, Orien Southward, Mathel Taylor, Flossie Hardin, T. J. Ezell, Hubert Massey, Robert Champion, Dennis Gray.

DEDICATION OF PICKWICK LAKE

Upwards of 60,000 people are expected to attend the dedication of Pickwick Lake at Pickwick Dam, Tennessee on Sunday, June 2. The citizens' committee sponsoring the event has invited President Franklin D. Roosevelt to head the list of nationally prominent speakers for the occasion. Outboard motorboat races sanctioned by the National Outboard Association and the Dixie Motorboat Club will open the program of the day.

The starting gun for the races will be fired at 10:00 A. M. with the final heats to be run off later in the afternoon. Substantial prizes offered by the committee assures the crowd that the best of national as well as local racers will be on hand. Sanctioned by the N. O. A., winners are credited with points which will count toward the National Championship awarded annually by the Association.

Loudspeakers will carry to the crowd the announcements and results of the events, the message of the orators and the music of the band. Provisions for the comfort and safety of a capacity crowd have been provided thru the cooperation of the TVA Public Safety Service and the State Police of Mississippi and Tennessee. Augmented sanitary facilities and a system of supply for providing safe drinking water be installed for the occasion. Parking facilities will be expanded to provide for 20,000 to 30,000 autos within easy walking distance of the dam, from which cars will be excluded.

The mile long oval race course is laid out parallel to the four thousand foot south earth fill of the dam, which is topped by a twenty-two foot walkway from which all spectators can see the entire race course. Refreshment and souvenir stands will be spotted along the dam and at other convenient points throughout the grounds. These stands will be operated by clubs and civic groups who will apply the proceeds from sales toward worthy courses in their communities.

The walkway across the dam makes the center of the day's activities accessible from both sides of the river, while 24 hour ferry service for motorists who wish to cross from one side to the other is in daily operation. Visitors will be welcomed by the TVA to inspect the various features of Pickwick Landing Dam, the navigation lock and the power house. Guides will be on hand to direct and explain the workings of the tremendous structure.

The Dedication of Pickwick Lake is another step by the communities of the Tennessee valley to tell the world the beauties and opportunities of the region. Sailing, motorboating and game fishing are already well established on the lake, and picnicking, hiking and camping are attracting nature lovers from many miles around.

The Citizens' Committee is composed of W. C. Stevenson, Corinth, Miss., Bill Pyle, Iuka, Miss., R. D. DeFord, Savannah, Tenn., and Les Moore, Selmer, Tenn., Paul B. Johnson, Pickwick Dam, Tenn., is executive secretary to the committee.

LOCAL BOY WINS TWO FIRST PRIZES WITH HIS JERSEY CATTLE AT WEST POINT DAIRY SHOW

Billie Edward Brackeen, son of C. W. Brackeen, carried a Jersey cow and heifer to West Point and won first prize on cow over three years of age and first prize on senior heifer. Both were Design breeding.

This cow and heifer will be shown in Iuka, Saturday, April 27th.

HERE AND THERE

BY

Wilmer Price

War News.

This strange war continues on, and with each new phase of it new problems arise. Germany is in possession of Denmark and is firmly entrenched along the southern coast of Norway. Never in the history of the world was so much territory seized in such a short space of time as when the forces of Adolph Hitler pulled off this last "blitzkrieg" or lightning stroke. Within 36 hours Denmark had capitulated to the Germans and also the southern part of Norway, her neighbor. For a week conflicting accounts of what had occurred were given out to the world and to us here in the United States the situation was not clear. Now, however, we have at hand some facts that we did not know at that time. The German plans must have been well plotted out before being carried into direct action, because they have dug into key positions in southern Norway so thoroughly that it will be a long time before the Allies can hope to dislodge them.

The Royal Air Force of Britain is repeatedly bombing Stevanger which is the most important air field in Norway held by the Germans. From this air base on the west coast they had hoped to bomb the British Isles. Further the British and French have landed troops in the northern part of Norway and are pushing the Germans southward. However the country there is so rough and rugged that little distance can be covered. They will continue indefinitely to harass the Nazis in these places, thus putting quite a burden on the German war machine to defend its gains. It always requires a large number of men and a steady flow of supplies to maintain an expeditionary force in a hostile country. Time will show whether the German thrust into the Scandinavian countries is worth what it will cost them in the long run. One important advantage in favor of the Allies is that the Germans exposed themselves to attack by getting out from behind the impregnable Siegfried Line in this invasion.

So far, tho' Nazi troops have been close to the border of Sweden, which is next door neighbor to Norway, they have not yet violated the neutrality of that country. Day and night Sweden is reported mobilized and on guard, declaring she will fight for her sovereignty.

Martial Law in Holland.

For many weeks, in fact months Holland has been strengthening her defenses. Now Queen Wilhelmina has placed her little country under martial law. The dikes which hold back the sea could be opened at a moment's notice in case of invasion and this would be tough for Hitler's mechanized forces. In the last week the Queen has been having a general roundup of all foreigners, spies and secret agents. Several plots were discovered it is reported and this no doubt casts light on the present edit of martial law.

Ireland.

England has never gotten along well with the Irish. However, since the German occupation of Denmark the English have found it necessary to buy

their eggs and dairy products from Ireland.

Greenland and Iceland were formerly controlled by Denmark. Now since the Germans have taken over Denmark the status of both these countries is more or less uncertain. Iceland has declared her independence, but probably will be under the protection of England. Greenland, a much larger territory is not habitable in the interior on account of the latitude and the glaciers. It has many fine harbors on the coast which are of military importance. Because Greenland is in the western hemisphere it comes under the implications of the Monroe Doctrine, which means that should Germany land troops in Greenland the U. S. Government would construe such action as a violation of this doctrine. Proper measures for protecting Greenland from any aggression have been under discussion in Congress.

ATTENTION LEGIONAIRES

A meeting of interest to all Legionnaires and their families will be held at the courthouse May 3, 1940 at 7:30 P. M.

All are urged to attend and request to inform your nearest "Buddy."

Remember! Soft drinks and refreshments for all.

FSA FARMERS BOOST INCOME AND ASSETS

Mississippi families on the program of the Farm Security Administration have increased their net worth by \$3,243,456.00 since coming on the program, according to results of a survey received by Hugh T. Ferrell, FSA supervisor for Tishomingo County.

The survey, which includes progress figures from the 250 FSA borrowers in Tishomingo, as well as in other Mississippi counties, also showed that the FSA farmers increased their income for this past year by \$2,430,759.00 over and above what they earned the year before they came on the FSA program. The figures applied to the 17,380 families who last year farmed with the assistance of standard rehabilitation loans.

The survey that in addition to this favorable expansion in purchasing power, the FSA families, by following improved farming practices, are getting away from one-crop farming and making a better living. They produced last year \$4,860,838.00 worth of goods for home consumption as compared with \$2,597,267.00 worth before they came into the FSA program.

The families canned 4,289,036 quarts of fruits and vegetables last year, or an average of 247 quarts per family for home consumption. They also produced 8,653,154 gallons of milk, an average of 498 gallons; and 66,913 tons of forage, an average of almost 4 tons to the family; and a great quantity of other food and feed supplies.

Mr. Ferrell pointed out that this kind of diversified farming has meant a higher standard of living, a better diet, and usually a marked improvement in health.

The survey showed that borrowers in Mississippi already have repaid in to the Federal Treasury \$5,421,170.00 as installments on loans totaling \$11,953,443.00, although much of the money does not fall due for four or five years, and all was loaned to families unable to get adequate credit elsewhere.

NOTES FROM THE SHERIFF'S OFFICE

On Saturday, April 13, 1940
two men were arrested on a
charge of Arson by Sheriff Pace
and Deputies. It is alleged by
the Sheriff's Office and by
signed witnessed confession
that these men burned the home
of J. R. Gravette on the Morning
of Friday April 12, 1940.

Sheriff Pace, Deputies and City
Police investigated the Burglary
of Buddie Hamilton's Cafe
which occurred on Monday night
April 15. As a result of this in-
vestigation two men were ar-
rested and practically all the loot
was recovered.

In a cutting and shooting af-
ray, which occurred in Golden
Miss. on Sunday night April 14
two men were arrested and placed
in jail on charges of assault
and battery with intent to kill
and murder.

Saturday, April 20 one man
was arrested at Leedy, Miss. and
charged with having in his pos-
session 3 gallons of "Moonshine
Whiskey". One man was ar-
rested at Paden, and charged
with having 2 gallons of intox-
icating beverage in his posses-
sion. One man was arrested at
Golden, Miss. and charged with
the sale and possession of intox-
icating beverages. Over the
week end three men were charged
with driving while intoxicated
and several arrested for public
drunkenness.

The Sheriff's Office is equip-
ing a full and complete identi-
fication Bureau, consisting of
fingerprint filing equipment,
both civil and criminal, equip-
ment for the lifting of finger-
prints at the scene of a crime
and for the taking of finger-
prints. Everyone arrested from
this date, that is charged with
a felony, will be fingerprinted,
his prints classified, and a copy
filed in the sheriff's office and
also a copy with the Federal
Bureau of Investigation in
Washington. Interested individ-
uals are invited to submit
their fingerprints to be filed in
the civil file, which is main-
tained entirely distinct from the
criminal file. It is believed that
the filing of a civil identification
record may frequently be a pro-
tection to a Law abiding citizen.
It will make possible the estab-
lishment of an identification in
the event he becomes the victim
of Amnesia or other serious ill-
ness or in case of death. It has
frequently been found that in
disaster difficulty has been en-
countered in identifying the
bodies of victims, and it is be-
lieved that the presence of non-
criminal fingerprint records
may eliminate this difficulty,
which often results in the bury-
ing of individuals as unidenti-
fied or unknown persons. Any-
one wishing their children to be
fingerprinted may bring or send
to the Sheriff's Office and they
will be fingerprinted without
any charge.

What Farmers Think Of Commercial Fertilizers

The National Fertilizer Associa-
tion in 1938 conducted a rather
unique survey in which farmers were
invited to answer certain questions
regarding fertilizers. Thousands of
farmers in most of the states from
Maine to California were interview-
ed at their homes or their farms and
the answers were tabulated and
printed. The answers were close
enough together to prove that they
were calculated estimates, rather
than guesses and they reveal some
very interesting conclusions as to
the farmers' attitude toward fertiliz-
ers.

The survey covered all of the main
crops in 29 states and the average
of the estimates is that for each
dollar invested in fertilizer the farm-
er received a value in increased crop
of three dollars and sixty cents. In
other words, the fertilizer, after
paying its way, produces a return
which is most all profit of \$2.60 for
each \$1.00 invested.

Not all crops give the same re-
turns from the application of fertil-
izer. The estimates of the survey
indicate that tobacco gives the high-
est returns of all the major crops,
with \$9.04 for each \$1.00, with sweet
potatoes and some other truck crops
following closely and the grain crops
giving the lowest returns. But even
on corn the survey shows an increase
sufficient to make a profit of 100%
on the fertilizer investment.

Eleven thousand farmers in the
Cotton Belt were interviewed with
the average of all their estimates
showing that \$1.00 invested in fertil-
izer produced an increase in crop
value of \$4.47 and a resulting profit
of approximately \$3.47 for each
\$1.00 of fertilizer investment.

In the state of Mississippi more
than twelve hundred farmers were
interviewed. Of these, 95% said they
considered fertilizer a necessity, and
74% said it would pay them to use
more than they are now using.

The survey revealed that only
42% of the farmers interviewed in
Mississippi listen regularly to farm
radio programs, but a large major-
ity of the listeners reported that
they received benefit therefrom. And
54% of those interviewed take a
local weekly paper.

The average return for each dol-
lar invested in fertilizer for the
main crops of Mississippi was as
follows: Cotton \$5.75, corn, \$2.16,
Irish Potatoes \$5.47, sweet potatoes
\$8.27, cabbage \$5.25, sugar cane
\$4.39, tomatoes \$5.38 and hay \$3.64.

These replies, while they do not
represent all of the questions em-
bodied in the survey, indicate very
general agreement of the large num-
ber of farmers interviewed that com-
mercial fertilizers are a necessity,
that they offer the opportunity for
profits ranging from 100% to 500%
on the investment, and that the
majority of farmers are giving care-
ful thought to the opportunity af-
forded by higher per acre yields for
better profits.

National Corn Champ Tells How It's Done

The winner—Clark W. Dellinger.

It wasn't done with mirrors, that
record-smashing official yield of 180.1
bushels of corn per acre which made
Clark W. Dellinger, Clark County, In-
diana, 1939 national champion corn
producer. The enormous production
was the result of a systematic use of
the latest and best corn-growing prac-
tices.

The five-acre plot in a 14-acre field
on the Ohio River bottom which Dell-
inger chose for his crop was natu-
rally fertile, but it came a long way
from the perfection which he set as
his standard. The land had usually
been planted to corn. Last year he
allowed it to make a tremendous un-
dergrowth, which was plowed under
about nine inches deep in May. The
land was fitted by two double discings,
two harrowings, and two cultipackings
before planting. Corn of the Johnson
County white variety, of his own
growing and selection, was planted
late in May. It was rowed three feet
each way, with from two to three
kernels per hill.

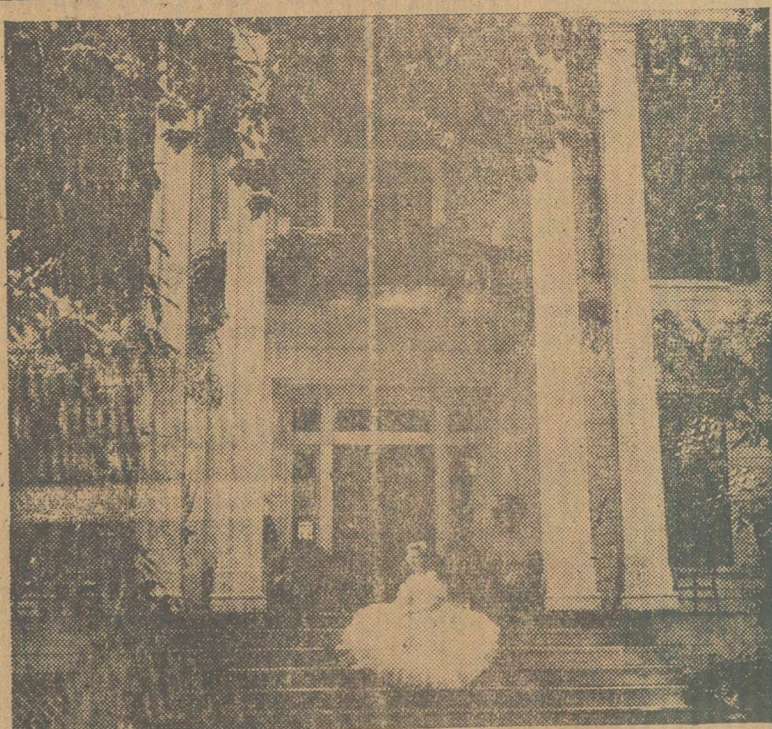

Though the land was rich, he knew
that it had been used and was not up
to its once virgin fertility, so he added
fertilizer of 0-14-6 analysis, apply-
ing it to the hill at the rate of 125
pounds per acre. Six cultivations
through the growing season cleared the
way.

H. R. Smalley, Director of Soil Im-
provement Work, The National Fertil-
izer Association, commenting on why
the corn champion used fertilizer on
rich soil, said, "Big yields take fer-
tility from the richest soil. The grain
alone removed from Dellinger's land
250 pounds of plant food per acre. A
50-bushel corn crop, including stover,
removes 156 pounds of plant food
from the land—82 pounds of nitrogen,
29 pounds of phosphoric acid, and 25
pounds of potash. Return of this
plant food to the soil is essential to
continuing yields."

Modern Highways to Ancient Mansions

IN REFRESHING POOLS of sunshine and shadow along the
pilgrimage trail, there materializes many an enthralling glimpse in-
to Mississippi's picturesque youth. At the end of a beautiful avenue
of magnolias in the Black Prairie country is an ancient manor and
its old fashioned garden. Dating back to 1849, this scenic spot is
appropriately called "The Magnolias", and constitutes one of the
highpoints of the Aberdeen Garden Club pilgrimage, April 25-26.
On this pilgrimage is revealed many a priceless treasure of the past,
—ante-bellum mansions, lovely gardens, handsome portraits, unique
old china and silver. To Aberdeen unfolds the modern stretches of
US 45, opened last fall by the State Highway Department as one
of Mississippi's newest all-paved thoroughfares.

LOCAL HAPPENINGS

Prof and Mrs. Hal Anderson of Corinth, were week end visitors in the home of Mr. and Mrs. J. C. Jourdan, Sr.

Mr. and Mrs. Ben Holdridge of Benton, Ky., were the week end guests of Dr. and Mrs. R. J. Brown. They left Monday for a week's visit to Sylacanga, Ala.

Mr. and Mrs. William Wilson and daughter, Mary Ann, Mr. and Mrs. Fred Wilson and son, Jackie, of Carbondale, Ill., spent the week end as the guests of Rev. and Mrs. M. H. Hansford.

Mrs. C. R. McCully entertained Thursday morning with a Coca Cola party given in honor of the birthdays of Mrs. C. M. Liffey and Mrs. John Henry Allen.

Mrs. D. O. Jourdan was hostess Saturday afternoon to a three table bridge party.

See us for Federal Housing Loans, both for repair and new construction. Quick service. Hawkins Lbr. Co., Corinth, Miss., Phone 91.

Wanted Business Girl to room and board. Private Home call 44J or Vidette Office

Little Mary Ann Oaks, daughter of Mr. and Mrs. Fletcher Oaks, was operated on in the Colbert County Hospital for appendicitis last week. She is recovering nicely according to last reports.

Madames John Kuykendall and W. F. Lambert, Sr., of Charleston, Miss., and H. D. Little, formerly Miss Lucille Lambert of Oklahoma City, spent Monday in Iuka the guests of relatives.

Mr. and Mrs. Rush Kelso and baby, Sarah, of Paris, Tenn., are the guests of Dr. and Mrs. R. R. Hill.

Dr. F. C. Williams, Corinth, is in Iuka every Wednesday afternoon to do Dental practice, at the Whitehurst Hotel.

Roscoe Rhine has been selected as valedictorian and salutatorian of the senior class.

Chancellor A. B. Butts of the University of Miss., delivered the graduating address to the Tishomingo Special Consolidated School Friday evening. State Supt. of Education J. S. Vandiver will address the Belmont graduates Friday of this week.

NOTICE
Stoneville Cotton Seed No. 2 for sale at a reasonable price. See Herbert Carson, Iuka, Miss., Route 4.

As has been the custom for many years, life-long friends of Miss Anna Hyatt gathered at her home Saturday afternoon to celebrate her birthday. Mrs. Mamie Hyatt Faircloth of Los Angeles Calif., welcomed the guests in her charming manner and presented each one with a dainty little souvenir of sunny California. Those attending were: Madames White Smith, Doan Moss, E. N. Reed, T. J. Howard, Laura Copeland, W. O. Jackson, J. J. Whitten, L. A. McKeown, V. Doan, T. M. McDonald and Miss Birdie Merrill of Memphis

FOUNTAIN SERVICE AT MOORE DRUG STORE

The Childrens Day exercises at the Methodist church Sunday morning drew a good congregation. Mr. E. R. Harvel, the Sunday School Supt., made the opening talk on the work of the Sunday School. The children, under the direction of Mrs. R. J. Brown and Mrs. Dayton Pruitt were well trained and each child acquitted himself with credit. Particularly enjoyable was the solo given by tiny little May Gentry of Iuka and Corinth and the recitation of the Twenty-Third Psalm by little Harriett Ann Carmichael.

THE THURSDAY CLUB

Mrs. Mounger entertained the regular meeting of the Thursday Club on April 11th in the attractive living room of the Methodist Parsonage. After the business session was terminated an "Information Please" program was presented with Mrs. R. J. Brown as "Mistress-of-ceremonies". Each member handed in a question (with correct answer written below) to Mrs. Brown, who presented each persons question in turn to the Club with any member privileged to answer. The questions covered a variety of information and proved to be an instructive as well as diverting program with the charm of novelty. The meeting closed with the usual social hour and delightful refreshments served by Mrs. Munger.

MRS. E. H. GRAVETTE

The whole community of which she was such a vital part for many years grieves over the passing of one of its oldest and best loved citizens, Mrs. E. H. Gravette, which occurred at her home early Wednesday morning. While she had been in ill health for several weeks few realized the end was so near.

Born near Adamsville, Tenn. Nov. 28, 1859 she moved with her parents to Alabama. Later they moved to Tishomingo County and she settled within a few miles of where she spent the rest of her busy, happy life. She had been a citizen of Iuka nearly forty years.

On her seventeenth birthday she was married to Mr. E. H. Gravette, formerly of Albertville, Ala. Last November they celebrated their 63rd wedding anniversary.

Mrs. Gravette's homely philosophy, her good common sense, her never failing sense of humor and her active interest in everything pertaining to the betterment of the town and county made her a welcome guest at all times.

Her love of and wonderful success with flowers and her generosity in the distribution of the same brought her in close contact with the whole town and much of the traveling public who passed her door. Her flower garden was one of the show places of the town.

She was a devout and consistent member of the Baptist church and until the past few years a regular attendant at all services.

Funeral services were held at that church conducted by her nephew, Rev. Henry Hearne of St. John's Methodist Church, Oklahoma City, Okla., Thursday afternoon. He was assisted by Rev. Pate.

She leaves her husband, E. H. Gravette, two daughters, Madames John Stormont and Carlton Woodley, one son, Raymond Gravette, all of Iuka, nine grandchildren and two great grandchildren.

FOR SALE—81 acre farm, 5 miles south of Iuka, Louis Haney place. See at Home Bakery, Corinth Miss. (34-4tp)

TWENTIETH CENTURY CLUB

The Twentieth Century Club held its last meeting with Miss Frances Oakley as hostess and Mrs. Ruth Dean as leader of the discussion on International Relations. After the program, refreshments were served to the following members: Miss Gladys Bullard, Mrs. Sara Dickson, Mrs. Ruth Dean, Miss Mary Ford, Mrs. Miriam Gaines, Mrs. Ruth Moore, Miss Bronson Munday, Mrs. Katherine Nixon, Miss Frances Oakley, Mrs. Juanita Patterson, Mrs. Jewel Pruitt, Mrs. Ruth Stormont and Miss Irene Talbert.

Newly elected officers for the coming year are: Mrs. Sara W. Dickson, President; Mrs. Katherine Nixon, Vice-President; Mrs. Ruth Moore, Secretary; Miss Bronson Munday, Treasurer; Miss Lorena Oaks, Parliamentarian; Miss Mary Ford Reporter.

W. M. S.

Mrs. J. D. Finch was hostess to the W. M. S. Tuesday afternoon, April 16. Mrs. H. A. Jones was leader for the program on "Unchanging Moral Standards"

The subject for the devotional was the First Adam--The Second Adam: Gen. 3:8,17-19; 1 Cor. 15:45-49. Mrs. Jones gave each a tiny hand-made Bible in which was written a verse and to which was attached a streamer. After the verses were read members kept them for book verses.

Some of the topics discussed were: God's Standard for the Individual; for the Home; for the Nation; and for the W.M.U.

Mrs. Brown gave an interesting talk on her trip to the State W. M. U. convention.

Mrs. Finch, assisted by Ann, served a salad with tea. Mrs. C. L. Sanders was welcomed as a new member.

Whether you farm on a large scale or small scale, you look forward to maximum yields per acre. So here's timely information that will help every farmer to make 1940 a bigger crop year.
Since you can't tell by looking at a bag of fertilizer how good it is, always insist on Royster Sterling Quality Fertilizers. Royster's is backed by more than half a century of experience. It is scientifically compounded under the expert supervision of plant food specialists. Royster is guaranteed to contain the secondary plant foods . . . Calcium, Magnesia and Sulphur, in addition to the primary plant foods Nitrogen, Phosphoric Acid and Potash . . . blended in the most effective form. This year select perfectly balanced fertilizers. Insure maximum yields with Royster's Sterling Quality fertilizers.

High Spots on Record-Breaking Run
Signs of the times in a motor age—these highway markers tell the story of a two-year, 100,000-mile truck test run recently completed by Chevrolet. In Canada, Mexico and every state of the Union, the truck operated on all types of highways and under every conceivable weather hazard, setting a new world mark for sustained and certified automotive operation, under the sanction and official observation of the American Automobile Association. The unit carried a 4,590-pound "payload." An average of 15.1 miles per gallon of fuel was maintained throughout the 100,000 miles, at an average operating speed of 33.07 miles per hour. Oil mileage was correspondingly high—1,072 miles per quart.

NOTICE OF REGISTRATION

IUKA, ROUTE 1

April 22, 1940
Farmers are again blocked on their farm work by the excessive rains of last week, which was the heaviest downpour for a day and night duration in many years. The past week closed with some very cool weather.
Mr. W. M. Belue and his son, George, were in this section last week. They both reside at Holcut.
Mr. J. A. Williams is spending several days with the family of Mr. Clifford Williams here.
Mr. Drenan Frederick is now engaged in driving one of the State Highway trucks.
Mr. and Mrs. William Tumlin visited the family of Mrs. J. M. Russell Saturday.
Mr. and Mrs. Robert Russell visited in the home of his father last Saturday.

CAPITOL ACTIVITIES

(Continued from page 1)

Plant Board and is now ready for distribution says R. P. Colmer, Chief Inspector of the Board. The list contains the names and addresses of 638 growers in sixty-nine counties who have met the requirements for the sale of certified plants, although the plants must still pass another inspection on the bed before they are sold. Mississippi certified potato plants are as good as those grown anywhere and are produced under very strict regulations, says Mr. Colmer. All possible precautions are observed by the growers to prevent disease. Lists of certified potato plant growers in each county have been prepared and a copy will be sent to anyone asking for it. Requests should be addressed to the State Plant Board at State College.

This week, April 22-27 is being celebrated in Mississippi and throughout the Nation as "This Work Pays Your Community." The purpose of this Nation-wide activity is to acquaint the people of our state with the accomplishments of the activities being carried on by the Division of Professional and Service Projects of the Works Progress Administration in the various communities of the State.

Vieing in interest with the Mississippi Legislature in Jackson this week is the band contests being staged by all the school bands of the state, with daily parades down Capitol Street. The contests will end Saturday, April 27th. These contests will draw approximately 10,000 visitors to the Capitol City.

15 foreign corporations have qualified in the office of Secretary of State Walker Wood during the first 18 days of this month the majority of these being oil companies and allied corporations. These 15 corporations listed a total capitalization of \$26,560,940.00. During the same 18 days 30 domestic corporations have filed their charters, the largest being that of renewal of the Charter of Lintonia Building and Loan Association, Yazoo City, with a capital of \$1,000,000.00.

Vegetable Laxative
Makes Happy Friends

Here's a laxative that usually acts thoroughly as harsher ones but is a gentle persuader for intestines when used this way: A quarter to a half-teaspoonful of spicy, aromatic BLACK-DRAUGHT on your tongue tonight; a drink of water. There's usually time for a good night's rest, with a gentle, thorough action next morning relieving constipation's headaches, biliousness, sour stomach, bad breath.
BLACK-DRAUGHT is a splendid combination of vegetable ingredients, chief of which is an "intestinal tonic-laxative" that helps impart tone to lazy bowel muscles. It's economical. 25 to 40 doses: 25c.

Notice To Creditors
Administratrix Notice To Creditors of Dr. J. S. Wheeler, Deceased

Letters of Administration having been granted on the 24th day of April, 1940 by the Chancery Court of Prentiss County, Mississippi to the undersigned upon the estate of Dr. J. S. Wheeler, deceased, notice is hereby given to all persons having claims against said estate to present the same to the Clerk of said Court for probate and registration according to law within six months from this date, or they will be forever barred.

This the 24th day of April, 1940.
37-4t) Mrs. Sophia Wheeler, Administratrix.

Notice of Election of Member of County School Board

As provided for under Section 6581, Code of 1930, as amended to 1938, the trustees of all Tishomingo County Schools other than the trustees of Municipal Separate School Districts are hereby called to meet at the Court House, at Iuka Mississippi, on the First Friday in May, 1940, at 2:00 o'clock P. M., the same being the 3rd day of May, for the purpose of electing a member of the County School Board to succeed W. S. Stephens, member from the Fourth Supervisors District, whose term expires on the first Friday in May, 1940.

O. C. Oaks,
36-3t) County Supt. Education

State Laboratory
Plays Vital Role
In Road Building

Increasing scientific knowledge that is constantly transforming the face of the earth into more livable patterns is playing an important role in building better and more lasting highways at lower cost in Mississippi.

Unknown to the majority of Mississippians are the activities of the State Highway Department's testing laboratory located to the rear of the State Fairgrounds in Jackson. Yet it is one of the big reasons why Mississippi highways today rate among the nation's best, and Mississippians are assured of getting maximum returns in good roads for every dollar expended on state highways.

Within the walls of this laboratory is housed a formidable array of devices ranging from fragile test tubes to a huge machine capable of exerting 300,000 pounds pressure and 200,000 pounds pull. Materials entering here undergo crushing and rending ordeals that lay bare the innermost secrets of their nature. The full extent of their strength, their every weakness is revealed.

Investigations conducted in the testing laboratory are directed toward four primary objectives:

1. To ascertain that the quality of materials going into the construction and maintenance of state highways meet the specifications as approved by the Federal Bureau of Public Roads and adopted by the State Highway Department. A triple check is maintained by means of laboratory, plant and field tests.
2. To determine that road and bridge foundations are constituted of the proper elements to assure sound and lasting qualities. The superiority and lasting qualities of modern highways may be attributed largely to this important factor of foundation.
3. To find new sources of local materials suitable for construction and maintenance in order that as large a portion as possible of highway funds will remain in the state. At present tests are being conducted on Tinsley crude oil to see if it is suitable for use in bituminous roads.
4. To seek the best balance of efficiency and economy to be found in the various materials.

For greatest efficiency in attaining its objectives, the testing laboratory is divided into two units, the chemical and the physical; and in addition to the soils testing division of the testing laboratory in Jackson, the State Highway Department maintains similar testing laboratories at Tapelo, Oxford, Hattiesburg and Brookhaven. The Federal Bureau of Public Roads assists in this work.

IUKA, ROUTE 3

Health is very good in this part at present.
We had another big rain down here last week. The farmers are behind with their work.

The singing school is progressing nicely at Holcut, with Mr. Paul Reece as teacher. Come on everybody and let's make this a good school. Seems like everyone is enjoying it.

Miss Hazel Holley, from Memphis, has been spending a few days with Miss Clyde and Lois Seago of Holcut.

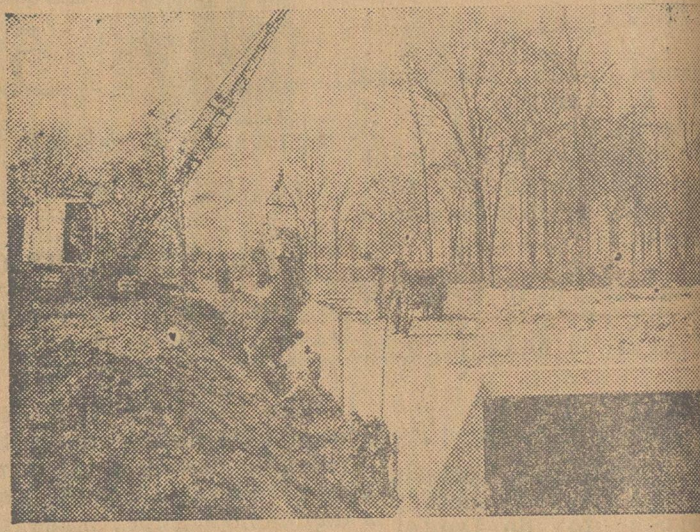

Mr. Buddie Hale and Wallace Amerson visited the Helton sisters Saturday night.

Misses Lilla and Eva Bishop are spending a few days at Red Bay, Ala., with relatives.

Mrs. Lurlene Belue spent last Wednesday afternoon with Miss Ruth Stafford.

Mr. J. B. McCoy, who has paralysis, is improving. We hope he will soon get up.
The singing at Holcut day night was enjoyed.
There will be preaching at Sardis Baptist church, Sunday April 28th at 11 o'clock. Brother Thomas of Corinth, Miss. Every one cordially invited to come and hear.
Mrs. Lurlene Belue and Mrs. Lucille Thomason and Mr. and Mrs. Whit Strickland and Katie Lou spent Sunday with Mrs. Katie Strickland family.
Mrs. Rilla Ridge is spending a few days in this part.
Miss Annie Mae Norris is on a business trip to Holcut day.
Go to church somewhere day.
—Lula Bell and S.

Opening New Avenues To Motorists

THE MARCH OF MISSISSIPPI highway progress continues steady pace. Records show that the modern system of roads built by the State Highway Department is proving one of the most valuable investments ever made by Mississippians. The program has automatically increased state gasoline tax revenue and attracted millions of tourist dollars into the channels of trade. It has also brought new convenience and savings to the people of the state. Above are seen workmen engaged in the construction of the Clinton-Brandon airline section of US 80 south of Jackson. The careful attention given all the elements that go into the building of the state's modern highway system is assuring a high value for every dollar spent, and has earned for it one of the best in the nation.
