County Supervisor Runs For State Job

Seeks North Mississippi Highway Commission

Pledging an administration of honesty and service in the interest of better highways for the public, B. G. Coggin of Nettleton has announced for state highway commissioner for the Northern District of Mississippi.

Mr. Coggin, who is finishing his third successive term as Lee County Supervisor Board member this year, cites his 28 years' experience of road building and contracting in North Mississippi. During this time, he has served as worker, foreman, maintenance superintendent and district engineer for the State Highway Department.

Mr. Coggin is 53, resides with his wife at Nettleton, and has a son. For 15 years he has been a deacon of the Baptist Church, and is a member of the Lions Club, the Masons, Woodmen and Shrine. He has been a Legionnaire 30 years.

He volunteered for World War I service while attending Mississippi State College, and worked on his father's farm for four years after his discharge from the Navy in 1919. In 1923, he started work with the State Highway Department.

OAKS ELECTED COMMANDER OF 13th V. F. W. DISTRICT

The 13th V. F. W. District Dept. of Mississippi met Sunday afternoon at 2:00 p. m. in the V. F. W. Hut at Booneville and elected the following officers: District Commander, Jess Oaks, Iuka; Senior Vice Commander, Paul Clemis, Corinth; Junior Vice Commander, Robert Williams, Walnut; Quarter Master and Adj., Clovis Crane, Iuka; Judge Advocate, John T. Barrett, Tupelo; District Surgeon, Dr. E. T. Miller, Jr. Booneville; Chaplain, (Spanish American War Veteran) John Pink McDonald, Tupelo.

Commander Oaks has long been active in V. F. W. work, having served as Chief of Staff for two years. During that time he organized the Walnut Post. He was appointed National Ade-De-Camp by E. K. Collins, State Commander for 1951, and is past commander of the Tishomingo County Post.

He and others will receive the obligation at Biloxi at the State encampment in June.

The 13th District consists of posts from: Iuka, Corinth, Walnut, Booneville, Baldwyn, New Albany and Tupelo.

WOMEN OFFERED COMMISSIONS IN WAF

Women who possess a baccalaureate degree, married or single, and without prior military service are being offered commissions in the Women's Air Force to become administrative officers for WAF squadrons throughout the expanding Women's Air Force, M-Sgt. William C. Taylor, the Army and Air Force recruiter for this area announced today.

In addition to possessing a degree, applicants must be 24 but less than 32 years of age, a citizen of the United States, be physically qualified for general service and normally have three years of work experience, not necessarily paid, and preferably in a supervisory or managerial capacity, the recruiter said.

Women 24 but less than 28 years of age with three years of experience will be commissioned Second Lieutenants. Those 28 but less than 32 with five years experience will be commissioned First Lieutenants.

All women commissioned will be ordered to active duty immediately in administrative and supervisory capacities with squadrons.

The recruiter said the procedure for making application is simple. Recruiting stations have the necessary forms for making application. Commissions will be granted at the rate of 200 a month until mid 1952.

FARM PAGE

COUNTY AGENT NEWS

Paul Keller, County Agent

Is your pasture land all in one field, or is it cross fenced so you can graze alternately when you need to do so?

Mr. C. A. (Dick) Jourdan of Burnsville R-1, says he has better grazing and more of it with his pasture cross-fenced so he can put his cows where he wants them. His pasture is fenced in five different fields and the cows can be cut out of any field by closing the gate.

Mr. Jourdan has 140 acres of good land and 82 acres of this is in cultivation. He has twelve head of registered Double Standard Polled Herefords.

Mr. Jourdan believes in feeding grain and forage to livestock on the farm rather than sell it direct, however, he sold over 200 bushels of corn after wintering his cattle and fattening his hogs for the family meat supply. It required only 100 bushels of corn and 126 bales of hay to winter the herd but 3 acres of early fall seeded oats were available for grazing two hours a day during the winter except during the bad weather. A crop of soybeans for hay are grown on the land following the winter grazed oats. The soybeans will be harvested in plenty of time to seed back to oats by September 1.

Mr. Jourdan believes in using the mowing machine to control weeds in the pasture.

The fine Hereford Cows are not all the cows on the place. Three good grade Jersey cows are kept for an abundant supply of milk and butter and some to spare. One of these Jerseys is 23 years old and has raised 18 calves. She doesn't look like an old cow yet and she is still in production. She has had the best of care and is fed 365 days a year, regardless of how good the pasture is.

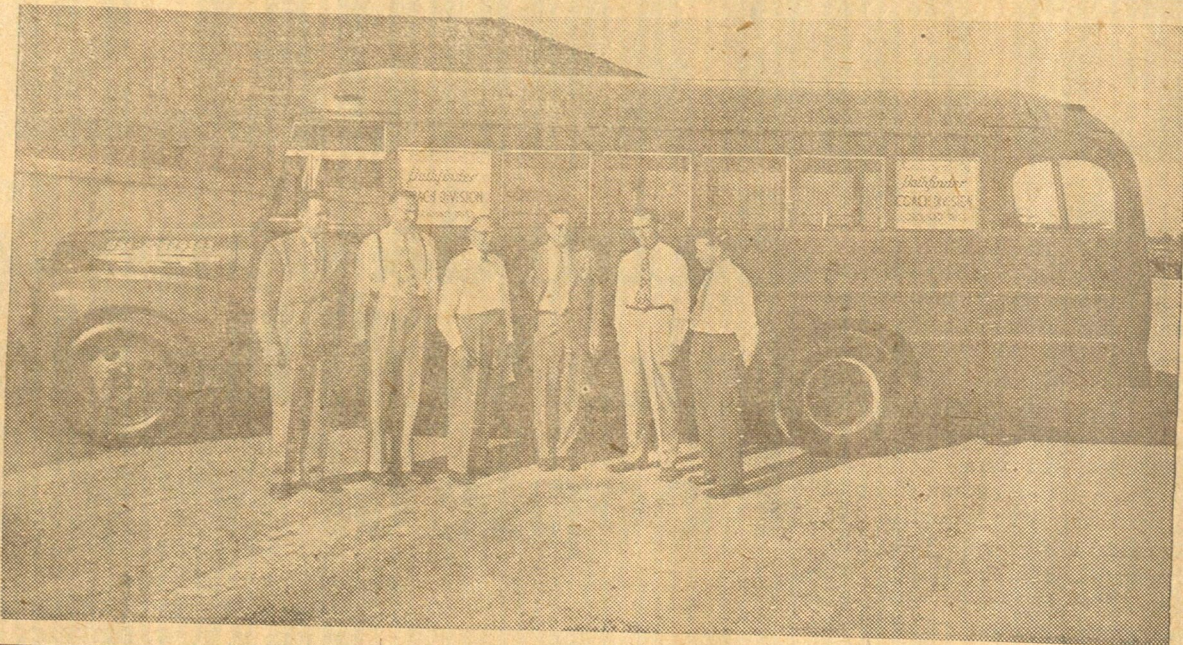

This is another good example of balancing a farm with livestock.

Livestock owners should not forget the importance and the value of a few acres of Sudan Grass or Millet for late summer grazing when other pastures are grazed down. Sudan or Millet can be seeded any time in June if there is enough moisture to bring it up.

For several years the North Mississippi Branch Experiment Station at Holly Springs has been conducting tests on summer grazing crops. Pearl Millet led with Sudan second. Last year on a 6 acre plot the 17 cows kept their high production over a 40 day grazing period while the cows on a permanent pasture declined almost 20 percent in milk production. Nine years out of ten, we need some supplementary grazing to turn on in late July and August when our permanent pastures are short.

Retail meat markets are required to post by June 4 the new ceiling prices for beef cuts that were effective May 14. W. Aaron Byrd, District Director, Office of Price Stabilization, announced today.

Mr. Byrd stated that these beef prices will be effective until July 31. On that date, he said, OPS will put into effect the first of two ceiling price reductions. The next ceiling price reduction will take place October 1.

FARM STORAGE FACILITY LOAN PROGRAM EXTENDED

By E. N. Allen

County Administrative Officer

Extension of the program providing loans to farmers to finance the construction or purchase of new farm storage facilities for grain and seed was announced today by T. M. Patterson, Mississippi Executive Officer to the Production and Marketing Administration. The original Commodity Credit Corporation loan program, initiated in June 1949 and scheduled to extended through June 30, 1952. As of April 30, 1951, loans in Mississippi totaling approximately 450,000 dollars had been approved for farm storage structures, having a combined storage capacity of over one and one half million bushels.

In making the announcement, the Executive Officer, pointed out that the program will be doubly valuable in the year ahead, serving both to increase farm storage space and ease the pressure on transportation facilities, and to do so with a minimum use of critical materials.

"The Department of Agriculture," Mr. Patterson explained, "has recommended increased production of several important crops this year. The larger production is needed to meet increased requirements both for immediate use and for emergency reserves. To take care of these reserves without putting undue strain on our commercial storage and transportation facilities, we need to expand farm storage capacity in many areas. The Commodity Credit Corporation farm storage facility loan program has been extended for another year to meet this need."

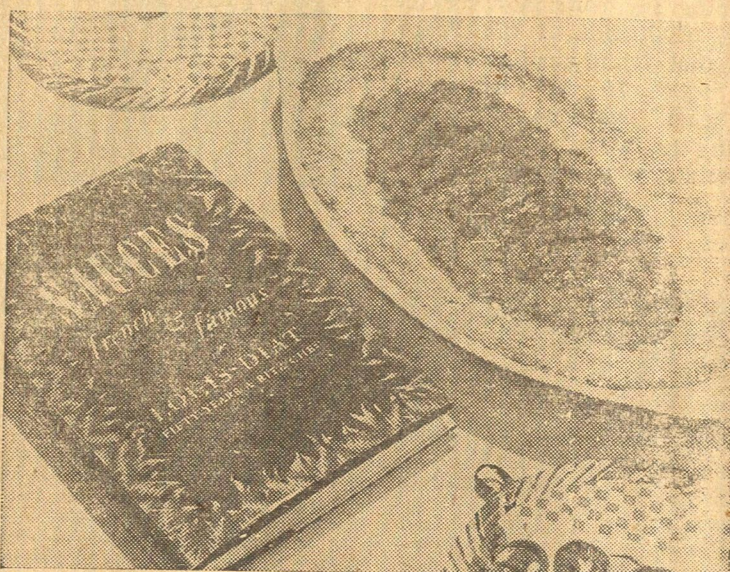

This extension will give the farmer financial help in expanding farm storage at a time when steel for building more commercial storage will be extremely tight. Our financing program authorizes loans only on good, sound structures but such structures can be built in great part with on the farm and out of season farm labor. At this time, when steel is a critical material, that is an important consideration.

The farm storage facility loan program is available to producers of wheat, corn, oats, barley, grain sorghums, soybeans, rice and cottonseed. Loans are made up to 85% of the cost of the

BEEF AU GRATIN — FRENCH & FAMOUS

Leftover beef takes on real glamour when prepared the way Louis Diat, famous Ritz Hotel chef, suggests in his most recent cook book, "Sauces—French & Famous" (Rinehart & Co. New York, \$2.50).

BEEF AU GRATIN

2 tablespoons butter
3 medium onions, chopped
1 tablespoon flour
1 cup stock or beef bouillon
1/2 cup canned tomatoes or tomato juice
Salt and pepper
2 teaspoons vinegar
2 or 3 sour pickles, sliced
1 teaspoon chopped parsley
1 pound leftover cooked beef, cut in slices
1/2 cup dry bread crumbs

Melt butter in saucepan, add onions and cook slowly until golden. Add flour and cook a few

minutes longer. Add stock and tomatoes, salt and pepper and cook, stirring until it comes to a boil. Continue cooking slowly 20 to 25 minutes, stirring occasionally. Add vinegar, sliced pickles and parsley. Do not let boil after adding pickles. (For a sharper sauce, add 1/4 teaspoon dry mustard mixed with 2 teaspoons vinegar or 1 teaspoon, grated horseradish.) Arrange slices of meat in a heat-proof serving dish. Pour sauce over meat and keep hot until ready to serve. Then sprinkle with bread crumbs and brown in a hot oven or under broiler. Do not let sauce boil. Serves four or five.

structure, to any owner-operator, tenant landlord or partnership to erect a facility which will meet requirements for eligible storage under the price support program. The loans are payable in five annual installments, or earlier at the option of the borrower. Interest on loans is at the rate of 4 per cent per year.

Mr. Patterson also announced the extension to June 30, 1952, of the CCC loan plan to help pro-

Tishomingo County Farm Bureau member will have an opportunity to apply for Mississippi Hospital and Medical plans from June 1-30, during the time when the state-wide Farm Bureau group is open, according to C. E. Morton, president of the Tishomingo County Farm Bureau.

Mr. Morton announced that Blue Cross Blue Shield plans will be written for any family now belonging to the Tishomingo County Farm Bureau or those who join before the June 30th deadline. He urged all families who desire hospital and medical protection against illness or accidents to make every effort possible to get applications filed as rapidly as possible in order to facilitate the county and state enrollments.

County Farm Bureaus over the state are securing the aid of county agents, vocational agri-

culture teachers, and home demonstration agents and club women in intensifying the county campaigns. They hope to make the Blue Cross-Blue Shield medical and surgical services known to every family in Tishomingo County.

Over 110,000 Mississippians now subscribe to this hospital medical service, approved both by the Mississippi Hospital and Medical Association and the American Hospital and Medical Association. More than 40 million people in the United States now are protected through this non-profit service. The plan is the doctor's and hospitals' own approved program for voluntary prepaid health care.

Mr. Morton urged farm families not to overlook or put off making application for membership in the Blue Cross service.

Plans may be paid for quarterly, semi-annually, or annually.

You will find someone to help you fill out your application at the county agent's office, or volunteer workers in your community. For further information call Mrs. Alois D. McCune, Farm Bureau Service Agent, telephone number 4572.

IT HAPPENS EVERY DAY IN MISSISSIPPI

"Telephone Jim to Pick 'em up!"

Without a last-minute reminder by telephone, there may be many a slip between last week's instructions and today's performance.

Yes, the rural telephone saves many a disappointment... it brings markets closer, enables Mr. and Mrs. Farmer to be better posted on conditions and prices, so they may sell their farm products and purchase their farm needs most advantageously. The daily contacts the rural telephone enables one to make, broaden and enrich farm life.

Putting \$200,000 a month into NEW RURAL TELEPHONES in Mississippi

Filling the need for more rural telephones is one of our most important functions. Here in Mississippi, Southern Bell is beginning the sixth year of the greatest rural construction program of our 65 years in the State—a program which we have spent 7 1/2 million dollars in five years.

When we began that program in the fall of 1945, we had 8,335 rural subscribers in Mississippi; today we have 4 1/2 times as many, or approximately 36 thousand... More than 100 new rural projects are planned for the State this year, and these will be carried out as fast as our financial and physical resources permit!

Ground Breaking At Sunnyside For Big Rural Telephone Unit

GREENWOOD — Another 275 rural families just north of here will receive modern rural dial switching service with the completion of the dial switching unit which will be located on the Holly Grove plantation near Sunnyside. The switching unit will serve rural homes in the northwest portion of Leflore county and in the section of Tallahatchie county just east of the Tallahatchie river.

Eleven dial switching units like this one have been added to Southern Bell's rural telephone system in Mississippi during the past twenty-four months while two more are nearing completion and this, the fourteenth, is scheduled to be placed in service before the year is out.

The new dial unit at Sunnyside will be connected directly to the Greenwood exchange and any subscriber whose telephone is connected to the unit may communicate with any other subscriber whose telephone is also connected to the unit merely by dialing the desired number. The monthly rates paid by the customers entitled them to an unlimited number of calls to other local telephones connected with the Greenwood exchange of which the switching unit is a part.

All of these units and several hundred other projects are parts of the program of rural telephone expansion in Mississippi which has cost Southern Bell over \$4 million dollars in 5 years and has given rural Mississippians an additional 26 thousand telephones.

Ground is broken for the big new dial switching unit in northwest Leflore county by Mrs. R. T. Wade, owner of Holly Grove plantation on which the unit will be located. The men in the picture, mostly of Southern Bell, are left to right: Fred Downing, District Engineer, Greenwood; M. T. Jones, Division Supplies and Building Supervisor, Jackson; J. H. Fleming, District Manager and H. H. Padgett, District Plant Manager, both of Greenwood; H. J. Lott, Rural Development Representative, Jackson; L. W. Wade, Mrs. Wade's son, Leflore county planter; J. Out of Ruins

Lesson for June 3, 1951

A GERMAN who came through World War II recently said: "At present there is no country in the world where a man can live more like a man than in Germany. This is because yesterday has been reduced to ruins and rubbish... We can thank God that he has blessed us with ruins more than he has others."

This may sound shocking, but it sounds not unlike the Bible. There were Jews in ancient times who lived to thank God for the ruins of Jerusalem.

Dr. Foreman

At Last They Believed

If you had asked a resident of that city, at the hour when the enemy army was burning his beloved home, if God's hand was in the catastrophe, most likely he would have said, "No, not by any means. This is Nebuchadnezzar's work, or the devil's—certainly not God's."

Consider what good came out of it. For one thing, it taught the Jews that God is really a God of justice, after all. The nation that sinneth, it shall die; the nation that takes the sword shall perish by the sword. The prophets had been trying to tell them that for many a long year; but no attention had been paid.

The sins the prophets had said God would surely punish, went on and on, and there seemed to be no reckoning and no punishment. The little nation was deluded into thinking it could get by with anything for as long as they pleased. But after the crash of 586 B.C., they all knew the prophets had been telling the truth.

Yesterday Is Dead

FOR another thing, the exile cured the Jews, for a long time, of trying to be a political nation like other nations. God had called them to another kind of existence. So long as they had been an independent nation they had kept fooling around with politics, armies, international intrigue. After all that had been swept into Nebuchadnezzar's dustbin, the people's hearts turned more and more to God and his laws.

Another way in which that city-wide ruin was a blessing was that it "killed yesterday." Before the fatal year 586, the Hebrew kings and people had more or less looked backward. Every king wanted to be a great conqueror like David, a wealthy potentate like Solomon. But they never would look the cold fact in the face, that those days were gone forever.

But when the exiles came back to rebuild the ruins, the younger ones at least looked forward. Yesterday was dead; they built now for tomorrow.

Blessed With Ruins

RUINS can be a blessing in more ways than one. So Chicago and San Francisco and Baltimore were better cities after their big fires; Louisiana improved after its great "New South" of today is blessed as the Old South, for all its glamor, could not have been.

Sometimes a man who has been depending on anything but God for hope and happiness—on his money, on his friends, on his health, on his position—finds these things swept out from under him, and then at last comes back to God.

After a man's childhood faith has been shattered by manhood's disillusionments, it has often come to pass that out of the ruins of the childish beliefs he rears a tower of faith far stronger than anything he has lost.

Let's Not Make Ruins

THIS does not mean, of course, that we ought ever to go out and deliberately make ruins. The best way to improve other nations is not to drop bombs on them; the best way to be improved ourselves is not to act in such ways as to tempt other nations to drop bombs on us.

The best way to build a better faith is not to scrap all the faith we have. The best way to find "God is not a fox-hole. The blessings of ruins are not the best God has; but sometimes they are what it takes to bring a man to his senses.

And if the crash does come, and the towers fall, and life lies in rubble around us, we must remember what the Hebrews learned: that even in the ruins we may, better than ever, come to know the living God.

ENGLISH STUFFED LAMB
Spring lamb with a special herb dressing is as traditional with the English as bowling on the village green. This fine old recipe is yours.

English stuffing recipe with lemon juice and herbs points up the lamb flavor of the lamb. A lamb shoulder usually weighs between two and one-half and three pounds. This recipe is for a roast for three or four people.

Prepare Lamb for Stuffing
Form a pocket in the lamb by cutting a slit in the side of the lamb about the blade bone with a sharp slender-bladed knife. Care should be taken not to cut through the outer covering of fat. The thin paper-like covering of the "fell" should not be removed. The meat is juicier and softer in less time if it is left on. The fell does not affect the flavor.

Lemon-Herb Stuffing
1/2 cup butter or margarine
1/2 cups toasted bread cubes
1 lemon rind, grated
2 tablespoons lemon juice
1 egg
2 tablespoons chopped parsley
1/2 teaspoon salt
1/2 teaspoon celery seed
1/2 teaspoon thyme
1/2 teaspoon marjoram
1/2 teaspoon pepper
Melt fat and combine with remaining ingredients. Stuff lamb shoulder and fasten opening to keep the dressing in place with secures or tie with a cord. Rub the outside of the roast with additional salt and pepper.

To Roast Lamb

Place the roast fat side up on a rack in a shallow open pan. Roast in a moderately slow oven (325° F.) until it is well done. Allow 40 to 45 minutes per pound. If you use a meat thermometer the temperature should read 180° F. Hot spiced peaches instead of a salad and fresh buttered broccoli go especially well with roast lamb.

19 centuries old?

The Sermon on the Mount is for everyone. Anyone who reads it will be happier during the next 24 hours. Anyone who carries it in his heart will be happier forever. Read...re-read...and understand its words. No speech ever promised...or delivered...so much.

WHEN he saw the crowds of people he went up on the mountain. There he seated himself, and when his disciples had come up to him, he opened his lips to teach them. And he said:

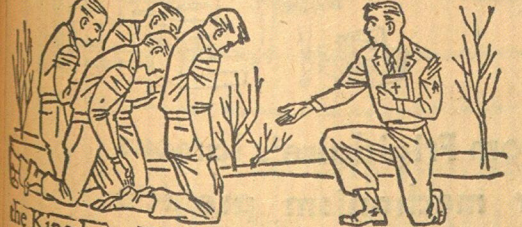

Blessed are those who feel their spiritual need, for the Kingdom of Heaven belongs to them! Blessed are the mourners, for they will be consoled! Blessed are the humble-minded, for they will possess the land! Blessed are those who are hungry and thirsty for uprightness, for they will be satisfied! Blessed are the merciful,

for they will be shown mercy! Blessed are the pure in heart, for they will see God! Blessed are the peacemakers, for they will be called God's sons! Blessed are those who have endured persecution for their uprightness, for the Kingdom of Heaven belongs to them! Blessed are you when people abuse you, and persecute you, and falsely say everything bad of you, on my account. Be glad and exult over it, for you will be richly rewarded in heaven, for that is the way they persecuted the prophets who went before you!

You are the salt of the earth! But if salt loses its strength, how can it be made salt again? It is good for nothing but to be thrown away and trodden underfoot. You are the light of the world! A city that is built upon a hill cannot be hidden. People do not light a lamp and put it under a peck-measure; they put it on its stand and it gives light to everyone in the house. Your light must burn in that way among men so that they will see the good you do, and praise your Father in heaven.

Do not suppose that I have come to do away with the Law or the Prophets. I have not come to do away with them but to fulfill them. For I tell you, as long as heaven and earth endure, not one dotting of an *i* or crossing of a *t* will be dropped from the Law until it is all observed. Anyone, therefore, who weakens one of the slightest of these commands, and teaches others to do so, will be ranked lowest in the Kingdom of Heaven; but anyone who observes them and teaches others to do so will be ranked high in

the Kingdom of Heaven. For I tell you that unless your uprightness is far superior to that of the scribes and Pharisees, you will never even enter the Kingdom of Heaven!

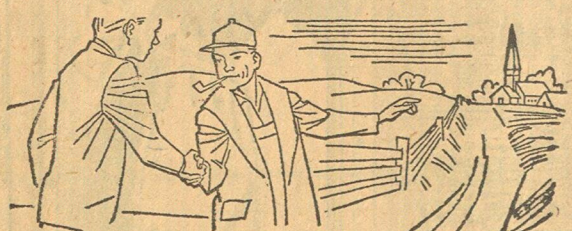

You have heard that men were told "You shall not commit adultery." But I tell you that

anyone who looks at a woman with desire has already committed adultery with her in his heart. But if your right eye makes you fall, tear it out and throw it away, for you might better lose one part of your body than have it all thrown into the pit! If your right hand makes you fall, cut it off and throw it away! For you might better lose one part of your body than have it all go down to the pit!

★ They were told, "Anyone who divorces his wife must give her a certificate of divorce." But I tell you that anyone who divorces his wife on any ground, except unfaithfulness, makes her commit adultery, and anyone who marries her after she is divorced commits adultery.

★ Again, you have heard that the men of old were told, "You shall not swear falsely, but you must fulfil your oaths to the Lord." But I tell you not to swear at all, either by heaven, for it is God's throne, or by the earth, for it is his footstool, or by Jerusalem, for it is the city of the great king. You must not swear by your own head, for you cannot make one single hair white or black. But your way of speaking must be "Yes" or "No." Anything that goes beyond that comes from the evil one.

★ You have heard that the men of old were told "You shall not murder," and "Whoever murders will have to answer to the court." But I tell you that anyone who gets angry with his brother will have to answer to the court, and anyone who speaks contemptuously to his brother will have to answer to the great council, and anyone who says to his brother "You cursed fool!" will have to answer for it in the fiery pit! So when you are presenting your gift at the altar, if you remember that your brother has any grievance against you, leave your gift right there before the altar and go and make up with your brother; then come back and present your

gift. Be quick and come to terms with your opponent while you are on the way to court with him, or he may hand you over to the judge, and the judge may hand you over to the officer, and you will be thrown into prison. I tell you, you will never get out again until you have paid the last penny!

★ You have heard that they were told, "An eye for an eye and a tooth for a tooth." But I tell you not to resist injury, but if anyone strikes you on your right cheek, turn the other to him too; and if anyone wants to sue you for your shirt, let him have your coat too. And if anyone forces you to go one mile, go two miles with him. If anyone begs from you, give to him, and when anyone wants to borrow from you, do not turn away.

★ You have heard that they were told, "You must love your neighbor and hate your enemy." But I tell you, love your enemies and pray for your persecutors, so that you may show yourselves true sons of your Father in heaven, for he makes his sun rise on bad and good alike, and makes the rain fall on the upright and the

wrongdoers. For if you love only those who love you, what reward can you expect? Do not the very tax-collectors do that? And if you are polite to your brothers and no one else, what is there remarkable in that? Do not the very heathen do that? So you are to be perfect, as your heavenly Father is.

★ But take care not to do your good deeds in public for people to see, for if you do, you will get no reward from your Father in heaven. So when you are going to give to charity, do not blow a trumpet before yourself, as the hypocrites do, in places of worship and the streets, to

make people praise them. I tell you, that is all the reward they will get! But when you give to charity, your own left hand must not know what your right hand is doing, so that your charity may be secret, and your Father who sees what is secret will reward you.

★ When you pray, you must not be like the hypocrites, for they like to pray standing in places of worship and in the corners of the squares, to let people see them. I tell you, that is the only reward they will get! But when you pray, go into your own room, and shut the door, and pray to your Father who is unseen, and your Father who sees what is secret will reward you. And when you pray, do not repeat empty phrases as the heathen do, for they imagine that their prayers will be heard if they use words enough. You must not be like them. For God, who is your Father, knows what you need before you ask him. This, therefore, is the way you are to pray:

*'Our Father in heaven,
Your name be revered!
Your kingdom come!
Your will be done on earth
as it is done in heaven!
Give us today bread for the day,
And forgive us our debts,
as we have forgiven our debtors.
And do not subject us to temptation,
But save us from the evil one.'*

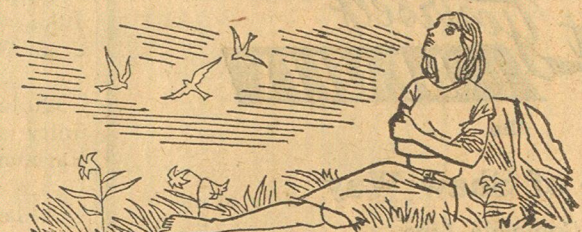

For if you forgive others when they offend you, your heavenly Father will forgive you too. But

if you do not forgive others when they offend you, your heavenly Father will not forgive you for your offenses.

★ When you fast, do not put on a gloomy look, like the hypocrites, for they neglect their personal appearance to let people see that they are fasting. I tell you, that is all the reward they will get. But when you fast, perfume your hair and wash your face, so that no one may see that you are fasting, except your Father who is unseen, and your Father who sees what is secret, will reward you.

★ Do not store up your riches on earth, where moths and rust destroy them, and where thieves break in and steal them, but store up your riches in heaven, where moths and rust cannot destroy them, and where thieves cannot break in and steal them. For wherever your treasure is, your heart will be also. The eye is the lamp of the body. If then your eye is sound, your whole body will be light, but if your eye is unsound, your whole body will be dark. If, therefore, your very light is darkness, how deep the darkness will be! No slave can belong to two masters, for he will either hate one and love the other, or stand by one and make light of the other. You cannot serve God and money. Therefore, I tell you, do not worry about life, wondering what you will have to eat or drink, or about your body, wondering what you will have to wear. Is not life more important than food, and the body than clothes? Look at the wild birds. They do not sow or reap, or store their food in barns, and yet your heavenly Father feeds them. Are you not of more account than they? But which of you with all his worry can add a single hour to his life? Why should you worry about clothing? See how the wild flowers grow. They do not toil or spin, and yet I tell you, even Solomon in all his splendor was never dressed like one of them. But if God so beautifully dresses the wild grass, which is alive today and is thrown into the furnace tomorrow, will he not much more surely clothe you, you who have so little faith? So do not worry and say, "What shall we have to eat?" or "What shall we have to drink?" or

"What shall we have to wear?" For these are all things the heathen are in pursuit of, and your heavenly Father knows well that you need all this. But you must make his kingdom, and uprightness before him, your greatest care, and you will have all these other things besides. So do not worry about tomorrow, for tomorrow will have worries of its own. Let each day be content with its own ills.

★ Pass no more judgments upon other people, so that you may not have judgment passed upon you. For you will be judged by the standard you judge by, and men will pay you back with the same measure you have used with them. Why do you keep looking at the speck in your brother's eye, and pay no attention to the beam that is in your own? How can you say to your brother, "Just let me get that speck out of your eye," when all the time there is a beam in your own? You hypocrite! First get the beam out of your own eye, and then you can see to get the speck out of your brother's eye.

★ Do not give what is sacred to dogs, and do not throw your pearls before pigs, or they will trample them under their feet and turn and tear you in pieces. Ask, and what you ask will be given you. Search, and you will find what you search for. Knock, and the door will open to you. For it is always the one who asks who receives, and the one who searches who finds, and the one who knocks to whom the door opens. Which of you men when his son asks him for some bread will give him a stone? Or if

he asks for a fish, will he give him a snake? So if you, bad as you are, know enough to give your children what is good, how much more surely will your Father in heaven give what is good to those who ask him for it! Therefore, you must always treat other people as you would like to have them treat you, for this sums up the Law and the Prophets.

★ Go in at the narrow gate. For the road that leads to destruction is broad and spacious, and there are many who go in by it. But the gate is narrow and the road is hard that leads to life, and there are few that find it.

★ Beware of the false prophets, who come to you disguised as sheep but are ravenous wolves underneath. You can tell them by their fruit. Do people pick grapes off thorns, or figs off thistles? Just so any sound tree bears good fruit,

but a poor tree bears bad fruit. No sound tree can bear bad fruit, and no poor tree can bear good fruit. Any tree that does not bear good fruit is cut down and burned. So you can tell them by their fruit. It is not everyone who says to me "Lord! Lord!" who will get into the Kingdom of Heaven, but only those who do the will of my Father in heaven. Many will say to me on that Day, "Lord! Lord! Was it not in your name that we prophesied, and by your name that we drove out demons, and by your name that we did many mighty acts?" Then I will say to them plainly, "I never knew you! Go away from me, you who do wrong!"

★ Everyone, therefore, who listens to this teaching of mine and acts upon it, will be like a sensible man who built his house on rock. And the rain fell, and the rivers rose, and the winds blew, and beat about that house, and it did not go down, for its foundations were on rock. And anyone who listens to this teaching of mine and does not act upon it, will be like a foolish man who built his house on sand. And the rain fell and the rivers rose, and the winds blew and beat about that house, and it went down, and its downfall was complete.

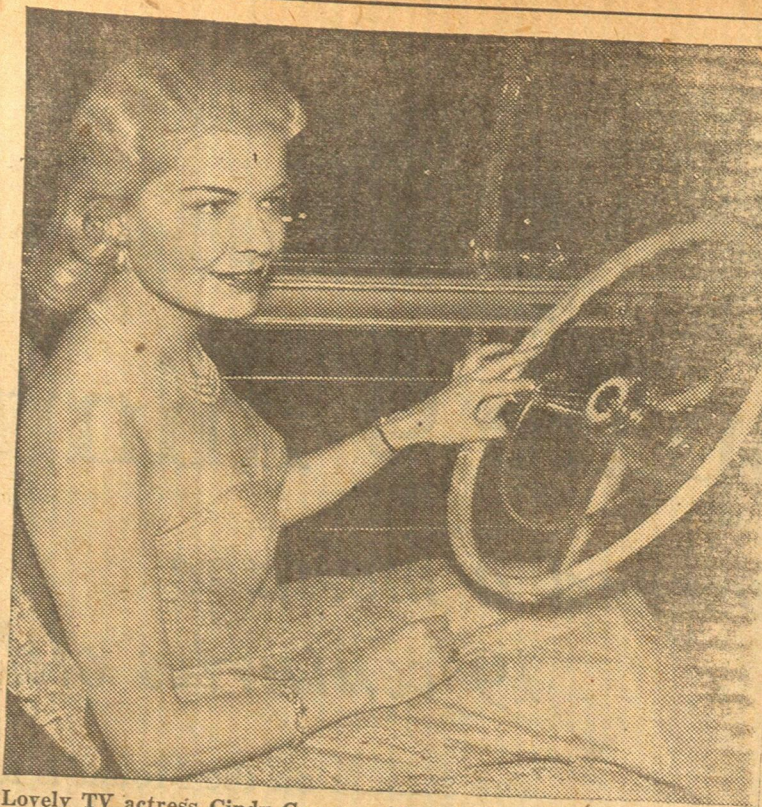

★ When Jesus had finished this discourse, the crowds were astounded at his teaching, for he taught them like one who had authority and not like their scribes.

SO EASY TO HANDLE

Lovely TV actress Cindy Cameron illustrates the remarkable ease of steering in the 1951 Chrysler, by turning the wheel with only fingertip pressure. Any driver can do this, even with the car standing absolutely still, thanks to Hydramide, the new power steering innovation which lets hydraulic pressure do all the work.

Power steering is only one of the unusual present-day automobile developments which are attracting large crowds to the Chrysler Salon in the Chrysler Building, New York City, to see the Chrysler Engineering Achievement Exhibit, which is open to the public until June 8.

IN MEMORY OF SAM WILLIAM LOWERY

On January 1, 1931 God sent us a darling grandson, just a little baby boy—but oh! how our hearts did rejoice. One year ago the 21 of May our loved one passed away. God needed another jewel to deck his heavenly throne, so he called our loved one home. Our home is so lonely and our hearts are very sad since we had to part with that precious lad but to stay in this world of trouble and sorrow he was too good; so we wouldn't

call him back if we could. Altho' our eyes are filled with tears as we try to write we know the Lord does all things right. We hope to meet him in Heaven some day where parting will be no more.

J. M. Tubb, State Superintendent of Education, calls attention to prospective candidates for the office of County Superintendent of Education that the law in Mississippi requires a candidate for said office to have a certificate from the State Department of Education attesting to the fact that he has met the requirements set out by law.

Attention is also called to the fact that his law (Section 6253, Mississippi Code, 1942) holds that it shall be unlawful for the election commissioners of any county to place on the ballot the name of any candidate not certified.

HUGH WHITE'S HEALTH

The chief argument used by opponents against Ex-Gov. Hugh White's candidacy for Governor is this:

"He is too old. He could not stand the strain of another term in the Governor's office."

All of which is piffle, devoid of any semblance of truth.

Hugh White, the most outstanding man who has held the Governor's office in fifty years, is still mentally alert and physically strong.

When the campaign gets under way he will be found on the stump each day showing no strain from the daily routine of travel and speechmaking.

If Hugh White was not in the prime of physical condition he would never have entered this race for the Governorship.

If Hugh White had not been advised by competent physicians, after a careful check-up, and undergoing the most rigorous clinical tests, that he is today in first-class physical condition he would have denied the urgent demands of friends that he enter the race.

Hugh White is today the superior of any candidate in the race in mental ability.

He is equal to any of them in physical strength and endurance. He has what all the others lack—experience in the office which will be a most valuable asset to the taxpayers of Mississippi.

In the face of these irrefutable facts it is but natural that opponents would make an early start with their mudslinging. The stronger the man the more vigorously the attacks against him.

Hugh White's official and personal record stands like the Rock of Gibraltar—impregnable against any form of human attack.

He has contributed more to the growth and upbuilding of Mississippi during the past twenty years than any man in the commonwealth.

He is a man with a genius for leadership and he has used that genius in a marvelous way to bring new industries to Mississippi.

He is a Christian gentleman whose private life is above reproach.

He has not entered the race for Governor because he needs a job or seeks more public honors. His candidacy is prompted by a desire to continue and to broaden the great work he launched during his former term as Governor.

He will, if elected, bring hundreds of new industries to our state to convert our raw materials into finished products and provide employment for many thousands of workers.

The physical disorder with which Hugh White was stricken in 1938 has completely disappeared—not one symptom left—according to the best doctors in Mississippi and New Orleans, and they surely ought to know.

He passed all tests with flying colors. He has not had one day of illness since recovering from that attack.

Jackals can, and often do, stand off and bark at a lion. That's what the critics of Hugh White are now doing when they loudly express hypocritical concern over his physical condition. They really hope he will be unable to make an active campaign because they know he is the most formidable candidate for the Governorship.

In these troubled days there is everywhere urgent need for capable leadership in public affairs. Hugh White is the outstanding man for ability, experience, statesmanship, and a complete realization of what is needed to keep Mississippi going forward.

Fly-blowing his candidacy with silly rumors about the state of his health is just about the climax of absurdity and will have a boomerang effect on opponents who resort to such dirty tactics. Reprint from Jackson Daily News.

The SNAPSHOT GUILD

A shared bottle of strawberry soda served very well as a cause of interest for this young sailor and his best girl.

Props for Snapshots

THE other day I heard a photo-
grapher giving some advice
on making pictures of babies and
small children. He suggested that
one of the most important success
secrets was that of giving them
something to play with in which
they can center their interest. He
termed this object "a natural
anchor" because it tends to keep
them where you want them when
you're shooting.

In baby pictures, a new, differ-
ent object will keep the subject's
interest at a high pitch long enough
for you to get a picture which
features an expression of lively
animation. With older children
you can have your choice between
that and thoughtful concentration
if you choose your props carefully.

With adults you use props not
to "anchor" them in one spot, but
to relieve camera shyness and add
to the naturalness of the pose. For
example, you might persuade the
shutter-conscious male to inspect
his fishing gear. Once he gets in-
volved in that fascinating occupa-
tion he'll all but forget about you
and your camera.

I'm only trying to give you an
idea, not to suggest specific props
for use. You'll have to select those
yourself in accordance with the
nature and interests of your sub-
jects. Just don't forget that people
are always more relaxed when
they are doing something, so give
them props for better snapshots.

Can't Hold Back on Praise for Hadacol

Wonderful Formula Relieves
Indigestion, Fatigue, Aches
and Pains, When Due to a
Lack of Vitamins B₁, B₂,
Niacin and Iron

When everybody you know starts
telling you how much better you're
looking and when all your troubles
seem to disappear almost overnight
... MAN, that's a wonderful feel-
ing! Nothing in the whole wide
world can beat it! That's just what
happened to Mr. John P. Ray, c/o
the Cassville Democrat, Cassville,
Missouri.

Mr. Ray heard how HADACOL
was relieving conditions caused by
a lack of Vitamins B₁, B₂, Niacin
and Iron, and he decided to see
what it would do for his aches and
pains and stomach distress. So sin-
cere, so straight-forward, is Mr.
Ray's letter that we want you to
hear about it from him in his own
words.

He says: "Before I started taking
HADACOL I was rundown and
had no appetite whatever. After
taking my fourth small sized bottle,
I could easily tell that I was feeling
better, and now after being on my
fourth large sized bottle, I well
know of the splendid value it has
been to me. Many people I met,
who I had known me years and years,
referred to me that I was looking
better. I told them unhesitatingly
that I had been taking HADACOL.
I am heartily recommending HAD-
ACOL because I well know the fine
results it has secured for me. This
is the first time in my life I have
ever given a testimonial, but I do

feel that a person who has received
as much good from HADACOL as
I have, should tell others about it.
You have my permission to use
this statement in any way you de-
sire. It is all true and I do not back
down on one word of it, as my
neighbors and friends here at home
could verify."

HADACOL has been specially
compounded to give you more than
the minimum daily requirements
of these very elements, plus help-
ful quantities of Phosphorus and
Calcium. They're all in the special
HADACOL liquid form for quick,
easy absorption in the system.
HADACOL builds blood hemo-
globin (when Iron is needed) to
speed these precious Vitamins and
Minerals to every part of the body
and to every body organ.

Can you doubt an honest state-
ment like Mr. Ray's? Can you
doubt the words of your friends
and neighbors who have been
helped? Why not find out for your-
self today. Remember, HADACOL
is recommended by doctors and
is sold on a strict money back
guarantee.

OPPORTUNITY FOR HIGH SCHOOL GRADUATES

High School Graduates now have a wonderful future ahead of them in the United States Navy, announced the Navy Recruiting officials at the Florence Navy Recruiting Station today. A future with a good job or profession of their own choice, good pay and allowances, clean living conditions, the best food that money can buy, free medical and dental care, and a generous retirement plan.

Immediate enlistment is guaranteed to the men who meet the enlistment standards of the navy, during the remainder of May and the month of June.

Men enlisted now will be sent to the U. S. Naval Training Center, Bainbridge, Maryland for basic training. Upon completion of the training period a leave of 14 days will be granted. At the termination of the leave the men will be assigned to advance schools or sent to units of the fleet for duty.

The choice of jobs to select from covers 62 major fields. These jobs range anywhere from machinist, electrician, pipefitter, to electronics technician. They may be used on ships, planes or submarines.

The navy recruiting station, located in the Florence post office building and is open daily from 8 a. m. to 5 p. m. See your Navy Recruiter today and make your application to serve in the best navy in the world. Do your part in keeping it the best.

Your Navy Recruiter, Chief C. L. Young, will be at the post office in Iuka each Wednesday from 10 a. m. to 3:30 p. m.

BOND ISSUE UP FOR BIDS

Bids for the sale of bonds for improvements on the Pine Ridge and Kingston Schools in Adams County and for the completion of the county's highway and bridge improvement program are being asked by the Adams County Board of Supervisors. All bids must be filed by June 4. The \$300,000 bond issue is being advertised after the county discovered that an original \$520,000 bond issue voted last Fall was not enough to complete highway and bridge improvements.

ALABAMA ATTORNEY ELECTED PRESIDENT OF ROTARY INTERNATIONAL

Atlantic City, N. J. May 31 — Frank E. Spain of Birmingham, was elected President of Rotary International for 1951-52 at the 42nd Annual Convention of that world-wide service club organization, which winds up its five-day session here today. The convention registered 7,300 Rotary Clubs with a membership of 347,000 business and professional executives in 83 different countries.

Housewives who do not have a clothes cart on wheels are advised by Agricultural Extension Service specialists, that an old tea wagon or baby carriage on wheels will help them hang up the wash in short order.

Veteran Relieves Aches and Pains

HADACOL Relieves Aches and Pains When Due to a Lack of Vitamins B₁, B₂, Niacin and Iron
It would seem like being in two wars would almost be all one person would have to go through. But Emerson Parnell Brown, 412 South Harrison Street, Fort Wayne, Indiana, found more trouble staring him in the face just recently. As so many thousands, he put his faith in HADACOL, when he heard how it was helping folks with aches and pains due to a deficiency of Vitamins B₁, B₂, Iron and Niacin. Here are the wonderful results that he is more than glad to tell us about:

"I am a veteran of World Wars I and II. After I reached the age of 50, I had aches and pains. I also had gas on my stomach and was very nervous. After I took the first small bottle of HADACOL, I knew I had the right family formula. Then, I got a large size and I have just finished taking it. I work for the plumbing and heating company. I just started another bottle of HADACOL, and it is doing me so much good."

This may be your answer, too, if you are suffering from such deficiencies. For HADACOL supplies more than the minimum daily requirements of Vitamins B₁, B₂, Niacin and Iron, plus helpful quantities of Phosphorus and Calcium. And HADACOL builds up hemoglobin (when iron is needed) to rush the vital elements to every part of your body. Many doctors recommend HADACOL—why not stop at your drug store today?

PRODUCTION OF SEEDS IS NEW STATE STUDY

Seed production and processing, enterprises which could be developed to add millions of dollars to Mississippi farm income, are being added to the list of projects studied by the Mississippi Agricultural Experiment Station. Completion of a new seed processing laboratory this month marks the beginning of extensive research on this subject. A short course for seedsmen at State College, May 28 to June 7, will officially open the new laboratory. College faculty members and representatives of commercial concerns dealing in processing equipment will be the instructors.
