George W. Cutshall  
Seeks Office Of  
County Sheriff

In announcing my candidacy for Sheriff, I sincerely believe that I can fulfill the need for good law enforcement for Tishomingo County. While visiting and talking with people all over the county, you have expressed your concern to me about the need for good professional law enforcement the kind that would protect homes, our property and lives from the criminal element in our area.

For those of you that may not know my qualifications, I am qualified by experience and training to carry out the duties of this office; having served 12 years as your County Coroner, 3 1/2 years working for the FBI, two terms as Mayor of the City of luka, of which included being City Judge and 8 years as your Sheriff. I want to put this depth of experience to work for you AGAIN as your Sheriff.

I stand on my record as your Sheriff as evidence of my ability to enforce the laws of our county. Not a perfect record, but one that I am proud to have been a part of. During those 8 years, when the crime rate across our state and nation was increasing drastically, the crime rate in our county was kept at the same level or was reduced, except for two years. I am proud of this accomplishment. The reduction in crime is what law enforcement is all about.

Thank each of you for the support that you have given me in past elections. I shall always be grateful to you. This is a new day and time and the need is greater now than ever before for good and dedicated law enforcement that the people of our county rightfully deserve.

If I fail to see any of you, please do not be offended, it will not be intentional, as I have to continue working during this campaign. I will try to see as many of you as I possibly can and present to you my qualifications personally.

I sincerely want your vote and support in any way to be elected Sheriff. I urge each of you to examine the candidates for this office, their record of public service, their qualifications and their dedication to serve the public when make your choice.

I am a member of the luka Methodist Church, where I serve as a member of the Administrative Board, 32nd Mason and a Shriner, a Veteran of World War II, a member of V.F.W. and American Legion.

My wife and I have three married sons and four grandchildren. I would like to think that I would be able to help them enjoy some of the privileges that I did while growing up and that is in an area as free of crime as possible. With the help of you and you good people of Tishomingo County, we can achieve this goal.

THANK YOU,  
GEORGE W. CUTSHALL, SR.

Bob Payne  
Announces For  
County Sheriff

I, Bob Payne, am publicly announcing my candidacy for the office of Sheriff of Tishomingo County.

I have been a resident of Tishomingo County all of my life, and am a member of New Bethel Baptist Church in Belmont. I am married to the former Mary Nunley, of luka, and have three children, Judy Wigginton, Bobby, Jr., and David. I attended Belmont High School, Northeast Mississippi Junior College, and completed two years at Northwest Technical School in Alabama. I am also a member of the Sheriff's Association of Mississippi. I have had nearly eight years experience in law enforcement as Belmont City Policeman and as a deputy sheriff for the last three and one-half years. As of June the first, I have taken a leave of absence from that job to seek the office of Sheriff of Tishomingo County.

I would like to take this opportunity to thank the people of this county for their support and help in my job as deputy sheriff. That same support and help even more so will be needed if you see fit to elect me as your next Sheriff. A Sheriff is only as good as the people he serves. With your support and help I would do a good and conscientious job.

It is my intention to see each and every one of you personally, but if time does not permit me to do so, please consider this a personal appeal for your vote and support.

THANK YOU,  
BOB PAYNE

Dobbs For Sheriff

IF THE LAW IS TO BE  
HONORED, IT MUST FIRST BE  
HONORED BY THE ONES WHO  
ENFORCE IT

If elected your Sheriff I will emphasize investigations of Burglary-Larceny and Drugs. More violent crimes will, of course, receive top priority.

County Units will patrol county roads as well as State highways and city streets. Felony investigations will be conducted in both the city and county.

Prisoners of the county will be confined in their cells and exercised only under supervised conditions.

If elected your Sheriff, I will enforce the laws of the State of Mississippi in a fair and impartial manner for four years without fear or worry of being re-elected.

Your calls will be answered in a friendly manner. The office will exist only to serve and protect you, the public. All areas of the county will know they have a working Sheriff. I have no other jobs or businesses to run. I will devote the time to the job and do it right.

Law Enforcement Experience: Deputy Sheriff of Tishomingo County; Police Department, City of luka; 38 years of age; in good health; Honorable Discharged Vietnam Veteran; 2 years at Northeast Junior College; 1 year at Atlanta Tech.; U.B.C. 2352 Corinth, 3 1/2 years; V.F.W. 4978, luka; married; and a property owner.

I am able and willing to join the good people in this county who are fed up with the problems that face us all now, more than ever.

I will work with all citizens, black or white, rich or poor, for the good of us all. Working together we can make a difference.

If any law-abiding citizen of Tishomingo County ever thinks I have taken a pay-off or obtained any money illegally, I will submit to a Polygraph examination (Lie Detector Test) to prove my honesty or I will resign from office!

Any candidate for any office not willing to make such a public statement does not deserve your support!

It is your County - don't sit back any longer, go to the polls on August 2, and vote to decrease crime in Tishomingo County.

I ask for your vote, your support, and most of all your prayers.

VOTE DOBBS  
YOUR SHERIFF

THANK YOU,  
RICHARD DOBBS

P.S. (NOTE) Polygraph must be paid for by person or persons in doubt of my honesty. This will protect me from undue harassment.

Ables Announces

I would like to take this opportunity to announce my candidacy for Chancery Court Clerk. Four years ago, you made it possible for me to come within 100 votes of this important office. For this vote of confidence, I am deeply grateful, and because of it, I will work even harder and more diligently to seek your support once again. To thank you is not enough, but to serve you would be an honor and a privilege, and the only way I can repay you for your kindness.

I am 37 years old, married to the former Dianne Taylor, of Belmont, and we have one son, Jeremy, age 11. I am a graduate of luka High School and attended Northeast Junior College. I worked for 12 1/2 years for W.R. Grace Chemicals as a Chemical Laboratory Technician, Computer Systems Specialist, and Assistant Supervisor. Since 1979 I have been a Steamfitter Apprentice for Tennessee Valley Authority. Because of construction cutbacks, I am presently unemployed.

### Selecting Fresh Foods

Of course you want to buy the freshest foods possible. When selecting fresh produce or meat, you can see quality just by looking. But you can't open packaged foods to check for freshness before you buy them. Open dating, or freshness dating, is a system which helps to make sure you receive foods at their peak quality. It is an important shopping tool that helps you get the most value for your food dollar.

An open date is any

candle date marked on a food package or container. You can easily read and understand an open date and use it to make informed buying decisions.

The open date serves as a general guideline for selecting foods, but handling, storage conditions, temperature and humidity also affect food quality. If products are improperly handled at any point in the food marketing system or by you at home, they will lose quality and can even spoil.

Open dating has grown over the past decade because of consumer interest and because it helps stores assure the freshness of their products. Currently, there are no federal laws requiring open dates on foods, but some states, counties and cities require various types of

County Executive Director

**MAINTAIN QUALITY ON FARM—STORED GRAIN, FARMERS ADVISED** — The Agricultural Stabilization and Conservation Service reminds farmers to make frequent inspections of farm-stored grain and take necessary steps to keep it in good condition. Mild winter conditions in many areas caused excessive moisture, mold growth and insect activity in both farm-stored corn and sorghum.

"Maintenance of grain quality is particularly important for those farmers who will use their farm-stored grain loans to satisfy payment-in-kind obligations," said Howard R. Bridges, Chairman of the Tishomingo County ASC Committee.

"Any loss in the quality or quantity of farm-stored grain, whether it is in the reserve program or under regular loan, is fully the farmer's responsibility. Spot checks

made by our office are strictly for the purpose of protecting the Commodity Credit Corporation's interest and should not be relied on as a substitute for regular producer inspections," he said.

If any grain deterioration is detected during the agency's spot check, the farmer is instructed to recondition the grain, rotate it with new crops or repay the loan.

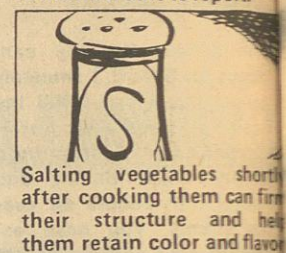

Bridges emphasized that farmers need to be particularly alert to storability problems when inspecting their grain, and should increase spot checks of the grain if the normal checks indicate the need. "The longer grain is in storage the more apt it is to become infested." In cases where high moisture or insect infestation exists, farmers should make certain that corrective action is taken.

The ASCS official said far-

mers are expected to continue using good management practices and to make regular inspections to protect and maintain the quality of farm-stored grain. Relaxation of these procedures could result in poor quality grain.

**CERTIFICATION** — A field-by-field report of COTTON, CORN, GRAIN SORGHUM, SOYBEANS & PEANUTS should be made to this office as soon as planting is completed. This includes conservation use acreage for farms

participating in the Acreage Reduction and Payment-in-Kind Programs. Since soybeans will be reported this year, certifying will be more time consuming. July 1 is the final date to report.

Salting vegetables shortly after cooking them can firm their structure and help them retain color and flavor.

## CARING FOR YOUR PET

### CANINE ALLERGIES

Itching, scratching, hair loss, or the appearance of reddened, inflamed patches of skin are all symptoms that your dog has a problem. It could be fleas, and this can be determined easily with a direct examination; or it could be ALLERGIES.

Allergic dermatitis can be due to an enormous variety of allergens, including pollen, grasses, rugs, foods, etc. Once other common dermatological diseases have been ruled out, your veterinarian can administer skin tests to determine the specific agent.

While this is in progress, there are internal medications -- corticosteroids -- which can be used to relieve the it-

chiness and other symptoms. Your veterinarian may also prescribe antibiotics to combat infections which may have developed due to the skin eruptions. Finally, antihistamines, or immunizations, may be required to reduce sensitivity to the allergen.

ACREAGE REPORTS — July 15, 1983 is the final date for all farms, whether participating or not, to report planted acreage and conserving use acreage. All producers and farm operators planting corn, grain sorghum, cotton, peanuts, soybeans and other non-conserving crops such as watermelons and garden crops are encouraged to file a timely and accurate acreage report as soon as planting is complete. Also, all farms having 1983 crop acreage bases for which the crops are not planted, should file a zero report of acreage to preserve the crop acreage base for 1984.

CONSERVATION USE ACREAGE — Farms participating in the Acreage Reduction, Land Diversion and Payment-In-Kind programs are required to protect conservation use acreage from wind and water erosion, insects, weeds and rodents.

You may want to consider devoting these acres to a permanent vegetative cover or conservation practice such as terraces, sod waterways or trees. If a permanent cover or practice is installed and maintained, the land will be

acceptable for designation as conservation use acreage in any future diversion program through 1985. The cost for installing permanent conservation cover or practices may be shared with farmers through the Agricultural Conservation Program.

Other protective covers for conservation use acreage include annual, biennial, or perennial grasses, legumes and volunteer stands other

than weeds. Conservation use acreage should be clipped or bushhogged when necessary to control weeds and bushes.

The most important edible by-product of cattle are variety meats. These are kidneys, brains, sweetbreads, liver, heart and tongue. All are nutritious and considered delicacies by gourmets.

## Reservoir Fluctuations Begin In TVA Mosquito Control Operation

TVA plans to begin weekly water-level fluctuations this month on mainstream reservoirs as part of its program to control mosquitoes in the Tennessee Valley.

The fluctuations will continue through Labor Day as weather permits. The fluctuations are a major part of the TVA effort to control lake-breeding mosquitoes, including those that carry malaria and dog heartworm diseases. Other measures include selected use of insecticides and shoreline maintenance.

Joe Cooney, manager of the TVA reservoir ecology program, said lake-breeding mosquitoes have not been a major problem so far this year because of heavy rains and high streamflows during April and May.

There have been some problems, however, with floodwater mosquitoes, most notably on Kentucky Reservoir. Floodwater mosquitoes hatch whenever low-lying areas of a reservoir are flooded.

Cooney said such lowland flooding has occurred three times this year on Kentucky Reservoir, creating favorable conditions for floodwater mosquitoes. These

mosquitoes also have been a problem on some other reservoirs in the southern edge of the Valley.

Cooney said major aerial and ground spraying has been carried out on Kentucky Reservoir as part of a TVA systemwide vector control program. There also has been some spraying on Pickwick, Wheeler, Hiwassee, and Chickamauga Reservoirs.

TVA has also received numerous complaints this year about ticks. "Ticks had an exceptionally good winter," Cooney said, "and they're showing up in large numbers."

TVA does a small amount of tick control work on reservoir properties, but the major battle is at Land Between The Lakes, in western Tennessee and Kentucky, where control measures and research are being carried out.

## Computer Usage For Students At Northeast

Computer Usage for Students will be offered one night per week for six weeks at Northeast Junior College beginning July 11, computer literacy coordinator Opal Melvin announced.

Specifically designed for students between the ages of 12 and 18, the class is limited to 25 participants. Registration fee is \$45.00 per person. All would-be participants must pre-register prior to July 5 to insure a place in the class.

The class is designed to acquaint students with microcomputers and their uses. Basic terminology and simple programming will be stressed, with a great deal of class time devoted to hands on experience situations.

During the programming sessions, emphasis will be placed on BASIC (Beginners All-Purpose Symbolic Instruction Code). This language uses English words and symbols for instructions to the computer. Basic is probably the most widely used language in the world with both mini and microcomputers.

Successful participants will be awarded credit for 18 contact hours.

For additional information or to pre-register contact Mrs. Melvin at 728-7751, Ext. 303.

## NEMJC To Host Summer Band Clinic

Band members from Mississippi, Alabama and Tennessee will converge on the Northeast Junior College campus Sunday, July 10, for one of the finest summer band clinics in the South.

Excellent instruction at a reasonable cost combines with outstanding facilities to make this week-long camp an

unbeatable opportunity for junior and senior high school band members to improve on their overall performance.

This year's camp will include instruction on all aspects of band performance Northeast band director and camp coordinator Ricky Bishop said.

"We will offer instruction in both individual and group sessions for marching, concert and jazz bands." In addition, quality instruction will be offered on all band instruments as well as for drum majors, flags, rifles and majorettes.

The camp staff is also an added plus. Willard Taylor, of Ripley; Bob Taylor, of Amory; and Ronnie Smith, of Corinth, will coordinate and instruction for the three band groups, while auxiliary units will be directed by some of the state's finest junior and

senior college band members.

Daily classes will be offered in music fundamentals, music appreciation, history of the marching band, concert and marching percussion sectionals, and marching band and jazz bands.

Private lessons will also be available upon request for these instruments: flute; clarinet; double reeds; saxophone; trumpet; French horn; trombone; euphonium; tuba; and percussion.

Total cost for instruction, meals and lodging is \$100.00 per person while commuting campers pay \$60.00 for instruction and the noon meals. An additional \$10.00 will be charged for students desiring private lessons.

For additional information, contact the band department at 728-7751, ext. 257.

#### NEW UNIFORMS

Barbara Jim Brown (left) and Susan Bagley (right) are shown modeling the Iuka High School Marching Band's new uniforms. Susan is attired in the drum major's costume, while Barbara Jim is wearing the regular field uniform for all members. Band Director David Bagley

wishes to thank the uniform committee, which is composed of Joyce Akers, Pat Bagley, and Jill Gann. He also stated that Marquita Greenaway, President of the Band Boosters, was instrumental in the drive to get new uniforms. This could not have been done, he said, without the support of the community during the band's many fund-raising projects.

#### Feathered Friends

Ten-year-old Petey Lambert, son of Mr. and Mrs. Pete Lambert, of Iuka, found these owls, newly hatched, six weeks old, in a tree that had been cut down. Petey took

them in to raise and named them Hoot and Toot. He found that his feathered friends like to eat chicken livers, ground beef and red worms, and liked to drink fresh spring water. Not expected to live, the owls have

survived for six weeks and are doing extremely well, according to Dr. Perkins. Petey is a Webbo, and will receive a Wildlife Award for caring for Hoot and Toot and raising them. Sharon Harold, Petey's troop leader, and the rest of the troop will let the owls go on their way when Dr. Perkins says they are old enough.

### Letter To The Editor

Dear Editor:

To live lonely, homeless, unloved, hungry and perhaps injured or diseased is no life for any being. You wouldn't want a life like that for yourself, but yet millions of dogs and cats lead lives like that because so many pet owners have failed to spay their females or neuter their males. This results in an unbelievable surplus of unwanted kittens and puppies.

Every hour 2,000 to 3,000 puppies and kittens are born in the United States. 17 million dogs and cats are turned into shelters and pounds each year while 13 1/2 million are destroyed at a cost of 125 million dollars to taxpayers. In our state alone, 800,000 to 1 million puppies and kittens are born each year with Tishomingo County obviously contributing to this staggering statistic.

It is time the residents of this county take it upon themselves to demand action from our local elected officials to provide a refuge for our unwanted and abandoned creatures which roam Tishomingo County. It is our duty to assume responsibility for these animals at our own shelter. Many animals receive their fair share in the pleasures of life which we claim for ourselves but the abandoned and unwanted also deserve the same even if it results temporarily at our shelter.

A few months ago, I personally met with the County Board of Supervisors and presented a structured plan for developing a shelter. I advised the members that the City of Savannah, Tenn. has had past experience in allotting money for a shelter to be allocated immediately when not previously planned for in that fiscal year. After meeting with Savannah's city manager and assistant city manager, they advised me they would be more than willing to work with our elected officials on their present budget and show them how it is possible to accomplish this.

I also made the members aware that two local veterinarians are anxiously willing to work with them, one being our own Dr. Perkins. Dr. Jackson, from Corinth, has had special training regarding making a shelter work as a financial asset rather than a deficit and he has agreed to devote time working with our elected officials on this matter. Next, I presented copies of the Mississippi state laws pertaining to animal welfare, which gives a city or county the authority to create a shelter. I also distributed copies of the ANIMAL WELFARE ACT, which amongst other things shows those in authority the requirements and regulations to follow when building a shelter.

Lastly, I presented various samples of city and county animal ordinances used by others and which Iuka sorely needs.

After speaking with Mayor Biggs and meeting with the County Board of Supervisors,

their general consensus on the issue was, "Tishomingo County does not really have an excessive surplus of animals and only a minimal animal abandonment problem, therefore, we do not need a shelter." I can certainly discredit this statement as my phone rings quite often regarding abandoned litters of puppies and kittens found at the callers doorstep or found inhumanly dumped alongside of the road or at trash dumpsters, which are really nothing more than mini-adoption centers of the county. Of course, there are probably more calls which are never made as these defenseless creatures were found too late or never found at all only to die a slow and agonizing death.

With election time approaching, I ask you to approach the candidates about the need for a shelter and ask for a definite answer to this serious and appalling need for a refuge for these defenseless creatures. Animals with no future deserve a shelter and if adoption is unsuccessful, then they also deserve a peaceful death at our temporary sanctuary.

Mr. Leon Cook, President of the County Board of Supervisors, told me I was the first one in the 13 years he has held office that had ever approached him about building a shelter. Won't you help change that by calling, writing or speaking to him and your other elected officials? The choice is yours whether we become the caretakers for our unwanted and abandoned animals or let them suffer an unmerciful death.

Humanely yours,

### Burnsville Homemakers

The Burnsville Homemakers Club met Thursday at 1:30 p.m. at the home of Mrs. Wilma Gilliland for the regular monthly meeting.

Thelma Gray, vice-president, presided in the absence of the president, Eleanor Richardson. She read the thought for the month: Sympathy is never wasted except when you give it to yourself.

Edna Earl Tapp, of the Health Department, was asked to speak. She talked on "Nutrition and Your Health." She discussed: 1. Eating a variety of food; 2. Maintain ideal weight; 3. Avoid too much fat, saturated fat and cholesterol; 4. Eat foods with adequate starch and fiber; 5. Avoid too much sugar; 6. Avoid too much sodium (salt); 7. If you drink alcohol, do so in moderation. The group was shown how to examine their breasts for lumps, which could be cancer. She excused herself after her talk.

#### \$100.00 Check

Harold Lomenick, representing the Iuka Rotary Club, presents DECA member Dave Harwell with a \$100 check toward expenses the local DECA chapter will encounter while attending their organizations national convention in New Orleans this week.

The contribution by the Rotary Club is one of many the civic organization makes to the community's youth. The Iuka DECA Club won the chance to attend national convention when their civic consciousness project captured first place at the state level.

from the 40th Chapter of Isalah. She chose "Mountains" as her subject. 1. What is a mountain? 2. Different kinds of mountains; 3. Mountain of fear; 4. As with everything else in life there are successes and failures in the mountain moving business; 5. More people pray when up against mountains than any other time. Have you moved any mountains lately? Ruby Adams worded the prayer.

Ann Strickland handed out material on general rules for stain removal.

Those who won prizes in the game for recreation were Ilene Graham and Dorothy Strickland.

The July meeting will be in the home of Eleanor Richardson. Delicious refreshments were served by the hostess to the following present: Ruby Adams, Ann Strickland, Ilene Graham, Bula Watkins, Thelma Gray and Dorothy Strickland.

### Harmony Homemakers

The Harmony Homemakers Club met June 20th in the home of Mrs. Marquita Greenaway for their monthly meeting. Vice-President, Vada Kay, called the meeting to order with the thought for the month - Sympathy is never wasted, except when you give it to yourself.

Delma Dean led the devotional. She recited the poem "Touch of The Master's Hand", and closed by leading in prayer.

Food preservation was the subject of the focus topic given by Becky Walker. Vada

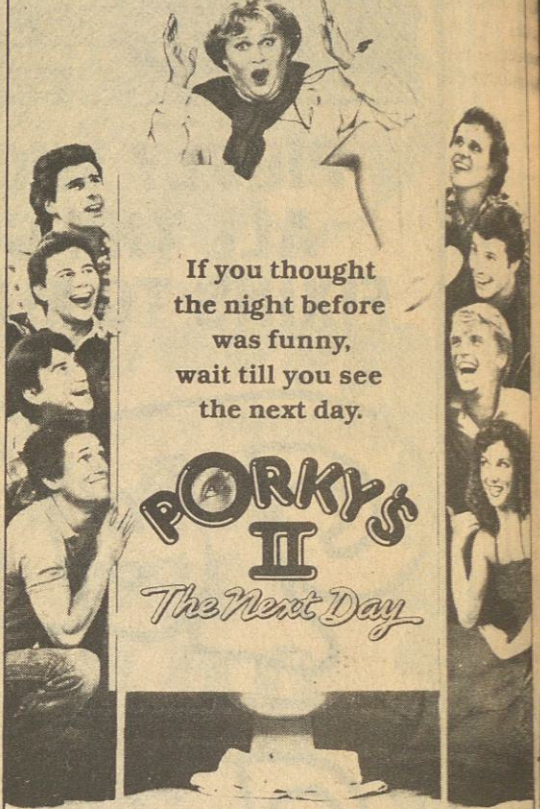

meal was served by "Circus Burgers" after which the meeting was called to order by President Bobby Riley. Incidentally, our new president, Bill Brewster, will take over his duties at our next meeting on July 5th. We had two important visitors, Sheriff "Amos" Bates and Mr. Bill Benson. These gentlemen were representing the Mississippi Sheriff's Boy's Ranch Association. Mr. Benson, who travels widely, to promote this highly deserving organization, gave a very informative dissertation, with slides for emphasis on the history and operation of the three Boy's Ranches within the state. The Lions of Mississippi are seriously considering the possibility of constructing a new Boy's (or

Girl's) Ranch - which is needed. A meeting of District Governors of Mississippi Lions is considered to work out details and see if the would be feasible.

Miss Baseball Camp — Miss Baseball Coach Gibbs (center) welcomed two Iuka residents to the 1983 Ole Miss Baseball

Camp at The University of Mississippi. They were Jim Ramsey (left) and Rush Sweeney. Baseball campers received expert instruction at

the camp, which was coordinated by the University's Division of Continuing Education.

Local Athletes Attend Camp Ole Miss

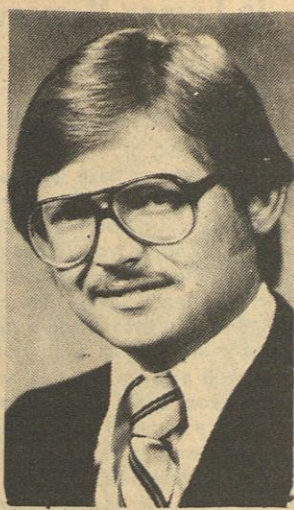

Recently the coaching staff Ole Miss, along with numerous guest instructors, conducted a football clinic for athletes from throughout the state. Special instructors

at the camp included: Archie Manning, quarterback for the Oilers; Jim Miller, punter for the Forty-Niners; and Ben Williams, tackle for the Buffalo Bills. The athletes were drilled in basic fundamentals of football, along with weight

training and conditioning. Among the more than four hundred attending the camp were: Glenn Adcock, Rod Swanson, Jeff Lyles, Randy Burton and Glenn Brown, all of Iuka. Pictured, left to right, are: Goob Lyles, Glenn Adcock, and Hot Dog Brown.

**GARY DWAIN CARR** has recently been selected as an Outstanding Young Man of America for 1983. In receiving this distinctive honor, he joins an elite group of young men who have demonstrated their excellence in professional and civic activities. These chosen men work diligently to make their country a better place to live. Mr. Carr has proven through the virtues of hard work, determination and the willingness to give of himself that he is truly an outstanding young man. Mr. Carr is a senior medical student at the University of Mississippi Medical Center in Jackson. He is the son of Mr. and Mrs. Eural D. Carr, of Iuka; and is married to the former Deborah Lee, of Petal, Miss.

National Award Winner

The United States Achievement Academy announced that Ritchie Ables has been named a 1983 United States National Award winner in science. He is the son of Mr. and Mrs. Paul Ables. His grandparents are Mr. and Mrs. Stanley Ables, of Dennis; and Mrs. Myrtle McKee, of Iuka. The Belmont student was nominated for the award by his science teacher, Mr. Joe Chumbley. This award is a prestigious honor very few students can ever hope to attain. In fact, the Academy recognizes less than 10% of all American high school students. The Academy selects USAA winners upon the exclusive recommendation of teachers, coaches, counselors or other school sponsors and upon the Standards of Selection set forth by the Academy. The criteria for selection are a student's academic performance, interest and aptitude, leadership qualities, responsibility, enthusiasm, motivation to learn and improve, citizenship, attitude and cooperative spirit, dependability, and recommendation from a teacher or director.

### Area Athletes Participate In Roundball Camp

Local participants were Phillip Hall, winner of the hot shot award; Jeff Linton, Lee Peery, winner of the All-Star award; and Mitch Wright.

The week-long camp was directed by Tiger head coach Richard Mathis.

### Local Student Receives University Scholarships

Gregory E. Crane, of Golden, has been awarded a John E. Johnson Memorial Scholarship and an Academic Achievement Award at The University of Mississippi.

The John E. Johnson Scholarship was established in 1968 through a bequest of the late Mr. John E. Johnson who was an alumnus of the University of Mississippi School of Engineering. It is awarded to junior college

transfers from the northern district of Mississippi.

The scholarship is automatically renewable on a semester to semester basis provided the recipient maintains a 2.5 grade point average for the first year and a 2.8 GPA each semester thereafter on a 4.0 scale. The recipient must be a full-time student.

Academic Achievement Awards are presented to entering freshmen who graduate first in their classes, entering freshmen who qualified as semi-finalists in the National Merit Competition and junior college transfers who are members of Phi Theta Kappa, national junior college scholastic honorary. The merit award is for one semester only.

The John E. Johnson Scholarship and Academic Achievement Awards are among the more than 150 dif-

ferent types of scholarships awarded each year to students at Ole Miss.

Crane, son of Mr. and Mrs. Eudell Crane, attended Northeast Mississippi Junior College and graduated from Belmont High School. In high school, he was class president, Star Student and was a member of the Beta Club and Society of Distinguished High School Students.

Crane plans to major in pharmacy at Ole Miss.

## COME TO CHURCH

We all have times when things go wrong,  
And Fortune's in reverse;  
Yet we're expected to be strong,  
Though things could not get worse...  
A strength of which the Scriptures name  
Examples plain to see:  
Like Job, whose faith remained the same  
Throughout adversity.

So why not go to Church this week,  
Whichever one you choose,  
And listen to the Bible speak;  
There's not a thing to lose!

Then, what those passages command  
You'll follow to the letter;  
And let God take your life in hand,  
To change it for the better!

#### Buying Pesticides

Buying and selling materials to control household and crop pests is becoming more complicated as new materials are offered on the market and stricter controls are imposed by state and federal agencies.

Safe and proper use of these pesticides is necessary if we are to maintain a plentiful food supply and continue to enjoy a high level of public health.

A person who sells pesticides is in a rather unique and vulnerable position. Whether he sells to a large grower, the backyard gardener or housewife, he must face the fact that he is putting a poison in the hands of the public. He must make sure the right material is sold to prevent a possible accident.

Good pesticide dealers understand this. They know a buyer will come again if he knows the dealer is interested in the health and welfare of the customer as well as selling the right pesticide for the job.

When you buy pesticides, consider these points:

-- Large packages are usually cheaper on a per pound basis. But, left-over pesticides may cause a storage problem. A short shelf life causes waste and increases costs.

-- Dusts are usually more expensive than wettable powders or concentrated solutions, but they are also more convenient to use.

-- Aerosols are usually the most expensive form. But, the convenience may be worth the price.

Contact the County Extension Office for more information about using pesticides in crops, homes and gardens.

The Valley Adventure — The time is drawing near for the July 20 docking of The

Valley Adventure, T.V.A.'s floating museum, at J.P. Coleman State Park. This

specially designed rivercraft will be moored at the park from July 20 until July 24,

giving area residents the opportunity to tour this interesting exhibit, which was a big hit at the Knoxville World's Fair.

## Entertainment on TVA Exhibit at Coleman Park July 20-24

Lively local entertainment from a champion fiddler and Dixieland band to a magic show will be center stage when TVA's 50th Anniversary floating exhibit, "The Valley Adventure," moors at J.P. Coleman State Park on July 20.

Western-style square dancers and cloggers are among some 25 local performers

who will be part of the entertainment in the Adventure Theater and at the Coleman State Park site during the stop. "The Valley Adventure" will be at the park through Sunday, July 24.

"The Adventure Theater is a living exhibit which will highlight community events and talent as well as TVA programs of interest at each of 'the Valley Adventure's' 23 stops," said Donna Lifur, TVA Adventure Theater programming manager.

During its six-month stay at the 1982 World's Fair in Knoxville, Tennessee, the TVA exhibit was visited by more than one million per-

sons. Many of the exhibits have been refurbished or updated since the fair.

In addition to depicting life in the Valley as it was 50 years ago, the exhibit, which will conclude its journey in October, showcases a variety of current TVA programs that illustrate the accomplishments of the people and TVA in regional resource development.

Captain Nat Phillips, a Mark Twain-style riverboat pilot and storyteller, also will be on board to entertain audiences with stories about early life in the Valley. The Adventure Theater programs will be scheduled with school-age children in mind between 10 a.m. and 2 p.m. daily.
