IUKA, TISHOMINGO COUNTY, MISSISSIPPI THURSDAY, FEBRUARY 15, 1962

(Return Requested) No. 32

Mayor Arnold To Address Midway Club

Mayor Henry Arnold of Corinth will address the Midway Community Club at their meeting on Tuesday night, February 27. Mayor Arnold, who is civil defense director for the Alcorn area, will lead a discussion on Civil Defense. The meeting will be held in the school at 7 o'clock. L. E. Skinner, president of the club, invites all interested persons of the community to be present for this meeting.

Tishomingo P-TA To Meet Mon. Night

Fashion Show, Heart King & Queen Crowning To Highlight Evening

The February meeting of the Tishomingo P-TA will be held on Monday night, February 19, in the Nettles Auditorium at 7 o'clock. Highlighting the evening will be the annual fashion show, sponsored by Miss Effie Lois Green of the Home Economics Department. The freshmen girls will be modeling cottons, the sophomores will model their woolen coats and suits, and the third year girls, their formal and party dresses.

The P-TA organization has the largest enrollment of its history. David Robinson, who is president of the current year, urges all patrons to keep up the record attendance. He promises a surprise on Monday night when the "King and Queen" will be crowned. Spaghetti Supper

Area Students Attend Beta Club Convention

Five members of the Iuka School Beta Club were among some 2,000 high school students who attended the annual Beta Club Convention held last week end in Jackson, Miss. They were accompanied by Mrs. L. D. Edwards, sponsor of the Tishomingo Beta Club, and a few members from the Tishomingo chapter. The group left on Friday and returned home on Sunday afternoon.

H. M. McIntosh of Collins was elected president of Mississippi Beta Clubs and Miss Jackie Dear of Bay Springs, vice-president. Miss Loretta Weems of Newton is the new secretary.

Iuka students attending were John David Foote, Emory Jones, Glen Harwell, Eddie Thomas and Douglas Nixon.

Fulton Over Iuka 64-61

In the semi-finals played on Saturday afternoon, Iuka played for 3rd or 4th place in a battle with Fulton. Fulton led at half time with a score of 37-25. Smith led the scoring with 21 points, Gray got 17. For Iuka, Ramsey and Dean each got 14, Hamilton made 11.

Tishomingo Boys Win N. Regional Championship

The Tishomingo A Boys' Basketball team captured the North Regional Basketball Tournament Championship by defeating Baldwin 62-57 in finals played at North-east Mississippi Junior College on Saturday night.

Billy Young was high man with a total of 25 points. Charles South followed with 12.

Twenty four games were played in the tournament with 12 schools being represented.

The Tishomingo team is currently playing in the District finals now in session in the Baldwin gymnasium. If they win one game in this series, it will entitle them to go to the North Half finals. The team now has a record of 28 wins and 4 losses.

Ceremony Will Honor Outstanding SCS Employees

The 4th annual awards ceremony to recognize outstanding performance by Soil Conservation Service employees will be held in the Rose Room of the Heidelberg Hotel in Jackson on February 16, according to W. L. Heard, state conservationist. Included in the group of 32 earning awards will be SCS supervisors, engineers, soil scientists, clerks, heads of field units, and their assistants. Twelve will be recognized for outstanding work in all phases of their positions, while twenty others are to be commended for specific accomplishments in one or more endeavors.

Four awardees are from the state office and two from the area office in Jackson. The other twenty-six are from various locations throughout the state.

Each member of the honored group will receive a cash award in token payment for the services rendered beyond the normal requirements of his position.

Activities in which awardees participated cover a wide field. Some excelled in surveying sites for and building floodwater control structures in the watershed program. Others were outstanding in assisting farmers to plan and apply conservation measures to their land. Still others made unusual progress in developing soil maps by which farmers as well as suburban landowners can determine the best use or treatment of their land. As in any other business, the clerks excelled in keeping records, writing letters, and getting the payroll out on time.

The awards ceremony, according to Heard, is aimed toward stimulating effort and efficiency among 430 or more SCS employees in the state.

Iuka Baptists Plan Revival For March

The Iuka Baptist Church will begin a revival on Sunday, March 4, and continue through Sunday, March 11. Bro. Edward Wolfe, pastor of the First Baptist Church in Woodward, Oklahoma, will be the visiting evangelist. Bro. Wolfe will fill the pulpit both Sundays.

Boy Scout Executive Board Meets

Ben McRae Elected To Membership; Scouting Goals For '62 Reported

The Executive Board of the Yocoma Council, Boy Scouts of America, met last Thursday night on the 52nd anniversary of Scouting in America. Chauncey Godwin, president from Tupelo, presided.

Hugh N. Clayton of New Albany was presented the Silver Beaver by Jack Reed of Tupelo. Mr. Clayton had been recognized at the annual banquet in January but was out of the state.

Jack Reed, nominating committee chairman, presented the name of Ben McRae for membership on the Executive Board and Wayne Leech of Pontotoc as National Council Representative to replace the late Chad Archie of Corinth. Both were elected.

The Board heard reports from the various chairmen on Scouting in 1961 and the goals for 1962. The report was made that the Council finished the year with 4149 Cub Scouts, Boy Scouts and Explorers for an 8% gain in membership. In addition, there are 1603 adult Scouters registered in the program. E. L. King of Tupelo, the Organization Chairman reported that the Together Plan should produce many new Scout units in 1962. The goal in membership for 1962 is 4656 members Mr. King stated.

Recreation Director Forced To Close YC Center Feb. 17

Insufficient Funds Make It Impossible To Meet Utility Bills In Cold Weather

Carroll Ed Sanders, who has been serving as recreational director for the Iuka Youth and Community Center for the past 5 months, announces that the YC will close on February 17. In making this announcement, Carroll Ed has the following to say: "I regret to announce that the Youth Center will close on February 17 and will remain closed until the weather permits a reduction in heating expense. Lack of funds, plus the refusal of city officials to accept responsibility of financing the program, makes this necessary."

Realizing the need of a supervised recreational program for the teenagers of the community and having a modern and efficient building already built for the purpose, Mr. Sanders started a supervised program in October of last year. He received much encouragement from many local parents in the young people of the community.

The program of activities included rook, table games, badminton, and dancing for two age

COUNTY FARMERS INVITED TO TAKE PART IN 1962 FEED GRAIN PROGRAM

\$11,221.71 Paid Farmers First Week Of Period

During the first week of the Sign-Up under the 1962 Feed Grain Program 117 Tishomingo County farmers signed up to divert part of their Corn Base Acreage. The total amount of money paid these farmers last week amounted to

\$11,221.71. Farmers may continue to sign in this program until March 30, 1962.

Do you need some cash now? If you decide to divert part of your corn acreage (1) You will receive a cash payment of approximately half of your payment at the time you sign up; (2) There is no production risk, that is: a drought or wet weather will not affect you; (3) You will be eligible for Price Support on what corn you grow; (4) You can improve the rented acres with soil building cover.

The Feed Grain Program is a voluntary program. The farmer who does not wish to enter the program may continue to plant as much corn as he wishes.

Check on your Corn Base and if you can rent part of it come to the A. S. C. S. Office in Iuka and sign up. You'll get your money the same day.

Miss. Merit System Announces Open Competitive Exams

The Merit System Council of Mississippi announces open competitive examinations for positions with the Mississippi Department of Public Welfare as follows: Welfare Visitor I, Social Work Trainee, Student Associate.

Minimum qualifications for Visitor I and Social Work Trainee: Graduation from an accredited four year college or university. Minimum qualifications for Student Associate: Successful completion of junior year in an accredited college or university (90 semester hours).

Applications must be postmarked not later than midnight Feb. 24, 1962. Date of examination is March 3, 1962.

Information and application blanks are available at the State or County Department of Public Welfare or by writing the Merit System Supervisor, 105 Woolfolk State Office Building, P. O. Box 647, Jackson, Mississippi.

John Trimm Is Mayor Of Tishomingo

To Fill Out Unexpired Term Of The Late C. L. Trimm; Election Tues.

John R. Trimm was elected mayor of Tishomingo in a special election held Tuesday of this week. Mr. Trimm was elected to fill out the unexpired term of his brother, the late Charles L. Trimm.

Others in the race were A. F. Ward, who received 42 votes, and Jack Pennington who got 28 votes. Mr. Trimm won with a total of 52 votes.

Tishomingo municipal government is now composed of John R. Trimm, mayor; W. R. Nettles, A. F. Ward, A. W. Dean, Carlos Ingram and Boyd Hill, aldermen.

W. R. Nettles serves as clerk for the Mayor and Board of Aldermen. Regular meeting night for the board is the First Tuesday night of each month.

Mayor John R. Trimm is a retired postmaster of the Tishomingo post office. He went into retirement about 2 years ago after giving a generation of service to the Postal Service.

AT THE THEATRES

BELMONT THEATRE Friday and Saturday, February 16-17, "Blue Hawaii" starring Elvis Presley.

Late show Saturday night, "Seven Women From Hell" with Patricia Owens and Denise Darcel.

Sunday and Monday, February 18-19, "The Misfits" starring Clark Gable and Marilyn Monroe.

No show on Tuesday night. Wednesday and Thursday, Feb. 21-22, "Everything's Ducky" with Mickey Rooney and Betty Hackett.

Board Declares Intention To Borrow \$100,000

For Road And Bridge Repair And Construction; Bonds Will Be Issued If No Legal Objections Are Filed

The Tishomingo County Board of Supervisors, in a meeting February 12, declared its intentions to issue \$100,000 to raise money for the purpose of constructing, reconstructing, and repairing roads, highways, and bridges in the county.

Principal reason for the bond issue is to bring county and district roads up to higher standards after the severe winter weather which has caused a deterioration of almost all district roads.

The bonds in the maximum amount of \$100,000 will be issued by the Board of Supervisors providing a written protest is not filed before the Board. If twenty percent of the qualified electors of the county file a written protest against the issuance of the bonds on or before 10 a. m., Friday, March 9th, then an election on the question of the issuance of the bonds shall be held.

Area Church Enters Development Ministry Recently

The New Prospect Baptist Church of Route 1, Iuka, has entered the 1962 Southern Baptist Church Development Ministry, the pastor, J. D. Joslin, announced this week.

Sponsored by the Home Mission Board of the Southern Baptist Convention, the plan is to stimulate interest in church work. Participating churches in a recent year recorded twice as many baptisms per member as the Southern Baptist Convention average.

Each participating church selects projects relating to the local church, the local community, and world wide missions. An inventory questionnaire furnishes suggestions for projects such as leadership training, community recreation programs, and world wide missions.

Pastors recognized for their achievement receive a parchment scroll; and churches recognized for their achievement receive a plaque. A Record of Progress scrapbook is made under the direction of a special committee. The scrapbooks are the basis for judging.

Lewis W. Newman, of Atlanta, Ga., Associate Secretary of the Associational Missions Department, in charge of Church Development and In-Service Training for the Home Mission Board, Southern Baptist Convention, is responsible for the ministry. He was stated that "total enlistment of a church's membership in Christian service is the primary aim and value of the Church Development Ministry."

Bids Asked For Drilling Water Well

Iuka City Board Seeks New Well For Added Water Supply

The Board of Mayor and Aldermen of the City of Iuka in recessed meeting Tuesday night, declared its intentions to add to the water supply of the city.

The Board is asking for bids for the drilling of an additional water well within the city limits, the bidder to furnish all labor, materials and equipment pertinent to the drilling operation. The well is to be classed as a six-inch well. The Board, in its official notice, states that the well shall not be in excess of eight hundred feet.

Iuka Wins 4th

Iuka A boys dropped New Albany 63-56 in a thrilling game in their first try for the Sub-District Tournament championship played last week end in the Belmont gym. In their next tilt they lost to Booneville 64-48. The loss put Iuka to play a consolation game with Fulton in which they were defeated 64-61. This gave Iuka fourth place in the tourney. Booneville A boys and Alcorn Central girls won the Championship trophies.

Coleman ate Park managers

Recognized As Champions

Mrs. Dayton Pruitt, wife of J. P. Coleman State were recently recognized by the Park Commission as the champion park managers for 1961.

Mrs. Pruitt maintained revenue of \$1,000.00 over the previous year, a total increase of \$12,000.

Pruitt accepted the position of managing Coleman Park as part of 1960 and assumed duties on January 1, 1961.

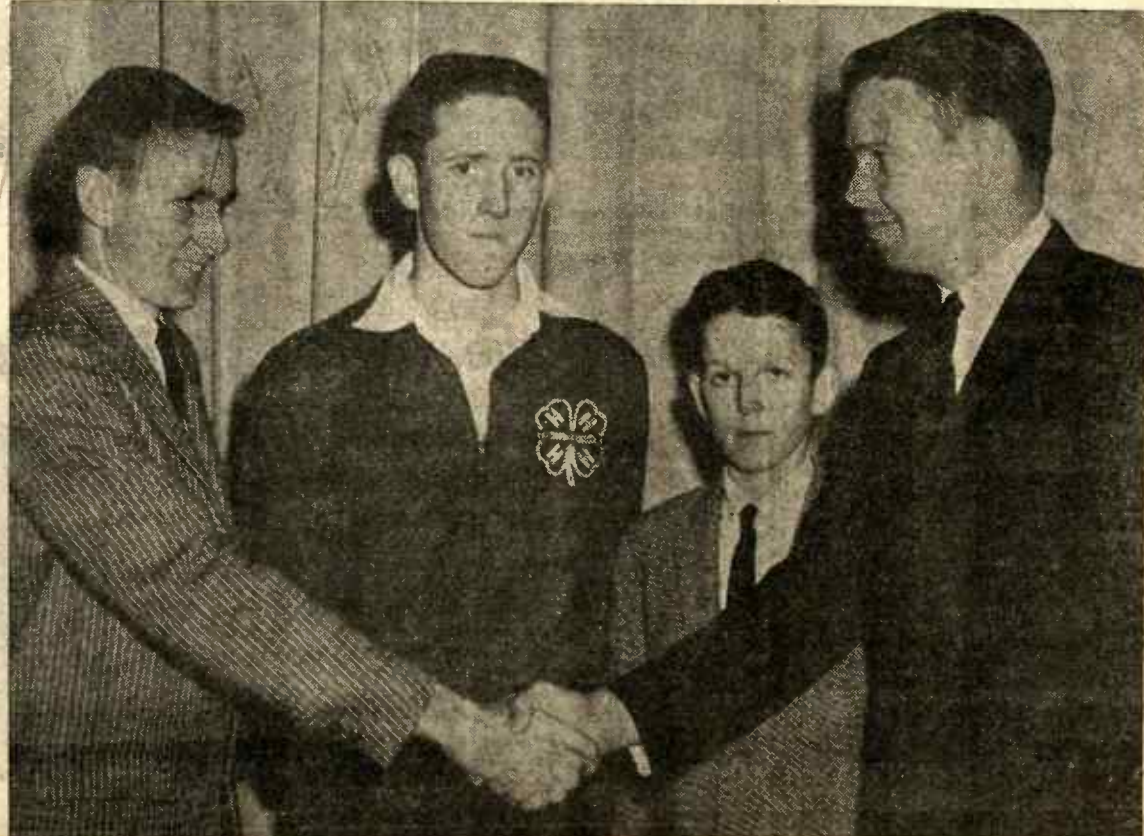

The park is operated the year as a resort and recreational

park managers are kept in cabins, renting and for boats, and operating a park and concession stand.

Mrs. Pruitt were appointed to the position of park manager when former managers, Mrs. John Underwood, and moved back to their Tishomingo.

Booneville Downs Iuka

In the first quarter it was Iuka to keep up with the Booneville team. At halftime the Booneville team led 48-29. Booneville won the game 48-29. Booneville won the game 48-29. Booneville won the game 48-29.

WINNERS—in the 4-H Club Soil Fertility program recognized during the annual cotton awards day at Mississippi State University Friday were from left, Stanley Anthony of Washington County, first place; Charles Larry Quinn of Tishomingo County, second; and Phillip Cary Parker of Calhoun County, third. At right is Darwin Holland of Jackson, representing the sponsoring Monsanto Chemical Company. (Ext. Service Photo)

4-H AWARD WINNERS—Shown above are outstanding 4-H members who were awarded valuable prizes at the recent achievement party held at Tishomingo State Park. In the picture standing are, left to right, Miss Diane Francis, home agent; Annette Marlar, winner of an electric iron; Glenda Webb, winner of an electric radio; Stevie Cain, also winner of an electric radio; Jerry Don Hatcher, winner of an electric drill set; and Roy Doss, assistant county agent. Seated are Mike Elledge and Madrid Stephens, who were selected Most Outstanding Boy and Girl in Tishomingo County. They are proudly displaying the wrist watches presented them by O. E. Bostick, president of the Adult Advisory Council. Also winners in the Electric project contest, but not present for the picture, were Larry Quinn, an electric soldering iron; and Annette Wade, an electric mixer.

Farm Facts

According to the Economic Research Service of the U. S. Department of Agriculture, the average American is eating more fruit than he did 50 years ago.

One person ate an average of about 172 pounds of fruit per year during 1910-14. Today the average person eats about 200 pounds of fresh fruit equivalent yearly.

Today 50% of the fruit we eat is processed, compared to only 13% back in 1910. The increase in use of processed fruit—particularly canned and frozen—has been about fivefold and has more than offset the per capita decrease in fresh fruit consumption since 1910.

Back in 1910 folks were eating a lot of dried fruit. It accounted for about 78% of the processed fruit in those days. Use of dried fruit has been declining since 1920.

In the 100 pounds of processed fruit we consume annually, 53% is canned fruit and fruit juice; 35% is frozen

fruit and fruit juice; and 12% is dried fruit. Citrus accounts for about half the processed fruit we eat.

Consumption of frozen fruits and juices has more than made up for a decline in use of canned fruits.

General Information On Russian Civil Defense Related By State Director

There is little information available on actual construction of shelters by the Russians, although general information on Soviet shelters exists in abundance.

While the Soviet population made use of a variety of shelters during the second World War, few of these would be suitable for present conditions. According to Soviet civil defense literature, the requirements of a modern Soviet shelter are:

THAT it have a fire-resistant roof and be capable of withstanding the thermal radiation of a nuclear explosion.

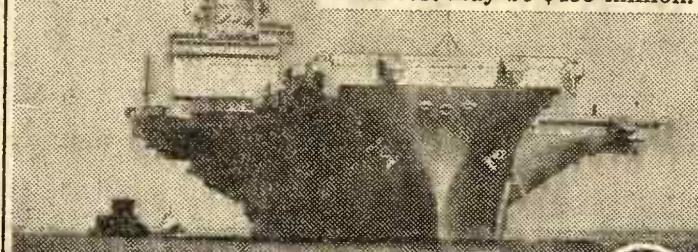

THAT the roof be below the sur-

face of the earth and provide a sufficient attenuation factor for fallout radiation. Soviet standards on permissible radiation levels are on the whole similar to those of the West. Fifty roentgens is considered to be the limit of permissible immediate doses; 100 roentgens is an outside permissible cumulative dose over a relatively short period of time.

THAT the roof be capable of withstanding the collapse of the building above, the attenuated blast wave of a nuclear explosion, and direct hits by small or medium-caliber high-explosive and in-

People, Spots In The News

THE BIG 'E' is U.S. Navy's nuclear-powered aircraft carrier Enterprise, "world's largest man-made movable object." Final cost may be \$485 million.

BIG BAD BABOON at Rome zoo is George. He leaves no doubt as to how he feels about having his picture taken.

MISSILE-LIKE good form is shown by West Germany's Wolfgang Happle as he soars 267 feet to win international meet at Le Brassus, Switzerland.

Miss Jo Ann Clement

Miss Clement To Wed Eddie Ray Jones

Mr. and Mrs. W. U. Clement of Belmont and Baton Rouge, Louisiana, announce the engagement of their daughter, Miss Jo Ann Clement to Eddie Ray Jones, son of Mr. and Mrs. C. E. James of Golden.

Miss Clement is a 1959 graduate of Belmont High School and is employed by Lambert Construction Company of Belmont.

Mr. Jones is also a 1959 graduate of Belmont High School and is now employed by Yarber Motor Company.

The wedding will take place at the Belmont Methodist Church, Sunday afternoon, February 18, at 3:00. All friends of the couple are invited to attend.

There will be no reception.

ches, dugouts, galleries, or tunnels in mountain sides. Their walls would be made of precast concrete, wood, metal sheeting or other handy materials.

These shelters are to be built in both cities and rural areas, especially the latter. They would hold from 25 - 60 persons, perhaps have heating and a simple ventilation system but not running water. They may or may not have metal doors. For the most part they do not appear to be designed for long-term occupancy. Shelters of this type can be built in one day or less

such necessities. These shelters may have space for from 150 to several thousand persons.

Some Soviet leaders have indicated that the Soviet Union intends to make extensive use of subways as shelters. There are subways in operation in Moscow and Leningrad. This year the Kiev subway will begin operations. The subway systems are fairly deep. The Moscow one could shelter, on lower platforms and in tunnels, from one to two million persons or twenty to forty percent of the city's inhabitants.

The Soviet basement shelter is a special area of the basement of an apartment house or public building designed to meet certain specifications. It has a roof of reinforced concrete, supported by steel or reinforced concrete beams, capable of withstanding the collapse of the building above. It is fireproof, completely underground and capable of being hermetically sealed. Its basic equipment includes air tight double metal doors of the bulkhead type, a filter ventilation unit, one or more emergency tunnels, toilets, water, heating, telephones, and possibly bottled oxygen. Depending on the building, it may occupy the entire basement or only part of it. It is divided by interior walls into compartments. The recommended capacity of such a shelter is 100 to 150 persons. It may be designed to withstand between 10 pounds pressure per square inch and 100 lbs. pressure per square inch. According to Soviet manuals, such a shelter would be expected to survive the blast "at some distance" from ground zero.

In addition, Russian publications speak of field and emergency shelters, mostly of the fallout type and usually less permanent. They are to be built by the population when the Soviet government announces a "threatening situation" alert. These would consist of various types of earth-covered tren-

cendary bombs.

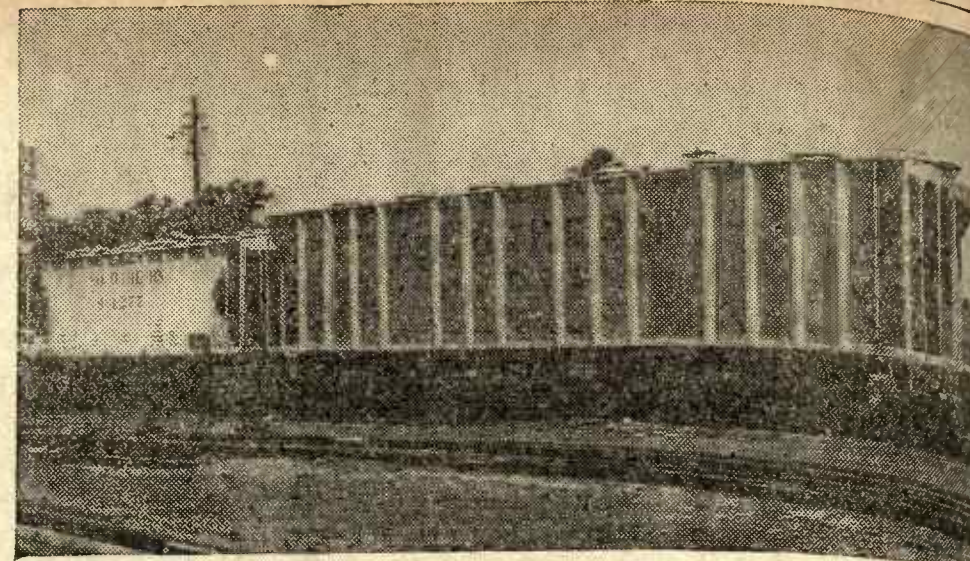

THAT it have at least one emergency exit with a tunnel, located so as not to be buried under debris.

THAT permanent shelters in likely target areas be capable of hermetic sealing against seepage of chemical - biological-radiation weapon agents and of blast wave, and be equipped to allow relatively long-term occupancy.

Soviet manuals describe a wide variety of shelters: heavy detached shelters, detached shelters, subways, basement shelters, field and emergency shelters. Only deep underground shelters, according to Soviet sources, can survive near the ground zero of a nuclear explosion. Such heavy detached shelters are built as tunnels with reinforced concrete walls and have space for upwards of 150 persons, filter-ventilations, steel airtight double doors, food and water storage, toilet facilities, communication equipment, and possibly chemical air purifiers and bottled oxygen.

Another heavy detached type is similar to a World War II bunker with very thick reinforced concrete walls and roof, designed to withstand probably 200 to 300 lbs. of pressure per square inch. Such shelters may be two stories high and have equipment similar to that in the deep underground shelters.

A detached shelter frequently described in Soviet literature is the so-called "layer" or "pit" type. This shelter has a roof of one or more thick slabs of reinforced concrete covered with a layer of earth, which may be several feet thick. It is supported by concrete or brick pillars or internal walls which divide the shelter into compartments. Such shelters are partially or completely underground & will probably withstand in excess of 100 pounds of pressure per sq. inch. They will also be equipped with double doors, filter ventilation units, toilets, water and other

SOUTHERN'S "BIG JOHN" GRAIN CAR

Like the character in the currently popular song, this "Big John" covered hopper car of Southern Railway System is "broad at the shoulders and narrow at the hips," says *Traffic World* magazine. For comparison, Southern posed "Big John" with its little brother at left, a standard size steel covered hopper. The railway says that the jumbo lightweight aluminum car pioneered by Southern is the big reason it can offer greatly-reduced freight rates on grain moving into and within the South. The 100-ton capacity car, of 5,000 cubic feet, has 12 roof hatches and 8 discharge hoppers for fast loading and unloading. Now, D. W. Brosnan, Southern's President, says the railway has design engineers working on a 200-ton capacity car which railroads no doubt will promptly name "BIG, Big John."

provide the necessary material is available. If the shelters cannot be hermetically sealed, the people using them are instructed to wear their gas masks during an attack. One-family shelters of a similar sort may also be built in suburbs at the cost of the families concerned.

Russian publications also have stressed the use of gas masks, protective clothing, and chemical warfare decontamination kits. No such equipment has been issued to the general public but there has been wide training in their uses.

Course Offerings At NEMJC For Evening Classes

Registration for Evening Classes at The Northeast Mississippi Junior College has resulted in the following course offerings:

Monday Evening: First half of World History, Shorthand, Second half of Physical Science, and Educational Measurements (Mississippi State Extension).

Tuesday Evening: Both halves of English Composition, Second half of English Literature, and History and Appreciation of Music.

Wednesday Evening: Second half of Business Law and First course in Speech.

Thursday Evening: Human Growth and Development, Trigonometry, and Educational and Occupational Information (Mississippi State Extension).

Friday Evening: Principles of Sociology and Science for Children. When not otherwise indicated, classes are offered jointly by Northeast and Mississippi State.

Persons interested in these courses should be present on the night the class meets next week. No registration may be accepted after Friday, February 16.

PERSONALS

Mr. and Mrs. Andy White and children of Memphis spent the week end with their parents, Mr. and Mrs. Raymond Flynt. Mrs. Flynt, who also works in Memphis, spent the week end at home.

Week end visitors of Bro. and Mrs. J. W. Howell were Mr. and

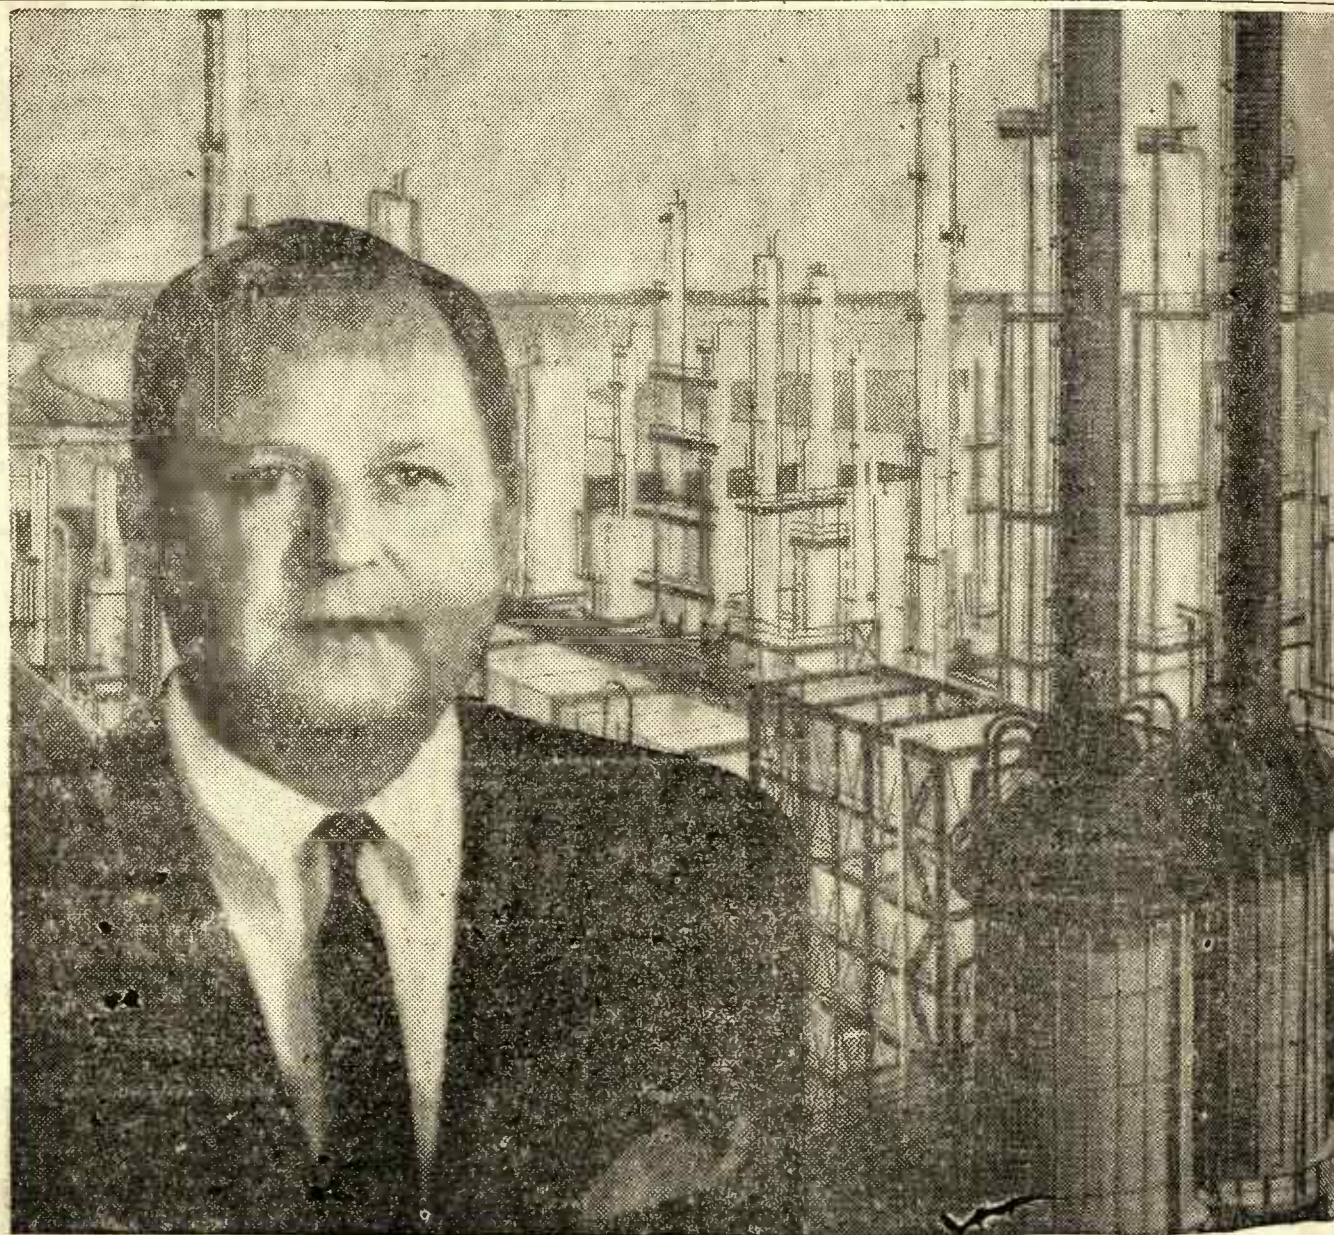

Mrs. Eulas Laney and Mrs. Mildred Smith, and abeth Harris all of Memphis. Mrs. Charles E. Hester, of Corinth. Mr. Doran of the Foot St. Church of Corinth.

Mr. and Mrs. Jimmy Sheffield spent Sunday with their parents, Mr. Ted Booker and Mrs. Walker and family.

Mrs. Harold Deaton returned to her home on Tuesday after last week with her mother and Mrs. J. B. Smith. Mr. Deaton came up on accompanied them home.

CARD OF THANKS

We wish to express thanks and appreciation one for every kindness and comforting word to the loss of our wife of H. C. Clark and to Bro. Sullivan and Marlar. Also to Dr. Coker and Cutshall. May God bless you all. The H. C. Clark family.

W. C. Smith, President, Standard Oil Company (Kentucky), is pictured with architect's drawing of a section of his company's \$125 million refinery now under construction at Pascagoula... Mississippi's biggest industrial project to date.

Mississippi on the march... Oil and Gas

Mississippi's economic progress is getting a tremendous boost right now from the \$125 million Standard Oil is spending to build a 100,000-barrel-a-day refinery at Pascagoula. Construction payroll alone will total \$40 million over the next 18 months. This economic boost will be continuing and far-reaching when the giant plant goes into production.

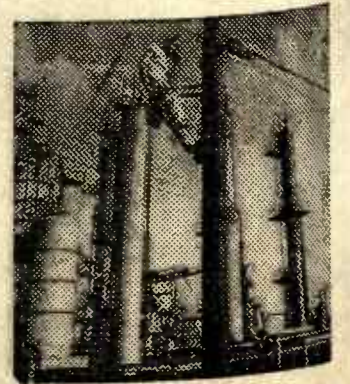

Already, gas and oil form one of Mississippi's "first citizen" industries. Other refineries are operating at Yazoo City, Sandersville and Black Creek in Lamar County. Over 13,000 are employed in all areas of the industry with payrolls totaling more than \$50 million a year.

Oil and gas represent 91% of the State's total mineral production value and last year these industries spent more than \$80 million in Mississippi for supplies and equipment, \$90 million for exploration, and royalty, lease and rental payments totaled over \$38 million.

Wherever Mississippi is on the march, you'll find the telephone helping to speed plans or production... And to make sure telephone service will be ready for Mississippi's growing needs, your telephone company is putting a total of over \$70 million in new construction during the three-year period, 1961-63.

Southern Bell in Mississippi

EVERY PROGRESS PICTURE HAS A PHONE IN IT

Mississippi on the march attracts more investment capital... creates new jobs and payrolls. This in turn increases the phone needs of business, industry, farms and homes of today and tomorrow!

electricity powers progress

Feb. 11 thru 17

The growth and accomplishment of America's electric industry have been phenomenal. Beginning 80 years ago with Thomas Edison's famous Pearl Street station (which lighted 400 lamps), America's electric industry has grown into a giant source of national strength and power. Electric power pulses through the land giving light, powering whole factories, carrying strength and convenience everywhere.

Partners in this vast power complex are hundreds of utilities, manufacturers, electricians, appliance dealers and other trade allies.

As your supplier of low-cost TVA-generated power, we pay homage this week to the contributions of Thomas Alva Edison and salute the local appliance dealers, electrical contractors and others who help us bring you power for progress.

Tishomingo County

Godwin Appointed Crusade Chairman Miss. Division Of Cancer Society

Appointment is made today on recommendation of Ralph M. Godwin, past state commander of the American Cancer Society, to lead the 1962 Crusade, said G. Bratley, president of the Mississippi Division.

Godwin, a member of the American Legion in Mississippi, serves as court reporter in the Chancery Court District, with Judge Stokes Robert. He is secretary of the Jackson County Club and serves on the Ross Barnett's Committee.

Ralph M. Godwin

Employment of the Physically Handicapped.

Graduate of Auburn University, Godwin served with the Army during World War II, held important positions at the post-district-department and national levels with the American Legion. He has served, since 1956, on the membership of the National Executive Committee of the American Cancer Society and was recently elected chairman of the Liaison Committee of the NEC to the Child Welfare Commission.

all of us, working together, are just one life — young — it will be well worth Godwin said upon accepting the Crusade chairmanship. "It is done — there's no question about it," he added.

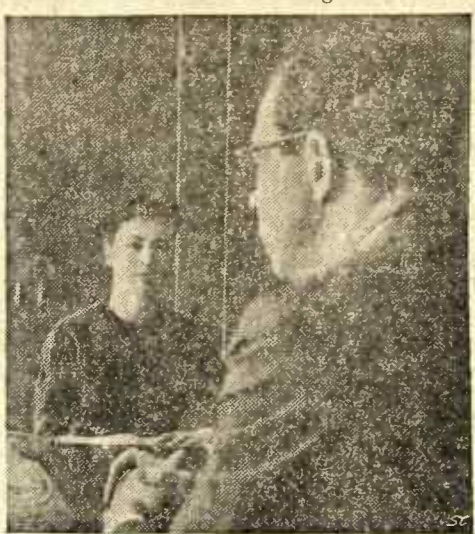

After being approached by the Campaign Committee to accept the post in the '62 Crusade, Godwin decided to take

Woman Is Her Own Guinea Pig In More Accurate Pregnancy Test

By Cynthia Carroll

"Doctor, am I pregnant?" This is a question frequently heard by obstetricians and family doctors alike. Until recently, a reliable answer couldn't be obtained until the seventh or eighth week.

Things are different now. In the medical journal *Obstetrics and Gynecology*, Drs. Richard X. Sands and Edward M. Segall of New York Polyclinic Medical School describe a new test requiring no rabbits, frogs, or other animals. Instead, the woman is her own guinea pig, and the test can start any time after possible conception, producing an answer in a few days.

Pregnancy tests in use for 50 years measure a hormonal reaction of pregnancy which occurs about six to eight weeks after conception. Because laboratory animals are used, either human error or abnormal animals can produce an incorrect result.

The new test requires only that the patient take Pro-Duosterone tablets, similar in size and shape to aspirin, four times a day for three days. Within a few days—three, on an average—after taking the last tablet the non-pregnant woman will experience menstrual flow. When pregnant, nothing happens except that the tablets have helped implant the fertilized egg properly.

Progestosterone, a female hormone which plays a part in regulating the menstrual cycle, is the chief ingredient of Pro-Duosterone. Because menstruation begins shortly after normal progestosterone output stops each month, the tablets simulate the last part of the normal cycle. Just as Nature planned it, menstruation begins a few days after progestosterone is withdrawn from a non-pregnant woman. In pregnancy, it helps guard against miscarriage. Thus the hormone plays a dual role, protecting the embryo when there is one and giving clear evidence of non-pregnancy when there isn't.

In 103 possibly pregnant women, the doctors conducted both the Pro-Duosterone and laboratory tests. In pregnant women, the laboratory test proved only 87 percent accurate, while the new method was correct in 98 percent.

"No room is left for clerical errors," wrote the doctors. In addition, the fact that a non-pregnant patient experiences menstruation is evidence of her true condition which can't be equalled by the most negative result of a laboratory test.

as we now have. This is a real problem. Hungry people will fight for food. We can lose our lives unless we conserve our soil and increase its productivity.

Soil and water conservation is the very basis of our civilization. It is not just the farmers' problem, it is everyone's problem.

When you help conserve our soil, you are helping to conserve our liberty, our way of life, and maybe our very lives.

CARD OF THANKS

Words cannot express our appreciation to our many friends for their kindness during my (Ben

Arnold) recent stay in the Hospital. Especially do we thank Dr. Dennis E. Ward of Corinth and the entire staff of the Community Hospital, who were so wonderful to us. Thanks to John Blakney and Jimmie Young for taking care of the store for us. Also for the get well cards, the flowers, and the visit from our friends and the prayers. May God bless each of you is our prayer.

Mr. and Mrs. Ben Arnold

A Buyers Market In Every Business

"It is always a buyers market in every business..."

Gerald Bishop, director of advertising of Mississippi Power and Light Company, recently told a group of business management specialists.

Although his company deals in a service which is sometimes considered monopolistic, Mr. Bishop pointed out that a utility company like a retail store has dozens of competitors regardless of the economic situation.

"It is true that no one else in our area sells electric power. However, the family which is able to install new electrical conveniences may consider spending their disposable income for an additional automobile, new furniture, entertainment, an enlarged house, a trip to Europe, real estate, or a horse and stable. In fact, we compete with every business in every community in which we operate," the utility executive said.

Mr. Bishop pointed out that utility advertising must have the basic ingredients of good retail advertising. "It can be effective only when it offers something of specific benefit to the consumer." When a person spends money, he added, his first concern is properly his own self interest.

"The consumer does not spend his money out of loyalty or because a company boasts of its age or prestige."

The lessons here for the local retailer should be obvious. First, there is no such thing as a monopoly. Second, no business can afford to rest on past laurels.

Veterans' Corner

Q—I am a veteran who has been retired from active service because of disability. I have GI insurance with the Total Disability Income Provision rider. May I apply for the TDIP payments?

A—You may apply. In order to qualify for the TDIP payments, you must present medical evidence that you are disabled to the extent that you cannot carry on substantially gainful employment.

Q—I have a participating GI insurance policy. When may I expect to get my 1962 dividend payment?

A—The VA is paying the 1962 insurance dividend on the anniversary date of each policy—that is, on the date the policy became effective.

Q—Does marriage bar an otherwise eligible child of a deceased veteran from the War Orphans Education program?

A—No. The child is still considered an "orphan" for all purposes of the program until age 23 and in certain cases, after that age.

Q—Is it still possible for a World War II veteran to enter on a course of education or vocational training through the VA?

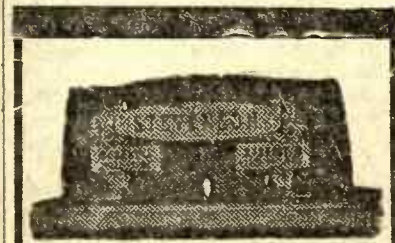

A—No, the so-called GI Bill of Rights which provided that education or training for World War II veterans has expired and the program is completed.

Helpful Hints On 1962 Cotton Crop

Wilt Influenced By Nitrogen Placement

The incidence of Fusarium and Verticillium wilts in cotton increases with increased rate of nitrogen. High rates of nitrogen cause fast growth in plants and thus the wilt fungi spreads rapidly. Placement of 60 to 70 pounds of nitrogen 4 to 6 inches to one side of drill and 6 inches deep gives the tap roots freedom to grow deeper into the soil.

High rates, 120 to 150 pounds nitrogen per acre on wilt infested soil along with low temperatures, cause cotton plants to take up excess nitrite nitrogen. It is thought that nitrite nitrogen along with wilt complex cause the terminal bud to die. This is one explanation of crazy branching of cotton plants

We carry the largest display of Georgia Marble and Granite in this area. Why take chances of buying out of a book. See the monument that will be erected by calling us collect at 5101 Corinth. Transportation will be furnished to and from our display yard. We can save you money and terms are available on any monument you select.

Write, see or call us for the finest in monuments.

Perkins Monument Co.

Corinth, Miss.

TIPPER FLINTLOCK says...
"Be careful where your gun you store don't hide it in an open drawer."
Keep it under lock and key away from little eyes that see."
the national rifle association teaches shooting safety

wilts is found in Auburn 56 cotton. It is root-knot nematode resistant, Fusarium resistant and has a higher tolerance to Verticillium wilt. Coker Dixie Queen, Stoneville 7A, Dixie King and Fox 4 have a slight tolerance to Verticillium wilt. Verticillium wilt occurs during cold growing seasons. Last year was the most ideal year in 10 for Verticillium wilt.

Stalk Destruction To Help Control Diseases

Destroy cotton stalks by cutting them in as small pieces as possible. Then plow the stalk pieces under 6 inches or deeper, as deep as the soil will permit. Research shows that when wilt and diseased cotton stalks are plowed 6 inches under, there is less seedlings disease trouble in early spring.

Notices To Inform Owners Of Brands Registration Date

Starting next month, notices will be mailed to all owners of brands registered with the Livestock Theft Bureau of the Mississippi Highway Safety Patrol. The notices will in-

form the owners that June 30 is the date of expiration of their brands registration. Each brand must then be re-recorded for the period '62-'67.

Brands Supervisor B. F. Rodgers of the Livestock Theft Bureau office may be contacted for further details on the registration or re-recording. No brand may be used unless it is registered with the Department of Public Safety. It is unlawful to use an unregistered brand... someone else may have recorded the same brand for their own use.

The fee for recording a brand is only \$2.00 (two dollars) for a five-year period. In view of the statistics it is the cheapest cattle theft insurance available. Statistics for past years show that 95% of all stolen cattle are unbranded. A brand on cattle is like a tag on a car. It can be traced easily. However, unlike an automobile tag, a brand cannot be removed. Cattle thieves steer clear of branded cattle because they are too easy to trace.

The world's longest suspension span will be in the Brooklyn-Staten Island Bridge. The 4260-foot span will have more than 146,000 miles of galvanized wire spun into four 3 foot diameter suspension cables.

This is the Ford Fairlane's new Challenger "260" V-8.

There's no other V-8 like it. It's the latest in a series of Ford V-8 triumphs that started back in 1932 when Ford introduced the world's first popular-priced V-8. Today—30 years and 30 million V-8's later—the Challenger "260" adds new fuel to the hottest performance record in V-8 history. It gives you all the time-tested toughness of iron—with a lightness and compactness iron never had before. A muscular 164 hp, this new Challenger "260" V-8 is all snap, sparkle and smoothness. *It runs on regular, yet gives you better gas mileage than any standard-size 6-cylinder car.* Price it and you're in for a surprise—a Fairlane V-8 carries a smaller price tag than some compact Sixes. And, of course, a Fairlane gives you big-car room and fine-car quality you'll find in no other car anywhere near Fairlane's amazing low price. There's never been a buy like Fairlane because there's never been a car like Fairlane; that's why this all-new car from Ford is now out-selling every other "new-size" car!

FAIRLANE 500... Right size... Right price... Right between compacts and big cars

Whatever you're looking for in a car, look to the long Ford line

Features of the future...now

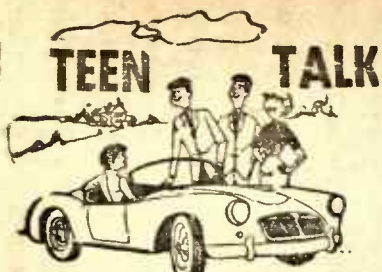

FALCON America's best-selling compact

MISSISSIPPI

By Ann Holtsford

HI GANG: Man, if this pretty weather keeps up, we will all start having spring fever. That will be a change from the flu, measles and mumps.

The Valentine dance has been changed to Friday night for the high school group. . . . Be sure and be on hand to vote for your favorite candidate. . . . Crowning of the Queen of Hearts will climax the evening's activities. . . . The junior group will have their session on Saturday night.

Congratulations to Tishomingo A Boys on winning the North District Basketball Tournament Championship. . . . They beat Baldwin 62-57. . . . Billy Young made 25 points!

John David Foote, Emory Jones, Glen Harwell, Eddie Thomas and Douglas Nixon attended the State Beta Club Convention in Jackson, Miss., last week end.

Jimmy Ramsey is employed in Memphis by Swift's Ice Cream Company. Bet some little girl down Tishomingo way is getting lonesome.

I know now why Judy Gann has such a pretty figure. . . . She let us in on a little secret the other day. . . . She's been doing the limbo!

I goofed! Last week I stated that the candidates for Heart Queen had been named and that candidates would solicit votes at a penny a vote. . . . This was incorrect. . . . Students will vote on their favorite choice as they enter the door at the YC where the crowning will take place Friday night. . . . This has no connection with the Heart Fund Campaign. This is merely a selection of a Queen of Hearts by the students to be crowned at the YC Valentine Dance Friday evening.

If you see a new face behind the wheel of the Gann's station wagon, it's daughter Judy. . . . Judy got her driver's license on Monday. . . . And guess what! Judy made a perfect score of 100.

Hear David Reynolds made the tennis team at Millsaps. . . . So what, we knew David was tops.

Welcome to the teenage group Donna Murrah and Tressie Pate. . . . These two cuties celebrated their 13th birthdays with a party given by their mothers, Mrs. Vernon Pate and Mrs. Lamar Murrah, recently at the YC. . . . Approximately 50 people were present to join in the fun and extend happy birthday wishes to Donna and Tressie. . . . Cake ice cream and cokes were served.

Mr. and Mrs. Cecil Holt, Charles and Cecilia Ann of Florence, were Sunday afternoon visitors in the home of the E. C. Holtsfords.

Mr. and Miss CVHS Crowned At School Thursday Night

Terry Malone and Miss Gala Hester were crowned Mr. and Miss Cherokee Vocational High School last Thursday night at the school when the senior class presented its third annual coronation. Jimmy Thomason and Miss Patricia Wallace were runner-ups.

Mr. and Miss CVHS were crowned by last year's title holder, Miss Patsy Green, and last year's runner-up, Clarence Ray Mann. Sonny Barfield, who was the 1961 title holder, is now in Germany.

Others competing for Miss CVHS were Miss Barbara Gale Harrell, Miss Neva Keeton, Miss Joyce Malone, Miss Carol Underwood and Miss Patricia Wallace.

Competing for the Mr. CVHS title were Johnny Hayes, Terry Malone, Ronnie Medford, Thomas Oline, John Sherrod and Jimmy Tomason.

Ushers were Miss Jeanette Kelly, Miss Jean Lee Smith, Miss Elaine McVay, Miss Carolyn Kircchren, Jimmy Richardson, Jimmy Benson, Jimmy Spain and Robert Taylor.

Intermediates At Iuka Baptist Enjoy Fellowship Meet

Members of the Intermediate Department in Sunday School at the Iuka Baptist Church came together Monday night for a fellowship meeting.

A program, consisting of patriotic hymns and prayer, led by R. J. Cooper, pastor, was dedicated to the youth.

Mrs. J. B. King directed the games, which were most interesting.

Mrs. H. S. Massey baked a white and pink cake and added attractive decorations for those whose birthdays come in February. Everyone enjoyed the cake, red coated heart-shaped cookies, mixed nuts, mints and cokes.

Other teachers participating were Mrs. A. V. Ables, Mrs. R. J. Cooper, Pete Byrom and Truman Holly Superintendent.

Each one was given a Valentine and the group presented each teacher with a lovely box of candy. There were forty-one present.

Shirley Kirk On President's List

Miss Shirley Kirk, who is attending college at Miss. State University, was among those placed on the president's list this semester. She is in her third year of college and is majoring in music and minoring in education.

Miss Kirk is the daughter of Mr. and Mrs. Noel Kirk of Corinth and formerly of Iuka. She has been on the president's list several times previously.

20th Century Club Meets In Home Of Mrs. P. L. Oaks

The Twentieth Century Club held its regular meeting on Thursday, Feb. 8, in the home of Mrs. P. L. Oaks. The house was beautifully decorated carrying out the Valentine motif.

The meeting was opened by Mrs. Oaks, president, with the reading of a meditation written by her brother, Woodrow Grawthon of Headland, Ala.

During the business portion of the program, a discussion was held regarding the report of the Build a Better Community Contest, district Convention and completion of scrapbook.

In the absence of Mrs. Jewel Pruitt, program chairman, Mrs. Frankie Drake, assisted by Mrs. Ruth Stormont, presented an interesting program on religion, using articles on church absentees and translation of the 23rd Psalm and closing with the Lords Prayer in unison.

To add enjoyment to the program, soft music was played throughout the evening from the stereo that was built by Jimmy Oaks.

Those present other than mentioned above were Mrs. Annie Mae Deaton, Mrs. Arabelle Jourdan, Mrs. Ida Sweeney, Mrs. Margaret King, Mrs. Rosemary Clark and Mrs. Lucille Vickers.

During the social hour, the hostess served a delicious salad plate with coffee or cokes. A Valentine favor was on each plate. The next meeting will be on Thursday, Feb. 22, with Mrs. Helen Pruitt as hostess.

Mrs. Helen Bryant, Mr. and Mrs. Jackie Bryant and Teresa, and Mrs. Laurie Morris spent the week end in Nashville visiting with Mr. and Mrs. C. B. Crater and family and Mr. and Mrs. Bobby Davis. They attended the Grand Ole Opry on Saturday night.

942 Attend Jehovah's Witnesses Circuit

"Who Will Rule the World?" was the subject of the Bible lecture head by Jehovah's Witnesses at their circuit gathering in Memphis as announced today by R. L. Scruggs, presiding minister of the Iuka congregation. 942 Jehovah's Witnesses and interested persons assembled in the Beverly Room of Clearpool, Inc. on Sunday to hear the featured address of the three-day event, Feb. 9-11.

"In stressing the theme 'Faithfully Increasing Our Praise to Jehovah' speakers at the assembly pointed out the importance of a schedule or a set way in the lives of Christians. This thought was forcefully impressed on the minds of the delegates by means of talks, interviews, and demonstrations. Ministers of the Iuka congregation will be applying the instruction in their personal lives and in their Bible teaching work," Mr. Scruggs explained.

Fifteen symbolized their dedication to God on Saturday afternoon by complete water immersion. This is equal to an ordination ceremony according to the beliefs of Jehovah's Witnesses.

The local congregation meets at the Country Club Building, Highway 72 W.

MT. GILEAD

SICK LIST: We are glad Mrs. Harry Pharr is able to be home. Mrs. Pharr has recently been a patient in the Tishomingo County Hospital.

Sorry that Mrs. Florence Bishop is now a patient in the hospital. We hope she will soon be back home and well again.

Mrs. Leander Kennedy has been ill all week.

Little Tressia Brumley has a case of the measles.

Doyle Morton has been real sick with flu but is able to be up now.

Fave Kennedy of Florence State has been confined to the Tishomingo County Hospital with a severe case of strap throat. She is now convalescing at the home of her parents, Mr. and Mrs. Leander Kennedy.

OTHER NEWS: Mr. and Mrs. Garner Woodruff spent last week in Florida. They spent one night with Mrs. Woodruff's sister and husband, Mr. and Mrs. Thurman Walker of Jacksonville, Florida.

Earl Stephenson has returned to his home in Dallas, Texas, after a visit with his mother, Mrs. Pearl Stephenson.

James Lester Adams has returned to Ole Miss after a few days break between semesters.

Mr. and Mrs. Guy Newcomb and Donna of Town Creek, Alabama, spent the week end at their home.

Mrs. Autham Seago is in Memphis visiting her children there.

Lucian Vandiver, a former engineer in Kentucky, is now in the Navy.

Edwin Wheeler left Sunday for Memphis to seek employment.

We were glad to have several visitors with us in church services Sunday. Among them were Miss Pat Adams of Jackson, Abe South of Iuka, and Bro. Underwood, formerly of Alaska. Let's make our attendance higher than ever this Sunday.

Mr. and Mrs. P. L. Oaks visited in Memphis Sunday afternoon with the Ward Wimbushes at the Veterans Hospital.

CHEROKEE

By Josephine Benson

Miss Joyce Malone of Cherokee Vocational High School captured the Alabama award as the "Good Citizenship Girl," sponsored by the Daughters of the American Revolution. Miss Malone, age 17, daughter of Mr. and Mrs. Ralston Malone, represented Cherokee Vocational High School in the Statewide Competition.

Mr. and Mrs. W. O. James attended Gilbert James' funeral at Russellville on Sunday.

Mr. and Mrs. W. D. Brotherton visited his parents, Mr. and Mrs. M. Brotherton in Fayette the past Sunday.

Mr. and Mrs. James Vaughn spent the week end with Mr. and Mrs. Rudolph Woodruff in Macon, Mississippi.

Ernest Rickard returned home Friday from the Kennedy Veterans Hospital in Memphis after undergoing surgery.

Mr. and Mrs. Roy P. Johnson and son, Jerry and Mrs. W. J. Duncan spent the week end with Mrs. Harry Carrick and Mrs. Alice Turner in Jackson, Tenn.

Mr. and Mrs. Jimmy Rorex and children, Martha and Mike, of Huntsville spent Sunday with his mother, Mrs. L. B. Rorex.

Mrs. Josephine Benson and Mrs. Wheeler M. Benson and daughter, Sandra visited Mrs. W. A. Finley in Tusculuma Monday afternoon.

John S. Harrison and daughter, Susan of Huntsville were week end guests of Mr. and Mrs. Walker E. Morris.

Mrs. Lowell E. Grisham and children, Lowell, Jr. and Celia Ann of Oxford, Miss., were visitors of her parents, Mr. and Mrs. E. B. Reid, Mrs. Grisham and children and Mr. Harrison and Susan were visitors at the First Methodist Church on Sunday.

Mr. and Mrs. Ralph Johnson, Mrs. L. B. Rorex and Mr. and Mrs. John Pounds attended the funeral of Wiley Walker at the Riverfront Methodist Church Saturday.

Sunday is Student Recognition Day. Wade Hester, principal of Guin High School, and former principal of CVHS, will be the speaker for the morning service at the First Methodist Church.

Herbert Harris III of Atlanta, Ga., and Rebecca Harris of Florence were week end visitors of their parents, Mr. and Mrs. Herbert Harris, Jr.

Paul Keeton is a patient at the Baptist Hospital in Memphis.

Mrs. Homajean Grisham has returned to her home after being a patient in the Colbert Hospital.

IUKA ROUTE 2

Relatives from out of town who attended the funeral of Rita Peterson last Thursday at Harmony were Miss Merle Peterson of Minneapolis, Minn.; Misses Ann and Jenny Grisham of Jackson, Miss.; Dean Pierce of Miss. State University; Mr. and Mrs. Miller Grisham and family of Savannah, Tenn.; Ray Whitley and Mrs. Elwyn Thornton and son of Rutherford, Tenn.; Mrs. Dorothy Hayes, Sarah and Tommy of New Hope, Ala.

Mr. and Mrs. Elam Davis and girls visited Mrs. Blanche Dial last Sunday. The occasion was Mrs. Dial's birthday celebration.

Mrs. Bernice Perry and little daughter, Harlette of Renzi were visiting the Earl Barnes family Sunday. They also attended Sunday School at Harmony. Gary Peterson of New Jersey also attended Sunday School.

Mr. and Mrs. Marshall Daniel attended the birthday dinner of his

aunt, Mrs. Mollie Ware, at the home of Mr. and Mrs. Jesse Blunt of Tishomingo last Sunday.

Mr. and Mrs. Alfred Bonds and Mrs. Georgia Akers visited Mrs. Pearl Bishop Sunday afternoon at the home of Mrs. Walter Stanford. Mr. and Mrs. Hurchel Robertson and girls have recently moved into their new home on Highway 25 North.

Mrs. M. B. Daniel had the misfortune of falling and breaking a bone in her right hand recently.

CARD OF THANKS

I wish to take this means of expressing my sincere thanks and appreciation to my friends and neighbors for the many cards and flowers received during my recent bereavement and loss of my husband, Joe Brabo.

Especially do I wish to thank Dr. and Mrs. Harry Cosby and Cutshall Funeral Home for their wonderful help and consideration, and to Father Charles for his kind words.

May God richly bless each of you is my prayer.

Mrs. Joe Brabo

CARD OF THANKS

I wish to express my sincere thanks and appreciation to all my friends for the beautiful flowers, gifts, cards, visits, calls and prayer for me during my recent confinement. May the Lord bless you is my prayer.

Mrs. Marcelle Murrah

BIRTHS

Bro. and Mrs. Richard Brock of Muscle Shoals City, Ala., are the proud parents of a baby girl born Friday, February 9, at Coffe Memorial Hospital in Florence. The baby weighed 8 lbs. 3 ozs. and has been named Gerri Lynn. Maternal grandparents are Mr. and Mrs. Marshall Robinson of Iuka and paternal grandparents are Mr. and Mrs. Brock of Muscle Shoals City.

Mr. and Mrs. Norman Holman of Tishomingo announce the arrival of a 6 lb. 4 oz. son, Tracy Norman on February 2 at the Tishomingo County Hospital. Paternal grandparents are Will Holman and the late Mrs. Holman and maternal grandparents are Mr. and Mrs. Robert Page of Iuka.

Mr. and Mrs. Edward B. Wallingsford of 2607 Avenue North in Lubbock, Texas, are the proud parents of a daughter, Karen Renee. The baby arrived January 25th and weighed 6 lbs. 8 ozs. Maternal grandfather is Arthur Blaylock of Route 1, Paden, and paternal grandparents are Mr. and Mrs. J. B. Wallingsford of Plainview, Texas.

CAPITAL NEWS

Prospect: Appear Favorable For Livestock Industry In 1962

Mississippi's thriving livestock industry, an increasingly big factor in the agricultural progress and general outlook appears, favorable. Two current trends in the livestock industry — orderly, well-spaced marketings of livestock and development of meat-type animals — are significant in the production pattern. Americans are big meat eaters and there is no reason to think that per capita consumption will not continue to rise as the population increases. Mississippi's income from livestock has steadily increased and progress in recent years has been impressive. Mississippi ranks second among all 11 Southeastern states in total number of cattle.

State Busy With War Centennial

Observance of the second year of the War Between the States looks like a busy year. The program of events got off to a running start last March when all units of the Mississippi Greys passed in review to kick-off the Centennial at the newly restored "Old Capitol." After this, re-enactment and centennial events were held all over the state. Eighty-seven units of the Mississippi Centennial Military Forces in Memoriam, better known as the Mississippi Greys, were organized.

State Enjoys New Popularity

Mississippi is fast becoming a major tourist attraction for both foreign travelers and Americans who are looking for interesting and friendly places to visit. This is attributed to the increasing popularity of historical sites and fine resort communities. Interest in Mississippi's Civil War role is reflected in the thousands of requests received throughout the state seeking information on historical sites and other attractions. In their trips to Mississippi, visitors will have an opportunity to meet the friendly people and achieve an awareness of Mississippi's long heritage.

Favorable Business Climate

Mississippi's industry-conscious communities generally realize that a favorable business climate is essential in this era of keen competition for new plants and payrolls. Briefly summarized, a good business climate is made up of those tangible and intangible things which cause a business or industry to choose one community over another.

Farm Facts

Farmers are borrowing more money than ever before. In the face of the trend toward larger farms, credit helps provide the things they need to produce more efficiently.

The farmer's use of credit will continue to mount, notes W. D. Curtis, economist with the Louisiana State Agricultural Service. This will be due to: (1) greater investment per farm; (2) an increase in the use of power, fertilizer, chemicals, better seed, and other production necessities; (3) failure of savings to keep pace with mounting capital needs; and (4) a more businesslike approach to credit — if convinced it will pay them to borrow, they borrow.

From 1953 to 1960, the dollar volume of farm credit system loans increased 120%, while the number of farms decreased 30%. Long-term mortgage loans by federal land banks increased 18%, while short- and intermediate-term loans by production credit associations increased by nearly 26%.

Farmers are borrowing more money than ever before.

Despite the trend to "commercial" farms, the farm family will remain important because it performs the major share of work on these farms.

From 1953 to 1960, the dollar volume of farm credit system loans increased 120%, while the number of farms decreased 30%. Long-term mortgage loans by federal land banks increased 18%, while short- and intermediate-term loans by production credit associations increased by nearly 26%.

Ward Wimbush

William Ward Wimbush, age 70, died at Kennedy Veterans Hospital in Memphis on Monday. He was a Methodist, a Mason, and World War I veteran.

Funeral services were held Tuesday afternoon at 3 o'clock at Spring Hill Methodist Church. Bro. Charles Arnett, pastor, and Hudson Nichols, minister of the Church of Christ, officiated. Burial was in Spring Hill Cemetery with Cutshall's of Iuka in charge of arrangements.

Surviving are his wife, Mrs. Irene Wimbush; two sons, W. W. Wimbush, Jr. of Memphis and Bob Wimbush of Iuka; one daughter, Mrs. Keelin Hooten of Memphis; 6 grandchildren; 5 sisters, Mrs. W. G. Tabb of Greenwood, Mrs. Clark Burks, also of Greenwood, Miss Bertha Wimbush of Memphis, Mrs. Clarence Hawkins of Dallas, and Mrs. Bailey Betts of Albuquerque, New Mexico.

Mrs. 'Penn' Bullard

Funeral services were held Saturday afternoon at Hubbard Salem for Mrs. Pennsylvania (Holland) Bullard Bro. Jimmy Grisham officiated. Burial was in the church cemetery.

Mrs. Bullard was born July 3, 1876. She died Thursday, February 8. Her husband, Jeff D. Bullard, preceded her in death by seventeen years. To this union were born nine children of whom six survive: four sons, Boone, Ezekiel, Andrew and Roscoe; two daughters, Mrs. Belvia Bonds, Mrs. Doshie Sanders, all of Iuka; two stepdaughters, Mrs. Leona Higner of Corinth and Mrs. Ivy McQuillen of Haleyville, Ala.; twenty grandchildren, twenty-two great-grand-

children, one great-great-grandchild, several nieces and nephews, and a host of friends and relatives.

Rita J. Peterson

Funeral services were held Thursday, February 8, at 3 p. m. at the Harmony Methodist Church for Little Rita Joyce Peterson of Ft. Hancock, New Jersey. Rev. Jimmy Grisham was the officiating minister. Burial was in Oak Grove Cemetery with Cutshall Funeral Home directors in charge.

Rita, age 7, passed away Monday, Feb. 5, at St. Albans Naval Hospital in Long Island, New York.

Surviving are her parents, Mr. and Mrs. Clifford Peterson of Ft. Hancock, New Jersey; one brother, Gary Peterson; maternal grandmother, Mrs. Ivy Grisham of Iuka; paternal grandmother, Mrs. Gina Peterson of Glenwood, Minn.

Pallbearers were Rodney Grisham, Dean Pierce, Jackie Grisham and Tommy Grisham.

MIDWAY

Donald Pounders, son of Mr. and Mrs. James Pounders, was brought home from ECM Hospital in Florence last week. He is reported much improved.

Mrs. Ella Miller is a patient in the Booneville Hospital.

Tommy Burcham, son-in-law of Willard Hendricks, was carried to Booneville Hospital Sunday.

Mr. and Mrs. Travis Hendricks and Mr. and Mrs. Audie Hendricks visited Mrs. Emma Champion at Charleston, Miss., on Sunday. Mrs. Champion is a patient at one of the hospitals there.

Mrs. Lula McNutt and daughter, Vera, returned home Sunday after a two weeks stay in Sheffield with

NOTICE TO CONTRACTORS
Proposals will be received until 2:00 p. m. Tuesday, March 6th at the City Hall, Iuka, Mississippi for furnishing labor, materials and equipment to drill a water test well at a location within the city limits. The well shall be drilled vertical and plumb and not have a diameter of less than five and three quarters inches. The maximum depth of the hole will not be more than 100 feet but it may be extended by the request of the contractor.

The contractor will have available a turbine pump and other appurtenant equipment necessary to pump water to a maximum capacity of 250 gallons per minute at a head of 100 feet. The testing of the well shall be done by the city engineer and the results of the test will be submitted to the city engineer. Adequate logs of the well and water level information will be kept on file and furnished to the contractor upon request.

Proposals must be qualified and the contractor must perform this work to the satisfaction of the city engineer. Proposals must be submitted in a sealed envelope, including the cost per linear foot of casing of a 6" diameter well and a lump sum cost of the well and maximum capacity of the well.

Proposals shall be addressed to the City of Iuka, City Hall, Iuka, Mississippi, and marked "Test Well Water System."

Bankrupt Maybe, But Not Surprised
The federal Budget will exceed \$100 billion within a few years, Budget Director Bell predicted the other day. "None of us should be surprised," he said, when this happens.

Well, the way things are going in our federal government these days, it is not likely that any of us will be surprised. We may well be bankrupted — but we won't be surprised.
It is doubtful that many people in this country understand the real danger our economy is in. There is widespread loss of confidence throughout the world in the soundness of our dollar. Other nations do not hesitate to tell us so at the International Monetary Conference in Vienna last fall. It is reported that even the Finance Minister of France lectured our representative on this subject! It is going some when France, whose franc lost 99% of its value during the forty years prior to DeGaulle coming into power, should lecture us. But maybe they are the best ones to do it — they know first-hand the danger of continued deficits, mounting national debt and the people demanding welfare for which they are not willing to pay.

The people of France are now back on a sound franc again — but it takes 100 of their old francs to get one of them. Over that forty year period they saw the value of their bank accounts and their insurance policies and their pensions practically wiped out.

The Administration is apparently paying no attention to these warnings, and that the people outside this country realize it is evidenced by the fact that the outflow of gold from the United States has spurred by leaps and bounds in recent months. The fact that this always happens when people lose confidence in money, by the way, is the best of all arguments for a currency redeemable in gold.

Let's look at our record. It is mentioned above that the people of France lost 99% of the value of their money over a 40 year period. Well, we have lost 56% of the value of our money over a 20 year period. If we continue our record of the past 20 years for another 20 years — and if the spenders have their way, we will — then we can only expect this depreciation in the dollar to move even faster during the second period. Does that mean we are headed toward a 1c dollar? Well, we already have a 44c dollar. And don't say it can't happen here — it has happened in every other country in history that has attempted to follow the irre-

Farmers Urged To Release Unwanted Cotton Acreage For Others To Plant

Releasing of cotton acreage that will not be planted for reappportionment to other farmers who will plant it can be of economic importance during 1962 and can help to preserve allotment bases for future years.

A conclusion was reached at a meeting sponsored by the Mississippi Farm Bureau Federation in Jackson Monday (Feb. 2).

A "plant or release" statewide promotion effort was organized at the meeting, and county-wide efforts were proposed.

Boswell Stevens, president of the Miss. Farm Bureau, presided.

B. F. Smith, of Leland, chairman of the Miss. Farm Bureau cotton committee, said that during 1961 there were 109,593 acres of allocated cotton acreage that was not planted. This represents a loss of \$17 million to the economy of the state, he said. During 1960,

sponsible financial practices we have been following in recent years. The man who bought an insurance policy 20 years ago to leave his family \$10,000, would now be leaving them only \$4,400. What will he be leaving them 20 years from now?

It was announced the other day that our national debt had already reached the \$298 billion mark. The Administration has already stated it will ask Congress to increase the debt ceiling to \$308 billion. Which makes one wonder, why have a debt ceiling? It apparently doesn't mean anything.

For 26 of the last 31 years, our federal government has spent more than it has taken in, has lived beyond its means. We ended the fiscal year 1961 with a deficit of \$3.9 billion. We shall apparently end the fiscal year 1962 with a deficit of about \$7 billion. The President has announced what he calls a balanced budget for fiscal year 1963, estimating a surplus of about one-half billion. But in arriving at this surplus, he estimates increased government income for the year of \$11 billion. Anyone who makes a budget based on an increase like that without any more reason than he had just doesn't know of what stuff budgets are made. Which is not surprising in this case. Hardly anyone really believes it will be a balanced budget. Senator Harry Byrd, of Virginia, estimates a deficit of \$3.5 billion, if not more. So apparently we are headed toward our 27th federal deficit in the last 32 years.

The way things are going, Khrushchev won't have to "bury" us; we will bury ourselves.

Mid-South Market Hog Show & Sale

To Be Held In Tupelo
Mar. 2-3; Participation
Expected To Be Heavy

Both junior and adult hog producers in 25 North Mississippi counties, plus designated counties in Alabama and Tennessee, are reminded of the Mid-South Market Hog Show and Sale in Tupelo, March 2 and 3.

The first such annual event was highly successful last year, and it is hoped that participation will again be heavy, said W. L. Richmond, associate animal husbandman of the Agricultural Extension Service. Because of the emphasis on value according to grade, this show and sales has much educational merit and is expected to greatly benefit the growing hog industry of the area, he added.

Classes are individual market hogs in both adult and 4-H Club and Future Farmers of America divisions, pen of five market hogs and the on hoof-carass class. Attractive premiums are offered with special awards from national swine breed association.

The program calls for hogs to be received on March 2 from 7:00 a. m. to 1:00 p. m. On-foot judging of the on hoof-carass class will be at 5 p. m. On March 3, grading and judging will begin at 8:00 a. m. and should end by noon. Following a free barbecue, a discussion of the income farmers can expect from hogs will be by I. W. Spicer, president, Mid-South Packing Co. The program will end with the placing of champions and exhibition of carcass hogs.

Competition is open to purebred and crossbred hogs, including barrows and gilts. Only barrows may be entered in the on hoof-carass class.

Each exhibitor is limited to two entries in each class, except in the on hoof-carass class where he may have only one entry.

All hogs must have been owned and fed by the exhibitor at least 45 days prior to the show.

All hogs in the show will be graded on a merit basis, using the U. S. D. A. hog grades. All hogs will be sold to the Mid-South Packing Company on the grade established by the judge.

Only hogs weighing from 190 to 240 pounds can enter the show.

Mississippi counties from which producers may participate are Marshall, Benton, Tipton, Alcorn, Tishomingo, Prentiss, Union, Lafayette, Tate, Panola, Yalobusha, Grenada, Pontotoc, Lee, Itawamba, Monroe, Chickasaw, Calhoun, Webster, Clay, Lowndes, Oktibbeha, Choctaw, Noxubee and Tallahatchie.

Billy Strickland of Corinth spent the week end with Duane and Rickey Bullard.

there were 185,862 acres released, and during 1961 there were 173,058 acres released.

C. W. Sullivan, state administrator of the Agricultural Stabilization & Conservation agency, stated that individual farm allotments are based on three years, 1960, 1961 and 1962. However, he pointed out that county and state allotments are based on five-year history, for 1957, 1958, 1959, 1960 and 1961.

Allotments for the 1963 crops, the first year in determining individual farm allotments, he said. Some 14,000 farms which released acres in 1960 and 1961 must plant some cotton in 1962 or they will lose their acreage allotment, he pointed out. To preserve the county's history, at least 75 per cent of acreage allotted must be "planted or released," he said. Last year about 63,000 acres came back to the state ASC committee for reallocation to farmers in counties other than the county in which it was originally allotted.

The 30 people attending represented Farm Bureau, Extension Service, Vocational Agriculture, Staple Cotton Association, and ginners and compress interests.

County Farm Bureau presidents, County Extension agents, and ASC county office managers are being advised of the promotion program. County meetings are being arranged as an educational activity to acquaint other groups with the problem and to solicit their support. Support will be sought from Chambers of Commerce, bankers, Farmers Home Administration, cotton merchants, cooperatives, Production Credit Association, oil mills, school officials, representatives of newspapers, radio and television, and where applicable Delta Council and Staple Cotton Association.

Mr. and Mrs. Roy Doss, Sr. of Houston, Miss. spent Sunday with Mr. and Mrs. Roy Doss.
Mr. and Mrs. Percie Stricklen and family visited their parents, Mr. and Mrs. E. H. Walden and Mr. and Mrs. G. E. Stricklen, in Booneville on Saturday night.

Charles R. Caviness

Caviness Elected Director

To Chamber Commerce
MEC For 3-Year Term;
Will Represent Area 3

Charles R. Caviness, prominent banker of Corinth, has been elected a director of the Mississippi State Chamber of Commerce-MEC for a three-year term beginning May 1, according to Joseph Dale of Prentiss, chairman of the organization's elections committee.

Mr. Caviness will represent Area 3, composed of the counties of Alcorn, Prentiss, Tishomingo, and Tippah. He succeeds Fred J. Vann of Corinth.

"It is a distinct honor to be selected by the membership to serve on the State Chamber's board of directors," the chairman said. "This group sets policy for the business interest of Miss. It is also directly responsible for looking after membership support, and is charged with presenting the views of business from the areas represented. Mr. Caviness is well qualified to do this."

"The new director, along with current officers, is expected to attend the next board meeting in Jackson on April 11, at 9:00 a. m., on the same day of the 13th annual meeting."

Each area has three elected directors, serving three-year terms, with one going off the board each year. During his third year, a director is designated as the area vice-president. In addition to elected directors, the by-laws provide that the current president will appoint 15 directors for one-year terms during his administration. Past presidents are ex-officio directors.

Other elected directors of this area, who will continue to serve after May 1, are Erst Long, Sr. of Ripley, and W. H. Anderson, M. D., Booneville.

PERSONALS

Talmadge Roane of Memphis spent the week end at home with his parents.

Mr. and Mrs. Monroe Robinson were in Selmer, Tenn., over the week end for a visit with Mr. and Mrs. L. T. Robinson, and daughter.

Mrs. Mertie Stanford of Cherokee is visiting Mr. and Mrs. Pat Curtin and family this week.

Mr. and Mrs. John Young, Jr. and child in of Oxford spent last week end here with her parents, Mr. and Mrs. Whit Wilson.

Mr. and Mrs. John Cooper in Florence Sunday and also Mrs. Amber Strange in Russellville.

Those visiting in the home of Mr. and Mrs. Alver Belue and Janie over the week end were Mrs. Belue's parents, Mr. and Mrs. Mavin Counce of Counce, Tenn., and Mr. and Mrs. J. B. Jordan, Joe and Martha Kaye of Shiloh Park, Chester, Ind., spent Friday night with their nephew and family, Mr. and Mrs. E. N. Allen.

Mr. and Mrs. Ray Curtis and daughter, Lori, spent Sunday in Tupelo with Mr. and Mrs. Roy Curtis.

Those visiting Dick Milligan, who is confined in Baptist Hospital in Little Rock, Ark., on Sunday were Mrs. Arrie Yow and Bobby, Miss Blanche Milligan, Dude Milligan and Leslie Cox.

Mr. and Mrs. John Cooper in Florence Sunday and also Mrs. Amber Strange in Russellville.

Those visiting in the home of Mr. and Mrs. Alver Belue and Janie over the week end were Mrs. Belue's parents, Mr. and Mrs. Mavin Counce of Counce, Tenn., and Mr. and Mrs. J. B. Jordan, Joe and Martha Kaye of Shiloh Park, Chester, Ind., spent Friday night with their nephew and family, Mr. and Mrs. E. N. Allen.

Mr. and Mrs. Ray Curtis and daughter, Lori, spent Sunday in Tupelo with Mr. and Mrs. Roy Curtis.

Those visiting Dick Milligan, who is confined in Baptist Hospital in Little Rock, Ark., on Sunday were Mrs. Arrie Yow and Bobby, Miss Blanche Milligan, Dude Milligan and Leslie Cox.

Week end visitors of Mrs. C. R. McCulley were Mrs. M. I. Hosmer of Birmingham and Mrs. Ola Johnston of Decatur, Bro. and Mrs. Raymond Pate of Cherokee visited in the McCulley home on Sunday.

Visiting in the home of Mr. and Mrs. Walter Peek on Sunday were his parents, Mr. and Mrs. W. L. Peek of Boaz, Ala.

Mr. and Mrs. A. V. Ables and family spent Saturday in Tupelo visiting with Mr. and Mrs. Boyd Johnson and little daughter, Lisa Gaye.

Monday visitors of Mr. and Mrs. A. V. Ables and family were Mrs. Florence Hicks of Tusculum and Mr. and Mrs. Charles Hale of Denning.

Mrs. Ben Seago, Mrs. Loraine Gist and Mrs. Mary Seago visited with Mrs. L. A. Thornburg in Tishomingo.

Emmett Curtin has returned

Those visiting Mr. and Mrs. Major Kirk over the week end were Miss Eula Butler of Booneville and Mr. and Mrs. Noel Kirk of Corinth. Miss Pam Kirk spent the week end in Booneville visiting with Miss Eula Butler. She returned home Sunday afternoon.

Mr. and Mrs. Chester Earl Lowrey and girls of Memphis spent the week end with Mr. and Mrs. Wallace Hobbs.

Week end visitors of Mr. and Mrs. I. M. Jackson were Mr. and Mrs. J. D. McRae of Memphis and Mr. and Mrs. Bob Clark and children, Lynne and Steve, of Decatur.

Mr. and Mrs. Jesse Biggs of Pioneer, Tenn., spent the week end with Mr. and Mrs. Charley Biggs and family.

Mrs. Bruce Rutledge, Sr., Diane Rutledge and Mr. and Mrs. J. B. Burns visited friends and relatives over the week end.

said that Southern Vital Records
Center, Inc., would convert part
of the facilities of the World War
II ordnance plant to suitable bomb-
proof storage areas for vital bank,
businesses and governmental re-
cords. The company is headed by
Dozier Willard and Lewis Clark
and will employ 15 to 20 men. This
will be the first enterprise of this
type in the South, Willard said.
Itta Bena Gets
"First" Piano

The first piano completed in the
Greenwood Baldwin Piano Com-
pany plant was given to the Itta
Bena-Morgan City Rotary Club. Two
years ago when the plant first
announced that it would locate a
plant at Greenwood, Joe Berry-
man - then president of the Ro-
tary Club - made a trip to the
company's Cincinnati offices to
contact to buy the first piano made
at the plant for the community
house.

Sales To Reach \$10,000,000

Mississippi Industries, Inc.

Governor Ross Barnett has re-
ceived a personal report on the
growth of Mississippi Industries,
Inc., from president Warren A.
Hood. The report said, in part, that
the company now operates ten
manufacturing plants in the state
having an annual payroll of over
\$1,500,000. During 1962, the com-
bined subsidiary companies expect
to sell \$10,000,000 worth of prod-
ucts, the report stated. Missis-
sippi Industries, Inc., is a stock com-
pany organized in August 1960.

Today its ten subsidiaries distrib-
ute and manufacture ethical
pharmaceuticals, Victorian furni-
ture, asphalt shingle and building
felt, storage tanks and hoppers and
bins, buff brick, charcoal briquets,
refrigerated truck bodies, roof
deck materials, potting soils and
soil conditioners, wood pallets and
janitorial supplies. Subsidiary
companies are located in Jackson,
Meridian, Vicksburg, Shuqualak,
Pachuta, Amory, Terry, Morton
and Natchez.

New Cold Storage Warehouse

For Jackson's Hawkins Field

The Atlantic Company of At-
lanta, Ga., will construct a 750,000-
cubic-foot refrigerated warehouse
on the new Hawkins Field indus-
trial district at Jackson at a cost
of over a million dollars. Atlantic
is the third largest cold storage
operator in the nation and parent
company to Southern United Ice
Co., which has operated for more
than 20 years. The Warehouse will
be located on an eight-acre tract
and will be served by the Illinois
Central railroad and major truck
lines. A. J. Gordon Atlantic presi-
dent said. The expanding Jackson
market, coupled with the growth

Film Biography Of Christ Available For Group Showing

A moving film biography of
Christ, entitled "The Coming of
Christ," has been made available
for showing to church, civic, educa-
tional and professional groups by
United States Steel Corporation.

Following enthusiastic response
from showing of this film on the
NBC television network during the
last two Christmas seasons, U. S.
Steel Corporation, Box 599, Fair-
field, Alabama.

Prints of the 16-millimeter,
sound, color film may be obtain-
ed on a loan basis without charge,
through the District Director of
Public Relations, United States
Steel Corporation, Box 599 Fair-
field, Alabama.

Already, more than 700 requests
for the film have been filled in
this area.

"The Coming of Christ" brings
Christ's birth, boyhood and minis-
try to life of the screen through
use of the still-pictures-in-motion
technique.

Illustrated by some of the
world's art masterpieces, the film
is of special interest not only to
religious groups, but to students
of art as well. Works by Bellini,
El Greco, Titian, Michelangelo,
Caravaggio, Raphael, Velasquez and
others are included.

Filmed by NBC's Project 20 unit,
"The Coming of Christ" not only
describes Christ's life, but tells of
the world in which He lived, the
people around Him and the atmo-
sphere of His time and place.

Narration by Alexander Scourby
draws heavily on passages of the
Bible.

Running time is 29 minutes.

Nitrogen Spray Not Practical On Cotton Leaves

Fertilizing cotton plants by
spraying nitrogen on the leaves
has not proved practical in several
years of research by the Missis-
sippi Agricultural Experiment Sta-
tion.

The possibility of adding some
form of nitrogen to sprays used
to kill cotton insects was explor-
ed. This combination would save
labor. However, the total volume
of spray used for insect control is
too small to carry enough nitrogen
deficiency. Burning of leaves and
corrosion of equipment add to the
difficulty.

Agronomist Fred Jones, who con-
ducted the tests, states the follow-
ing conclusions:

"In contrast to soil application,
foliar feeding of nitrogen to cot-
ton during the fruiting period does
not appear to be practical, even
though moderate nitrogen deficien-
cy may be corrected by spraying
frequently with dilute nitrogen so-
lutions, particularly urea."

But urea should not be applied
to the foliage just as insurance
against nitrogen deficiency. If addi-
tional nitrogen is not needed, the
foliar spray may reduce yields.
"Solutions containing ammoni-
um nitrate are unsatisfactory for
foliar application to cotton. Even
at low concentrations, they burn
the leaves and the nitrogen is not
utilized efficiently."

"Biuret, in amounts commonly
found in fertilizer grade urea, was
not toxic to cotton when added to

the urea solution (3%N)."

The complete report is publish-
ed in the February issue of Mis-
sissippi Farm Research available
on request from the Experiment
Station at State College, Missis-
sippi.

Devotional Reading: James 3:13-16.

Valuable to God

Lesson for February 18, 1962

WHY is killing wrong? The
Bible says so, to be sure;
but the Bible would not say so if
it were not wrong to begin with.
The law says so; but the law can

only make things
illegal, it cannot
make them
wrong. Our
instincts, when
not perverted,
warn us killing
is wrong; but
instincts may be
mistaken. There
are many reasons

Dr. Foreman why killing is
wrong, a serious sin. Let us try
to highlight one of these. This
reasons goes to the heart of the
matter. Killing is wrong because
it destroys the noblest work of
God. It is wrong because it de-
stroys what God has made, in-
deed the most valuable creature
God made upon this earth.

Of all creatures here on our
planet, man is the only one with
a soul. Put in another way, man
is the only animal who is more
than an animal. He is the only
one who is capable of fellowship
with God. He is the only one "in
the image of God," that is, the
only one who has—by God's gift

—the possibility of growing to be
like God. Of all creatures he is
the one who can be most helpful
to God. All God's creatures no
doubt are useful to him in some
way or other for the carrying out
of the divine Purpose; but man
alone can be aware of the pur-
poses of God, man alone can re-
ceive a revelation from God, man
alone can pray. Jesus asked on
one occasion what a man could
give in exchange for his self. If he
took the whole world in exchange,
Jesus said, but lost his self in the
bargain, he would be the loser.
Somebody might interrupt—
"Whom in the world are you de-
scribing? Most people, on the
hoof as you might say, aren't as
noble as all that!" Quite true;
and nobody knows it better than
God. But men are the creatures
God went to infinite trouble to
save. Men are the creatures about
whom Jesus told his parable of
the one lost sheep, and the joy
in the presence of the angels over
even one repenting sinner.

In ancient times people did not
think much of slaves, or women,
or children. A woman had status
only so far as her connections
with some man gave her a posi-
tion in society. Children had no
status till they were grown; and
slaves had no status at all. Jesus,
however, never "brushed off" any
one. He always had time for peo-
ple; poor people, stupid people,
even bad people. When some little
children were brought to him, his
disciples tried to get rid of them.
The Master's time was valuable,
he could not afford to waste it! But
Jesus rebuked his disciples, not
the children. All the modern
keen interest in childhood, the
study of growing personalities just
at the very beginning of life, stems
from the Christian view, which
goes back to Jesus, that even
babies are already persons. To
harm a child is to commit a
crime against the future of man-
kind.

Sins against persons
This brings up another very
obvious thought: Sins against per-
sons are the most serious kind.
Once upon a time this was not
understood. Men would be hanged
for stealing a lamb. Nowadays
stealing a lamb is petty theft, but
murder is still murder, and in
many states still receives the
death penalty. This is not the
place to argue about capital pun-
ishment, only to point out that it
shows how after all these cen-
turies, human life is still known to
be the most important life on
earth, and any damage to it a
serious crime.

But suppose I harm myself and
myself alone? Isn't that my af-
fair? It is your affair if you mean
does it concern you. It is your
affair if you think that harm you
do to yourself injures no one else.
You wouldn't think of chopping
your hand off, but if you did, the
law would take you in charge.
You have no right to injure your-
self,—by hatchet, alcohol, simple
neglect or otherwise; much less
to destroy yourself. You do not
live alone, you are surrounded by
others. Well and strong, you are
a benefit to the community; in-
jured or dead by your own fault
before your time, you are a bur-
den, you have turned your back
on the human race, you have de-
faced God's handiwork.

Home Agent Notes

By Dianne Francis
Tishomingo County Home
Demonstration Agent

Kind Of Bleach
Any bleaching agent won't do the job. Most of you depend on chlorine. It is liquid chlorine. It is used to help retain or restore color to your fabrics. They remove stains that ordinary bleach won't remove.

It is important that you know the basic types of bleaches according to the fabric. Know the basic types of bleaches and when each type should be used. The most popular type bleach in use is liquid chlorine. It is effective in washing white cottons and linens. Add the bleach three minutes after the clothes are washed. Do not use this type on silk, wool, acetate or resin treated fabrics. Your water contains iron, use this type.

Chlorine bleach is also recommended for iron-free water and for colorfast cottons and linens. The only difference between dry and liquid chlorine bleaches is that bleach is said to be the active ingredients slow-acting. You do not have to be as careful with the chlorine bleaches in the cycle with detergent or in the wash cycle. The third type bleach on the market is the dry oxygen type. This type is mild and is usually safe for fabrics that hot water will not harm. They are safe for resin treated cottons.

For best results, use the bleach each time the garment is washed. Remember, the oxygen type bleach is much more effective in hot water. When using any bleach, read the manufacturers directions. Measure the recommended amount carefully. Dilute the bleach in at least a quart of water. Add it carefully to the clothes.

PORK—A Good Buy!

In terms of real costs, pork is now more economical than ever. Too, it is a high protein meat and is one of the richest sources of thiamine. It tastes good too! In selecting pork, choose that which is grayish pink colored and has streaks of fat among the lean. The lean should be firm, fine-grained with a smooth velvety appearance. Fat should be firm. And the bones should be porous with red and pink centers.

Protect your pork quality. Keep it refrigerated. Fresh pork should be used within a few days of buying—one day for ground pork, two to three days for spareribs, cutlets or steaks and five to six days for roasts.

Various types of steel basement fallout shelters and four types of outside shelters are depicted in a new eight-page booklet, titled, "Steel Shelters for Fallout Protection." Single copies may be obtained by writing to American Iron & Steel Institute, 150 East 42nd Street, New York 17, N. Y.

County Agent's Notes

By P. B. Stricklen
MSU
Extension
Service

Freeze Damage To Shrubs

Check your shrubs closely to determine extent of freeze damage. Scratch the bark down the stem. Where the cambium is dead, it will be a brown color.

Prune the shrubs back to live wood. Some shrubs may be down to the roots. In some areas, even the roots may be dead. Where the roots are dead, the shrubs will have to be dug and replaced.

In pruning, cut back to the first bud on live wood. Cut on a slant just above this bud. Later in the spring, new growth should appear at this point.

Cotton Allotments

March 31 is the deadline to let the county ASC office know if you want to release cotton acres—or apply for more acres.

There will be less money in circulation in the county if the allotted cotton acreage is not planted. Failure to release or plant acreage leads to your county and the state having lower allotments. This is a loss that cannot be regained.

Last year alone, Mississippi farmers failed to plant 133,788 acres of cotton. The resulting loss was around \$25 million. The state sales tax on this \$25 million would have added \$750,000 to the state treasury.

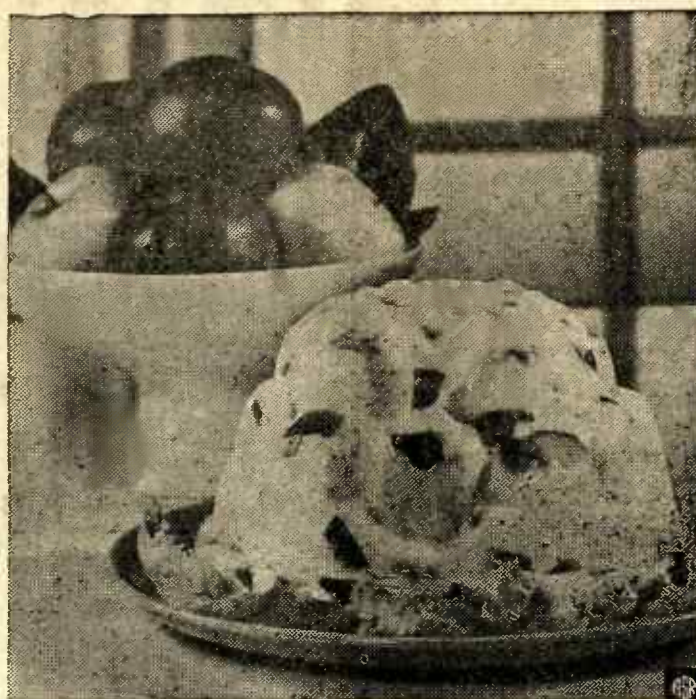

For more information on this, come by the office or see your local ASCS office manager.

Chemical Weed Control Meetings

On Thursday, March 1, two chemical weed control meetings will be held in Tishomingo County. One will be held in the Armory in Iuka and the other at Belmont.

We will have agricultural engineers from the Extension Service at Mississippi State University discuss equipment for pre-emerge, post-emerge, oiling and flaming. We will also have T. M. Waller, former Cotton Specialist, to discuss cotton production. We will also have someone from the Agronomy Department discuss corn, soybeans, and pastures. All phases

Modern Mold Dramatizes Waldorf Apple Salad

The world-famous Waldorf Salad now is found in as many versions as there are cooks, but the original combination of sweet and tangy apple chunks, rich, crunchy walnut bits, crisp and cool celery strips remains the flavorful basis for this family-favorite salad. This modern interpretation catches these basic ingredients in a handsome molded tower of gelatin, duffed with whipped cream and mayonnaise. Bright bits of Washington State Red Delicious or Winesap apples peek through the gelatin to create a "show-piece" salad for luncheon, dinner, or buffet serving.

Jellied Waldorf Mousse

1 pkg. lemon-flavored gelatin
1 cup hot water
1/4 tsp. salt
1/2 cup mayonnaise
1/2 cup diced celery
1 1/2 cups diced, unpeeled Washington Red Delicious or Winesap apples
1/2 cup chopped nutmeats
1/2 cup cream, whipped

Dissolve gelatin in hot water. Chill until thick and syrupy. Blend mayonnaise and gelatin until smooth, then add diced Washington apples, celery and nutmeats. Fold whipped cream into gelatin mixture. Turn into 1 quart mold which has been rinsed in cold water. Chill until firm. Unmold onto salad greens. Serves 8.

of chemical weed control will be discussed. Mark this date on your calendar and make your plans to attend.

Hay Fertilization

Demonstrations have proved that you can produce eight to ten times as much hay on well fertilized areas as you can on areas that are not fertilized.

Often on permanent hay meadows, no seeding is needed. Just some fertilizer.

To find out just how much fertilizer is needed, try soil sampling. This takes the guesswork out of your fertilizer program. And now is the time to get the samples and send them in for analysis.

Decrease In Traffic Deaths

Attributed To Motor Vehicle Inspection And Educational Program

The marked decrease in 1961 traffic deaths has been attributed to Motor Vehicle Inspection law and an intensified educational program.

Louis Wise, recently installed President of the Mississippi Safety Council, said there were 95 fewer traffic deaths in 1961 than there were in 1960.

"This decrease must be attributed to the new Motor Vehicle Inspection law and the stepped-up educational programs by the Safety Council and the Mississippi Highway Safety Patrol," he said.

According to Wise, Mississippi had one of the highest traffic death rates in the nation during 1960, and even though the death rate remains high, the state experienced one of the nations highest percentage decreases in 1961.

Wise believes the downward trend in traffic accidents and deaths will continue if the Legislature continues to enact laws designed to modernize the State's Traffic Code. This modernization will include an eventual semi-annual motor vehicle inspection instead of the present once-a-year requirement.

"Many vehicles pass inspection by a very small margin," Wise

The A. DeWeese Lumber Company at Philadelphia is the first company in the nation to start a "Tree Farm Family" plan of forest management for small woodland owners.

The first venture into chemical production of potash is by the Southwest Potash Corporation plant at Vicksburg. The \$7 million plant was constructed in 1961.

School Pictures, Inc., of Jackson, is the largest school picture company in the world. The company has four plants in the U. S. and Canada. Each year the firm takes photos of over 5,200,000 school students, and processes over 100 million prints.

BEAUTY IN COTTON—Lovely Maria Beale Fletcher, Miss America 1962, is all set for an evening at the theatre in an elegant Everglaze cotton suit. This beautifully tailored ensemble by Harry Frechtel features a side-closing jacket with brief overblouse and relaxed sheath skirt.

"There are, in our state, people who are totally blind but have in their possession a valid drivers license. Changes must be made here," he said.

The safety official stated that legislation would be introduced to allow the Department of Public Safety to re-examine any person suspected of being physically or mentally incapable of safely operating a car.

The enactment of this law will result in a further decrease in traffic accidents and deaths," Wise said.

Local Business

By S. S. TALBERT
Chairman, Dept. of Journalism
University of Mississippi

Automobile dealers have relearned an old truth about advertising—that is, advertising can not sell anything which people do not want.

The large, luxurious American automobile has been called by critics a product of advertising techniques. Critics argued that people would be satisfied with a smaller plain car if one were available and properly publicized.

The small, plain cars, mostly of

foreign vintage, have been made available. They have been brilliantly publicized. For some months, the sale of such cars seemed to support the arguments of the critics of advertising.

But now the novelty of the small, plain car has passed. And where does the American consumer stand?

When he can afford it, the American consumer still prefers the large, luxury automobile which gives him bonus comfort and prestige. The small, plain car is taking its place as a second automobile in many families.

But the big, beautiful, fast automobile, which was allegedly forced on the consumer by advertising, is still the favorite of the family which depends upon one automobile.

In other words, the advertising which sold chrome, tail-fins, and air-conditioning, simply provided information about a product for which a latent demand existed. Advertising which did not take advantage of this demand did not work.

Conversely, advertising which

not provide information which satisfies latent demand is not good advertising. In a free economy it is not for the seller to decide what is best for the consumer.

QUALITY LAUNDRY

JODIE LAMBERT, Roufeman

...the BIG REASON why Southern Railway can offer greatly reduced freight rates on grain moving into and within the Southeast!

We call it "BIG JOHN" because it is big! Pioneered by Southern, our new jumbo lightweight aluminum covered hopper car dwarfs its little brother shown at the left, a standard-size steel covered hopper car.

"BIG JOHN" is not only big in size—it is big in what it can do, too. It represents a major breakthrough in transportation. It already has permitted much lower freight rates on alumina, carbide, lime, cement and other such materials. Now "BIG JOHN" is ready to lower the transportation costs of grains, feeds, flour and other agricultural commodities—and here is why it can do it.

"BIG JOHN" can carry a load of 100-tons-plus. (The wasteful deadweight of conventional steel cars is replaced by revenue-producing capacity.) Its cubic-foot capacity is 5,000. On its roof are 12 hatches, and at the bottom are 8 discharge hoppers

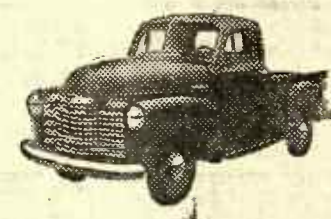

to speed loading and unloading. Like filling and emptying a bathtub!

If desired, a separate kind of grain can be loaded into each of its four compartments and travel in the same car, without mixing. What's more, this covered hopper is an air-tight car, unlike the box car generally used to carry grain. This greatly reduces the likelihood of infestation and water damage. And there are no grain doors, as in box car movements, to be paid for by the shipper in higher freight rates.

Because "BIG JOHN" can do a big job, Southern Railway can greatly reduce its freight rates for the movement of grain. The resulting savings in transportation costs will benefit everybody—the grain grower, the farmer, the poultry man, the livestock raiser, the feed man and the consuming public.

SOUTHERN RAILWAY SYSTEM

WASHINGTON, D. C.

Here's what QUALITY has done:

At last count there were 1,499,927 Chevrolet trucks over 10 years old still working—424,381 more than any other make.

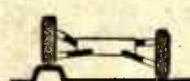

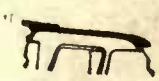

1962 CHEVROLET JOBMMASTER TRUCKS

built better...work longer!

When Chevrolet builds a truck, it builds a quality truck. This policy makes sense. Chevrolet trucks work a long time... cost less than many other makes to operate and maintain over the years... consistently bring a higher trade-in price... and, as a result, are bought by more people.

We invite you to come in and

examine this quality closely and to take a 1962 demonstrator out for a good long test drive. Note the cab comfort, the good visibility, the smooth ride, the solid feel of its quality. Compare Chevrolet truck features with those of other makes. Then decide which are your wisest investment. We're sure it will be Chevrolet's.

Note how this Chevrolet cab roof is made of two sheets of metal, instead of one, with a layer of felt in between as insulation against cold, heat and noise.

A Chevrolet truck tailgate is sturdier because it has double-wall construction and strong steel chains in tough rubber casing to support it.

Quality independent front suspension fights road shock more effectively than other types—provides more protection for the truck, load and driver.

The standard 235-cu.-in. 6-cylinder Chevrolet truck engine has worked more miles than any other. There are nine more engines to choose from.

See your Chevrolet dealer for trucks that keep running and running!

ounce Chevrolet Co.

MISSISSIPPI

A RESOLUTION

The Board of Supervisors took up for consideration the matter of issuing bonds of Tishomingo County for road and bridge purposes, and, after a discussion of the subject, Supervisor H. M. Biggs offered and moved the adoption of the following resolution:

RESOLUTION DECLARING THE INTENTION OF THE BOARD OF SUPERVISORS OF TISHOMINGO COUNTY, MISSISSIPPI, TO ISSUE BONDS OF SAID COUNTY IN THE MAXIMUM PRINCIPAL AMOUNT OF ONE HUNDRED THOUSAND DOLLARS (\$100,000) TO RAISE MONEY FOR THE PURPOSE OF CONSTRUCTING, RECONSTRUCTING, AND REPAIRING ROADS, HIGHWAYS, AND BRIDGES IN SAID COUNTY, AND DIRECTING PUBLICATION OF NOTICE OF SUCH INTENTION.

WHEREAS, this Board of Supervisors does now find and determine that it has become and is necessary to raise money for the purpose of constructing, reconstructing, and repairing roads, highways, and bridges in Tishomingo County, Mississippi; and

WHEREAS, this Board has made due investigation and does now find and determine that the estimated cost of the aforesaid improvements is One Hundred Thousand Dollars (\$100,000); and

WHEREAS, sufficient funds are not now available in the treasury of said County to provide for the aforesaid expenditure; and

WHEREAS, this Board of Supervisors is authorized by the provisions of Chapter 241, Laws of Mississippi, 1950, as amended, to issue bonds for the aforesaid purpose, provided that such bonds, when added to all other bonded indebtedness of said County, shall not exceed ten per centum (10%) of

Farm Facts

Richard E. Bell of the U. S. Department of Agriculture's Economic Research Service reminds us the Russians need a farm labor force 6 1/2 times bigger than ours—or about 45% of the available Russian labor—to supply a population only 20% greater than ours.

The American farmer is supplying 182 million of us with nearly all of our food and fiber and there's enough left over to export one-sixth of his cropland output.

The U.S.S.R. had 501 million acres of sown cropland in 1960. The United States had 329 million.

Russia's 53,400 collective farms averaged 6,785 sown acres. Their 6,500 state farms averaged 22,485 sown acres. The average collective had 386 households, and state farms had an average of 753 workers.

The United States, by contrast, prefers smaller but more efficient farm units. This country had over 3.7

Farming requires
45% of Russia's
labor
force.

million farms in 1960, with about two-thirds of them accounting for almost all farm sales. By and large, they were family owned, averaging 409 acres, with one to two workers per farm.

NOTICE OF TRUSTEE SALE

WHEREAS, heretofore on November 8, 1960, J. H. Lambert and wife Margaret Lambert executed a deed of trust to Cecil Summers, Trustee for the use and benefit of the Trustee of the Tishomingo County Hospital, Iuka, Mississippi, Beneficiary, which said deed of trust is recorded in the office of the Chancery Clerk of Tishomingo County, Mississippi, at Iuka, Mississippi, in Deed of Trust Book 40, at pages 353 and 354 thereof, reference to which is hereby made; and,

WHEREAS, default has been made in the payment of the indebtedness secured by said deed of trust and the owner and holder of the indebtedness secured by said deed of trust having requested the said Trustee to do so, I will on the 10th day of March, 1962, offer for sale and will sell during legal hours at the South Door of the County Court House of Tishomingo County, Mississippi, at Iuka, Mississippi, to the highest and best bidder for cash at public outcry the following described land and property situated in Tishomingo County, State of Mississippi, to-wit:

Part of the Northwest quarter of the Section 18, township 3, Range 11 East described as follows, to-wit: Beginning at the Northwest corner of the Northwest quarter of Section 18, township 3, Range 11 East and run N. 87 degrees and 15 minutes East with the North boundary line of said quarter section 1444 feet to a steel stake by a Concrete Marker that represents the North City Limits Line of the Town of Iuka, Mississippi, said point being in the East right-of-way of the Old Eastport and Iuka Short Road, thence run with the East right-of-way of said road as follows: Run S. 26 degrees East 239 feet, thence run S. 12 degrees West 336 feet, thence run S. 35 degrees West 128 feet to a point in the center of a Branch crossing said Road, this point being on the West line of a Certain tract of land heretofore sold by J. H. Lambert to Dallas Borden; thence run S. 35 degrees West 160 feet to a point in the center of the second branch crossing said road; then this point is the true point of beginning, thence from this beginning point run thence with the right-of-way of said road as follows: Run S. 20 degrees West 92 feet to a point in the said right of way that is at right angles to a Culvert of said branch crossing said Road, thence run S. 10 degrees West 117 feet to a point in the center of a driveway leading from said Road to the home of J. H. Lambert, thence run S. 10 degrees 37 feet to a stake, thence South 87 degrees East 484 feet to the W. J. Brinkley land, thence run North with the West side of the W. J. Brinkley land 315 feet, thence run West with the south side of the Dallas Borden tract of land and the center of a branch 300 feet to the point of beginning.

Title to the above described land and property is believed to be good, but I will convey only such title as is vested in me as Trustee. Witness my signature, this the 12th day of February, 1962.
