Flatboat Voyage Planned for State Park June 29th

June 29th promises to be an exciting day for J. P. Coleman and surrounding areas. The flatboat river boats will be docking at J. P. Coleman State Park at approximately 5 p.m. on Tuesday, June 29th. The arrival will be announced on the radio. Approximately

twenty-four people are expected to be on the flatboats making the voyage from Kingsport to Nashville, Tenn.

After the flatboats arrive at J. P. Coleman State Park, the crew members will be treated to a cookout sponsored by the Iuka Jaycees and Piggly Wiggly.

Ann-Tom Waterway Symposium June 29th

Ann-Tom Waterway Symposium will be held June 29, 1976, at 10 a.m. in the Tishomingo Courthouse in Iuka. This is open to the public. It will be a good opportunity for people to ask questions of state and federal representatives responsible for development of the waterway.

Maps will be on display and several pamphlets will be available for citizens to take home.

The symposium is being cosponsored by Tombigbee River Water Management District and the Mississippi Cooperative Extension Service.

Speakers will discuss the effects of the waterway on Tishomingo County residents. The agenda is as follows: History & Construction status - Jim Bates, U. S. Corps of Engineers; Economic Impact of the Waterway - Mr. Bob Daley, R & D Center; Legislation to Fund Bridges - Rep. Richard Clark, State Representative; Impact of Bridge Legislation on County Residents - Senator Cecil Summers, State Senator; Bridge Construction, Road Construction and Road Closings - Mr. Bobby Richardson, Miss. Hwy. Dept.; Recreation in Tishomingo County - U. S. Corps of Engineers.

Anyone interested in eating with the crew should bring their own food. Immediately after the meal, country type music will be provided for the spectators. The crew encourages anyone wishing to participate in the entertainment to do so. Also, tours of the boats will be provided. These activities will take place on the bank of the Tennessee River near the Coleman Park Restaurant. In the event of rain, the activities will be moved to the new pavilion located south of the restaurant. If everything goes as scheduled, the activities will begin at 5:30 p.m.

The voyage, known as Adventure II, is a re-enactment of the 1779 journey of French Salt-Lick now known as Nashville, Tenn. On Dec. 22, 1779, Colonel Donelson and 300 settlers embarked on a 1006 mile flatboat journey to French Salt-Lick. They traveled down the Holston and Tennessee Rivers. At the site of Paducah, Ky., the voyagers turned upstream on the Ohio River. The final leg of their voyage was up the Cumberland River to French Salt-Lick. The pioneers en-

dured extreme cold and numerous Indian attacks. The modern pioneers will use visually authentic flatboats to re-enact the voyage in this "Flatboat Adventure."

The research for this project has been under way for four years, and the boats have been under construction since Nov. of 1975. The crew for the nine week voyage will total 216 people, with 24 participating weekly.

The Iuka Jaycees encourage everyone to come out and take part in this once in a lifetime event.

TCEPA Employees Continue To Strike

Statement Of Tishomingo County Electric Power Assoc.

As most of the public is aware since June 14, 1976, certain of our employees represented by the IBEW Local 852 have been on strike. The Union is claiming that the reason for their strike is that the Association is refusing to bargain with the Union.

The Association believes that it has a valid legal reason for the position it has taken in dealing with the Union and that this position is in the best interest of its members and customers. It is our position that the inclusion of supervisory employees in the bargaining unit is a violation of the National Labor Relations Act. Accordingly we have followed the legal processes set up for resolving such disputes as this is now the entire matter is properly before the National Labor Relations Board for determination. Once the courts have considered the respective position of the parties and have made a determination of the rights of all parties involved we will of course abide by the law as we have done throughout this matter.

Unfortunately this does not seem to be the attitude of some persons. Recently there have been acts of vandalism which not only have jeopardized the property of the Association but have jeopardized the safety and welfare of our employees and more importantly the safety and welfare of the general public. There have been harassing telephone calls, outages caused by fallen trees, transformers have been shot, wires have been thrown across transmission lines, and tanks have been placed in the driveway of employees of the Association. We deplore this illegal conduct and will make every effort to see that the responsible persons are apprehended and prosecuted to the full extent of the law. In the meantime, we wish to assure all of our members and customers that power service will continue uninterrupted to the best of our ability.

Bobby had been stationed in

Germany for the past three years with his discharge due in approximately 50 days.

At press time funeral arrangements were incomplete pending the arrival of Mr. Rice's body.

Survivors include his parents, Mr. and Mrs. Luther Rice, Jr.; his grandmother, Mrs. Luther Rice, Sr.; Iuka; two sisters, Linda Spain and Connie Raper, both of Iuka; and two brothers, Tony and Frankie, also of Iuka.

New Ministers In Tish. County

Thursday, June 17, was moving day for Methodist preachers across North Mississippi. Three changes took place in Tishomingo County. Reverend Earl Cooper has come to the Iuka Circuit, North from the Pontotoc North Charge, Thaxton, Mississippi. He and his wife, Kathy, have four children: Regina, Chris, Tim, and Miriam. He assumes pastoral responsibilities for Harmony, Campground, Rocky Springs and Patrick United Methodist Churches and will work in cooperation with the other Methodist Churches of the area in the Iuka Parish.

Reverend J. P. "Perk" Perry has moved to Belmont where he is pastor of the Belmont and Mt. Pleasant United Methodist Churches. Bro. Perry is married to the former Bernice Barnes, of Iuka, and they have four children: Harriett, Rebecca, Lynn, and I'am. He is no stranger to Tishomingo County having not only taken a bride here, but also has served the Iuka Circuit, South, several years ago.

A third person has joined the Methodist work in Tishomingo County, and he is Ronald Wenzel, of Booneville, who comes as the associate to the Iuka Parish, a cooperative ministry of the ten churches of the

Iuka area. Ronald and his wife, Faye, have a son. He will work part-time with the Parish and continues to maintain his home near Booneville.

Special Services

There will be a special worship service on Friday, June 25, 1976, at 7:30 p.m. at Bethel United Methodist Church. This service will be by lamplight and will be an effort to help youth and adults get a feeling for the past while preserving the present. Bethel has been closed for some time and has been valdized. As a work project the boys and girls of the Iuka Parish Day Camp will clean up the church, make repairs, and prepare for this service. This project is sponsored by the Iuka United Methodist Parish. The former members of Bethel and friends of the church join the Iuka Parish in inviting everyone to take part in this important service.

The regular monthly singing will be held at Mt. Moriah Baptist Church on Saturday night, June 26th, beginning at 7:00 p.m.

Facts Concerning The Strike By Employees Of TCEPA

TO THE MEMBERS OF TISHOMINGO COUNTY ELECTRIC POWER ASSOCIATION (TCEPA), STRIKE BY EMPLOYEES OF TCEPA.

The employees voted on Feb. 19, 1976, to be represented by Local Union 852, International Brotherhood of Electrical Workers, Corinth, Mississippi. The election was conducted by the National Labor Relations Board, an Agency of the U. S. Government. After the election, the employees presented the T.C.E.P.A. officials with a proposal that they desired to negotiate. The officials of T.C.E.P.A. have refused to meet or make any counter proposal, and as a result of this action Local Union #852, IBEW on behalf of the employees filed unfair labor practices charges against T.C.E.P.A.

The NLRB Board made an investigation, and has scheduled a hearing to be held in Corinth, Mississippi July 16, 1976.

It is unfortunate that we, the employees, were forced to strike and cause inconveniences to T.C.E.P.A. consumers. We have not and will not make any excessive demands on T.C.E.P.A., but we would like for the members to know that the last pay increase that we received was in 1974, and for your information our wages are more than \$1.00 per hour below that being paid by other REA Cooperatives that are adjacent to T.C.E.P.A. - namely Alcorn County Electric Power Association (Corinth, Miss.), Franklin County Electric Power As-

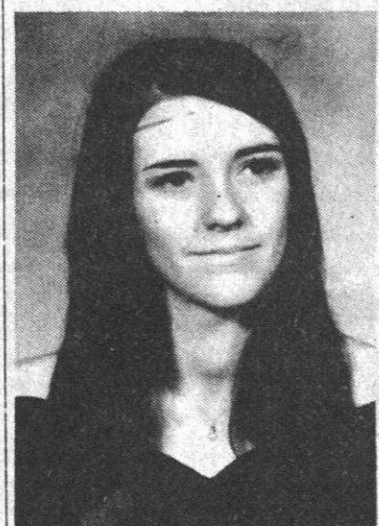

sociation (Red Bay, Ala.), Tennessee Valley Electric Power Association (Savannah, Tenn.), and Pickwick Electric Power Association (Selmer, Tenn.).

We understand that there are rumors that our demands would be in excess of \$80,000.00. This is false, and if the Board would order T.C.E.P.A. to bargain with its employees strike representatives this matter could be settled in a fair manner. To date they have declined. To date they have elected a new firm from Jack's hire a law that has no consideration of the welfare of the T.C.E.P.A. members. Their fees are the fees that will receive, and as you will know they have a local well to represent T.C.E.P.A. management.

The employees have worked hard, long and faithfully in that T.C.E.P.A. could provide good service to the members it serves. We respectfully request your assistance in seeing that we are now treated fair, and it is the desire of the employees to reach a settlement and end the strike as soon as possible, and this can only be accomplished by representatives of T.C.E.P.A. sitting down at the bargaining table and bargaining until an agreement is reached.

Signed by the Negotiating Committee for the Employees of T.C.E.P.A.

JUNE SLATED AS DAIRY MONTH

"Milk Keeps America Strong" is the theme for this year's June Dairy Month promotion. Milk is also the source of some mighty good food products. Cheese is one such food. If you're looking for something different, try cheese fondue. Cheese fondue, the national dish of Switzerland, is a fascinating, delicious and nutritious dish. It is easy to prepare, fun to eat, and invariably creates a party atmosphere. The Swiss originated cheese fondue almost from necessity. Cheese and bread, the staples of their diet, became hard and difficult to eat in cold weather. Someone discovered that by melting cheese in wine and dunking bread in it, these foods were not only easy to eat, but tasted good. They called this new dish fondue.

The word "Fondue" comes from the French word "fondre" which means "to melt". Cheese fondue is nutritious since the cheese is an excellent source of high quality protein, calcium and phosphorus, and riboflavin. It also supplies good amounts of vitamin A. The good amounts of vitamin A, the carbohydrate, choline, riboflavin, niacin and iron, if enriched. What equipment will you need? A heavy metal pot or a chafin dish with water pan and a collapsible heat unit which will maintain low even heat. It is important to keep the cheese at a simmering point, never much lower, and definitely no higher. If the cheese mixture gets too cool, it becomes tough, if it gets too hot it becomes stringy. Fondue forks with long wooden handles to prevent burned fingers are also needed.

So far as ingredients go, experts agree that authentic cheese fondue should be made with aged Swiss cheese. The two types most frequently recommended are Emmentaler (known here as Swiss) and Gruyere. Emmentaler is milkier and has large holes and smooth amber colored rind. Gruyere has tiny holes and brown wrinkled rind. Other Swiss cheeses such as Appenzeller, Glarus, or Raclette are sometimes used. Some Americans prefer to use Cheddar because of the milder flavor.

The type of wine used is important. It should be a light, lively and slightly acidic, dry white wine such as Rhine, Riesling or Chablis. The addition of a liqueur is optional. The Swiss prefer Kirsch. In this country, brandy or dry gin may be substituted.

French or Italian bread for dunking should be cut so that each piece has crust.

SOUR CREAM COFFEE LOAF
Try this rich loaf for a special breakfast or company brunch.

1/2 cup butter or margarine
1 1/4 cups sugar
3 eggs
1 cup dairy sour cream
1 teaspoon grated lemon rind
2 cups sifted self-rising flour
1/2 cup chopped nuts
3 tablespoons brown sugar
1 teaspoon cinnamon

Heat oven to 350 degrees. Grease and lightly flour a 9 x 5 x 3 inch loaf pan. Cream butter and sugar together until light and fluffy. Add eggs, one at a time, beating until well blended. Fold in sour cream and lemon rind. Fold flour gradually into creamed mixture, but do not beat. Spoon half the batter into prepared pan. Blend the brown sugar, cinnamon and nuts together. Sprinkle half over the batter. Spoon on remaining batter and top with remaining nut mixture. Pat down gently. Bake for 55 to 60 minutes. Cool pan for 10 minutes. Turn out on cake rack and cool completely.

NOTE: If using plain flour, sift 2 teaspoons baking powder and 1/4 teaspoon salt with flour.

**CONTROL
HOUSEHOLD INSECTS
ROACHES**
Roaches make any good housekeeper's face turn red. They are troublesome. They

destroy food and clothing, and they may carry disease germs to your food from the filthy places where they develop and hide.

Five kinds of roaches infest homes: the large American or brown roach, the oriental black roach, the brown-banded roach, the small water bug or German roach, and the smoky brown roach.

Screens over the doors and windows will help keep roaches from invading houses from the outside. Sanitation or good housekeeping will aid in control.

Roaches hide during the day in sheltered, dark places, usually under sinks or drain boards, behind wall cabinets, and in other similar places. Their flattened bodies enable them to go through very narrow cracks. Sprays or dusts should be directed into these hiding places. The roaches come out at night looking for food. As they look for food, they come in contact with the dust or spray and are poisoned by it. They are attracted to the feed on baits.

A spray of 1 or 2% ronnel (Korlan), or 2% malathion, or 0.5% diazinon or 0.5% chlorpyrifos (Sursban), or 1.1% propoxur (Baygon) will control roaches, especially the small water bugs. Baygon roach bait is also effective. Use it as recommended for silverfish. Where roaches are not resis-

tant, 2% chlordane is effective. Be sure to remove dishes and food from closets and cabinets before you spray. You can replace them as soon as the spray has dried.

WASPS

Wasps seeking a place to nest or to hibernate often invade homes. Screen ventilators to prevent entry into attics. Spray or dust nests after dark without lights, if possible. If you apply insecticides around windows and areas wasps frequent, you can help reduce their number.

Spray with household preparation or mix your solution to contain 2% chlordane, 0.5% diazinon, or 0.5% dichlorvos. When using a dust, apply 5% chlordane dust.

HOUSEFLIES

Flies in the Home

A household spray containing pyrethrin and piperonyl butoxide, methoxychlor, dichlorvos, malathion, naled, or ronnel can be used to control flies in the home. Apply into the air as space spray.

S 20% Vapona resin strip (10 x 2 1/2 inch unit) in an average size room 10 x 10 x 10 feet will control flies and mosquitoes for approximately 3 months. Use as directed on label.

Outside the Home

Malathion, diazinon, ronnel, and dimethoate are insecticides now available for housefly control. When spraying, apply to back and front entrance around doors, porches, ceilings, electric wires, rafters, window facings, and garbage cans.

Residual sprays are effective for 1 to 8 weeks, depending on insecticide used. Repeat spray treatment when needed. Avoid contaminating pet's food and water dishes and areas where small children play.

You may use dry and liquid baits from these same materials. Apply to porch floor and other areas where flies rest. Apply baits daily until flies are under control, then apply weekly or when needed. Commercial preparations are available.

EMERGENCY PREPAREDNESS

Every 4-H'er should help his family be prepared for emergencies such as accidental injury, poisoning, sudden illness, fire and natural disaster.

Are you prepared? Mark "1" before the question if you think you are. Mark "2" if you could improve. Mark "3" if you've done nothing about it. 1-2-3. Can you and family members administer first aid and mouth-to-mouth resuscitation, and know how to get medical aid in case of injury? 1-2-3. Can you deal with accidental poisoning? Do you know who to call for advice and help? Do you read all labels on pesticides, medicine and other containers? 1-2-3. Do you have a well-stocked medicine cabinet in the home and first aid kits with farm equipment and motor vehicles? 1-2-3. Do you and family members know what to do in case of medical emergencies such as heart attack, choking, diabetic coma, etc.? 1-2-3. Are you prepared for fire? Do you have a plan to get everyone out of a burning building? Can everyone call for help? Can they use fire extinguishers or employ other methods (tossing baking soda on kitchen grease fire, or dousing burning paper or cloth with water) if the blaze can be safely fought? 1-2-3. Are you prepared for the ravages of nature that threaten your area (tor-

nado, hurricane, flood, blizzard, etc.)? Do you have a suitable refuge or shelter? Would you have ample supplies if you were isolated? Do you heed weather warnings? 1-2-3. Now a turn-around. How prepared is your community to help you when you need help fast? How about emergency medical services? Hospital care? Fire department? Sheriff and police? If you feel any or all of these services are lacking, is there something you could do about it?

We hope you found this checklist educational. We hope, too, that you'll make a real effort to improve unsafe conditions and practices which could result in a costly accident. Keep this formula in mind, SEE the hazard. KNOW the defense. ACT in time.

FARM SAFETY WEEK SET:

The week of July 25-31 has been proclaimed National Farm Safety Week by President Gerald R. Ford. The theme of this year's observance, sponsored by the National Safety Council (NSC), and the U. S. Department of Agriculture (USDA), is "Educate for Safety". This marks the 33rd consecutive observance of an annual safety event that began during World War II in an effort to promote safety consciousness and reduce costly accidents that cut agricultural productivity.

Accidents in 1975 claimed the lives of approximately 5,500 farm residents and caused about 500,000 disabling injuries, according to the National Safety Council. More than half of the deaths occurred in motor vehicle accidents. About one-fourth of the deaths and 140,000 disabling injuries were caused by farm work accidents. The cost of farm accidents, including farm fires, is estimated at \$3 billion annually.

Secretary of Agriculture Earl L. Butz said: "American farmers pride themselves in being safety-minded and safety-motivated. They are both the teachers and the taught. They are the parties at risk when accidents occur and they know it."

"Agricultural safety education involves person to person training in a work situation. It requires a teacher aware of hazards and an attentive learner to whom example is more effective than written text. Safety education pays off by preventing human suffering and economic loss. The best instruction, however, is meaningful unless farmers, ranchers, their families and employees remain constantly alert and use good judgement on the job."

A recent one-year survey conducted by the National Safety Council in 15 heavily agricultural states showed an estimated 204,000 injuries to farm workers, residents, and visitors in those areas. Farm machinery was involved in greatest number of injuries (13 percent), followed by animals (13 percent), hand tools (8 percent), and power tools (5 percent). "It is evident that still have a long way to go in educating people how to farm tools, machinery, equipment safely," the NSC said.

Farmers and ranchers are urged to train their workers both family and employed. Show them how to do each job safely. Supervise them until they can manage the work with competence and safety. Read safety articles and items in publications. Read and heed instruction manuals and product labels. Education Today can prevent accidents tomorrow.

An air conditioner that's working with a dirty filter is more costly than you might think.

A dirty filter forces the appliance to work harder and longer when circulating and cooling air. This causes it to use more electricity than necessary and your electric bill goes up — sting #1!

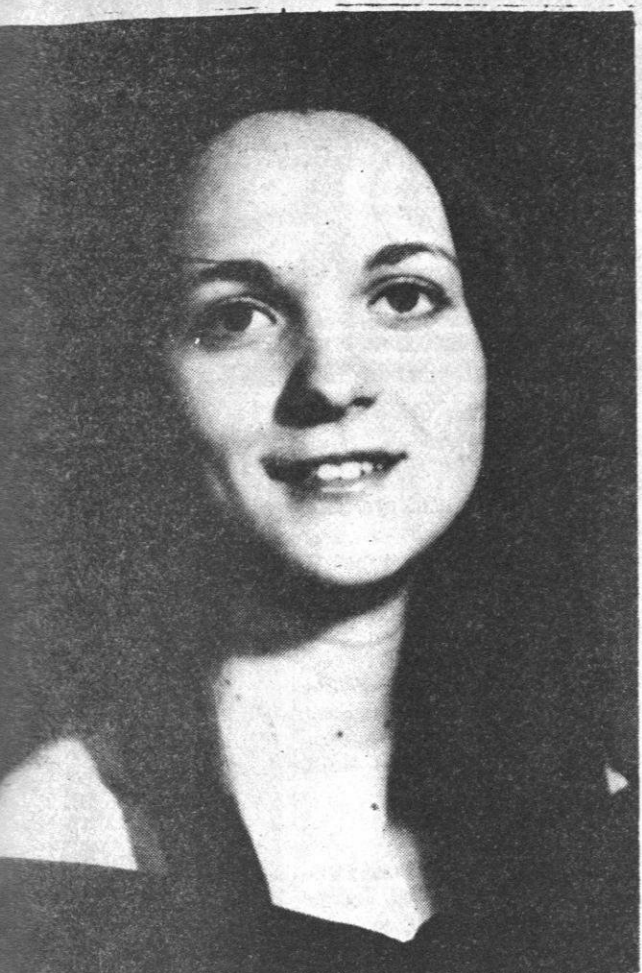

A dirty filter also puts an extra load on all parts of the air conditioner. Straining to keep cooling for you, its life is shortened and you have to buy a new one sooner than necessary — sting #2!

You can nip these stings before they happen by cleaning the filter at least once a month. Either insert a new throw-away type or wash the reusable type. Simple. Stingless.

IN LOVING MEMORY OF OUR SON, BROTHER & DADDY ALFRED WAYNE REYNOLDS

We've lived six years of that darkness now.

God gave us strength to do it somehow.

And that same God won't let us forget,

That our loved one's heart is here with us yet.

Oh, darling, how we still miss you.

IN LOVING MEMORY OF MILBRA CUMMINGS WOOD ONE YEAR AGO TODAY JUNE 22

We never forget that's when God called you to rest. There's a big vacancy in our lives now. One that nobody ever can fill. We talk of you often, your memories will stay and all of your family will meet you some day.

When you left this world behind, darkness crept in. Tears filled our eyes. We didn't know how we could take it, but Jesus took over and helped us to make it.

We know there's a reason for it all. Could be He wanted a new angel to sing a song. Oh, we all miss you. Oh, so much. But thru songs and prayer we'll keep in touch. Your family, The Cummings

ANIMALS

By Mary B. Davis

"BE KIND"

"Be Kind." That was the title of one of the sweetest stories entered in the 1976 Kindness-Essay Contest sponsored by the local Humane Society to promote interest in the humane treatment of all animals.

Although the story didn't receive one of the three prizes, it did contain gentle, worthwhile thoughts and deserves special mention. The bad thing about contests is that only a very limited number can be given prizes. Some of those who submit an entry might feel that what they sent in was not worth sending. But such is definitely not the case --- as the following fine article will show:

"BE KIND"

(By: Angela Pyle, Age 11)
Animals from a puppy to a kangaroo, don't mistreat animals like lots of people do. Be very kind to animals, love is the way, and trust them all each and every day.

If you find a stray animal, don't kick it around. If you don't want it, then, take it to a pound.

"DO KINDNESS TO ANIMALS"
(By Joseph Carriethers, Age 12)
Everyone should be kind to animals. Animals need love and affection, not hate and bruises. Animals have rights, too. They need to have their rights noticed. That is the reason we have "Be Kind to Animals Week" every year. But don't just be kind to animals that week only, be kind to them every day of the year. Just about all it takes is one

away from other pets or penned up. If they could, everyone should take at least one pet to solve the overpopulation.

Angela Page was in the fifth grade at the Burnsville Elementary School at the time she submitted her contest entry. Her teacher was Roger Nunley. Angela is the daughter of Mr. and Mrs. Jimmy Pyle, of Route 2, Burnsville, Miss.

Joseph Carriethers was a seventh grade student at the Tishomingo Junior High School when his entry was submitted and his teacher was Mrs. Chester Dawson.

His parents are Mr. and Mrs. Bud McClure, of Route 1, Dennis, Miss.

I am sure that the parents of these two intelligent, humane-minded youngsters are proud of them -- and I am proud of the parents and teachers who instilled such gentle thoughts in their heads in the first place.

LETTER to EDITOR

Route One
Tishomingo, Miss.
June 21, 1976

Dear Editor:

The recent letter to the editor on gun control was very informative and timely. I feel that more people would get interested if they knew what is at stake in the gun control issue. It's interesting to note that criminals won't be expected to register their guns since they are protected by the fifth amendment. Just whose guns do they expect to confiscate? The little .22 you carry out to the back yard and shoot tin cans with, the side arm the sportsman loads with rat shot and carries along to shoot snakes with or the gun you keep in your home or business to shoot two legged snakes with. Their idea is -- if you don't have a hand gun a criminal can't steal it. What they aren't telling is what else he will steal if there is no change of being shot. If you want to see where the road to total gun control will lead just look at communist Russia and Cuba.

Let's all get interested in keeping the freedom that was won with such a great price two hundred years ago. Write the president and members of congress -- they listen better during an election year. Join and support The National Rifle Association. For more informa-

tion and addresses contact me.
Yours truly,
Orville McNutt

Last year we brought you
\$391,623,376 worth of carpeting.
You've got a lot riding on us.

We moved a lot of carpeting in 1975. We estimate that the market value for the carpeting shipped amounted to \$391,623,376.

Economy is the biggest reason carpeting companies and so many others choose rail. Consider these figures for the thousands of things shipped by rail each year. The average cost per-ton-mile by truck is three times as much as by rail. Air shipping is forty times the price.

And the fuel crunch has made railroad efficiency more than just a matter

of dollars and cents. It's a matter of delivering the goods with the smallest possible use of fuel.

When you put all this together with the reliability of rail shipping you have a good idea why there's so much riding on us. And why you need Southern.

So next time you have a carpet delivered to your house, remember we probably delivered it first.

EVEL KNEIVEL? — Miss Donna Clark, of Cherokee, is no stunt driver, but she was lucky enough to walk away from the wreckage of her new model automobile and explain the ex-

perience to motorists who stopped to help. The accident occurred on Highway 72 East of Iuka Friday when Miss Clark lost control of her car and flipped it on its side. There-

were no other passengers in the car with Donna, who is employed at the Tishomingo County Hospital.

Letters to the Editor

Editor:
I am very interested in
the outcome of the strike against
T.C.E.P.A. by members of In-
ternational Brotherhood of
Electrical Workers.

Questions come to our
minds and we think the Board
of Directors owes us some
answers.

Why won't the Board of
Directors meet and discuss
the merits and benefits with the
employees and their represen-
tatives?

Is it against the law for a
union to want a decent salary?
Why not pay the workers
the money instead of paying
a high priced attorney?
Does T.C.E.P.A. belong
to the people?

Is it a disgrace for
T.C.E.P.A. to work union mem-
bers?
How many union members
pay T.C.E.P.A. electric bills
each month?

Board of Directors, are
being fair and honest with

the workers who brave the heat,
sleet, snow and rain to keep
us comfortable?

Dear Editor:

It has been brought to my
attention that certain acts of
vandalism have been charged
to the striking employees of
T.C.E.P.A. Of course, I can-
not state, with any degree of
certainty, that these charges
are false, but after interviewing

several of the picketing em-
ployees, I am fairly well con-
vinced that they are following
instructions of the International
Brotherhood of Electrical
Workers, to the letter. It has
never been the policy of ANY
large Labor Organization - ex-
ceptions, of course - to condone
violence, vandalism, or other
acts of impropriety, which all
good Union men KNOW can hurt
a cause much more than it can
help. Some of the men inter-
viewed seem to think that the
opposition had performed the
acts of vandalism in an attempt
to sway public opinion against
the striking employees. In
either case, WHOEVER the per-
petrators are, THEY are in the
wrong. The only solution to
dissent of the nature involved
is to meet with representatives
of each faction at the bargain-
ing table and negotiate with
courtesy, honesty and integrity.
REX L. TUCKIER

Dear Editor,

My training and career as a
law enforcement officer have
taught me that charges of any
nature, civil or criminal, should
not be fought in the newspaper.
This is because the reader does

not get all of the fact, and
reputations and careers can be
ruined by irresponsible or in-
competent people bringing
groundless or false charges.

In spite of my dedication to
this principle and the belief
that all persons should have
fair treatment under the law,
I have reluctantly agreed to
make this statement in response
to the article printed in the
Tishomingo County News by
its publisher, John H. Biggs,
on Thursday, June 10, 1976.
This decision was made because
I have been besieged by tele-
phone calls and personal visits
from my friends and supporters
who know I am innocent of any
wrong; and that as the elected
Police Chief of the City of Iuka,
I have a duty to advise the
people of Iuka of my position.

I cannot comment on the
merits of the supposed case
against me except to say that
I am absolutely innocent, that
I have never performed my
duties as your elected Chief in
any manner other than one of
integrity, honesty and fairness.
I will continue my duties in
this fashion and I welcome an
investigation by the Grand Jury
because I am absolutely confi-
