SENSING THE NEWS

By THURMAN SENSING
EXECUTIVE VICE PRESIDENT

SOUTHERN STATES INDUSTRIAL COUNCIL
FREE ENTERPRISE UNDER FIRE

Nothing less than the survival of local control of local affairs is involved in the general elections November 4th. The primary election is the real election in the Southern states. But this year the elections in Northern and Western states will have a marked influence on the amount of freedom we shall have in the South.

The country has been saved from complete socialist disaster by a conservative coalition in Congress—conservative Southern Democrats and conservative Northern and Western Republicans. This coalition has served as a brake on the worst excesses of the Dealers. They have helped keep free enterprise alive when the big government advocates would have gladly killed it.

This year, the Northern and Western members of the coalition are hard pressed. Some of the most determined and outspoken conservatives outside the South have determined and outspoken conservatives have been subjected to fierce attacks. Senator Barry Goldwater (R-Ariz), one of the most eloquent and brave conservatives in Congress, is facing attack by the combined forces of big labor. The Hoffarites and Reutherites are sparing no efforts to beat this enemy of totalitarian labor unionism.

If conservative Northerners and Westerners are defeated November 4th, the result will be a major victory for all the leftists and corruptionists in American life. The masters of the goon squads and the imitators of Soviet economic policies will encounter less opposition. Sound-thinking citizens in the South can only hope that the people of other regions will have the good sense not to abandon men who are fighting valiantly for individual liberty.

A sweep by "liberals" in the general elections may result in the end of the unlimited debate rule in the Senate. This rule has long served the South and the nation in that it has prevented a powerful group of radicals from victimizing any particular region. The "liberals" have determined to make an end to this rule their first order of business.

Removal from Congress of conservative individuals and conservative parliamentary devices would

be a national tragedy. The ruinous economic policies of recent years—the excessive spending and boondoggling projects would be multiplied many times. Instead of restricting the power of the union bosses, who form a state within a state, Congress undoubtedly would be launching attacks against private enterprise in every form. The nation would be faced with a new era of colossal spending and colossal federal intervention—in labor relations, tidelands, power-generating facilities, housing, health, and education.

The "liberals" hope to dry up private enterprise both by taxation and by attack on the spirit of freedom. They know that the form of free enterprise that is most dangerous to them is the free enterprise of local government—local initiative, local responsibility, and local authority in planning for schooling and other features of life. They see their great opportunity to crack the spirit of free enterprise by restricting local rights in the Southern states—the right to use private property for whatever purpose and the right to associate with persons of one's own choice.

The fight for free enterprise and liberty may well be won or lost in the forthcoming Congress. This only serves to emphasize the extreme importance of the Conservative Coalition, which very definitely holds in its hands—more so than ever before—the decision as to whether we shall become a socialist state.

Books Delivered To Library To Start Annual Christmas Seal Sale

Tishomingo County residents have already arrived and preparation is being made by the Lucy Rowe Study club to prepare the letters for mailing, stated Mrs. W. C. Hamilton, chairman.

Mrs. Little said today that she and her co-workers are glad to help with this worthwhile project so that as many people as possible will be reminded of the Christmas Seal Sale and the importance of tuberculosis control and prevention in Tishomingo County.

The National Tuberculosis Association founded in 1904 was the first organization in which doctors and laymen banded together to fight a specific disease.

The annual cost of TB in the United States is about \$725,000,000. Most of this cost is borne by the taxpayers.

Streptomycin, the first drug used successfully to treat TB, was discovered by Selman Waksman in 1944.

Approximately 250,000 Americans have active tuberculosis.

Farm Prosperity

The official "farm story" now being distributed from Washington could convince many city people and Congress that all farmers are rolling in unprecedented prosperity and wealth.

That would be a serious mistake. There is danger that some of the more recent favorable farm news will be so over-emphasized as to obscure the still serious difficulties which farmers face.

The farm news, generally, is indisputably good. Good weather and careful planning have enabled farmers to produce bumper crops this year. The total is a new record high, 10 per cent above any previous year.

The average of prices, received by farmers has been rising faster than farm costs for almost two years. Beef cattle and hog prices have been especially favorable to producers.

Farm Income High

Farm income per capita is at an all-time record high, Secretary of Agriculture Ezra Benson has pointed out in a number of recent speeches. It still, however, is only about half the non-farm average.

Net farm income, after payment of production costs, has been running nearly one-fifth higher this year than a year ago, Mr. Benson points out. "Agriculture," he emphasizes, "is increasingly prosperous, expanding and free."

Others, less optimistic, point out that bumper crops are not an un-

mixed blessing; that the result is an increase in our already burdensome surplus. There is every indication that farm surpluses will continue to be a serious national problem.

While per capita farm income is up, total farm income is 25 per cent below 1952—\$12 billion compared with \$16 billion. The difference is explained by the fact that there are fewer farmers.

Purchasing Power Down

Although income measured in dollars is up, because of inflation farmers can buy less with 1958 income than they could with much smaller income in 1940. It is what you can buy with the dollars you have, not the number of dollars, that counts.

Farmers now own an estimated \$188 billion worth of real estate and other property, against which they have mortgages totaling \$11 billion. That, too, is largely a result of inflation rather than increased wealth.

Farm ownership is at a record high, and that is good. Two out of every three farmers are completely free of mortgage debt. The standard of living on farms, Mr. Benson emphasizes, is the highest in history.

Farm people own more appli-

Hi Gang!
Football season is just about over... We've only one more game then the speedy game of basketball begins... Everybody's been practicing and the team will be picked soon... The game Friday night is here with Vardaman... That afternoon we're planning a big parade and peppy so the whole town can take part. Last Friday night, though it was a wet night, we were mighty proud of the touchdown our team made against Nettleton... Because it was Halloween a certain "Top Value" quality sign was bestowed on the bus...

Halloween night the Prospect Baptist Intermediate class had a party at the home of Mr. and Mrs. V. T. Presley... Charlotte Presley and Wayne Prince, Hilda Cornelius and J. W. Lambert, Peggy Smith and Tommy Burcham, Madrid Stephens and Bill Elliott, Patty Rowen and Carl Hill, Emma Lou Rowen and Herchel Williams, Peggy Gist and Macky South, Hugh Van Presley, and Terry Stephens enjoyed the hot dogs, cokes, cookies, and popcorn balls. All the boys from Holcut were flashing their rings and jackets as if they were proud of them... I'll just bet they are!

Lola Ruth Traylor, Bill Ross, Jean Darnall, Keith Rowland visited in Paducah, Kentucky, over

the week end. Bill, Jean and Keith visited their families in Paducah, and Lola Ruth visited her mother, also. All are students at NEMJC in Booneville.

Congrats to King and Queen of the Halloween Carnival, Wayne Brown and Becky Deaton, the victorious sophomores and Prince and Princess, Terry Tuckier and Alice Ludlam, eight graders... The carnival was a huge success and more money taken in than in any of the previous years.

You gals be prettying yourselves up for the annual beauty revue to be held Nov. 14. This year the contest is open to any high school girl that wishes to compete for the title of "Most Beautiful."

Wow! Sounds like fun for those Methodist intermediates who are gathering at Jourdan's Cabin tonight (Thursday) for a wiener roast and social hour. This is perfect weather for roasting wieners and marshmallows, singing and chatting. Included in this group will be Donnie Brown, Stanton Clark, Lloyd Lee Davis, Jerry Holly, Emory Jones, Douglas Nixon, Ray Thomas, Eddie Thomas, Bill Hamilton, Turner Gene Williams, Marie Dell Bullard, Erlene Hudson, Jean Ann Kimberley, Alice Ludlam, Vicki Pendygraft, Suzanne Pruitt, Linda Vaughn, Mimi Gain, Janet Deaton and Marcia McRee... They will be accompanied by their teachers, Mrs. Dayton Pruitt and Mr. Bill Eubanks.

Tuesday night, the Baptist Intermediate Sunday School class had a party at the educational building. The group enjoyed the covered dish supper immensely. Ricky kept the dish of pink mints hoppin'. Later, games like Category, Prince of Paris, and County Home were played... By the way, who was Eddie Byrom's partner in County Home?

Thanks ever so much to Miss Cora Lee Glenn for the splendid compliment she paid Teen Talk, thanks again.

Patsy Curtin's Cousin visited her last week end... Friday night there will be a dance in the cafeteria immediately following the game... Dash right over to avoid the crowd... Seriously, come on over... we're expecting you.

Brush me up on the news, cats... My card reads... Have News, Will Print... Keep me informed on the doings!!... Until next week, See ya 'round!

"TIME, THE SUBTLE THIEF OF YOUTH"

—*(Author's Name Below)—

To have the physical joys of youth, combined with the experience of age, has always been the hoped for wish of everyone. Formerly, this dream was impossible. People just couldn't live long enough.

But now average life expectancy is up to the biblical three score and ten and steadily increasing. You can prevent time from stealing away your youth. The chief enemy of youth is sickness. Visit your physician at the first sign of any illness. He can prescribe the proper medication to help you get well quicker, before any serious damage is done.

• **YOUR PHYSICIAN CAN PHONE 2761, Iuka, WHEN YOU NEED A MEDICINE**

• A great many people entrust us with the responsibility of filling their prescriptions. May we compound yours?

concentrate, 25 per cent wettable powder or 1 per cent dust. If a spray is desired, use 5 tablespoonfuls of the liquid emulsion or wettable powder to 5 gallons water. BHC can be used as either a spray or dust also.

Thadious C. Ables Farm Pond

For years farm ponds have been constructed, or dug, on SCD Co-operators farms in Tishomingo

county.

For years the Soil Conservation personnel has assisted in the establishing of these ponds.

What is it about Mr. Ables' farm pond that makes it news?

It is not the pond itself but the uses Mr. Ables has planned for it that makes the construction of this pond news.

First of all Mr. Thadious C. Ables, who lives four miles west of Dennis, wanted a pond to furnish water for his livestock. Second he wants to stock it with fish. Third he wants to irrigate his garden. Fourth Mr. Ables will use it for swimming and fifth in case of fire he can pump water from this pond to spray on his dwelling or farm buildings.

There you have five uses for one farm pond. Let's list them again: 1. Water for livestock; 2. Fish; 3. Irrigate garden; 4. Swimming; and 5. Fire protection.

Mr. Ables is to be congratulated on this fine project.
