Bids Asked For Construction Of Courthouse

Sealed proposals for the construction of the new Tishomingo county courthouse are being asked for by the Board of Supervisors. Bids will be accepted until 10 a.m. (CDT) on July 25, at which time they will be publicly opened and read aloud.

The new county facility will be slightly in excess of 14,910 square feet on the street floor, being 109 feet, 6 1/2 inches wide by 136 feet, 10 1/2 inches

deep. The building will be two-level with entrance to the main floor from highway 25. Entrance will be into the basement or lower floor from the rear. Fronting to the east, it will be situated on the west side of highway 25 on parcels of land purchased earlier this year for the new courthouse. The site is situated across from the Brackeen property.

To be one of the most beautiful public structures in North Mississippi, material of the building on the outside will be Tishomingo Sandstone in certain areas and cement with exposed quartz crystals in other areas. Portions of the inside will also be Tishomingo stone. Framing will be steel studs and the entire building will be thoroughly insulated. All walls, ceilings, and floors will have a 2-hour fire rating and the vaults will have 4-hour and 6-hour fire ratings. This means that the walls will withstand fire for as much as two hours and some vaults will safely keep records for 4 hours and other vaults for 6 hours before anything in them will catch fire and burn.

The floors in corridors and all public places will be covered with terrazzo floor covering and office floors will be of vinyl asbestos tile.

Main floor of the building will

include, on the north side, a board of supervisors meeting room, the chancery clerk's office, the records vault, and circuit court clerk's office. On the south side of the new courthouse will be located the tax assessor's office, superintendent of education office, county attorney's office, witness rooms, veterans service office, and the sheriff's office. At the rear will be a lounge with kitchen facilities. The lounge will also double as a grand jury room when that group is in session.

Center of the main floor will be a large courtroom with the judge's chambers and other necessary rooms for conducting the business of court, including bathrooms. There will be a large court room auditorium with ample seating capacity.

Lower floor of the new courthouse will have some finished offices and rooms including the "mechanical room" in which will be housed the machinery for cooling and heating.

Air conditioning for summer and heating in winter will be by a central system utilizing water. Each department or office will be able to pre-set and maintain the temperature the occupants want.

Architects for the building are Malvaney Associates of Tupelo. The architects state that 300 calendar days will be allowed for construction and further stated that the new courthouse should be finished and ready for occupancy by the First of July, 1970.

CRACKDOWN ON THE SDS

Though the misnamed Students for A Democratic Society is a clear threat to good order and academic freedom at every American university, few institutions have yet taken an absolutely firm line in dealing with this destructive organization. The kind of measure needed to prevent campus disorders is that taken by the Louisiana State University Board of Supervisors at the close of the academic year. The board approved a resolution banning the SDS from all campuses within the LSU system. The LSU board resolution said that "It's current activities throughout the United States make it apparent that SDS is a radical, revolutionary organization dedicated to the destruction of American institutions, beginning with American universities. It, therefore, constitutes a clear and present danger to the entire Louisiana state university system."

The SDS was formed in 1962. It has been the spearhead of revolutionary action from coast to coast. Only now, seven years after its founding, are colleges and universities beginning to wake up to the SDS' destructive goals. In the past, the SDS did not have any difficulty finding a campus on which to hold its annual national convention. This year, the SDS admitted, it was turned down by 37 colleges and universities and at least 25 meeting halls, parks and camps.

Some institutions have yet to demonstrate courage in dealing with the SDS. Harvard, the nation's oldest university, actually allowed an SDS spokesman to deliver a harangue at commencement exercises. The speaker poured abuse on the United States and, finally, had to be removed from the platform. At Radcliffe, Harvard's sister college in Cambridge, Mass., the SDS also was given an opportunity to have a spokesman address the graduates.

Indeed Radcliffe authorities seemed determined to give offense to patriotic, law-abiding citizens. Its commencement speaker was the Rev. William S. Coffin, Jr., the Yale University chaplain who last year was convicted by a federal court jury of conspiring to violate the selective service law.

Yale showed no more concern than Radcliffe for the feelings of its patriotic alumni. A member of the graduating class was allowed to deliver a speech attacking America's involvement in the Vietnam War. No one was given an opportunity to speak in behalf of the Yale alumni proudly serving in Vietnam or who rendered loyal service to their country in past wars in defense of freedom.

At Princeton, the valedictorian, Michael A. Bernstein, called the United States "sick." He expressed solidarity with Black Panthers in New York, mutinous soldiers in California, and SDS members involved in a disturbance at a New Jersey plant. He said "their options open up possibilities for us, and . . . their defeat would be ours as well."

By allowing a handful of students to give such speeches, these universities give the country a false picture of attitudes among young Americans in college. The SDS has only about 35,000 members, a small number in a country of more than 200 million people. The militant minority is just that, but the prominence they get — often with support of radical faculty

members and administrators — helps the extremists build up their image as a powerful force. The vast majority of college students want to get an education and firmly disapprove of the destructive outlook of the SDS and similar groups. Often, they want to take counter-action against the extremists.

At Ohio University recently members of the Young Americans For Freedom, a patriotic group expressing the will of the majority of students, successfully frustrated the attempts of SDS members to break up an ROTC parade. Such counter-action is growing in importance as the SDS becomes more aggressive.

The Student Council at Palm Beach Atlantic College, in Florida, said "The students here believe it is high time some stu-

BLACK MANIFESTO THING OF BEAUTY

JOHN J. SYNON

It has been some time since I have seen anything I approve as thoroughly as I approve the Black Manifesto, that vehicle the Negroes have devised to extort six-billion dollars from the white churches of America.

Yes, siree. I hope they get every dime of it, unencumbered, cash in hand.

If they do, it will be some get. There are, so they say, 11 million Negroes in this country, and there are 1,000 millions in a billion. That would be, it looks like, 91 dollars, times six, for every black man, woman, and child. Think of it; right at \$550 per head. And with the size of some of the colored "families", that getsus, it seems to me, should produce better than a soupcon of Freedom Now. Better than 40-acres-and-a-mule, any day.

Think of all the new industries the Negroes would create with that now-sterile money; all the Head Start centers they would initiate; the educational facilities; the medical dispensaries. And if there is a Honky or two crude enough to suspect the money would go for juke-and-jive instead of good works, shame on them.

I say, think of it: \$550 into every outstretched black (only) palm. Invigorating. For years, now, I have been exposed to the flab-mouthed, unctuous intonings of the Liberal clergy, telling me what is Christian duty, how evil white folks have been for the mistreatment they have visited upon the unfortunate black man. And I must accept their bleatings as sincere. That being so, Reverend, and the arm now being put on you instead of me, get up with the dough, man. Show me by example what is Christian duty. Let's see how Liberal you are — with your money.

Titillating, right?

And then there is another development of which I approve. That is the suit a New York mystery man, a lawyer named Frederick Walz, has brought. Lawyer Walz — nobody seems to have heard of him before — by mail, filed a brief in Federal court to the effect that tax exemptions on church property are unconstitutional because, by escaping their share of the burden, the churches shuffle an un-

dent body spoke up for the huge majority of students and let it be known that they are strongly opposed to the disruptive actions of small groups of students."

For the majority to take a stand is the American way. The New Left may soon find it is facing a revolt in reverse.

Like any napped fabric, brushed cotton denim should be washed inside out to avoid collecting lint. Put a fabric softener in the wash water to help restore the nap. To keep the brushed denim soft and velvety looking, always dry in the automatic drier. Use medium heat.

LEWIS LLEWELLYN

Outgrown Our Need of God?

Just seven years from now — in 1976 — it will be exactly 200 years since the original Independence Day.

We have come a long way since that time.

Starting then as the smallest and youngest of the nations of the world, we have become the greatest and most powerful.

Our type of government has been copied by many others.

But today we are being attacked, both internally and externally, by those who have sworn to bury us. And the attacks — especially the internal ones — are having too much effect for us to be complacent any longer.

Perhaps it is time that we should remind ourselves that we have a heritage of dependence on God — so well authenticated that it would be impossible to remove this from our history, even if we wanted to do so.

God-Given Right

Our Declaration of Independence states that the right of mankind to enjoy freedom is a gift of God. Here are the words:

"We hold these truths to be self-evident, that all men are

created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness."

Our coins state, "In God We Trust."

Our pledge of allegiance declares that we are "one nation under God."

The president of the United States, when he takes the oath of office, places one hand on a Bible and raises the other toward heaven as he pledges to uphold the constitution.

The Bible says, "Blessed is the nation whose God is the Lord."

If our nation needed God's help in overcoming its enemies when it was the tiniest infant nation in the world — and its leaders then said that it did — can we afford now to take the attitude that we have outgrown the need of Divine assistance?

When we take this attitude, we are on the road to disaster.

Wouldn't it be far better to acknowledge now that we need the Lord and to ask Him to intervene in our affairs?

Abraham Lincoln said, "I have been driven many times to my knees by the overwhelming conviction that I had nowhere else to go."

J. Edgar Hoover has stated, "The force of prayer is greater than any possible combination of man-controlled powers, because prayer is man's greatest means of tapping the infinite resources of God."

Prayer for This Time

One of our favorite patriotic songs, "America," has a stanza which is really a prayer:

"Our fathers' God — to Thee,
Author of liberty — to Thee
we sing.

Long may our land be bright
With freedom's holy light.
Protect us by Thy might,
Great God, our King!"

This Independence Day, let's pause in our celebration long enough to pray this prayer.

Cotton T-shirts and knit underwear can be machine-dried in the same load with bath towels or sheets. Remove before completely dry, block to original size, and finish drying on top of dryer.

Down at Tupelo Thursday night it was good to visit with Van Savell who was back in Mississippi for a few weeks. He and his wife and children are in Atlanta. Since they've moved to that section they've visited with Pat (Foote) and Norman Hyneman as well as Janette (Clark) and Izzie Pike, Jerry Kay and his wife and the

former Joe Bonds and her husband. All of them are full-blooded Tishomingo countians now living in Atlanta.

Van was talking about home-folks; H. L. Coker, in particular. Mr. Shook, superintendent at Iuka school when we were students. Will Coker, down in Hattiesburg, wrote last week and also sent his regards to the now retired educator, which I pass on at this time.

Speaking of William reminds me that I'm looking forward to receiving the promised copy of his new book — autographed, I hope. If you like a copy just say the word and I'll get one for you.

Mrs. Jesse Allmark, whose husband is formerly of Belmont, has been elected secretary of the Corinth Jayces. Richard "n Cheryl Clark and I enjoyed a visit in their home about a year-or-so ago the night the Jaycettes organized.

Mrs. Arthur Lenoir out in Paris, Texas, wrote a nice note this week, saying she enjoyed reading the *Scotch Pad*. Actually, her pupse in writing was to see that she got a copy of a back issue of *The Vidette* — Belmont News that she'd missed. Two weeks a long time to go without a per!

Mr. and Mrs. Clyde Hardy of Port Angeles, Washington, have written to tell us the beauty of the countryside where they've made their home for the past 20 years. They left here some 30 years ago for Arkansas where they lived before moving to Washington state 10 years later for Clyde's health.

Just listen to us: "Beautiful mountains, snow-capped the year round, tower over deep blue lakes filled with salmon. It is never too hot or cold. People have dairy farms and raise vegetables the way they do cotton back there at home. They also raise flowers for market and it's not unusual to see vast fields of lovely daffodils, prim roses, tulips and many other flowers that are shipped all over the country. This is the vacation land of the world." Isn't that grand? Mrs. Hardy went on to say that she could look out her back window and see Canada just 18 miles across the

strait. Ferries cross back and forth four times a day.

Mrs. Hardy told me this: "We enjoyed the story about Reburn Wilson's granddaughter's kittens in the old oak tree. I remember that tree very well since it is at the old home place of my grandparents, William and Elizabeth McNutt, there at Paden. My grandfather took my grandmother there as a bride many, many years ago. He married her where the town of Red Bay, Ala., is now — when there wasn't a town there at all. He said it was all in fine pine timber. He carried her to their new home in an old ox wagon and it took them three days to make the trip. They were both 16 at the time. They lived at the old homeplace all their married life and raised a family of 12 children."

Mrs. Hardy, a sister to Mrs. Hazel Parsons of Iuka, ended her letter with "We want to come visit there in Mississippi this Fall if I am able to make the trip. We love the old Home State very much and our many friends there. I thank you for *The Vidette* and all the nice things that we read in it. It's like a big letter from home."

If your house is like our house, Saturday night means Lawrence Welk and his "champagne music" — otherwise, it just wouldn't be Saturday night. You'll be interested to know that he and his complete company of musicians will be in Jackson, Mississippi Thursday night, August 7 for one 8:30 show at the coliseum. This is the only appearance he'll make in the state this year.

He'll have Joe Feeney, Larry Hooper, Jo Ann Castle, Dick Dale, Tanya Falan, Bob Lido, Bobby Burgess and his dancing partner, Cissy Kin, Natalie Nevins, Bob

Ralston on the organ and Salli Fly girls who sing to the others.

I saw Deck Mont on Sunday afternoon in down at Belmont, getting things together for a trip to Philadelphia, this week where he'll be with "Singing Principals."

Mrs. Minnie Wagon of Route 3, Iuka, some unusual varieties. They're garden fence. She and cobbler she's them are really go like the ordinary Mrs. Thompson to mind my Aunt bound to be the cobbler maker in the course, Mrs. Thompson title in Mississippi berries are black or green.

Mrs. Ernest Jones harvest over the blackberries down house on the Pleasant. From all these reports like there'll be plenty as well as blackberries table this winter.

Speaking of winter most unbelievable this. Have you ever a hot spell? "The cracker" certainly it's well put for July weekend.

Eddie Carson, in Germany, has to his parents, the sons in Iuka, that he's been on a tour of countries and large there including Switzerland, France; and Italy.

Slow Pitch Gets Close In Games

by Dale Moore

"Close" was the theme for the slow pitch softball league on Monday night. Midway got back on the winning track by handing Red's Gulf their third straight defeat, this time by a score of 9-6.

The second game was even closer as the Jaycees won their second in a row with a 17-16 victory over the TV Cable Co.

Red's Gulf jumped off to the lead in the first game but was unable to keep Midway from scoring runs throughout the match. Red's final rally in the last inning fell short as Midway took the 9-6 victory and also the league lead.

The final game for the night proved to be a slugfest as both the TV Cable and the Jaycees pounded the ball all over the field. TV Cable took the early lead and then the Jaycees had their turn before swapping again with TV Cable.

Finally, the Jaycees scored eight runs in their last time at bat then held off the TV Cable team to win the decision.

Buddy James homered for the losers as did Richard Clark for

the winners.

Next Monday night, Red's Gulf will play TV Cable at 7:45 and the Jaycees meet Midway at 8:45.

The standings to date are Midway 3-1, Jaycees 2-2, TV Cable 2-2, and Red's Gulf 1-3.

Legal Sales Of Liquor Help To Fill Tax Coffers

Three years ago Tuesday, of this week, Mississippi poured its first "legal" drinks of whisky under laws lifting the prohibition which had blanketed the state with notable exceptions—for more than half a century.

The state Tax Commission reported Monday more than 50 million dollars in gross business is expected to be recorded when results of whisky sales this fiscal year—July, 1968, through June 30, 1969—are known.

The gross means, according to Tax Commission sources, the addition of more than 15 million dollars for state tax coffers, representing collections from sales taxes on liquor, excise taxes, payments for licenses and the profit the state collects through its 17 per cent markup as the exclusive whole-

sale liquor dealer.

In its first year of operation, the Alcoholic Beverage Control Division of the Tax Commission reported a gross of 30 million dollars, which meant an 11-million-dollar "profit" to the state. During the next 12 months more than 45 million dollars was grossed, paying 13 million dollars into state coffers.

The 1966 law, which says counties may "vote themselves out

from under" the state's prohibition law, has been "wet" votes in 42 of the state's 82 counties, areas representing nearly 75 per cent of the state population.

Prior to legalization, the state collected less than seven million dollars a year from its widely-criticized "black market tax" on the illegal commodity where it was sold.

A Tribute To Mrs. A. H. Montgomery

From those who appreciate her as a Mayor, as a person, and friend.

We, the friends and admirers of Mrs. A. H. Montgomery would like to make a public acknowledgment of our gratitude for the sixteen years of faithful service which she rendered to the town of Burnsville while serving as its Mayor.

Her value as a friend and neighbor originated many years before, when, as our doctor's wife, she worked side by side with him in performing all the duties necessary in times of sick-

ness and death.

When she assumed the office of Mayor, this same spirit of public service remained constant. Her interest in each person as an individual whose rights were to be respected and whose welfare was her personal concern, made her an outstanding public official. Her integrity was unquestionable, her high principals undisputed.

As she looks back on the past sixteen years, we know that it is with a clear conscience and a satisfied mind. What better reward could any of us ask?

Her life is an example of the conviction that there are two factors which control any successful human being—our own honest efforts and God's guidance and support.

So, as a tribute to Mrs. Montgomery, we, her many friends, would like for her to know that we appreciate her years of service and summarize it with these two words—"WELL DONE".
