HARMONY-CENTRAL WATER ASSOCIATION, INC. GRANTED CERTIFICATE — Mississippi Public Service Commissioner, D. W. Snyder, announced the Commission's approval to the Harmony-Central Water Association to construct and operate a modern water system in Tishomingo County which will ultimately serve approximately 100 customer-members. This Water Association will consume approximately six and one-half square miles of area located northwest of the town of Iuka in Tishomingo County at a cost of approximately 188 thousand dollars, FHA financed. Water Association officials appeared before the Commission and presented testimony to the effect that approximately 100 thousand feet of water mainlines

No one was at home at the time of the fire.

The home of J. C. Starkey, of Midway, was slightly damaged by fire Monday night. The Iuka Fire Department was called to the scene, and the fire was under control in a short time. Most of the damage from the fire was in the attic.

Finch Newest Member Of Tenn-Tom Board

Mississippi Governor-elect Cliff Finch said the Tennessee-Tombigbee Waterway will be a major factor in his program to create more jobs and stimulate the state's economy.

"It's the biggest thing the state's got going for it and the best project I see to help get the state off the bottom of the economic ladder," Finch commented.

Finch, who will become the newest member of the board of directors of the Tennessee-Tombigbee Waterway Authority, received a thorough briefing on the project from other Mississippi board members.

The governor-elect's major emphasis while campaigning was on programs to help the working man and creating more jobs. Finch praised Tennessee-Tombigbee while campaigning, but told board members he wanted a thorough and detailed briefing after the election.

Board member Thomas Keenum, a Booneville attorney, said it was the first time a governor elect had requested

a briefing on the waterway before taking office.

Other board members told Finch that 3,500 to 4,000 construction workers will be needed to build the waterway, but studies have projected that 28,000 new jobs will result from construction of the massive project. The study also projected that \$2.6 billion in new industry would locate along the waterway during the next 50 years. That figure has been exceeded during the first three years of construction.

Other board members are Mayor John Biggs, Iuka, newspaper publisher; Dr. Frank Davis, Corinth physician; Ray Thornton, Fulton businessman and Louis Wise, Columbus utility executive. All attended the briefing.

Finch becomes a member of the board by virtue of his election as governor. He will probably serve one year as chairman of the Tennessee-Tombigbee Authority during his four-year term.

Gov. Ray Blanton of Tennessee is the 1976 chairman.

ECONOMIST'S

NOTES

**STOP HUNGER,
BUT PROVIDE NUTRITION**
Choose foods to prevent
"hidden hunger".

You may have more than enough food available, yet have an inadequate diet. If this sounds like doubletalk, it really is not. Since foods vary in kinds and quantities of nutrients, it is necessary to select foods that will provide all of the necessary nutrients.

Milk is an excellent source of calcium, protein and several B vitamins, but it is very low in iron. Meat is an excellent source of protein, iron, B vitamins but low in calcium.

Milk and meat are also very low in vitamin C, but oranges and other citrus fruits are rich sources of this nutrient. Leafy greens and deep yellow foods are rich sources of vitamin A.

Bread and other cereal foods contribute small amounts of many nutrients, in addition to supplying carbohydrates. For

these reasons, nutritionally balanced meals are easier to prepare if a variety of foods are selected.

As you shop for the family's food supply, select foods that not only prevent the feeling of hunger, but that supply nutritionally adequate diets as well.

TENDERIZED MEAT

Meat sometimes is treated before cooking to increase tenderness. Some tenderizing treatments are applied before the meat is sold; others are applied in the home. The two main methods of tenderizing meat are (1) treatment with liquid or powdered tenderizers/and (2) mechanical treatment to cut or break connective tissues and muscle fibers.

Meat sometimes is treated with liquid tenderizer before sale. The tenderizer may be injected into the vascular system of the animal before slaughtering; this meat usually is sold under a trade name. Or powdered tenderizers can be bought for home use.

Before sale, thin steaks, such as sirloin tip or round steak, may be put through a machine that scores the surface. The meat is then sold as cube steak "minute steak" or "sandwich steak". In the home, round steak and flank can be made more tender by pounding them with a mallet.

APRICOT CAKE

1 box yellow cake mix
2/3 cup Mazola oil
3/4 cup apricot nectar
4 egg yolks
2 teaspoons lemon extract
4 stiffly beaten egg whites
Mix all ingredients; beat 5 minutes. Fold in the stiffly beaten egg whites. Pour into greased and floured tube pan. Bake at 350 degrees F. for 40 minutes or until done.

ICING

Grated rind and juice of 2 lemons
2 heaping cups powdered sugar
Mix well (can be prepared while cake is baking). Pour over cake as it comes from the oven. Cool before removing from pan.

A CANADIAN DISCUSSES

"LEARN TO DO BY DOING"
"Learn to do by doing." This is the 4-H motto. But what does it really mean? Does it mean learning how to make an apron by making an apron with someone else helping you? Yes. Does it mean learning to care for a horse by picking up your own pitchfork? Yes.

But, "Learn to do by doing" means a lot more.

First, it means learning to

work with other people by working together in a club. It doesn't mean just working with the person you like best . . . it means working with people who think differently; people who work faster or slower than yourself; are better, or not as good at a project. Why? Because when you take your first job, you'll find that you can't pick your workmates. You will have to get along with all kinds of people if you're going to do your best.

The motto means learning to be responsible by accepting responsibility. First, you are responsible for completing your project. In some cases, this means being responsible for the care of a living creature that depends on you for food and shelter. If you are elected to an office, it means being responsible for doing your duties to the best of your abilities. It means being responsible to the other members of your club by remembering that your behavior at meetings and in public influences what people think about all of you and 4-H.

"Learn to do by doing" means learning always to do your best . . . not because you can beat someone else or get a trophy, but because you will always know you've given it everything you've got. That's a very good feeling.

Confidence in yourself and your abilities is something else you can learn by doing. By choosing and completing a project, you learn that you can accomplish just about anything you try. It takes work. By getting up at a club meeting and demonstrating how to do something or by talking about a subject you know well, you learn that you can pass your knowledge and ideas to other people. Someday this could be very important; whether you want to sell a car, teach someone how to do something, get your government to make or change a law, or explain to another person about 4-H.

By taking part in meetings and running for offices, you learn how groups work and how to lead groups. When you are an adult, you may wish to be part of a community organization. You may become a counselor or a mayor. You could be an executive in a big company. Because you belonged to 4-H, you will know how to conduct or take part in a meeting. Most people don't have the chance to learn these things before they need them.

"Learn to do by doing" means many more things. Make your own list. But perhaps the most important thing is learning to care about yourself, about others and about the way things are and could be. That is citizenship.

"Care is a four letter word everyone should know and use. 4-H is a chance to learn to care by caring.

Galen, the celebrated Greek physician, was convinced that pears had therapeutic value.

LETTERS to EDITOR

Dear Concerned Citizen:

The outgoing and incoming president of the Iuka Chamber of Commerce read with interest your letter printed in the Tishomingo County News on January 1, 1976.

First, may we say that there are no plans to make the town look like the Iuka Guaranty Bank, although there are many people who do not consider the bank's remodeling to be "modern", and who believe that an attempt was made by the architect to preserve the lines of the 1912 structure in the architectural design.

We, too, want to preserve the better parts of the downtown Iuka. It so happened that officials of the William Wage Co., the architects for the bank, attended our Chamber of Commerce annual meeting, Feb. 12, 1975, at our invitation. At that time, a program of improvements was announced by incoming Chamber President Bill Brown. The William Wage Co. volunteered to prepare, at no cost to Iuka, architectural sketches for review. Subsequently, these were studied and approved for public showing by the Directors of the Iuka Chamber of Commerce. We placed these sketches on display at the public library on August 21, as reported in the Tishomingo County News. These sketches are still on display at the Iuka Library, and a notebook is nearby to record comments. These comments have been reviewed in subsequent meetings of the Chamber of Commerce. Almost all of the comments are favorable.

And to obtain other suggestions, Mayor John Biggs and Chamber President Bill Brown invited TVA's "Operation Townlift" to come to Iuka and to offer the TVA's Townlift Group's suggestions as reported in The Tishomingo County News on November 20, 1975.

Furthermore, the architects for Operation Townlift have prepared several other plans for downtown Iuka. These, too, are on display at the Iuka Library and comments are solicited.

For the above reasons, we take issue with your statement "no one as yet has asked the people who live here what they think." The aforementioned attempt to publicize and obtain views contradicts this statement, and the directors of the Iuka Chamber of Commerce, who approved the concept, live in Iuka.

May we ask, have you been by the Iuka Library to see the various proposals? And, all of these ideas are "proposals" so far. We need comments and suggestions, but most of all, we need the support of the People of Iuka in this effort by the Iuka Chamber of Commerce to make our little town more attractive, safer, and more convenient for each of us who are a part of Iuka.

We need constructive criticism, not just critical remarks which tend to condemn those who are trying to help. However, we never hope to arrive at a plan which will please everyone. At some point in time, we must resolve the various views into a composite program which can effectively be carried out. We need your help and the help of everyone if we are to arrive at a viable program.

Iuka Chamber of Commerce

Past President

Adequate insulation, hopefully. Because it curbs energy waste like nothing else can.

Consider this: Of heat loss occurring in an uninsulated home, about 45 percent escapes through the ceiling and 20 percent through the floor. That's a lot of heat — wasted heat you pay for. And about half of a wintertime electric bill represents electric heating costs.

At least six inches (R-19) of insulation over your ceiling and three or more inches (R-11) of insulation under the floor can really slow heat transfer, keeping heat where you want it — inside during winter and outdoors in summer.

For more information about checking or adding to your existing insulation, or about insulating your home from scratch, stop by to see us. We'll give you a free booklet, *Handyman's Guide to Installing Home Insulation*.

COUNTY CORRESPONDENCE

CROSSROADS

Annie and Bob Shelton have recently returned from Memphis where they spent the Holidays. They stayed in the home of her daughter, Annie Lee, and Charlie McCollum. While in Memphis a family reunion was held at the home of Georgia and Edwin Conlee. The sisters and brothers and their families attending this reunion were: Eddie and Opal Johnson, of West Memphis; Ivy and Sarah Johnson, of Turrell, Ark.; John and Essie Grissom, Mrs. Dessie Riggs, Buddy Riggs, Martha Sue Grissom, the Sheltons and the Conlees. They really enjoyed their visit very much. John and Rosemary Sawyer and their sons have returned from Florida where they spent the holidays visiting her parents.

Sam Wray, George Catrett, Mike Catrett, and Bob Holt met George Catrett's father-in-law, R. A. Gideon, in Butler, Ala. for four days of deer hunting. The hunting party shot three deer.

Fay Catrett and sons, Tommy and Craig, went to Mobile to spend the holidays with her parents and mother-in-law.

Sam Wray and Mrs. Jean Holt have returned to Zenia, Ohio after spending the holidays with Bob and Judy Holt and her grandchildren. She is Bob's lovely mother. It was so nice meeting her.

Congratulations and best wishes to Bob Hinton on his birthday, which was January 2.

Congratulations and best wishes go to Judy Holt on her birthday. Her big day was January 3rd. Bob and children had a birthday celebration for her and it was enjoyed by all.

Happy anniversary goes to Carrel and Lorine Morris on their day, which was January 3rd. This is a very nice couple and we send them congratulations and best wishes on their day.

Deloris Loden had a birthday on January 5th. On her day we send her greetings and congratulations. Hope it was a

happy one for you. Elbert and Ann Stokes and granddaughter, Beth Ann Williams, of Osceola, spent the weekend here visiting Monroe and Ernie Hill and Tom and Lillian Sanders.

Monroe and Ernie Hill have returned from Houston, Texas by way of Beaumont, Calif. As they were visiting their daughter and her family, which includes grandchildren, you can bet they had a wonderful time. Welcome home.

I want to thank Bob and Judy Holt for the very beautiful plant which they sent while I was in the hospital. Like Judy said, even the pot is pretty. Thanks so much.

I want to thank the Bunco Girls for the lovely pillow corsage. It was so sweet and thoughtful of you all to do it. It was very Christmasy with the white carnations and red and silver trim. Thanks again to all of you.

If you happened to see a very pretty girl riding a horse with only a blanket on it - no saddle - it was our tomboy Marilee Goodman, of Lexington, Ky. She has been visiting her grandparents, Jack and Ester LaFitte. She will visit relatives in Memphis before returning home.

With all the large family gatherings during the holidays, it reminded me of how much I missed my own parents, who passed away more than 25 years ago. I thought of adopting a mother for the holidays. With all the children and grandchildren at the home of Jack and Ester LaFitte, I thought one more wouldn't be noticed, and I could adopt Mrs. Ethel Henley as my mother for the holidays. This is Ester's lovely mother. She is a very charming 84 years young, and is a Queen - for more than a day too.

Mrs. Lillie Blanton presented me with a smock she had made. It is a lovely print and I am thoroughly enjoying wearing it. She is a very sweet lady and I like her very much.

Peter's Episcopal Church Setting Of Grisham-Barnett Wedding Nuptials

finger tip mantilla of illusion, edged with lace to match her dress, which was fastened over a raised, caplet headpiece.

The maid of honor was Miss Susan Shivers, of Oxford, daughter of Dr. and Mrs. R. C. Shivers; bridesmaids were Mrs. Lowell Edward Grisham, Jr., of Oxford, sister-in-law of the bride; Miss Susan Barnett, sister of the groom; and Miss Martha McLarty, of Jackson, Mississippi, daughter of Dr. and Mrs. Chester A. McLarty, of Oxford. Their dresses were of royal blue featuring simple empire lines. The bodice length jackets were accented by long sleeves and a flared effect from the yoke.

The best man was Judge Barnett, the groom's father. Groomsmen were Mr. L. J. Edward Grisham, Jr., brother of the bride; Mr. Van Elliott Hedges, of Water Valley, Mississippi; and Mr. Don Sawvel Neal of Clinton, Mississippi. Ushers were Mr. Glen Lawson Albrit-

ton, of Jackson, Mississippi, and Mr. James Philip Thomas, of Jackson.

The bride carried a bouquet of white roses and tropicana roses with streamers of English ivy; the bridesmaids carried bouquets of roses.

Behind the altar in the church sanctuary were two vases of tropicana roses and two seven-tiered candleabras; candles burned in the side windows. At the back of the church and in the foyer were arrangements of greenery and candles.

Wedding music was provided by St. Peter's Choir directed by Dr. Leland Fox and accompanied by Dr. Desmond Kincaid, organist.

The reception was held in the church parish hall which was decorated with magnolia leaves, candles and tropicana roses.

After a trip to Florida, the couple will be at the University until May when Mr. Barnett enters the United States Navy for a four-year tour of duty.

EVOLUTION

THE MONKEY'S VIEWPOINT

Three monkeys sat in a coconut tree, Discussing things as they're said to be. There's a certain rumor that can't be true, That man descended from our noble race - The very idea! It's a dire disgrace. No monkey ever deserted his wife, Starved her baby and ruined her life. And you've never known a mother monk, To leave her baby with others to bunk. Or pass them on from one to another, 'Til they hardly know who is their mother. And another thing; you'll never see, A monk build a fence 'round a coconut tree. And let the coconuts go to waste, Forbidding all other monks to taste. Why, if I put a fence around this tree, Starvation would force you to steal from me. Here's another thing a monk won't do, Go out at night and get in a stew. Or use a gun, or club, or knife, To take some other monkey's life. Yes! Man descended, the ornery cuss, But, brother, he didn't descend from us.

These facts paint a clear picture of alcohol problems in Mississippi. The problems are statewide, affecting urban and rural areas alike. Five years ago, people with alcohol problems and their families would have had few places to turn. Today, however, their situation is decidedly more hopeful. A number of treatment resources now exist in almost every section of the state where help is becoming available.

8 POINT BUCK — This 8 point buck was killed Saturday, Timber Owners Must Apply For Tree Farm Status

Mississippi timberland owners who would like to become certified Tree Farmers are urged to act now, says Dwight Barrett, Columbus, chairman of Mississippi Forestry Association's Tree Farm Committee.

Currently, Mississippi has slightly more than 4500 Tree Farms, more than any other state in the nation. These

farms total approximately 4,000,000 forested acres. This indicates that a large number of small landowners are included in the program, says Barrett.

Owners must apply for Tree Farm status, and allow a qualified forester to inspect their lands. Minimum area is 10 acres. The owner must have demonstrated the desire and ability to manage his woodlands for the growth and harvesting of repeated crops of forest products.

A national program of American Forest Institute, the Tree Farm program in Mississippi is administered by Mississippi Forestry Association,

LETTERS to EDITOR

Dear Sir: I write in hopes that you might be able to help me through a notice in the newspaper serving Iuka by placing a small notice regarding my search.

In my search for my family ancestry, I came across a notice in the WPA History of Old Tishomingo County to the following effect: A Mrs. John

Walker of Iuka, Miss., has in her possession an old "Wingo Bible believed to be over 200 years old." This history was written about 1937 or 1938 and gave no age for the Mrs. Walker. I would like very much to locate this Mrs. Walker or her descendants who might now have this same Wingo Bible mentioned.

I will greatly appreciate if anyone with information regarding this inquiry will call collect 601-234-7 92 or 601-

234-1467 or I will gladly respond with the same.

Sincerely,
Betty H. Brown

BULLDOG BASKETBALL

BY CHARLES NUNLEY

Coach Horton, of the Corinth Warriors, predicted that no team would go through the Corinth Tournament undefeated. Fortunately he was wrong. The Tishomingo Bulldogs who had won thirteen games before the tournament won three straight games to take the championship trophy Saturday night in the Corinth Warrior gym.

The Bulldogs faced the Pickwick Southside Eagles Thursday night. The Eagles held a six point lead at halftime and kept on leading the Bulldogs until there was only three minutes and forty seconds left to play. Then the Bulldogs took the lead for the first time in the game. The rest of the game was pretty much "basket for basket" but the fired up Bulldogs came out on top 67-66.

On Friday night the Bulldogs took on the Corinth Warriors in what proved to be the most exciting game of the tournament. The Bulldogs led early in the game by eleven points, but with only one minute and forty seconds left on the clock the Warriors led by a big ten points (55-45). Then the Bulldogs got going again and scored thirteen points to the Warriors three to tie the game at 58 with only one second left in regulation time. Corinth could

not score in this time, so the game went into overtime. The overtime period was close played with each team playing careful ball. With only six seconds left the Bulldogs led 64-62, and that turned out to be the final score.

While the Bulldogs were defeating the Warriors, Savannah was winning their game with the Southside Eagles, which meant the Bulldogs would have to beat Savannah Saturday night in order to be the champs. The game started out slow with both games playing good defense but the Bulldogs finally got going and ended up with a 61-31 win to give them the trophy and their 16th win of the season.

Along with the championship trophy, the Bulldog team carried home some personnel trophies. Dale Medly, Andy Hodges and Kirby McRae were recognized as all Tournament players and Kirby McRae received the Most Valuable Play-

er of the Tournament award. These were the only players recognized by the officials, but the Bulldog fans recognized and appreciated the fine playing of each and every one of the Bulldogs. They all stuck together when the going was rough and came from behind twice to win two games.

The Bulldogetts played the Corinth Warriors Thursday night, and they also came from behind to win. They were trailing by one point at half-time, but ended up with a 33-27 win over Corinth to run their wins up to eight for the season against five losses. In this game Cathy Adams and Patty Frederick received all tournament recognition.

The teams will be playing in the Booneville Tournament starting Thursday night with the Bulldogetts playing Jimpertown at 5:30, and the Bulldogs will face Thrasher at 6:45. Both teams have good chances in this tournament, and I'm sure

they would like to see a lot of their fans out there cheering them on. So come on out and give them the support they deserve.
