BAD WEATHER BRINGS GOOD DEEDS — During the icy, snowy weather we have been plagued with this week, most neglect to remember small animals who find their food

supply shut off by the inclement conditions. These three youngsters ventured to the Iuka Mineral Springs Park Saturday to share pecans and peanuts with the park's inhabitants.

Distributing the food were (from left) Melissa Marlin, daughter of Mr. and Mrs. Charles Marlin, and Derrick and Glenn Earl Tapp, sons of Mr. and Mrs. Dale Tapp.

Area Man Killed In Auto Crash

Robert Ray Walker, 18, formerly of Iuka, was killed in an automobile crash in New Iberia, La., on Friday night, January 13. According to a family spokesman, Mr. Walker and his wife, Donna Louise Davis Walker, formerly of Woodstock, Ill., were traveling together when the crash occurred. Mrs. Walker escaped serious injury, but received light cuts and bruises.

Before his move to Louisiana, Ray made his home in Iuka where he was employed at Kirk's Tire Store and Kay's Southland.

Funeral services were conducted on January 16, in New Iberia with burial in the local cemetery.

Survivors include his wife; his mother, Judy Walker; one brother, Allen, age 15, and one sister, Connie, age 10, all of New Iberia. He was preceded in death by his father, Ellis Ray Walker, of Iuka.

Community Fund Meeting

Charles Lewis, President of the Tishomingo County Community Fund, has announced there will be a Community Fund meeting Monday night, January 23, at the Fairgrounds Exhibit Building beginning at 7:00 p.m. The purpose of the meeting will be to elect Tishomingo County Community Fund officers for the 1978 year. All present officers and directors as well as the general public are urged to attend.

County Tournament Reset For Jan. 23rd

Snowy, icy weather has provided county schools another week of preparation for the annual county basketball tournament, which got underway last week in Burnsville. The finals in the event scheduled for last Saturday night, Jan. 14th, were postponed when snow moved into the area early Saturday morning. Thursday night's action was also halted when freezing rain, ice and sleet hit the county. On Friday, a break in the weather led to five games being played,

leaving the final games to be scheduled for Monday night, January 23rd.

In the playoff action, the Burnsville and Iuka B Team Boys will tip off at 6:00 followed by the Belmont and Tishomingo girls at 7:15. In the A-Boy championship game at 8:15, the Tishomingo Bulldogs will meet the Burnsville Mustangs for a sure to be showdown.

Admission will be \$1.50 for adults and \$1.00 for students.

Baby Chickens Available To 4-H'ers

The County 4-H Office is now taking request from 4-H members who would like to participate in the 1978 Poultry Chain. Any 4-H members between the ages of 9-19 can participate by phoning their order in to the Extension Office at 423-3616.

The two day old Rhode Island Red chicks are distributed in groups of 50 or 100. They are straight-run chicks (one half pullets and one half roosters).

Anyone wanting to participate in the Poultry Chain must agree to abide by the chain rules stated below:

1. Follow all Extension Service recommendations.
2. Provide housing, feed, and care for his or her chicks.
3. Exhibit the appropriate number of chickens (6 pullets of each 50 received) at the Tishomingo County Fair.
4. Allow the pullets exhibited to be sold at auction to highest bidder.

5. Allow cash received from auction to be used in starting other poultry projects on same basis the following year. Proceeds for this sale to be in custody of agent in charge of club work.
6. Pay for the cost of chicks if they are killed or die.
7. A personalized post dated check to be attached to the original contract to cover the cost of the chicks if applicant fails to exhibit them at the county fair.

Gospel Singing

There will be a gospel singing at Pleasant Hill Methodist Church Saturday night, Jan. 21, at 7:30 p.m.

The Landmarks Quartet, of New Albany, Miss., will be the guest singers.

Everyone has a cordial invitation to attend.

WALLACE CITES PROGRESS ON TENN-TOM CONSTRUCTION

Gov. George Wallace, chairman of the Tennessee-Tombigbee Waterway Authority, announced during the year that it has the construction and engineering capability of completing the project in 1984, rather than 1986. However, the earlier completion schedule is contingent on full federal funding during the next several years.

New highs were reached in construction under contract, work completed, total employment and federal investment in the project.

"We may be able to complete the project two years ahead of schedule, the overall cost went down and the projected benefits went up," Gov. Wallace said.

"How many projects have you heard of that can be finished ahead of schedule and cost less than anticipated?"

Wallace asked.

The Corps of Engineers announced during the year that it has the construction and engineering capability of completing the project in 1984, rather than 1986. However, the earlier completion schedule is contingent on full federal funding during the next several years.

"More than \$200 million can be saved in construction costs and transportation benefits if we can finish Tenn-Tom in 1984," Wallace said.

For example, more than \$50 million could be saved in costs for interest during construction because of the early schedule. An additional \$25 million

in cost reductions due to eliminating effects of inflation could be realized. Also, almost \$131 million in transportation savings would be realized on commerce that could be shipped on the waterway during these two years.

During the past federal fiscal year, the Corps of Engineers awarded 13 contracts for a total of \$128 million. This figure was \$12 million below the government's cost estimate.

"These cost savings were due to optimal funding from the federal government, as well as the highly-favorable bids," Wallace commented.

Total project costs went down \$6 million and the benefit-cost ratio improved to 1.3 to 1.

Gov. Wallace emphasized that construction under contract increased to \$332 million, with a total of 24 contracts under way. In addition, nine contracts valued at more than \$50 million have been completed. Construction under contract will exceed \$400 million by the end of 1978.

Gainesville Lock and Dam, the first structure started on Tenn-Tom, was completed during the year and the Gainesville reservoir will be impounded next spring.

Four other locks and dams are under construction. Columbus, Miss., and Aliceville, Ala. Locks and Dams are nearing completion of concrete placement. Those lakes will be impounded in 1979. Work on locks and dams at Aberdeen and Amory, Miss. are just getting started. Bids on the sixth lock near Smithville, Ms. were opened on Dec. 21, and work will begin there next spring.

Work is also progressing well on the Divide Cut section of the waterway where ten contracts totaling \$85 million have been awarded.

Employment by waterway contractors climbed past the 2,000 mark last summer and

will eventually reach 3,500, providing better paying jobs in one of the poorest sections of the nation.

Once the waterway is completed, it is projected to result in 135,000 new jobs in portions of Alabama, Kentucky, Mississippi and Tennessee.

One of the highlights of the year was a public hearing called for by President Carter to determine support for the waterway. More than 6,000 people attended and demonstrated in favor of Tennessee-Tombigbee at the public hearing held March 29 in Columbus, Miss.

The transcript of that hearing revealed that 9,400 people expressed support for the waterway in letters, petitions and written and oral statements. Fewer than 200 opposed the project.

The end result was that President Carter approved Tenn-Tom with full funding. A total of \$172 million was appropriated for construction during fiscal 1978. More than \$447 million, or nearly one third of the project cost, has been appropriated for the project since 1967.

Noting that environmentalists have joined forces with Louisville and Nashville Railroad to file suit asking that halted, Wallace said, "I don't want to see anything delay development of a project which will mean so much to Alabama, the Southeast and the nation."

"We're making tremendous progress. Tenn-Tom is turning out to be everything the projections said it would be. I just hope we can get on with the vital work of building this waterway," Wallace said.

Should the suit go to trial, it will probably be heard next summer in federal district court in Aberdeen, Miss. An earlier environmental suit in 1971-72 was dismissed with prejudice by the same court and the ruling was upheld in the federal appeals court.

Funeral Services For Carl Hendrix

and Mrs. Chester Hendrix, of Burnsville; three brothers, William Hendrix, Iuka, Julius Hendrix, Smithville, Harold Hendrix, Burnsville; two grandchildren; and his aunt, Mrs. Audie Frederick.

Pallbearers were the Tishomingo County Board of Supervisors and Tommy Burcham.

Funeral services for Carl V. Hendrix, former First District Supervisor of Tishomingo County, were held Friday, Jan. 13, 1978, at 1 p.m. at Cutshall Funeral Home Chapel with Rev. Stanley Magill and Rev. Gene McCoy officiating. Burial was in Springhill Cemetery.

Mr. Hendrix, 59, died Wednesday evening, January 11, after suffering an apparent heart attack at his home near Iuka. He was transported by ambulance to Tishomingo County Hospital where he was pronounced dead at 8:09.

A devoted servant of the people, Carl Hendrix served two terms as Supervisor of the First District, Tishomingo County. During his administration he was instrumental in the construction of the new Tishomingo County Courthouse and jail facilities. Mr. Hendrix worked with the Tishomingo County Co-Op for 13 years prior to his political career, was a former school teacher, and an employee of Tishomingo County Hospital.

He was a Mason, a member of the Eastern Star and a Baptist. Survivors include his wife, Mrs. Virginia Hendrix; a daughter, Mrs. Billie Carol Ivy, of Booneville; his parents, Mr. and Mrs. Chester Hendrix, of Burnsville; three brothers, William Hendrix, Iuka, Julius Hendrix, Smithville, Harold Hendrix, Burnsville; two grandchildren; and his aunt, Mrs. Audie Frederick.

Pallbearers were the Tishomingo County Board of Supervisors and Tommy Burcham.

Sweetheart Banquets

Two beautiful experiences are being planned for the Valentine season. An Adult Sweetheart Banquet will be held on Monday night, February 13, at 7:00 at the Country Squire Restaurant in Iuka. Mrs. Scotty Skinner, Coordinator of Family Life, will have overall responsibility with her committee for final decorations and arrangements. The "Singing Sweethearts of America", as they have been called, will be here to present a special musical program. They are Marshall and Betty Marie Grisham, from Belden, Miss. Many will remember them from the summer revival in Iuka Methodist Church.

The second experience will be on February 14th, Valentine's Day, at 7:00 . . . in the form of a Parish Youth Sweetheart Banquet at the Iuka Methodist Church. Young people from across the Iuka Parish . . . from all the ten churches, will participate. Special guests will present a musical program at the banquet, which will be prepared by representatives from each of the Parish Churches. Burnette Bryant, Coordinator of Evening Youth Programs at Iuka, will work with others in overall decorations and food preparation.

Beauty Revue Friday Night At Iuka High

"Most Beautiful" and "Most Handsome" will be chosen Friday night, January 20, at the Iuka High School when the school students will parade before a panel of out-of-town judges in competition for the titles.

Grades 7 thru 12 are participating this year, according to Morris Byram, a spokesman for the Beta Club, sponsors of the event. Both girls and boys will compete in the 10-12 grade division with the crowning of Most Handsome and Most Beautiful IHS by last year's winners, Jennifer Strawbridge and Chris James.

In the 7-9 grade division, girls only will compete for Iuka Junior High Most Beautiful, crowned by Tammy Clark, last year's title holder.

The public is invited to attend this event, which will be staged in the high school gym, beginning at 7:00. This year's theme is "Southern Beauty". Admission will be \$2.00 for adults and \$1.00 for students.

HAPPY NEW YEAR — But really not looking very impressed about the whole thing is Tishomingo County Hospital's Little Miss 1978. The young lady, who came into the world at 2:35 a.m., January 12, weighed in at 9 lbs. 13 ozs. The daughter of Mr. and Mrs. Jerry Davis, of Route 1, Burnsville, the newcomer has been named Crissy Michelle. She was welcomed home by one

sister, Jennifer Ann, age 21/2. Nursery nurse and aid, Opal Cummings, of Burnsville, is shown presenting little Crissy Michelle to the new world — Dr. Dean Draper was the physician who escorted her in. Proud grandparents are May Adkins, of Iuka; Bobby Davis, of Cicero; Wetha Davis, of Burnsville; and T. C. Davis, of Burnsville.

HOME ECONOMIST'S NOTES

Tishomingo Countians can save on their electric bill by following these suggestions.

Proper use of electric kitchen appliances can make a big difference in your electric bill.

Defrost your freezer often. If your freezer isn't frostless, make sure you defrost it before ice gets one-fourth inch thick. Additional ice cuts down on the cooling power of the coils.

Leave the refrigerator door shut. Don't make repeated trips to remove items one-by-one when planning your meals. Also, make sure door gaskets have good seal. They become brittle and lose effectiveness with age.

Never set refrigerator temperature controls lower than required to maintain proper temperature. If you are going away for a few days, raise the temperature setting slightly. The closed door will keep things cold.

Keep your freezer full. The temperature can be maintained much better by the food in your freezer than it can by air which spills out each time you open the door. Don't buy a freezer too big for your needs.

Use your dishwasher only when you have a full load. Meanwhile, use it to store soiled dishes.

Plan oven meals. A complete meal can be cooked in the oven as economically as one food item. Get foods into the oven as soon as it's preheated or don't preheat at all. Avoid using the oven for small

jobs like making toast. Avoid opening the oven door unnecessarily. Make sure the door seal is tight and not leaking heated air. Turn the oven off as soon as you are through using it.

When cooking vegetables, use a small amount of water. It takes less time to bring it to a boil. As soon as water reaches the boiling point, turn the setting down. When boiling water for coffee or tea, heat only as much as you need. Remember, too, that water comes to a boil quicker in a covered pan.

Avoid using undersized pans on your surface units. Match pan size to element size. Use pans with flat bottoms to permit close contact with surface unit. Be sure pans have tight-fitting lids.

Cook and freeze. Prepare double recipes for meals like spaghetti sauce, soups and stews. Then freeze half for future use.

Use electric frypans, broilers and rotisseries when possible. They generally use less electricity than surface units and ovens.

BEEF CASSEROLE

1 lb. ground beef
1 teaspoon salt
16 oz. can pork & beans
3/4 cup barbecue sauce
2 tablespoons brown sugar
1 tablespoon minced onion
1 can biscuits
1 cup shredded cheddar cheese

Preheat oven to 375 degrees. Brown ground beef, drain. Stir in next 5 ingredients; heat until bubbly. Pour into 2 quart casserole. Cut biscuits in half to form 20 half circles. Place cut side down around edge of casserole. Sprinkle with cheese. Bake at 375 degrees 25 to 30 minutes until biscuits are golden brown.

FRUITS AND NUTS:

If you are planning to plant fruit or nut trees later this winter or early spring, take a soil sample and have it analyzed for pH and fertilizer requirements. Most fruit and nut trees grow best in a pH range of 5.8 - 6.5.

You can plant peaches any time during the dormant season, which is usually December through February in Mississippi. Planting early in the dormant season is often desirable. It allows the soil to settle and the roots to become established and begin developing before top growth begins in the spring.

PLANT PROPERLY:

Dig a hole large enough and deep enough to permit setting the plant without bending, breaking or crowding the roots. Prune roots of the new plants only where it is necessary to remove damaged or dead roots or roots that are exceptionally long and out of proportion with other roots.

You should place loose topsoil in the bottom of the hole. Set plant in the hole upright at the depth that it was growing in the nursery. Fill the hole two-thirds full with pulverized topsoil that it will settle around the roots. At this point finish filling the hole with water to aid in packing the soil. After the water has soaked in, finish filling the hole with topsoil, leaving a slight depression around the base of the plant to hold water during rain and irrigations. Do not apply fertilizer at this time.

PRUNING:

After planting and before growth starts in the spring, you should prune plants. Pruning helps to balance the top of the plant and the root system. It also stimulates lateral bud development from which good scaffold branches can be selected later.

Pruning is normally done from December through February. When pruning, cut off only enough branches to accomplish a definite purpose. A primary purpose of pruning young, non-bearing trees is to shape the tree so that scaffold branches will be well distributed.

If you select scaffold branches properly, you can eliminate weak, narrow crotches and

avoid future breakage under heavy fruit loads. Proper selection of young scaffold branches will also reduce the large pruning cuts in future years, thus reducing the entrance of insect and decay organisms into pruning wounds.

DISEASE CONTROL:

If mature trees have not been treated with dormant oils to control scale insects, you should do this immediately. Applications during the dormant period of a 3 percent lubricating oil emulsion or an emulsifiable oil at the strength recommended by the manufacturer will give satisfactory control of scale insects.

PECANS:

Pecans are transplanted as described for peaches. Again, do not add fertilizer at time of transplanting. You should prune back the pecan transplant about one-third. This will give a more even distribution of the root-shoot ratio.

CARE OF YOUNG PECAN TREES:

Wrap trunks of newly transplanted trees with strips of burlap, heavy paper, or treated crepe paper to prevent sunscald and damage from wood-boring insects. Wind the wrapping spirally from an inch above the ground to 1 foot below the top after the transplanted tree is cut back, and tie with a cord. Keep the trunk wrapped for 2 years -- until top growth provides shade for the trunk.

What I'm about to quote to you is very old - Maybe, you can tell me how old from the clipping is from The Commercial Appeal (no date), but on the back the company, Baldwin, Knowlton and Lake advertise thus: 2 dozen Messina lemons for 25¢ and 10 dozen for \$1. How long ago has it been since prices were like that? Here is

(COPIED)

SOMETHING TO KNOW

1. A cloth wrung out in ice water and applied to the back

of the head will often relieve insomnia.

2. Salts of lemon will remove ink stains from wooden floors. Use two teaspoonsful to a quart of water.

3. Ice tea can be given a piquant flavor by the addition of half a dozen cloves to a pitcher of tea.

4. Iron rust stains should be rubbed with lemon and salt and held in the steam of a rapidly boiling kettle.

5. Cabbage and cauliflower should always be soaked for a time in salty water and then rinsed before cooking.

6. To prevent or remove tan, put enough benzoin in the bathing water to give a slightly milky appearance.

7. Slight iron scratches on linen will often disappear if the piece is laid for a while in the bright sunshine.

8. An excellent way to clean steel knives and forks is to cut a fair-sized potato in half and use with bathbrush.

9. Equal parts of salt and cooking soda with a little water will greatly relieve the pain of insect stings and bites.

10. Strange as it may seem, a stomach that can tolerate no other meat will often easily digest fried breakfast bacon.

11. Keep a bowl of cold water at hand into which to dip the fingers frequently when hulling or capping fruit for preserving.

12. To get rid of rats, stuff their holes with laundry soap, which has been liberally sprinkled with cayenne pepper.

13. Cucumbers after soaking in cold salty water for an hour, should be drained and shaken dry in a clean towel before serving.

14. Soap that comes from the store moist will be used up very fast. It is a good plan to put it on a shelf for a week to dry.

15. Alum used in rinsing water will prevent green goods from fading, while a handful of salt in the water will hold blue fast.

16. Vinegar, applied with a soft cloth, will give a good polish to windows, but the dust should first be wiped off with a dry cloth.

17. When stitching a silk garment it will be found more practical to use thread in the bobbin to avoid having the garment pucker.

With all kinds of modern equipment, detergents, stain removers, medicines, with doctors close by, deep freezers, not many people canning and all the other things from the store we have learned to depend on, it's hard to think that we did and were glad to learn of a new "know how" such as some of these - I remember them well - I lived during that time - How about You?

4-H CLUB

On January 10, the East Tishomingo All Girls 4-H Club met at Linda Starkey's house. Donna Malone called the meeting to order, and Toni Starkey read the minutes and called the roll. Debbie McAnally sang a song, Lori McAnally had the devotional, and Sandra Malone said the prayer. Lori McAnally showed some sewing she had done herself, and Anita Cox and Trica Browning served refreshments.

LETTERS to EDITOR

Dear Editor:

I don't particularly endorse Cliff Finch, any more than I did Bill Waller - which was not at all - but in his campaign to enact his proposal of succession, he certainly has some good points - Namely, equality of rights - Or as he puts it - "What's sauce for the goose, should be sauce for the gander." In my humble opinion if the Chief Executive of the State of Mississippi is

denied the right of succession then every elected official from the Governor down to the district constables, should be denied the right of Representation, also. The Senators, Sheriffs, and so on, should have the same restrictions imposed upon them, that are imposed on the holder of the highest office in the State. REX L. TUCKER

Federal excise tax on telephone equipment and services dropped from five percent to four percent effective January 1, 1978. The change will result in an estimated savings to Mississippi customers of more than \$3 million this year.

An additional savings of approximately one-half million dollars for Mississippi telephone customers will result from a new law which removes from the Federal excise tax base state and local taxes that are listed separately on customer bills. This change is effective with bills rendered on or after January 1, 1978.

Want to save money on long distance calls? Here are some tips on how to do just that!

DIAL LONG DISTANCE CALLS YOURSELF. When you dial long distance calls the One-Plus* way you save money. One-Plus calls are the cheapest way to call anywhere in the United States. Just dial 1, plus the area code (if different from your own), plus the distant number.

CALL DURING BARGAIN PERIODS. Long distance calls you dial direct the One-Plus way cost less during evening, night, and weekend hours.

CALL PERSON-TO-PERSON ONLY WHEN NECESSARY. A person-to-person call is the most expensive kind of long distance call. So call person-to-person only when you wish to speak to a particular person or when you must reach a particular extension phone.

TELL US IF YOU MAKE A MISTAKE. If you reach a wrong number when dialing long distance, we don't want you to pay for the call. Immediately dial an operator and explain about the mistake so you won't be charged for it. If you are calling from a coin phone, a refund will be mailed to you.

DON'T PAY FOR A BAD CONNECTION. If, by chance, you get a poor connection or are cut off on a long distance call, both parties should hang up. The person who places the call should then dial the operator and describe the problem. The operator will reestablish the call and see that you aren't charged for the interrupted time.

*One-Plus rates do not apply to Zero-Plus dialed calls, operator handled calls, coin telephone calls, or calls from a hotel or motel.

Vicki Blakney Wins Essay Contest

Vicki Blakney has won the Century III Leaders Scholarship Competition at Burnsville High School.

The 18 year old senior is now eligible to compete with other high school seniors throughout Mississippi for one of two \$1,000 scholarships and also for a \$10,000 national scholarship that will be awarded in a conference of state winners in historic Colonial Williamsburg, Va.

Miss Blakney triumphed in the local phase of the Century III Leaders Scholarship Program by scoring the highest at the school on a current events examination and the writing of a brief essay on America's needs and challenges for the future. The title of her essay was, "Energy Crisis".

Vicki, daughter of Mr. and Mrs. Alvin J. Blakney, of Burnsville, plans to attend Northeast Mississippi Junior College and major in data processing after completing her studies at Burnsville High.

Runners-up in the competition at Burnsville High were Kathy Holley and David Smith.

Wind Chill Factor

The "wind chill factor" has become a household phrase this winter as temperatures have been lower than normal across the nation. But just how do

the weather forecasters arrive at the figure? The wind chill factor was developed by the military to describe the cold experienced by persons whose skin is exposed to a combination of low temperatures and wind.

Instead of using a formula to compute the effect of wind on cold days, the National Weather Service uses a chart showing temperatures at various wind speed to determine the wind chill temperature. In the example below, the actual temperature with no wind blowing was 15 degrees Fahrenheit. But when the wind gusts to 40 miles per hour, the wind chill factor became 29 degrees below zero. That is the temperature felt by exposed skin. The chart shows the wind chill factor at various wind speeds when the temperature without wind is 15 degrees Fahrenheit.

This information can be used as a gauge in helping one dress appropriately when going outdoors on cold days.

King Resumes Position

Walter W. King, Jr., a Corinth native, recently resumed the positions of chairman of the board and chief executive officer of Curlee Clothing Co., a nationally-known men's clothing manufacturer headquartered in St. Louis, following his ouster from those positions in a stockholder proxy contest in 1976.

King was able to regain control of Curlee through purchases of Curlee common stock by Eagle American Corp., in which he and his wife, Katherine, are majority stockholders. King is president of Eagle American and his wife is treasurer and assistant secretary of Eagle. Prior to the recent purchases of Curlee stock by

JOSEPH PATRICK celebrated his first birthday on January 16th. Joseph is the son of Mr. and Mrs. William M. Patrick. He is the grandson

of Mr. and Mrs. J. C. Patrick and Mr. and Mrs. Curtis W. Hill.

Eagle, Mr. and Mrs. King owned approximately 18% of the outstanding stock of Curlee.

King's grandfather, Samuel L. Nelson, along with Shelby Curlee, F. H. Curlee, J. R. Curlee, John C. Stanley and C. E. Stanley and other Corinth men founded Corinth Woolen Mills in Corinth in 1901. The Company's name was changed to Curlee Clothing Company when its headquarters was moved to St. Louis in 1905. The massive safe in Curlee's St. Louis corporate offices still carries the inscription, "Corinth Woolen Mills."

Curlee suits, sport coats and slacks are distributed nationally through 3,500 dealers who are serviced by a national, traveling sales force. Major sales offices are maintained in St. Louis, New York and Los Angeles. Reid Brothers in Corinth and Iuka have featured Curlee clothes for more than 50 years.

All Curlee manufacturing is conducted in factories located in Mayfield and Winchester, Kentucky.

DRIVE A '78 FORD LTD NOW DURING OUR BIG SALES DRIVE.

Your Mid-South Ford Dealer wants to put you in the driver's seat of a beautiful new LTD during "The Big Ford Drive." Most full-size cars aren't what they used to be. They've been cut down in size. But LTD is still a big Ford giving you all the room, comfort and riding confidence only a full-size car can offer.

Come in and drive an LTD for yourself. They're priced to move during "The Big Ford Drive."

22 MPG HWY 15 MPG CITY

302 CID V-8 with automatic transmission. EPA estimated. Your actual mileage may vary depending on your vehicle's condition, optional equipment and how and where you drive.

CARD OF THANKS

Words are so inadequate they never could convey to you, our many friends and relatives, the thanks we feel for each act of kindness, the beautiful flowers and most of all your prayers during our time of sorrow at the death of our loved one, Carl Hendrix.

We would like to thank Dr. Atkins, the staff at Tishomingo County Hospital and Cutshall Funeral Home for their service. To Bro. Magill and Bro. McCoy, we deeply appreciate your words of comfort.

May God's richest blessings always be yours is our prayer.

CARD OF THANKS

We would like to take this means to say thank you to our many friends for your Christian love shown us during our mother's stay in the hospital and the death of our father. Thanks for the many prayers, food, flowers, cards, letters and phone calls. Thanks to the many ministers who called, a special thanks to the ones who had a part in the benefit singing for our father at Patrick Methodist Church. Thanks to Cutshall Funeral Home for their courteous service.

May God bless and be with each of you.

With Christian love,
The family of

"A BEAUTIFUL ANSWER"
One day a little girl in a white frock and with a large

IUKA BAPTIST CHURCH

105 West Eastport Street
Iuka, Mississippi 38852

bunch of flowers passed a little boy who was playing in the dusty street. Somehow the sight of that dainty figure stirred the spirit of mischief in the boy's heart. He threw a handful of dust which struck the white dress and fell in a shower upon the shoes the little girl was wearing.

The little girl stood still. Her face flushed pink. Her lips trembled as if she would cry. But instead a smile broke over her face and taking a flower from the bouquet, she tossed it to the boy who stood waiting to see what she was going to do.

A more surprised boy no one ever saw -- nor one more ashamed. He hung his head, and his cheeks reddened under his tan coat of freckles. His unkind fun was spoiled just because for a handful of dirt someone had thrown him a flower!

What a changed world this would be if everybody, large or small, were as prudent as this little girl. How quarrels would go out of fashion if for angry words we threw back gentle answers. "A soft answer turneth away wrath," (Prov. 15:1).

Recompense to no man evil for evil. Provide things honest in the sight of all men. If it be possible, as much as lieth in you, live peaceably with all men. Dearly beloved, avenge not yourselves, but rather give place unto wrath: for it is written, Vengeance is mine; I will repay, saith the Lord. Therefore if thine enemy hun-

ger, feed him; if he thirst, give him drink; for in so doing thou shalt heap coals of fire upon his head. Be not overcome of evil, but overcome evil with good." (Rom. 12:17-21.)

"Let your speech be always with grace, seasoned with salt, that ye may know how ye ought to answer every man." (Col. 4:6.)

Credit Cards Also Convenient For Thieves

MISSISSIPPI STATE - Credit cards provide a ready cash substitute for many consumers, but they are also convenient for thieves.

"When credit cards are stolen or used without authorization, the consumer chances losing a great deal of money," says Shirley Washington, home management specialist with the Mississippi Cooperative Extension Service, Alcorn State University branch.

"According to law, the consumer is liable for up to \$50 of unauthorized use on each credit card," continues

SUFFERING NEEDLESSLY TRY 'CHIROPRACTIC'

PHASES OF RECOVERY

An individual suffering from disease or bodily goes to his chiropractor for trained, competent care.

The chiropractor uses scientific equipment and his hands in the function of the body's nervous system as it realigns the spine and removes the cause of the disorder of the disorder.

The chiropractor knows that impingement of spinal nerves is the cause of the bodily disorder. Impingement, or pressure, on the nerve interferes with the flow of nerve energy to the affected part. Once the nerve energy is restored to the body, and recovery is almost at once.

The chiropractor says "the power that made the power that heals the body," and restoring the flow of nerve energy gives nature her power to heal.

War, uniting them the bond of forbidden love. We have several other historical novels, westerns, romances and mysteries.

If you enjoy sewing we have a couple of books that might be of interest to you. Fabric Decorating For The Home has over one hundred and thirty decorating ideas. You will find the project suggestions stylish and easily accomplished. All projects are illustrated with diagrams and step-by-step instructions. This book was a gift from Nellie Horton. A Beginner's Book of Sewing will help you understand the basics of sewing. It is time to start making summer clothes and this book includes simplified instructions on how to make bathing suits, halters, T shirts and how to remodel your old clothes.

We have an excellent variety of children's books. We acquired several different Nancy Drew and Hardy Boy mysteries in an exchange last week. Come by and see if we have a couple you haven't read!

Nurses Attend Workshop

Four Tishomingo County nurses were among more than 100 participants in the continuing education workshop Respiratory Care: A Nursing Update, sponsored by Mississippi University for Women.

Glenda Bullard, Lois Hill and Ann Barnes, of Iuka, and Ethel H. Waddell, of Tishomingo, learned about advances and equipment for respiratory nursing care.

This workshop and others of its type are designed to help nurses stay up-to-date on the latest developments in the medical field. Jacqueline H. Jurcich, Director of Continuing Education for the School of Nursing at Mississippi University for Women, announced that a one-day workshop, What's New in Pharmacology, will be held within a 60-mile radius of almost every community in North Mississippi. Dates and places are: Feb. 13 in Oxford, Feb. 27 in Clarksdale, March 28 in Greenwood, April 20 in Tupelo and April 25 in Columbus.

The Mississippi Nurses' Association has approved the workshop for 6.9 contact hours or .69 continuing education

units (CEUs). Application has been made to NAPNES and NFLPN for similar CEU approval. Cost for the workshop is \$15 and includes all instructional costs, educational materials and refreshment breaks.

For more information contact the Continuing Education Program, School of Nursing, Mississippi University for Women, Columbus, Miss. 39701 or call 601-327-8526.

Lomenick Home Scene Of Social

The home of Mrs. Mattie Lomenick, on Eastport Street in Iuka, was the setting for the December social of the Lucy Rowe Study Club. The home was beautifully decorated throughout for the holiday season, complete with a lovely lighted Christmas tree in the living room where each club member placed their gift. Each lady brought her favorite dish for a buffet type meal, which resulted in a variety of tasty casseroles, salads, deserts, relishes, served with ham, rolls, and coffee. Following the meal, the ladies gathered in the living room where gifts were exchanged and pictures made by the club photographer, Mrs.

Excise Tax Reduction

Telephone customers in Mississippi will pay less federal excise tax on their telephone service in 1978 according to Bill Hardin, South Central Bell's local Manager.

On bills rendered on or after January 1, 1978, the federal excise tax rate on local and long distance charges will be reduced one percent, from five to four. The reduction results from an Act passed by Congress in 1970, which calls for the gradual reduction of the federal excise tax rate on telephone service. At that time the

DOUBLE CELEBRATION — Holly (left) and Heather Masaro (right), twin daughters of Mrs. Kathy Masaro, of Corinth, celebrated their first birthday on December 31, 1977, at the home of Dr. and Mrs. Jim Perkins.

Excise tax rate was ten percent. "It will continue to be reduced one percent a year until it is completely eliminated in 1982," Hardin said.

Kool Aid with Holly and Heather were Jeanne, Julie and Jayme Perkins. Grandmother of Holly and Heather is Mrs. Dot Masaro, of Burnsville; and the proud great-grandmother is Mrs. Mary Emerson, of Iuka.

Some people have believed that eating cypress seeds would make them strong, wealthy and youthful.

Solve Financial Problems By Careful Management

MISSISSIPPI STATE — Young couples who manage their budgets and balance checkbooks know the solution to monthly financial problems is not necessarily more money.

Usually it is knowing how to get more for the money you have, plus patience, energy and self-discipline, says Dr. Julia Barnes, home management specialist with the Mississippi Cooperative Extension Service.

"Many people are ashamed of their spending limitations," says Dr. Barnes. "Accept the money you have to spend as one of the realities of life. Take pride in your ability to stretch the money as far as possible toward buying the kind of life you want," she urges.

Shave spots in spending that are non-essential. Eliminate some items altogether. Reduce your utility bills by using conservation tips and making fewer telephone calls.

Make better use of your own skills instead of paying for service.

Prepare and eat less expensive but equally nutritious foods to afford better clothes or to live in a more desirable neighborhood.

If you have pared your flexible expenses as far as you

can, shave your fixed expenses. Check your rent or mortgage payment. You may need to move into a lower priced apartment or make different living arrangements.

What about transportation? You may need a cheaper car, or should try public transportation, car pooling or perhaps walking.

Consider your insurance program. Term insurance can be obtained for about one-third the cost of straight life insurance and about one-seventh the cost of an education or endowment policy. Pay your premiums quarterly or semi-annually to reduce premium cost.

After you have cut all you can, if you still have needs, consider ways to increase your paycheck. Consider adding a part-time job. Upgrade your efficiency and look for a better job. Consider the pros and cons of a dual income family.

Keep records; evaluate your plan until you find one that meets your need. Better utilize your paycheck.

"One man's fault is another man's lesson." H.G. Bohn

SPACE SHUTTLE TO BE SPECIAL ATTRACTION IN HUNTSVILLE, ALABAMA IN '78

TRANQUILITY BASE, HUNTSVILLE, ALABAMA — It flies like an eagle, silent but commanding through the sky. Soon man will guide it to the outer reaches of space. But first he must test its wings near earth. It's the pride of America's space fleet — the Space Shuttle.

1978 is the year of Space Shuttle at the Space and Rocket Center in Huntsville, Alabama. America's newest spaceship, the Enterprise, will be available for viewing by Space and Rocket Center visitors during most of 1978, except when operational activities prevent it.

The Space Shuttle will be at NASA's Marshall Space Flight Center for testing from March through November 1978. The Space Shuttle will arrive in Huntsville atop a 747 aircraft. It will be off loaded and moved to the Marshall Center where it will undergo vibration testing with other parts to simulate lift-off and flight. This will be the first time that all Space Shuttle parts are assembled and tested in a vertical position under conditions similar to launch. The new re-useable spaceship will begin flights in 1979. It will transport equipment and personnel into space, much like an airliner, at much lower cost than previous space flights.

The Space and Rocket Center, located near the NASA complex, conducts bus tours that permit visitors to see the activities related to Space Shuttle. The Space and Rocket Center houses the largest and most complete collection of missile and space related equipment ever assembled. It is visited by almost 300,000 visitors annually.

A major addition to the Center's collection of unique space related experiences is the new Star Ship scheduled to be opened in the spring of 1978. It will permit twenty passengers to take a simulated flight aboard a Space Shuttle type vehicle. Passengers will experience lift-off, flight through space, fly-by of a futuristic Space Colony, reentry and return to earth. Special effects include a large screen projection system, vibration, lighting and sound experiences, and motion maneuvers like that of the real Space Shuttle. The shuttle craft interior is made from a modified Boeing 737 jetliner fuselage. It will permit visitors to the Center an opportunity to experience a realistic flight aboard America's newest spaceship.

Other space experiences at the Center enable visitors to feel what it's like to float in space, under simulated conditions of course. The Zero Gravity machine lets you climb into a seat at the end of a long arm, adjust your weight to that of moon gravity and push off

make an almost effortless 180 degree "moon like" leap through the air and land thirty feet away.

Nearby is the famous Lunar Odyssey spaceship built by the Space and Rocket Center to simulate a rocket flight to the moon. Forty-six passengers can take a realistic flight in a spinning theatre and experience two g's and simulated weightlessness while passing through the solar system and eventually landing on the moon.

The museum is most famous for its many do-it-yourself gadgets related to space travel. You can still push buttons, pull levers, turn cranks and make things happen. You can fire a real rocket engine, see your heartbeat on a TV screen, fly a spaceship through an asteroid belt, climb in a real moonship cockpit and ride in a gyro chair. Over fifty participation devices are available for a hands-on experience.

The museum's NASA bus tour has more excitement than ever before. It offers a behind the scenes look at giant test facilities used in the Apollo program that now contain new fascinating hardware to be used with the Space Shuttle. The two-hour tour takes you into laboratories where the Space Shuttle and other futuristic payloads are being developed. Many different parts of Space Shuttle and work related to the nation's latest space venture will be seen on the tour in 1978.

One stop enables visitors to watch astronauts and engineers train in a huge water tank. Dressed in spacesuits and weighted so that they neither rise or sink, the astronauts and engineers enter the water tank and practice tasks they will be required to perform in the weightless environment of space.

The Space and Rocket Center continues to portray the exciting story of this nation's assault on space from the early days of Monkeysuit Baker to the historic moon landings by U.S. astronauts. In 1978 it will present to visitors the next era of space travel, a close-up look at Space Shuttle and the fascinating things to happen in space during the next twenty years.

The Alabama Space and Rocket Center is open every day except Christmas Day from 9:00 A.M. to 5:00 P.M. during winter months and 8:30 A.M. to 6:00 P.M. during the summer. NASA bus tours are conducted every day.

For more information about group visits and dates the Space Shuttle will be available for viewing in 1978, call 205-837-3400 or write to the Alabama Space and Rocket Center, Tranquility Base, Huntsville, Alabama 35807. Out-of-state residents may call toll free 1-800-633-5761 for up-to-date Space Shuttle status reports.

Tishomingo News

Johnny Hall, who has been in a Memphis hospital for more than a week, has had serious surgery and is reported as doing well. We hope he may soon be able to come home.

Mrs. Lillian Bickerstaff is a patient in Lafayette County Hospital, Oxford, Miss., where she had surgery last Wednesday. She is the wife of the late Dr. T. A. Bickerstaff, who lived and worked at the University of Mississippi for 47 years and he was a Tishomingo boy. We are very happy to report that she is doing well following her surgery.

Bro. Eugene Tennison's mother was moved from Booneville to North Mississippi Medical Center in Tupelo for surgery last week when her condition became critical. She stood the surgery as well as her age would expect, but she is a very sick patient yet. We are thankful that she is in the Lord's care and we feel sure that the nurses and doctors will do everything possible that can be done for her.

Mr. and Mrs. Ronnie McAnally, of Jackson, Miss., are the proud parents of a 7 lb. 5 oz. baby boy born on his birthday, January 11, 1978. He has been named Michael Thomas.

Some of the churches in this area cancelled their services on Sunday due to icy roads leading to the churches.

Mrs. Ruth McLain, wife of one of Tishomingo's coaches, had surgery in Tishomingo County Hospital last Friday and is improving.

Mr. Will Hester is a patient in Booneville Hospital.

Kim McClung, son of Mr. and Mrs. Avon McClung, is in Tishomingo County Hospital. Mrs. Will Page is confined

at home with acute arthritis. Mr. Bobby Wade came to spend the weekend with his parents and has flu and could not return home.

Mr. and Mrs. Hoyt Phillips, who have spent several weeks in Florida during the winter months, have returned home. We welcome them back.

Roy Nash, who suffered a light heart attack recently, is still in Tishomingo County Hospital for treatment. He hopes to be home soon.

Ganns Attend Meeting

Cecil and Mackie Gann owner of the OTASCO store here, just returned from Tulsa, Okla., where they attended the annual Spring Meeting and Merchandise Show at the Civic Assembly Center, January 8 and 9.

Over 1,450 retailers -- owners, wives and employees -- of more than 425 independently owned OTASCO Associate Stores from 13 Southern and Midwestern states were present at the two-day event. Attending with Cecil and Mackie were Tom and Iris Seratt, of Martin, Tenn. Merchandise presentations with flashing slides on multiple screens, footlights and music got the meeting off to a fast start. New items for the 1978 spring season were presented by company officials and merchandise managers.

Highlighting the event was a banquet Sunday evening at which time awards were presented to associate personnel for outstanding achievements during 1977. Pins were presented

to those celebrating service anniversaries and the coveted "Dealer of the Year" award was announced. Cecil and Mackie were #1 in their division selected by top officials for "Dealer of the Year." On Monday, dealers and their personnel viewed and placed orders for spring and summer items at a giant merchandise display in the Civic Assembly Center.

1977 marks the firm's 60th year in business. OTASCO is headquartered in Tulsa and also maintains distribution centers in Little Rock, Ark.; Meridian, Miss.; and Atlanta, Ga. The

four centers serve more than 650 Company-owned and Associate Stores.

LeBonheur Tours

Le Bonheur Children's Hospital volunteers told Rotarians that "Le Bonheur is reaching for Medical Center status to serve better sick children from throughout the Mid-South."

Two members of Le Bonheur Club, Mrs. David G. Williams and Mrs. Finley G. Van Brocklin, spoke to the Iuka Rotary

Club. Their message explained how Le Bonheur is expanding to meet the greater need in caring for Mid-South children.

These ladies from the Memphis children's Hospital, founded 24 years ago by a small group of women, were touring Northeast Mississippi to explain the Hospital's growing role, and to explain that Hospital statistics show increasing numbers of patients from outside Shelby County coming from the 80-counties in Tennessee, Arkansas, Mississippi, Missouri and Kentucky. Le Bonheur's expansion is geared to meet its role as a regional referral center. "After ex-

pansion is complete in early 1979, there will be no need to take a sick child anywhere else for treatment. We have planned facilities which will compare with children's medical centers in Boston, Chicago and Los Angeles," Mrs. Williams said.

Providing health care for children is not the same as for adults, because children are not just "little adults" when they are sick, Mrs. Van Brocklin explained. "We have acquired by long-range planning the highly-specialized equipment and technicians modern medical science dictates, which in most cases are quite different

from that of adult hospitals."

In addition to providing comprehensive, specialized health care for children, Le Bonheur is a teaching institution, through affiliation with the Pediatric Department of the University of Tennessee Center for the Health Sciences. More than 260 residents, interns, fellows of medical students, and more than 150 student nurses, annually receive some training experience at Le Bonheur.

"Such specialized pediatric training of medical personnel is a boon to a very wide area," Mrs. Williams added. "And, there are 21 separate research projects involving pediatric

care currently underway."

We get the difficult cases from our 80-county area referred to the more than 100 physicians on Le Bonheur staff by hundreds of pediatric practitioners throughout the area, she added. "And, we have had patients already transferred from states already in the area, she added. "With an 85 percent increase in floor space and an increase from 140 to 220 admissions are Le Bonheur's goals for 1979. In 1979, first year of the complete Le Bonheur Children's Medical Center, she concluded.

IT'S TIME TO BRING AN END TO WASTE EVERYWHERE

Waste. It means using up our natural resources recklessly. And it means that whatever is lost through carelessness can never be replaced.

The early native Americans believed that nature knew best. In the last decade, nature indeed has been telling us that our fossil resources must be conserved if they are to last until they can be supplemented with alternate forms of energy. That means we need better home insulation, energy-saving building design, and more careful use of gas and oil by energy consumers.

Conservation. This company encourages it and practices it. Conservation won't solve the energy problems, but it will help make our resources last longer while we work to increase production of energy supplies.

Another way we're working for a better energy future.

Start the new year with an old friend

The Northeast Mississippi Production Credit Association has been financing many of this area's best farmers and ranchers for over four decades.

Since 1933, PCA has seen the ups and downs and the ins and outs of agriculture. The good years. And some not so good.

These years have given us the kind of experience that helps

to understand farming and ranching. And to do a better job of financing our members. Among other things, that experience has taught us to keep looking for new ideas and better approaches to agricultural challenges.

PCA is totally committed to agriculture because farmers and ranchers are the only people we finance. And because our association is owned by the members who borrow from it.

This commitment and experience makes PCA a better partner every year...a better partner to the farmers and ranchers in your area.

If you've made a new year's resolution to turn 1978 into a more profitable year for your farm or ranch, stop in and talk to us. Maybe we can help you carry out that resolution.

When farmers talk, PCA listens.

NEMJC Ranked 17th In Poll

Northeast Mississippi Junior College is ranked 17th in the NJCAA poll. The Tigers have only one defeat in fourteen games. Their only loss was to Calhoun College of Decatur, Ala. Just before Christmas holidays Northeast turned the tables on Calhoun in a double overtime, 90-88.

They are the leading team in Region VII, and have averaged 91 points. In scoring they rank fourth and in defense, they rank seventh holding their opponents to 77 points per game.

The Tigers are undefeated in North Division play, currently holding a five and zero record.

This Thursday, January 19, the Northeast teams are playing

Itawamba at the Bonner Arnold gymnasium. Next Monday they journey to Northwest and on Thursday, January 26, East Mississippi comes to the Tiger Den.

Spring London Tour

The Northeast Mississippi Junior College will sponsor an eight-day tour to London from March 18-25, 1978. This trip is designed to appeal to area teachers and students since it coincides with the spring holidays, but it is open to all who might be interested.

The tour cost of \$724 includes the round trip flight from Memphis to Memphis; accommodations in a first class hotel; day trips with meals to Canterbury, Stratford, Oxford, and Stonehenge; passes for unlimited travel on London buses and subways; and all museum and theatre tickets.

For further information contact Dr. Anne Gaddis, Instructor of English, at 728-7751 (Ext. 253) or 728-6110.

Extra Free Milk Ends

Needy children will no longer receive a second half pint of free milk with meals served in schools and institutions, Assistant Secretary of Agriculture Carol Tucker Foreman announced.

The change, effective Feb. 1, applies to school lunches and breakfasts and to all meals -- breakfast, lunch, supper -- served under the child care food program. Ms. Foreman said, "We have made this change in our regulations for the special milk program to implement the provisions of Public Law 95-166, which expressed the concern of the Congress that some of the extra free milk has been wasted."

"Needy children who receive free meals will continue to receive one free half pint of milk as a component of the meal," Ms. Foreman said. "What we are discontinuing is the practice of making a second half pint of milk available free to needy children during meals."

Those needy children who want an extra half pint of milk with their meals will be able to purchase it at the low prices that are made possible by the special milk program.

"Also," she said, "a half pint of milk will still be provided free during meal periods to needy children who elect not to take the free meal. This assures that needy children who bring their lunch from home will receive a free half pint of milk to drink with their lunch. And schools and institutions will be required to continue to make free milk available to needy children when the special milk program is operated at times other than during meals."

These changes in the regulations for the special milk program are scheduled to be published in the Jan. 6, 1978 issue of the Federal Register.

NO SET-ASIDE FOR COTTON, GRESHAM SAYS:

"There won't be a set-aside requirement for cotton producers," Mr. Gresham, Chairman of the Tishomingo County Agricultural Stabilization and Conservation Committee says, "but we are encouraging farmers to reduce their 1978 plantings by 20 percent." Mr. Gresham noted that farmers who cut back by the recommended 20 percent will be eligible for deficiency payments -- if any are made -- on their entire acreage. The 1978 target price for cotton is 52 cents per pound. "We expect only a small reduction in cotton acreage in Tishomingo County," Gresham said. Mr. Gresham added that local farmers planted 1,994 acres to cotton last year. Throughout the cotton belt, prices were high this time last year, so many farmers increased their acreage, Gresham said. Heavy plantings plus exceptional yields forced prices back down. That has made cotton more competitive with synthetics, he said. According to cotton experts that the U. S. Department of Agriculture mills are now turning away from synthetics and back to cotton as lower prices prevail. The goal of the USDA cotton program is to help farmers produce the amount of cotton which will bring them the best price --

high enough for a profit yet low enough to compete with synthetic fibers. To be eligible for the 1978 cotton program, a Tishomingo County farmer must certify their acreage at the ASCS Office located at 205 Eastport St., Iuka, Miss. The new 1978 cotton program also includes provision for payments to farmers in the event of prevented planting or low yields of one-third of the target price payment -- 17.3 cents per pound. The 1978 loan rate on cotton is 44 cents per pound.

SAVING ENERGY

Overheating wastes your money, energy

Overheating your home is a tremendous waste of money and energy.

If you are chilly at the recommended 68 degrees, why not put on extra clothing, a nice cozy sweater, or wrap up in something warm while you watch TV. Add blankets or quilts to your bed or try an electric blanket for sleeping comfort. The electric blanket will use less electricity

than a 200-watt light bulb. If you don't have a central system, close off parts of the house that are unused and heat only the rooms where you spend most of your time. During extremely cold weather you might take a tip from the old days and move the family into one heated room for sleeping.

Consider these facts. You pay five to seven percent more for each degree you heat your house above 68 and four to six percent less for each degree you heat under 68.

Clearly your savings will be worth the extra effort it takes to stay warm at lower temperatures.

Ask your power distributor for more information about how to heat your home efficiently and lower heating costs.

Don't peek

Opening the oven door unnecessarily to peek inside wastes energy. Each peek lets out about 20 percent of the oven's heat.

Sky-high bills

A mobile home with little or no insulation will have sky-high heating and cooling bills. For energy and money savings on utility bills be sure to get a model with full or super-thick insulation. Minimum insulation standards for conventional homes are R-19 over the ceiling and R-11 in walls and floors.

COUNTY TOURNAMENT UNDERWAY

The Tishomingo County Tournament got underway on Friday, January 13, after bad weather halted the Thursday night openers. According to Burnsville Basketball Coach, Mike Hailey, five games were played throughout the afternoon and evening to make up for Thursday night's postponement.

In Friday's action, beginning at 5:00, Tishomingo's Lady Bulldogs dropped Burnsville 58-38 and the Bulldogs nipped Belmont 52-47. In other games Iuka's Bees squeaked by Tishomingo 37-36, Belmont's Cardinals routed Iuka's Chiefs-

tainettes 50-25 and Burnsville's A Mustangs whipped Iuka's Chieftains 66-51.

Brenda Bailey had 21 points for the Lady Bulldogs, while Leigh White and Lisa McRae added 12 points each. Barbara Glidewell and Mary Shea each had 10 for Burnsville. Tishomingo led 29-8 at the half. Rickey Brown put 23 points through the hoop to lead the Bulldogs to their win and Junior Luster had 16. Paul Green had 20 for the Cardinals. The Bulldogs trailed 17-15 at the half.

Kim Coker had 19 points and Deborah Parker added 12 in

Belmont's win over Iuka. Anita Mitchell paced the Chieftainettes with 13 points. Belmont had a 29-10 halftime advantage.

Terry White led Burnsville over Iuka with 20 points while Rusty Garvin had 18. Ronnie Martin had 14 for Iuka, Leland Cole had 12 while Riley Bennett and Danny Young each had 10. Burnsville led 37-22 at the half.

Benny Murrah had 15 points and Allen Lyles added 11 for the Iuka Bees in their win over Tishomingo. Porter McKee led the little Bulldogs with 15 and Gary Buchanan had 11. Iuka led 21-14 at the half.
