The Vidette, Belmont News To Change Hands

With this issue of The Vidette and The Belmont News, E. C. and Christine Holtsford will terminate their duties as editors and publishers of these newspapers.

On Saturday of this week, ownership of the papers is scheduled to pass to George Morris, Jr., of Sheffield, Ala.

Mr. Morris comes from a long

line of newspaper and printing people, he currently being engaged in the operation of Morris Printing Co. in Sheffield. His ancestors were former owners and publishers of the Jackson Sun, Jackson, Tenn., and some of them were connected with the Memphis Commercial Appeal. Next issue of The Vidette and The Belmont News will be pub-

lished under the direction of Mr. Morris.

The E. C. Holtsfords came to Iuka in 1951, publishing their first issue on August 3. At that time, less than 1100 copies of The Vidette and less than 800 copies of The Belmont News were circulated. Today, the combined press run of the two papers is 4,675 copies.

Extensive changes have come about in publishing the two papers. For the past few years, pictures galore have been regularly seen in each issue. Eighteen years ago, pictures of local people were a rarity. In 1951, and for several years afterwards, over 75% of the advertising in the two papers was by merchants in Florence and Sheffield, Ala., and Corinth, Miss. Today, only an occasional ad from merchants in those cities is now published in these papers.

Editor's Statement

It has been a real pleasure to serve the fine people and the

fine merchants of Tishomingo County. It is rewarding and most gratifying to have been a part of an exceedingly fast-growing area and it shall always be our aim and intent to continue to be a part of this growth in every way that we can.

One of our greatest assets during the past 18 years has been our loyal readers. Printing your news has been both a privilege and a duty; and we realize that in each issue, some sad news is printed as well as the glad news — but it takes it all to make a newspaper.

We shall miss you . . . and we hope you miss us!

Grand Jury Returns Twelve Indictments

Following is a report of the Grand Jury for this term of Circuit court with Judge N. S. Sweat, Jr., presiding.

Now comes the Grand Jury for the September Term, 1969, of Circuit Court in Tishomingo County, Mississippi, and begs leave to submit its final report.

The Grand Jury has been in session two (2) days, has examined thirteen (13) witnesses and has returned unto open court twelve (12) true bills.

We have examined by committee the County Home, County Jail, the factories of the county, the hotels of over two stories, the County Auditor's books and Tax Collector's books.

In the County Home, we find that the bathrooms are in need of repair, and some of the faucets are leaking. It is suggested that handrails be put in the bathrooms to provide support for older patients. It is also suggested that new chairs be provided on the lawn as the present chairs appear unsafe. It is suggested that either closets or lockers be provided in the rooms of the residents so that they would have a place to store personal cloths and belongings. Other than the aforementioned suggestions, the residents appeared to be well provided for.

At the County Jail, the walls were found to be in need of repair, and it is suggested that heavy screens be placed in the windows of the cells to prevent the prisoners from breaking out the glass, in the windows which they now often do. The plumbing appeared to be in need of

repair, and there was found leaks from the bathrooms upstairs into downstairs areas. The food elevator was also found to be in need of repair.

At the Belmont Hotel, there was found poor lighting throughout the hotel, especially in the stairway. There were leaks found in approximately fifty percent (50%) of the rooms. There was no fire protection found anywhere in the building. The doors of the hotel were also found to open inwardly and did not meet safety regulations.

We find that the factories are in good safe condition with the doors opening out as required by law, and employees' working conditions being safe and healthful, except the following:

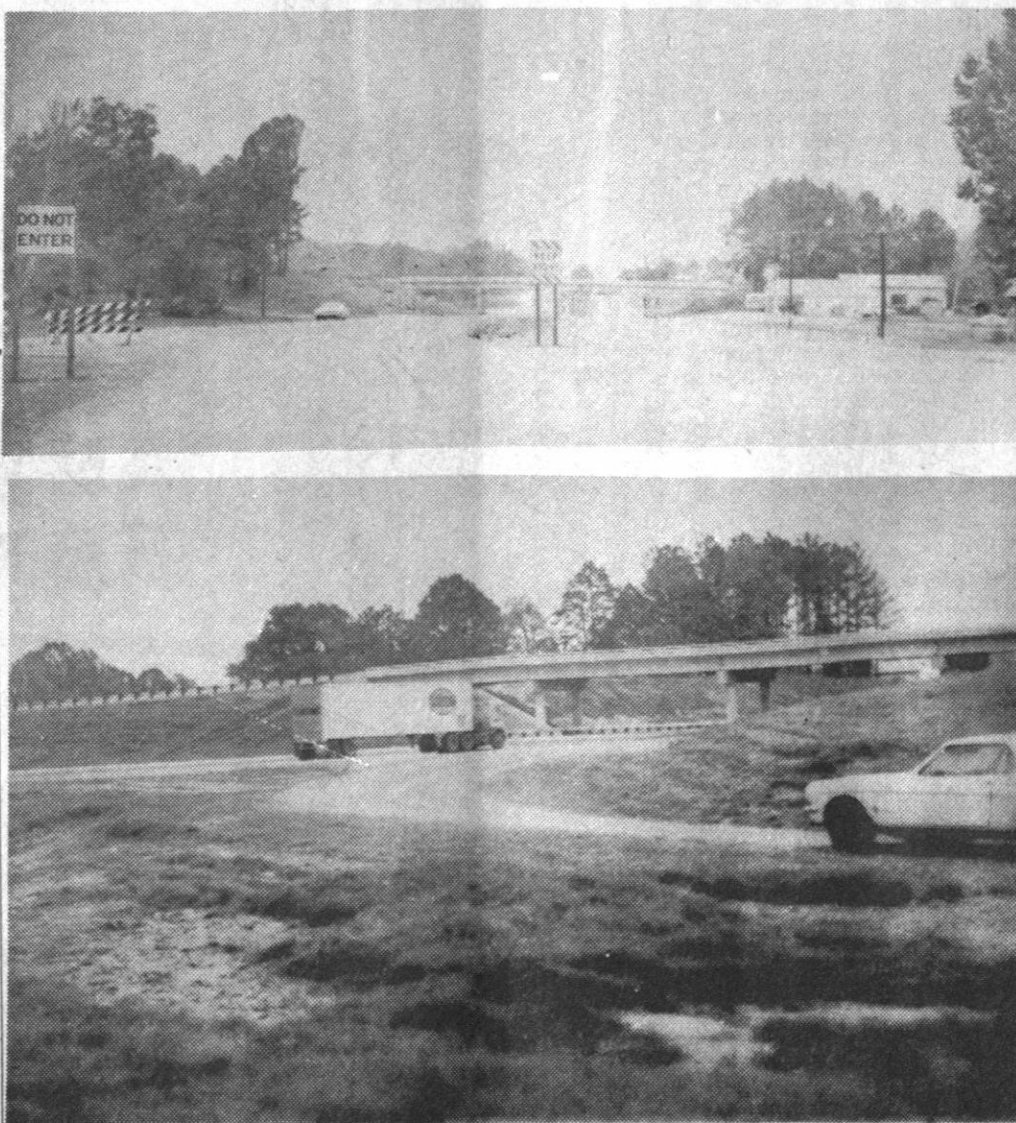

The Ripley Screen Company's fire extinguishers were found to be stored in one place instead of placed throughout the plant so as to be easily accessible in case of fire. At the Iuka Shirt Factory it was learned that there have been no fire drills or procedures planned for the emergency evacuation of said building, and some of the aisles in the plant are congested.

At the Holcutt Garment Plant the aisles are found to be congested, and the electric wiring in part of the plant was found to be unsafe.

The County Auditor's and Tax Collector's books appear to be well kept and in balance.

And now having concluded our labor we respectfully beg to be finally discharged.

Respectfully submitted,
Berlon Durham, Foreman
of the Grand Jury

IT'S OPEN--Burnsville's stretch of four-lane highway is now open for travel as of Tuesday of this week. Highway Patrolmen have been on duty along the strip to redirect nonobservant motorists who continue to travel the old detour route. "This is very dangerous. Motorists travel-

ing through Burnsville from Iuka must keep right. The signs clearly mark the Do Not Enter lane and the Keep Right lane. A serious accident could happen if the signs are not read," it was pointed out. The above photo shows the 4-lane section of Highway 72 traveling through Burnsville toward

Corinth. The lower photo shows a view of the overpass underpass in the modified cloverleaf as traffic goes toward Iuka. This section of highway construction is a small preview of the greater things to come in Tishomingo County.

Local Residents Are Drinking More Soda Pop; Big Increase

Residents of Tishomingo County are pouring soft drinks down the hatch at a greater rate than ever.

According to a breakdown of national and regional figures, sales of the bubbly beverages broke all previous records in the past year.

It is estimated from the reports that local people consumed soda pop at the rate of 419 eight-ounce bottles per person.

As for the Tishomingo County population as a whole, it downed approximately 6,536,000 bottles and cans of soft drinks in the year.

That was some 107 percent more than was consumed in the local area a decade ago. The

total then was 3,152,000 bottles. Elsewhere in the United States, the rise was 105 percent and, in the East South Central States, 95 percent.

The data was derived from the annual reports issued by the soft drink industry and from Department of Commerce figures.

They show that it now takes more than 66 billion (billion is correct) bottles of soda pop per year to slake the American thirst for soft drinks.

Throughout the country, people vary greatly in their use of these thirst quenchers and in the preference they show for certain flavors.

In the South, for example, cola-type drinks are much more

popular than in any other section. They represent 70 percent of the demand, as compared with about 40 percent in the East. On the other hand, more people go for fruit drinks and ginger ale in the East.

The size of the soft drink industry in Tishomingo County is to be seen in the dollar figures. They show that local residents spent an estimated \$693,000 for soda pop last year, as compared with \$252,000 ten years ago.

Part of this jump was due to higher prices. Other factors that contributed to it were the increase in the number of teenagers, who consume more soft drinks than any others, the rising level of income and the great

ter variety of beverages on the market.

The availability of low-calorie soft drinks has also been a major factor in their rising use. It has made them more attractive to the millions of people who are weight-conscious.

Local Installment Debt Now Averages \$910 Per Family

How much of a load are residents of Tishomingo County carrying these days in the form of installment debt?

What part of their income goes each month toward repayment of this debt?

Consumers in the local area, as well as those in most other parts of the country, have been adding to their debt in recent years.

One factor that has brought this about is the increased availability of consumer credit, which has taken such new forms as all-purpose credit plans, bank check credit and revolving credit.

Credit is so freely obtainable now that nearly one out of every two families uses it in its purchasing. It has enabled many people, who could not otherwise have obtained them, to buy cars, homes, air conditioning, travel and other big-ticket items.

As of the middle of this year, the Federal Reserve Board reports, the amount of installment credit outstanding in the United States was \$93.09 billion, a sharp rise over the \$83.43 billion listed a year earlier.

In Tishomingo County, on the basis of this and other studies, the amount of installment debt outstanding is estimated at \$910 per family.

That is what it amounts to on average. It varies widely from family to family. Some owe much more than this and others owe little or nothing.

For the Tishomingo County

population as a whole, the total installment debt comes to approximately \$4,292,000.

The largest part of it, over 38 percent, represents payments due on car purchases. The rest is for other consumer goods, for home repairs and modernization loans and for personal loans. Home mortgages and charge accounts in stores do not fall within this category.

To pay off their installment debt on a regular basis requires nearly 16 percent of the net disposable income of local residents, or about \$75 per month per family.

Is this more than they can handle comfortably? Not accord-

ing to the figures. Only a small proportion of the people have gone too deeply into debt and had difficulties. For the great majority, rising incomes and steady employment have enabled them to carry their debt burden quite well.

Celebrates Birthday

Benny Phifer celebrated his fifth birthday Sept. 13th at his grandfather Hudson's home on Coleman Park road.

After entertaining his little friends for a couple of hours, they were served cake, ice cream and kool-aid.

He gave them party hats, whistles and little match games. Then he opened his many beautiful gifts.

New Salem

A large crowd attended Sunday school Sunday.

Mrs. Vergie Locke is visiting her daughter Mrs. Lucy Welch and family in Aberdeen for a few days.

Miss Helen Cresap spent the week end with her parents Mr. and Mrs. Will Cresap. She returned to Blue Mt. where she has been going to school.

Members of the Skinner family met at Salem last Sunday for a

reunion. Those present included Mr. and Mrs. Sam Skinner, Mrs. Annis Bonds, Mrs. J. T. Work Day

Tough Connection

The liquid-oxygen dome in each of the five F-1 engines used to power the first stage of the Apollo spacecraft is also the point where each engine's 1.5 million pounds of thrust meet the 6 million pound weight of the rocket-spacecraft. Each dome is fabricated of a nickel-base alloy called X-750.

Hot Chambers

The thrust chambers used in the first stage of Project Apollo's Saturn rocket must withstand heat of 5,000°F—half the temperature on the sun's surface. The fuel is used as a coolant by circulating it through tubular thrust chamber walls made of a high-temperature nickel-chromium alloy. This cooling system lowers the thrust chamber walls to a mere 1,000°F.

Well, What Do You Know? fun, games and knowledge

by MARTHA GLAUBER SHAPP, Editor, The New Book of Knowledge

What makes popcorn pop?

Popcorn is different from other kinds of corn, and it's that difference that makes it pop. Popcorn has a hard, tough, waterproof covering. So when popcorn is heated, the nat-

ural moisture inside the kernels can't escape. When it's heated enough, though, the moisture turns to steam and the kernels explode.

Do you know how the Amazon

A lot of people think is called an "Amazon" the other way around. A Spanish explorer, Vasco de Orellana, discovered the Amazon River one day his party was a tribe of fierce women thought they must descend from a race of giants in Greek legends. The Amazonians, who lived in their own country, ruled their own army. So he named the river after them.

AUTO OWNERS

1970 Automobile License Plates will be on sale at the Sheriff's Office during the month of October, but should not be placed on the vehicle until November 1.

You are required to have the following information when you buy a Tag: Make, Year Model, Body Type, Motor or Serial Number, and from whom the Automobile was purchased. In order to receive the proper Tax Exemptions in the State of Mississippi, it is necessary for you to have a Mississippi License Plate for your Automobile.

Auto owners must also have their Social Security number this time. They are also please asked to bring last year's tag receipt.

For your convenience, the Sheriff's Office will be open through the noon hour 6 full days each week during tag buying time. Office hours are from 8 a.m. to 5 p.m.

If you are a resident citizen of Mississippi even though you work in an adjoining state, you are required by law to purchase Mississippi Tags as Mississippi has a reciprocal agreement with adjoining States for the owner of motor vehicles in either State to purchase License Plates in the State where they live and then permitting the owner to use the automobile in commuting to & from work.

If you do not have the required information regard to the description of your Automobile the clerks in the Sheriff's Office will be glad to help you in any way they can to secure sufficient information to purchase a tag.

Plymouth CHRYSLER

Here's 1970.

Plymouth makes it

1970 Hemi-Cuda.

This year, there are 10 new Barracudas. And we've changed the looks substantially. (We've packed a 426 Hemi engine under a "Shaker" hood on one of them and called it the Hemi-Cuda.)

However you look at it, our Barracuda is all-new. We've moved it two inches closer to the ground. Pushed the wheels farther apart on our standard torsion-bar suspension. Put a tough optional bumper on the front that comes in most paint colors. And given the interior the design and comfort of a jet cockpit.

If you want a car that makes it . . . Plymouth makes it.

1970 Sport Fury Brougham.

Here's our luxury model. (One of 28 Fury models with a new wide stance.) It's big enough inside to carry six adults in comfort. It's plush. But the price is still Plymouth. With a front seat that has individual adjustments for the driver and passenger, center armrests, and a reclining back on the passenger's side.

Of course, the carpeting is thick, the headlights are hidden, and the price is still Plymouth.

Whether you like your luxury in small packages, or as big as a 1970 Sport Fury . . . Plymouth makes it.

If you want a car that makes it, visit your Plymouth dealer's today.

Great Odds Are Overcome By Determined Woman

Mrs. Rachel F. Hoffman, a native Prentiss Countian, was born with a very rare bone condition similar to arthritis. She is less than 30 inches tall and has seldom weighed more than 50 pounds in her life. She has never walked and has spent most of her life in a wheel chair.

Mrs. Hoffman, aunt of Buddy Alvin Ford Jr. and Angela Rose Ford of Belmont, is the granddaughter of W. C. (Buddy) Bolton and the late Mrs. Modena Massy Bolton of Belmont.

She has overcome almost insurmountable odds to lead a relatively normal life that has included marriage, a family, and several interesting hobbies.

She was married in 1956 to Richard Siffert Hoffman of N. Manchester, Indiana. They have two children, Josephine, 12, and Todd, 9.

Mrs. Hoffman made medical history and broke all medical records in 1957 in Indiana when she gave birth to her daughter, Josephine, being the first woman in her condition on record to give birth to a living child.

The baby weighed 6 pounds and was 19 inches long.

In 1959 she set another record when her son, Todd, was born

at the Northeast Mississippi Hospital, Booneville. He weighed 5 pounds, 15 ounces and was also 19 inches long at birth. Both children were delivered by Cesarean section.

They are normal and healthy and have never been ill except for the normal childhood diseases. They attend Marietta school.

Mrs. Hoffman does her own housework, washing and ironing, and keeps herself busy with her hobbies. She does all kinds of needlework and reads quite a bit.

MRS. RACHEL FORD HOFFMAN

She spends most of her spare time writing in her book, which will take up most of the next two years.

The Hoffman family make their home at Five Oaks in Mt. Pisgah Community, a five-acre estate that has been home for the past 10 years.

"Mrs. Hoffman says, 'My only regret in life is that I didn't get a formal education.'" Mr. Hoffman is an employee of M.S. Jordan Corporation in Booneville.

CLEMENT ATTENDS FLORAL ASSOCIATION

Walter Myron Clement spent the week end in Chicago where he attended the American Floral Association and competed in designs and modern art. He won first place in Modern cut arrangement and fifth place in funeral designs. There were representatives from all over the states, Japan and Holland. They enjoyed floor shows, buffets and other entertainment when they were not competing.

Walter also visited several old friends while there. He returned home on Monday night.

TISHOMINGO

Jimmy Zuber of Miss. State spent the week end with his grandparents Mr. and Mrs. Dwight Buchanan, Ramond, Charles and Linda. Jimmy is a Junior at State this year.

Honored With Birthday Dinner

Mrs. Dallas Winginton of Belmont honored her husband, Dallas, with a birthday dinner Sunday, Sept. 21.

Those enjoying dinner with him were their daughter, Mr. and Mrs. James Montgomery and Mike, Mrs. Grover Ivy, Glenn Ivy and daughter Myre, Mr. and Mrs. Robert White, Mrs. Canzady Montgomery, Mr. and Mrs. Cline Pounders, Angie and Stephen, Mr. and Mrs. Void Castleberry, Mr. and Mrs. John Tanner, and Mr. and Mrs. Rufe Tanner.

Those enjoying supper with him were Rev. and Mrs. Huey Wood and Donald, Deck Montgomery, Rev. and Mrs. Grady Hudson and Marille, Phillip Anglin, Mrs. Canzady Montgomery, Mrs. Tula Montgomery, Mrs. C. L. Ivy and Ruth, Mrs. Mayhew and Mr. and Mrs. James Montgomery and Mike.

Surgical dressings are made from cotton lintners.

Janis Walker Places First In Public Speaking Contest

Janis Walker, a freshman at Iuka High School, wound up her summer activities in a constructive manner and for her efforts has been awarded a \$25.00 savings bond in behalf of the 4-H Council. Janis was chosen the best speaker in a 4-H Club Public Speaking Program held in the county during the month of August.

Leon Perry, assistant county agent and director of the 4-H Club Public Speaking Program, states that this venture was a "pilot" to get some degree of reaction as to the type of response such a program could gain from the young people of the area.

"We're very well pleased with the work put forth in the four week period. Youngsters met each Monday and Thursday nights and we studied together and they learned the fundamentals of speech making," he said. Afterwards there were refreshments and fellowship.

Mr. Perry was assisted in the program by his twin daughters, Jean and Jane, who are elementary and secondary education majors at MSCW. They are former NEMJC students and both enjoyed speech classes there and

were a very valuable help in leading the youngsters.

"Each night the classmembers would vote on the speeches made and would chose a Best Speaker for the night. Each of these received the booklet "Good News to Modern Man" and at the close of the month each student in the class had received a booklet.

"As I've said, this was strictly a pilot program. But the response and the worthwhile points our students retained from the instruction have spurred us on to planning such courses in the county for next summer," he stated.

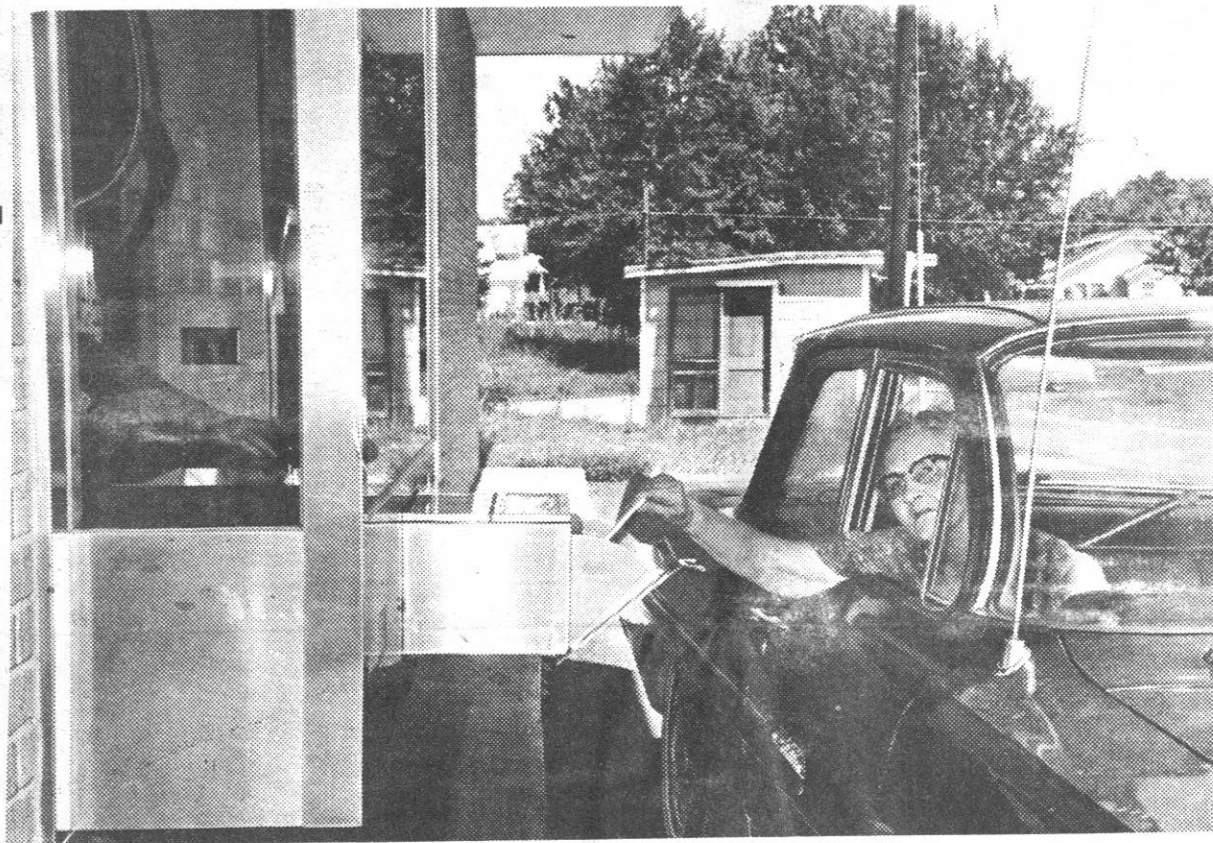

The programs are to be held in several different locations over the county for convenience.

Young people between the ages of 9 - 19 are eligible to enter whether 4-H members or not.

"Since speech is not taught in all of the education programs in Tishomingo county, we have been encouraged in offering this opportunity to our youngsters through the 4-H club program," Perry pointed out.

"We hope that next year when this course is offered there will be a good number of aspiring young speakers who will take advantage of the opportunity and enjoy a few evenings of the 4-H Club boys and girls public speaking."

Mr. Taylor is retired but enjoys this form of work to provide him with a little extra spending money and some good exercise.

COACHES & CAPTAINS — Assistant coach Kenny McClain, Capt. Robby Grisham, Head Coach Grady Ferguson and Capt. Bobby Bonds pow-wow over the upcoming game with Tishomingo Friday night at 8

o'clock on the Tishomingo field. The Chieftains have 1 loss and 1 win to their credit while the Tishomingo Bulldogs have a no win record to this point. Neither team played last weekend. Iuka had an open

date. Tishomingo's game with Waterloo, Ala., was called off due to an automobile accident involving one of the Waterloo players that occurred just prior to the team's departure for the Tishomingo stadium.

Cardinals Get Past Vina 6-0

Mother nature and a slight case of overconfidence nearly derailed the Belmont Cardinals' Victory Express, Friday night. The Belmont football Cardinals eked out a narrow 6-0 win over the scrappy Vina Red Devils in a contest that involved a steady downpour of rain, some inevitable fumbles, and an untimely injury to Belmont quarterback, Jeff Comer, in the first period.

Later, in the initial period, the Cardinals threatened, but a half-back pass from Roger Wood intended for senior end, Jackie Senter, fell short and incomplete. The rest of the first period and a big part of the second period featured spirited defense on the part of both teams. The Cardinals came alive late in the second quarter when junior half-back, Tommy Moody, intercepted a Vina pass at about his own 35 and ran it back all the way for a TD with good blocking from Phillip Gray and Roger Wood. The pass for the point after touch down was overthrown and Belmont's halftime lead was 6-0.

The third quarter and most of the fourth quarter consisted of a heavy downpour of rain, some fumbles, and defense. Late in the fourth quarter, Cardinal half-back, Roger Wood, got loose off right guard with two good blocks and drove to near the Vina 10. The Belmont passing attack was unable to slick on the soggy field, and Vina took over on downs. No other major scoring threats developed, and the game ended: Belmont 6 — Vina 0.

Commenting on the game, Belmont head football coach, Paul Prestage, stated that he was satisfied with the victory as such.

However, he cautioned that Cardinals' overconfidence led to too many mistakes and an overall lack of good team effort on the field.

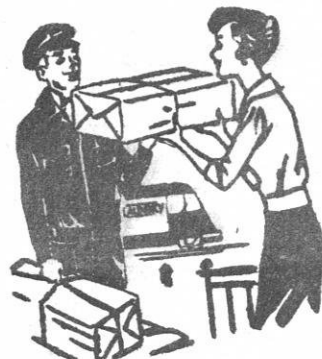

You can rest assured that overconfidence and a lack of team effort will not be a problem for the young Cardinal athletes in their game this Friday night at

Baldwyn against the Baldwin Bearcats of the Tombigbee Conference. This is one of the big games of the season for Belmont. The Coaches and players have worked hard this week to insure that they are ready both psychologically and physically for the Bearcat game. The "keyed-up" Belmont Cardinals are dedicated to the purpose of going over to Baldwin to win this big game. Let's all go over Friday night, if at all possible, and boost our Cardinal team to a victory in the milestone game.

Riverton, Ala., was the setting for the annual Riverton reunion on September 14. The hills were alive with talk and laughter as the people remembered just one of the ole pioneer families.

The family being honored this year was William R. Thompson, born October 12, 1825 — August 25, 1897. His sons are Farley D. (Bud) Thompson, born September 18, 1855 while Riverton was still known as Chicksaw, Ala. His wife was Charlotte

Jane Taylor, born 1867. These are the parents of Mary Thompson, Mrs. Jessie Wagnamon of Cherokee, and Joe Thompson of Iuka.

Those to enjoy the reunion were Bedford Hairrell, Mary Thompson, Mr. and Mrs. Bert Wagnamon, which are 90 years of age, Mr. and Mrs. Charlie Whitaker, Mrs. J. B. Woodall (known as Mary Buchanan), Ralph Johnson, Mrs. Roby Bouthit, Benny Reeves, Katie Edmondson, Oliver Edmondson, Rev. and Mrs. J. E. Stewart, pastor of the Riverton Church.
