FERTILIZE WINTER GRAZING

It will pay you to keep your winter grazing crops well fertilized. This is especially true now with the high cost of protein and other feeds.

Lots of the nitrogen you applied earlier was leached out by the prolonged rainy period, so give the grazing crops a shot of nitrogen now and another in late February or early March.

If fields are too wet for spreader trucks to get over, then better consider flying on the nitrogen.

Urea contains 45 percent nitrogen and ammonium nitrate 34 percent. The recommendation is to use 150 to 200 pounds of urea per acre or 200 to 275 pounds of ammonium nitrate. This means that using urea as a nitrogen source would be to your advantage if the material is to be applied by airplane.

Winter grazing crops that contain good stands of clover should need no additional nitrogen; however, those with skimpy clover stands will need the nitrogen.

WINTER FARM JOBS

Winter time farming includes subsoiling or chiseling, rowing up heavy soils, liming, applying phosphate and potash if needed, locating good quality planting seed and analyzing what happened to crops in 1972.

If weather permits, Planavin or Treflan should be applied on heavy soils where grass is a problem.

SOYBEAN DAY

The ninth annual Mississippi Soybean Day will be held January 15 in the Union Building at Mississippi State University.

Reports on some of the promising new soybean herbicides will be one of the highlights of the day, as will reports on new varieties by Dr. E. E. Hartwig and an analysis of the

soybean market picture. Winners in the state soybean contest will be recognized and will receive awards including a trip to Europe, trophies and certificates.

SOYBEAN SEED

Soybean seed production in Mississippi is smaller than in recent years and a poor seed crop is reported from surrounding states. This means that if you expect to get the kind of seed you want for 1973, you had better get busy and book the seed as soon as possible.

Desiderata

Go placidly amid the noise and haste and remember what peace there may be in silence. As far as possible without surrender be on good terms with all persons. Speak your truth

quietly and clearly; and listen to others, even the dull and ignorant; they too have their story to tell. Avoid loud and aggressive persons, they are vexations to the spirit. If you compare yourself with others, you may become vain and bitter: For always there will be greater and lesser persons than yourself. Enjoy your achievements as well as your plans. Keep interested in your own career, however humble: It is a real possession in the changing fortune of time. Exercise caution in your business affairs: For the world is full of trickery. But let this not blind you to what virtue there is: Many persons strive for high ideals; and everywhere life is full of heroism. Be yourself. Especially, do not feign affection. Neither be cynical about love; for in the face of all aridity and disenchantment it is perennial as the grass. Take kindly the counsel of the years, gracefully surrendering the things of youth. Nurture strength of spirit to shield you in sudden misfortune. But do not distress yourself with imaginings. Many fears are born of fatigue and loneliness. Beyond a wholesome discipline, be gentle with yourself. You are a child of the universe, no less than the trees and the stars, you have a right to be here and whether or not it is clear to you, no doubt the universe is unfolding as it should. Therefore be at

peace with God, whatever you conceive him to be, and whatever your labors and aspirations, in the noisy confusion of life keep peace with your soul. With all its shame, drudgery and broken dreams, it is still a beautiful world. Be careful. Strive to be happy.

Women veterans may now claim their husbands as dependents, to qualify for additional GI Bill allowances on the same basis as married male veterans.

Widowers of female veterans are eligible for the same VA benefits as widows of male veterans, under the new veterans' education law. Details are available at any VA office.

Birth Registration Cards Now Available From State

"The Vital Statistics Bureau of the State Board of Health has initiated a new service for Mississippians," says Dr. Hugh B. Cottrell, State Health Officer.

Although the law may require a person to provide a certified copy of his birth on specific occasions, "We now provide a birth registration card, which suffices in many instances," said Paul Hawkins, Supervisor of the Vital Records Unit.

The card is similar to a driver's license in size and is embossed with the person's name, date of birth, country of birth, sex, race and state certificate number. Also included on the card is the date that the certificate was filed and the card issue date.

One may request a card by writing the Vital Records Registration Unit, Mississippi State Board of Health, P. O. Box 1700, Jackson. A fee of \$2.00 should be enclosed and the name, date of birth, and county of birth included. A copy of the birth certificate and birth card requested at the same time will cost \$3.00.

"A card of this kind can be a real asset," Hawkins added. "It provides quick proof of age and serves as ready identification. It will probably prove to be a convenience that people will use frequently and even buy as gifts."

Dr. Cottrell reiterated the fact that only a certified copy of the birth certificate is acceptable in some situations due to certain legalities. "But

in most cases, the birth card will provide necessary information, and this is much more convenient," he said.

Born to Lose

The Humane Society of the United States

By Mary B. Davis
"BORN TO LOSE"

"If you have a cat or dog that produces litter after litter of offspring, you are responsible for some of the deaths of millions of cats and dogs that must be put to death every year just because no one wants them."

That dismaying statement upset my husband and me very, very much. It saddened us and made us feel very guilty. It made us FEEL guilty because we WERE guilty of letting our own cats and dogs have litters. We love kittens and puppies so much, in fact, that we actually looked forward to their birth.

That is, we did up until the day we read what The Humane Society of the United States had to say about the cruelty involved in LETTING litters be born when there are already literally millions now in the world without a home.

Realizing that what the HSUS said is true, we decided never again to let a litter be born at our house if we could possibly prevent it. This past year, we "adopted" a cat and a dog that were already about to have offspring -- but except for those two, we have not had any births at our house since learning that it is an actual CRUELTY to animals to let

litters be born as long as there are so many homeless cats and dogs already in the world.

Please help make 1973 a better world for the animals by doing your part to lessen their suffering. If you are unable to get your animals spayed or neutered, please keep them confined during heat periods.

And please BE KIND TO ANIMALS every day in the year, and not just during "Be Kind to Animals Week." Let's prevent animals from being "Born to Lose!"

CELEBRATES ANNIVERSARY
Mr. and Mrs. Luther Browning of the Holts Spur Community celebrated their 50th wedding anniversary on December 24th.

BLESSED ARE YE THAT
SOW BESIDE ALL WATERS
ISAIAH 32:20

Dividing the Old and the New Testaments there is a blank page that represents a solid block of four hundred silent years - years without a prophetic voice.

Then suddenly the silence of those years was shattered by a "man sent from God, whose name was John." John 1:6. The need of this hour in which we live is men sent of God.

Can you imagine for four centuries there had been hundreds of priests, and yet the nation of Israel was far from God. But what God could not do with a whole army of priests, hundreds of priests, in hundreds of years. He could do in six months through one man filled with the Holy Spirit.

This man John was very wonderful. The amazing thing about him was that he was filled with the Holy Ghost even from his mother's womb. (Luke 1:13-15).

If I could pray one prayer and die in five minutes, I would pray that God Almighty would send to our generation a whole battalion of men like John the Baptist. Give the world ten thousand John the Baptists, and they would bring the world back to God.

The church as we know her creaking along like an ox cart on a twentieth century speedway, must be renovated, re-

newed, empowered and you and I who are part of her and speak for her must tear up our old garments of human, fleshly energy, and seek and receive like Elisha, a mantle of God, the spirit and power of our risen Lord.

If the midnight hour is just upon us (and who dare deny it?) and the cry is about to go up, "Behold, the Bridegroom cometh; go ye out to meet him," how important is it that we hear that cry is heard we should be numbered amongst the wise virgins with oil in our vessels with our lamps, for when he does come, it will be with such startling suddenness that there will be no time for preparation. (Matthew 25:1-13).

It will then be too late to go and buy, even without money and without price, for the Word of God is clear, "Behold I come with rapidity," Rev. 22:12 translation.

May we all watch, wait, work and pray for the coming of the Lord, and finally be amongst those who will gladly welcome him on his arrival, and be changed into his likeness as he appears, and be with him forever! (Eph. 5:18; Matt. 24:23-51; Mark 13:33-37).

Revival is imperative if we are going to save the world from collapse. It is tragic that we see so few signs of revival. Too few are calling upon God to bare his mighty arm. The nations will never get on their feet until the Christians get on their knees. We need holy violence in these days of flabby faith and lukewarm hearts! (Matthew 11:12).

There is no doubt that the restoration of the prophetic vision will bring about the showing up of the hypocrites, the false shepherds, and the wolves in sheep's clothing in the church of today. It will purge out the heretic, as God declared it would: it will mean the cleansing of the church, "With the washing of water by the Word." (Eph. 5:26).

We cannot blame the unconverted, but the Christians, for the moral decline in our countries. To a great degree this generation of preachers is responsible for the generation of sinners. Judgment must always begin at the House of God. (1 Peter 4:17).

We have shuddered to see a minister of the Gospel hold the hand of an attractive woman (and it seldom happened with one not attractive) looking into her eyes, and manifesting a lover-like familiarity.

The world can take people as dull as myself and put us through the machinery and process of a Bible school, turning us out like Ford cars in Detroit. Everyone would be stamped almost with the same thing on them. We would have almost the same intonation of voice but only the Holy Ghost can make men weep!

The Apostle Paul knew that God never intended for his people to slump down in self-satisfaction. Constantly there is need for exhortation! God hates lukewarmness - a condition of not being very good - and not (apparently) being very bad. Self righteousness, self-complacency, lukewarmness - all these things are detested by the Lord. The lukewarm are to be spued out - unless they repent. (Rev. 3:14-22).

If we believe this scripture, we will certainly recognize that it is going to take special preparation to make us ready for the coming of Jesus Christ, and, in order to do this very thing, Jesus Christ has promised to pour out a special spirit of grace in these last days, adding grace unto grace

and restoring unto us all of the things that God has put into the church to make it possible for this to be accomplished.

God help and bless everyone.

Mechanical Efficiency—Good Health

CHIROPRACTIC is the science which restores and maintains mechanical efficiency of the human body and thus promotes good health and long life.

Chiropractic seeks primarily to adjust any displaced bones of the body, especially bones of the spine, which may be causing irritation of nerves. Between the bones of the spine, the main nerves branch out to all parts of the body. It is these spinal bones, or vertebrae as they are called, that most often become functionally displaced. That is why chiropractic is required principally to adjust any displaced bones of the spine.

Release of the spinal nerves from pressure or irritation then restores the normal nerve stimulus upon which health and longer life depend. Only when nerve stimulus is normal to every organ and part of the body can we be fully alive and healthy.

Greater efficiency results from complete coordination through normal nerve function.

X-ray of human spine. Note how spine deviates from center line. Compression from body weight, poor posture and specialized occupations throw strain against certain spinal areas, producing curvature and displacement of spinal bones.

SEEDS FROM THE SOWER

By Michael A. Guido, Metter, Georgia

He was a thief. Now he was dying for his crimes. But he wanted to become a Christian.

He could not turn over a new leaf and live a better life, for he was dying. He could not pay any price, for he had no money on the cross. He could not observe any religious ceremony, for his feet were nailed to the cross. He could not perform any good works, for his hands were nailed to the cross. All he could do was to call on the

name of the Lord. And that is enough!

He cried, "Jesus, Lord, remember me!" Though he was a thief, our Lord thought on him. Because he repented, our Lord received him. He promised, "Today shalt thou be with Me in paradise."

There is only one way to heaven, and that is the way the penitent thief took. There is only one gate into heaven, and that is the gate through which the penitent thief entered. It is the gate of repent-

ance toward God and faith in the Lord Jesus Christ.

Looking for a prayer? Try the one in Psalm 106:4, "Remember me, O Lord, with the favor that Thou bearest Thy people: O visit me with Thy salvation."

Miss Nellie Horton's HOME ECONOMIST'S NOTES

READING LABELS

Do you know how to interpret nutrition information on the label of a food package? Most nutritional labeling now is based on the Minimum Daily Requirements (MDR), but by 1973 several major food processors will be using labeling based on the Recommended Dietary Allowances (RDA).

The Minimum Daily Requirements are amounts of selected nutrients established by the Food and Drug Administration as standards for labeling. These labeling standards apply to food and pharmaceutical preparations for special dietary uses.

Recommended Dietary Allowances are amounts of nutrients recommended by the Food and Nutrition Board of the National Research Council, National Academy of Science. These amounts are considered adequate for maintaining good nutrition in healthy persons in the United States. The Recommended Dietary Allowances are revised from time to time based on new nutrition research.

Minimum Daily Requirements are lower than Recommended Dietary Allowances. The requirement of vitamin C for an adult man is an example. The Minimum Daily Requirement is 30 milligrams but the Recommended Dietary Allowance is 60 milligrams of Vitamin C. One-half cup of reconstituted frozen orange juice would furnish 100 percent of the adult man's Recommended Dietary Allowance and 200 percent of his Minimum Daily Requirement of Vitamin C.

The Food and Drug Administration has proposed a uniform voluntary nutritional labeling system. This includes information on serving size, calories per serving and nutritional information. Amounts of protein, fat, carbohydrates, vitamins A and C, thiamine, riboflavin, niacin, calcium and iron would be listed in percentages of the Recommended Dietary Allowances. In addition, protein, fat and carbohydrate content per serving would be listed in grams.

You can look for more food labels to contain this information in 1973.
