IHS Homecoming Court-The 1990 Homecoming court for Iuka High School will be presented Friday night, September 28, during halftime ceremonies of the Iuka-Biggersville football game. The Queen will be announced at this time and she and her

court escorted onto the field. Selected as members of the court are, from left, Freshman Maid Amanda Williams and escort Jason Cutshall; Sophomore Maid Jennifer Shea and escort Matt Dexter; Junior Maid Heather Bishop and escort Johnny

Parker; Senior Maid Julie Ham and escort Steven Perkins; Senior Maid Kelley Rutledge and escort Scott Senter; and Senior Maid Christy Robinson and escort Scott Shackelford.

Iuka High Homecoming To Recognize Past Graduates

Homecoming 1990 is being celebrated this week at Iuka High School. Come and join us for the grand final Friday night which will feature the crowning of the 1990 Homecoming queen.

At 6 p.m., the cafeteria will be open to all past graduates. Come use this time to visit with your friends and view the halls of IHS. At 6:50, all graduates are asked to assemble on the football field for a recognition ceremony. The ceremony will begin at 7 sharp, so don't be late.

The homecoming court will be presented at halftime of the Iuka-

Biggersville game. After the game, the cafeteria will again be open so that graduates and students may visit together to recall good times at Iuka High.

The Homecoming court consists of the following: Freshman Maid Amanda Williams, daughter of Pam and Gary Williams, and escort Jason Cutshall, son of Janice and Larry Cutshall; Sophomore Maid Jennifer Shea, daughter of Terry and Dennis Shea, and escort Matt Dexter, son of Teresa and Stanley Dexter; Junior Maid Heather Bishop, daughter of Ann and Eugene Bishop, and escort

Johnny Parker, son of Noreen and Joe Parker; Senior Maids Julie Ham, daughter of Belinda Pruitt and the late Wayne Ham, and escort Steven Perkins, son of Kay and Jim Perkins, Christy Robinson, daughter of Sandra and L.T. Robinson, and escort Scott Shackelford, son of Wanda and Benny Shackelford, Kelley Rutledge, daughter of Suzanne and Bill Rutledge, and escort Scott Senter, son of Deborah Senter and Ralph Senter.

Notice

The Eastport-Mill Creek Volunteer Fire Department will assume the jurisdiction of the region north of Highway 72 and west of Alabama State Line. This would include the area from the Iuka City limits back to the Alabama line. Eastport-Mill Creek Volunteers will provide fire protection until a fire department can be established.

Residents can expect to be contacted within the next few days by fire department personnel collecting dues and donations.

The regular monthly meeting will be Monday, October 8, at 7 p.m.

Man Found Dead Near Home

Alfred Parsons, age 81, was found dead on Rock Crusher Road Tuesday evening, September 25.

According to the Tishomingo County Coroner, Dale White, when he was called at 11:10 p.m., Mr. Parsons was dead at the scene. The body was taken to Jackson for an autopsy. Mr. White declined to make any further comments.

According to an unofficial source, Mr. Parsons' daughter found his body and notified the ambulance service at 10:57. His truck was found resting against an embankment in gear, with the engine running, and his body was in the road. It appeared his head was badly bruised.

At press time, the death was under investigation.

County Fair Dates Set For October 2-6

Plans are now being made for the Tishomingo County Fair, Livestock, and Rodeo scheduled for October 2-6. According to the Tishomingo County Fair Association this year's Fair promises to be the biggest and best Fair ever with the finest in entertainment for your entire family.

This year the Tishomingo County Fair brings top-notch professional

rodeo, sanctioned by the International Pro Rodeo Association, to the county on October 5 and 6 for two action-packed performances.

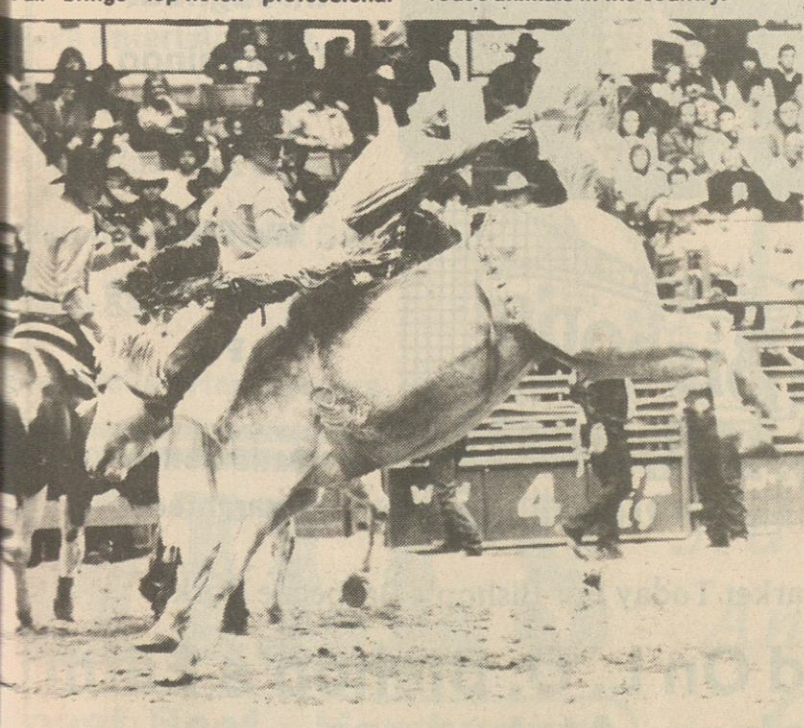

The performances, scheduled for Friday, October 5 and Saturday, October 6 beginning at 8:00 p.m. will feature the bucking horses and bulls of J Bar B Rodeo, some of the top rodeo animals in the country.

The Tishomingo County Fair & Rodeo will feature many of the top names in professional rodeo and will also accept local cowboys and cowgirls who want to try their skills as competitors. Residents of Tishomingo County are eligible to be local entries.

Other scheduled events for the week include: King & Queen of the Fair is set for Tuesday night beginning at 7:00 p.m. (to register call the Extension Office at 423-7016). On Wednesday night campus Country, Northeast Community College, will perform also at 8:00 p.m. The annual Gospel Singing will highlight Thursday night's activities. Friday night programs include (inside arena) the popular Tiny Tot Contest (call the Extension Office at 423-7016 to register). In the outside arena the J Bar B Rodeo sanctioned by the International Pro Rodeo Association will have their calf roping and steer wrestling underway. Saturday night will finish the week with a Youth Talent Competition in the inside arena and in the outside arena another grand performance by the J Bar B Rodeo.

On the Midway will be Bluff City Shows with rides, games, and cotton candy. Armband night will be Thursday night. Bring the kids and pay \$6.00 to ride all rides as many times as you like.

In addition to these attractions you can see 4-H, educational, and commercial exhibits and livestock. Make your plans now to attend the County Fair and bring the entire family.

Rodeo To Highlight Friday & Saturday Nights

Is Area Feeling NASA Growth?

Some statistics show that Iuka and the surrounding area are experiencing growth, while other figures reflect little or no change yet.

Over the summer, between June 1 and August 31, the Tishomingo County Electric Power Association recorded 150 new customers on its records. In comparison to 240 total customers for the whole calendar year 1989, this was quite an increase. In just three months, said TCEPA manager Robert Grisham.

In Iuka, operating permits have been issued to 31 new businesses since January of this year. These include service stations, convenience stores, builders, and other businesses. Another 17 self-employed workers -- plumbers and electricians -- obtained permits to provide services in Iuka, city hall reported.

In the real estate market, sales have been up for Ables Real Estate in Iuka. Dianne Ables said that her sales have increased about 60 percent over last year. The majority of sales have been to newcomers, with most of the homes in Tishomingo County, she said.

Grace Long of Grace Long Real Estate said that her firm has been busier in the last month, working with several new families in the area.

The market for resort homes continues to be very high, reports Beth Davis, broker for Paul Callens Real Estate. There is a shortage of rental property, however, which may be hurting the area, she said.

P.O. Beard Real Estate reports that about half of its recent sales have been to newcomers.

Enrollment at Iuka High School is up this fall, but only slightly, IHS principal Aubrey Ray said. Grades 7-12 have 492 students, as compared to 473 for fall of 1989. The increase is not really significant, Ray said, since the size of classes changes each year.

Iuka eating establishments seem to be reaping benefits of a heavier lunch crowd. Full parking lots are evident during the noon hour at Will's Restaurant, Pizza Hut, Bet's Family Restaurant, and others. Norma Vandiver, owner of Country Cupboard, said her lunch business was "very good."

Several local churches have been heavily visited by newcomers, with

several reporting a few new members. A spokesperson for Iuka Baptist said that many new residents were probably "visiting around" before relocating their membership.

No progress has occurred on two new motels planned for Iuka. Groundbreaking was held for a Days Inn Motel at the intersection of Hwy. 25 bypass and Hwy. 72 several months ago. Work on the project is scheduled to proceed next week. A Key West Inn planned for Hwy. 72 just west of the city limits is awaiting approval of a state Community Development Block Grant to the city of Iuka to help launch the project.

Plans for the new Iuka hospital are still under negotiation, said county development foundation director Mack Wadkins. How ownership of the facility will be handled has not been determined, but the \$5.8-million complex should soon be under construction in Iuka.

Unemployment figures for the county rose in July, after a drop to 14.4 percent in June. The state statistics are not a true reflection of the county's workforce, however, because of layoffs by certain industries in the county, Wadkins explained.

Study Shows Impact Of NASA In Area

A recent economic impact study on the long-range impact of the NASA plant at Yellow Creek predicts that the project will bring 647 new residents to Mississippi. However, this figure is probably not accurate, according to a Tishomingo County development official.

The study, released last week, shows that the plant will bring 1,075 new residents to three Alabama counties and 654 to Tennessee. The Quad Cities area currently has a higher population than the other areas because that is where the jobs are, County Development Foundation director Mack L. Wadkins said. If jobs are created in Mississippi, this is where the people will choose to live, he said.

Conducted by Mississippi State University, Memphis State University, and the University of North Alabama, and regional planning and development districts, the study also predicts an addition of 1,800 jobs in 12 tri-state counties surrounding the advanced solid rocket motor plant.

The new families will bring an estimated 810 school age children to the region, requiring as many as 45

new school teachers, the report estimates.

More than \$33 million annually will be generated in new retail sales and about \$460,000 in additional tax revenue for the region.

The study identified and quantified the predicted impacts on locally provided public services and facilities to be expected in the targeted communities.

Total population impact for Tishomingo County was predicted at 242, with 121 in new population, 46 new households, 18 pre-school age children, and 41 school age children.

The population forecast for 1995 in Tishomingo County is 18,570. A second figure, 18,691, was forecast to represent 1995 plus newcomers to the area.

According to the study, approximately 50 percent of the total new workforce (900 persons) can be expected to be hired from the local labor market. Of those hired from the local area, approximately 50 percent (450) persons may be hired from the unemployed. The remaining are expected to be hired from existing local industry.

The study area was identified as the tri-state region located within a 50-mile radius of the plant site.

Although the plant is estimated to bring \$50 million a year in new paychecks to the region, local governments may feel a financial pinch, the study suggests.

Many people moving into the area will be demanding services, said Luchy Burrell of Memphis State's economic development center.

Burrell said that state and local governments may have to spend as much as \$2 million just for new classrooms, teachers, and improved curriculum to meet the educational needs of the new families in the region.

Tishomingo County is constructing a new magnet high school as part of improvements connected with the NASA plant, at a cost of \$7 million in state funds and \$3 million in local revenues.

The study was designed to provide a basic framework from which local and state governments can plan needed expansions of services, a spokesman from the University of North Alabama explained.

County Area Included In Aerospace Triangle

The location of the NASA plant near Yellow Creek could draw the region into the southwest point of an aerospace triangle based on high technology industries and research facilities in the Mississippi, Alabama, Tennessee region, a recent economic impact study said.

The results of the study, conducted to assess the long-range impact of the ASRM project, indicated that the aerospace industry has had a presence in the tri-state area for quite some time, possibly starting with the establishment of the Marshall Space Flight Center in Huntsville, AL, in the 1950s.

The triangle includes Nashville, where a large air craft structures plant is located. Also within the triangle is Tullahoma, TN, site of the University of Tennessee Space Institute and the Air Force Arnold Engineering and Development Center.

The creation of the predicted 1,000 new jobs by the ASRM plant in Tishomingo County will provide the third point in an imaginary triangle formed by 2,600 jobs in Nashville, and 4,794 in Huntsville, said Luchy Burrell of Memphis State University's

Regional Economic Development Center.

Since the area represents a concentration of highly skilled and highly paid aerospace manufacturing employment, it could be designated as the Aerospace Triangle. The concept could be used as an economic development tool to market the area to new industries requiring a high quality labor force, Burrell explained.

The concept was contained in a year-long report released by the Mississippi State University, Memphis State University, the University of North Alabama, and regional planning and development districts to predict how the NASA plant will impact 12 counties in three states.

Nashville has been the site of an aircraft plant since World War II, and the Air Force has been conducting research into supersonic aircraft design, rocket nose cones, and aircraft and rocket engines at Tullahoma since 1948, Burrell wrote in the study. This activity should be exploited to attract additional high-tech manufacturing and research. The growing automobile industry presence in the region could complement the

aerospace manufacturing and research, she said.

Burrell suggested that a sophisticated communications network might help spread the benefits of high-tech activity within the triangle. A system, such as a fiber optic system, would allow people to work in their homes, using computer terminals and facsimile machines to communicate with offices in large cities.

Small towns would be able to enjoy many of the benefits of economic development without many of its problems. Small communities would get a better educated population and labor force. Increased personal income with its corresponding purchasing power, increased property tax base and retail sales without the corresponding increase in traffic congestion, air, and noise pollution, she said.

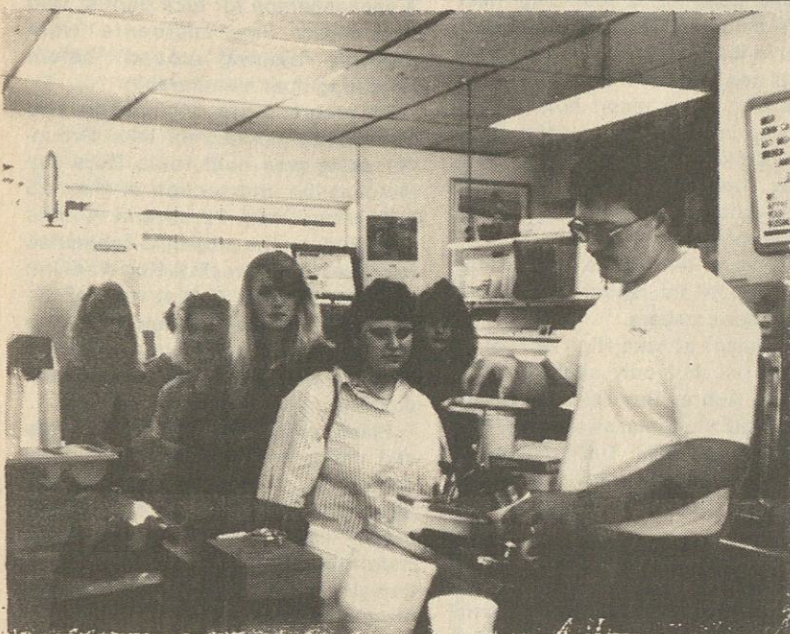

The study area includes Alcorn, Prentiss, Tippah, and Tishomingo counties in Mississippi; Colbert, Franklin and Lauderdale counties in Alabama; and Chester, Hardeman, Hardin, McNairy, and Wayne counties in Tennessee.

A Home Furnishing Update
and how-to skills workshop was held Tuesday, September 12, at the Iuka Library. About 32 attended the

program, sponsored by Extension Home Economics in Tishomingo County. From left are Nellie Horton, extension home economist, Mrs. Aneta C. Scarborough, workshop

speaker and extension furnishing and interior specialist from Mississippi State University, and workshop participants Mrs. Billie Woodward, Mrs. Shirley Kenner, and Mrs. Ida Travis.

County Agents Notes

PESTS IN THE HOME

Crickets are wandering into Tishomingo County homes. Use aerosol sprays containing Malathion, Diazinon or Sevin to control them. These same products can be used to control love bugs and other small flying insects outside the home.

Treatments may have to be repeated as necessary if these insects persist. Don't over-treat in these situations, however. Excessive use of any insecticide in and around the home is not recommended.

Wasp and yellowjacket activity in the county is on the increase. Wasps make paper nests and hang them from roof borders or to the sheltered areas. Yellowjackets also have paper nests, but they build them in the ground or other hidden locations.

Pyrethrin or Resmethrin sprays work well when applied directly into wasp or yellowjacket nests. Treat nests at night when these insects have gathered at the nest. Remember to wear protective clothing before sprays are applied.

Fleas are a problem in homes this fall. Remove fleas and flea eggs by thoroughly vacuuming the house. Put the contents of the vacuum bag in an air-tight plastic bag and discard. A household spray containing 2 percent malathion can help rid a house of fleas too.

FIRE ANT FALLOUT

Fire ants are getting active again in Tishomingo County this fall because of warm temperatures and renewed soil moisture. Most colonies should be easier to control because the ants are in the upper part of the

Pharmacy & Your Health

Aspirin: Many Forms and Many Uses

Aspirin has been called the "miracle drug." Each year, tons of aspirin are consumed for the treatment and/or prevention of a variety of health conditions. It is reported that about 19 billion dosage units of aspirin are taken each year.

The best known use for aspirin is as a *pain reliever*. Aspirin acts at the pain site to prevent the local nerve endings from becoming sensitized to pain. As a *fever reducer*, aspirin adjusts the body's thermostat which is located in the brain. As an *inflammatory agent*, aspirin is useful in the relief of the inflammation associated with rheumatoid arthritis and osteoarthritis. Aspirin has been found to have a favorable effect on blood platelets. Studies have shown the *anti-platelet aggregation* action to be useful in preventing blockage of heart vessels following bypass surgery and in preventing certain types of strokes.

Aspirin is available in a number of dosage forms. *Plain uncoated tablets* have been sold for many years. *Coated tablets* are easier to swallow. *Buffered tablets* contain a special agent which helps tablets dissolve more quickly than regular tablets, producing less stomach irritation. *Enteric coated tablets* dissolve in the small intestine, decreasing stomach irritation. *Chewable and time-release aspirin tablets* also are available.

mounds this time of year.

It is important for everyone who has fire ants, including neighbors, to treat them. If control is effective, fewer ants will be around to overwinter and cause problems next spring. Extension bulletins on fire ant control are available from the Tishomingo County Extension Office, so feel free to pick up a copy.

WHAT'S IN A FILLING?

The filling material a dentist uses in filling a tooth is determined by the location of the affected tooth in the mouth and the extent of decay.

Dental amalgam - a silver filling material - was developed in France in the 1820s and shortly after introduced in the U.S. The basic technique to restore decayed teeth has been used for the past 150 years. Dental amalgam is the material most often selected to fill decayed teeth, used in about 75% of all single-tooth fillings. It's estimated that about 100 million Americans have at least one such filling.

To produce dental amalgam, one or more metals - silver, copper, tin, and sometimes zinc are combined with mercury to form a pliable mass. The mercury triggers a chemical reaction when combined with silver or other metals that allows the filling to harden after it's been placed into the cavity. When mercury is combined with metals to form dental amalgams, its toxic properties are rendered inert and essentially harmless. Research has shown that for the majority of dental patients, mercury-containing amalgams pose no health hazard.

To help dentists choose from among the many brands of dental amalgam on the market, the American Dental Association has established an acceptance program that examines these products for safety and effectiveness.

In extremely rare instances, some patients have developed hypersensitivity or allergic reactions from contact with mercury. These reactions are usually seen as skin rashes, similar to other common allergies. If you have such an allergy, your dentist will select another restorative material.

Dental restorations are affected by the constantly changing conditions in the mouth. Following proper oral hygiene procedures at home and visiting the dentist regularly for examinations will help prolong the life of your dental restorations.

Presented as a community service by Dr. Stephen Blair, D.M.D., 122 W. Front St., Iuka, MS, Ph. 423-3008.

Resolving Consumer Problems With Complaint Letters

Learning to be skillful consumers is one of the objectives of the 4-H Consumer Education Project. Through this 4-H project members learn how to get the best value for their dollar. They also learn how to get satisfaction when a problem arises such as your new "preshrunk" jeans come out of the dryer a size too small, or your new tape skips every fourth beat. You don't have to write it off - you can write a letter.

Writing a complaint letter to a retailer, manufacturer or trade association is an effective way of registering a complaint and getting satisfaction. Learning when it is appropriate to write a letter, and how to most adequately do so, are essential steps to becoming a skillful consumer.

Make sure the complaint is valid. Many problems result from improper care or use of the product by the consumer. But if you followed instruction and something still goes wrong, a letter is in order.

If the address for whom to write cannot be found on the product, accompanying literature or sales receipt, finding out where to write may be the most difficult part of the problem. Librarians should be able to help find the manufacturer's address and perhaps the name of a contact person.

If you are unsure of the product's maker, check with a local Better Business Bureau or the Mississippi Attorney General's Office.

A complaint letter should be to-the-point and preferably no longer than one page. It should include the consumer's name and address; the name of the product; any serial, model or identification numbers; when and where the product was purchased; the price of the product; and the consumer's method of payment.

Describe the problem in detail but without sarcasm or outrage. Venting anger is not likely to help.

Just as important as the description of the problem is a statement of what you want done about the problem, whether it be to have the item repaired, replaced or to receive a refund.

Finally, explain what you will do if you do not get an appropriate response to your complaint, such as contact the Attorney General's Office, Better Business Bureau or an appropriate licensing agency.

If appropriate, attach copies of warranties or sales receipts to the complaint letter. However, never send the actual documents, as they could be lost.

Not every complaint brings the desired result, but a well-written letter often resolves the problem. So the next time a product fails to live up to its promise, don't write it off - write a letter.

If you would like more information on the 4-H Consumer Education project call the County Extension Service at 423-7016.

INSIGHT INTO EYESIGHT

DR. PHILLIP GRAY OPTOMETRIST

FALSE STRABISMUS

Perhaps you're alarmed because you think your child may have crossed eyes, a condition known as strabismus. Are they really crossed or is it a false alarm? It might be a condition known as epicanthus. This is often present to some degree in infants but is usually temporary.

The term "canthus" refers to the corner or angle where the upper and lower lids of the eyes meet. Each eye has two corners, the inner and the outer. In older children and adults these corners are about equidistant from the center of the pupil, so the same amount of white is visible on each side of the eye. In infants, the bridge of the nose appears wider, which makes less of the white show on the inner corner, the corner nearest the nose. This creates a false impression that the eyes are crossed.

When the face grows and the bridge of the nose becomes narrower, more of the white will show and the eyes will not look crossed. If your child is out of the infant stage and his eyes still look crossed, have them examined without delay by your eye doctor.

The American Flag is symbolic of honor, strength and perserverance. We felt the magnificent display was one of dignity and respect. Our gains, hopes and ideas were represented by that Flag.

Whether the theft of the American Flag was a juvenile prank or a vengeful premeditated act, we as a member of the business society and as citizens of this city, are truly offended.

Any information leading to the return of this distinguished emblem would be greatly appreciated.

Educational Note: Family Resource Management by Mrs. Marie Lynch. The relative ease of obtaining credit enables consumers to get goods and services when cash is not readily available. It also allows us to buy things on sale and pay for them at the same time we are using them.

Unfortunately, problems and finan- cial risks occur when your credit becomes too large. This can lead to family problems, repossession of properly, garnishment of wages and even bankruptcy. There are serious danger signals to look for before you reach financial trouble.

1. You think of credit as cash, not debts.
2. Your debts are greater than your assets.
3. You owe more than seven creditors.
4. Your expected increase in in- come is already committed to paying off debts.
5. You have to pay back several in- stallment payments that take over twelve months to pay off.

You have more than 20 percent of your take home pay committed to credit payments other than your home mortgage. If you answered yes to at least five of the questions you should tighten your credit expen- diture.

We enjoyed our visitors, Mrs. Delma Dean and Mrs. Annette Tucker. The next meeting will be in the home of Mrs. Delma Dean, October 11, 1990 at 1:30 p.m. on Thursday.

After the business and treasurer reports were read, the meeting ad- journed.

New Salem Club

The greatest evil that faces our Nation today is the use of drugs. Not only the younger generation but mid- dle age and older people also. If our nation is going to win the war on drugs, families and church respon- sibility must be strengthened.

Materialism is a big problem in the lives of most people these days. We're beginning to place more value on material things than human beings. A maralspiritual attack to the basic root causes of our crisis is needed to help people have respect for themselves and each other.

Warning signals for the chemically- abusive adolenscent:

1. Day and night reversal, staying up late at night and sleeping during the day.
2. Significantly personality changes since entering junior high school.
3. Daily living habits changed significantly.
4. Exhibits hostility and distrust of authority figures.
5. Displays increasing dishonesty with self and others.
6. Has changed friends signifi- cantly over the past year.
7. Significantly decreased in atten- tion span.

Family and friends will become in- creasingly concerned when a young person behaviors are out of control.

The New Salem Homemakers club

met in the home of Mrs. Frances South, September 17, 1990 at 1:30 p.m. on Monday. The meeting was called to order with the Thought for the Month: "Education is learning what you didn't even know you didn't know," by Mrs. Marie Lynch, the president. The Devotional was given by Mrs. France South, I Corinthians 13:1-6. Prayer by Mrs. Delma Dean.

The Demonstration: The

First American National Bank
Nationally rated one of America's safest Banks

We at First American National Bank are deeply saddened by the malicious and deliberate destruction of property.

The American Flag we so proudly displayed on Highway 25, south of town has been stolen. No only is it a personal loss, but a loss to the community as well.

The First Score—Casey Murrah, IHS football player, takes a water break following his interception and 50-yard touchdown during the game against Walnut. Iuka stepped up to 3-1 for the season, as the Chieftains won 35 to 13.

SCHOOL SPORTS

By: Lyndon Cain

Iuka jumped out to an early lead in the first quarter and then exploded for 21 fourth quarter points to give the Chieftains a district win over Walnut Friday night at Walnut.

Iuka was first to score in the game when Casey Murrah raced 50 yards for a touchdown with five minutes to play in the first quarter. Shaune Holiday kicked the PAT to give the Chieftains a 7-0 lead.

After a good punt return Iuka was in excellent field position at the Wildcat 32. Holiday quickly added to the Chieftain lead taking the ball 32 yards for a touchdown and then kicked the PAT upping the Iuka lead to 14-0.

Walnut then responded with a 71 yard drive for a touchdown. Taj Colom scored on an eight yard run. The PAT was good and Walnut had cut the lead to 14-7. The Chieftains then

drove 73 yards to the Wildcat 1 yard line but a fumble into the end zone was recovered by Walnut ending a scoring opportunity for Iuka. Neither team was able to score again in the first half.

Twice in the third quarter, Iuka drove deep into walnut territory but turned the ball over on downs. In the fourth Walnut moved 74 yards for a score but the PAT was wide and Iuka held on to a 14-13 advantage. The Chieftains returned the kickoff to the 39 yard line then 5 plays later Holiday scored on a 43 yard run. His PAT raised the score to 21-13. On the third play of walnut's next series, Murrah returned an interception 40 yards for an Iuka touchdown. The extra point was good and the score was 28-13.

The final score of the game came when Richie Harrelson picked off a Wildcat pass and returned it 43 yards

for a touchdown. The PAT by Holiday was good and the final score was Iuka 35 - Walnut 13. Iuka is now 3 and 1. The Chieftains Homecoming game this week is against Biggersville.

RED BAY RIPS BELMONT

Four different players scored for Red Bay in a 46 to 0 win over Belmont. Chris Westbrook scored 20 points including a 93 yard interception return for a touchdown in the Red Bay win. Tiger quarterback Joey Smith connected with Micah Jackson on two touchdown passes. Patrick Tabb also had a 66 yard run for a score.

WATERLOO DEFEATS BURNSVILLE

Homecoming for Burnsville was spoiled by Waterloo Friday night as the Mustangs fell to the Cougars 48-0.

Teddy Kavish opened the scoring with a 60 yard run for a touchdown. The PAT by T.J. Wilder gave Waterloo a 7-0 advantage.

Late in the first quarter Lance Summerhill ran the ball 6 yards for a touchdown. The extra point was good and Waterloo led 14-0. In the second quarter the Cougars marched 69 yards for a score. Travis Johnson crashed in from 1 yard away for the touchdown.

Waterloo would score two more times to take a 34-0 halftime lead. Waterloo scored twice in the second half on runs by Wilder and Summerhill.

BIGGERSVILLE TOPS TISHOMINGO

The Lions used a second half explosion of offense to defeat the Bulldogs 42-13. Dexter Stafford led the way with 5 touchdowns and 99 yard rushing.

Biggersville received the opening kickoff and put together a 14 play scoring drive with Stafford getting the touchdown.

The Bulldogs responded with a 69 yard drive capped by a 15 yard touchdown run by Mark Blunt.

Late in the first half the Bulldogs moved the ball deep into Lion territory but the time ran out leaving the score 7-7 at halftime.

Early in the third quarter following a Bulldog punt Stafford scored on a 9 yard run. The PAT was no good and Biggersville led by a score of 13-7.

A bad snap to the punter gave Biggersville the ball at the Bulldog 20 yard line. On the next play Stafford scored on a 20 yard run. The 2 point conversion made the score 21-7.

Mark Dailey scored on a two yard run following a Tishomingo drive of 76 yards. The PAT failed.

Stafford scored to open the fourth quarter on his fourth touchdown of the night.

David Jackson also scored on a 30 yard run for the Lions. The final score Lions 42 - Bulldogs 13. This week Tishomingo plays Thrasher.

Beta Teacher Of The Month

Iuka High School Beta Club each month selects a teacher for recognition. The teacher of the month is selected by the Beta members. Mrs. Sheila Bates is the honored

Iuka Junior High-Cheerleaders Nikki Bullard, Stephanie Wilson, Tiffany Hester, Alishia Carson; 3rd and front, Jennifer Dees; second row, middle, Mollie Lomenick; back row, Allison Young, Beth Atkinson, Kathryn Cooke, and Robin Glover.

FBLA Officers-Iuka High School recently chose their FBLA officers for the new school year. Last year the FBLA represented Iuka High School in both state and national competitions. The new officers will work hard to surpass the accomplishments of last year's club. Officers from L to R: Chris Cornelson, Historian; Dena Lowrey, Secretary; Danielle Mc-

teacher for the month of September.

Mrs. Bates teaches junior and senior English at Iuka High School. She is married to James Bates, and they have one child, Leah. Mrs. Bates is a member of Iuka Baptist Church where she is on the Youth Committee and serves in the junior high Sunday school department.

Mrs. Bates attended Northeast Mississippi Community College and the University of North Alabama. Of the fifteen years she has been teaching, she has taught at Iuka High School for thirteen. Mrs. Bates says that her classroom goal is for her students to be prepared to achieve success in life. Mrs. Bates, Iuka High School Beta Club commends you on a job well done!

IHS Band Notes

Friday, September 28, is Iuka High School's Homecoming. There will be a special edition of the football programs. Come out and support the football team, the homecoming court, and the IHS Band.

On October 5 the IHS Band Auxiliary will be sponsoring a chicken spaghetti supper. The supper will begin at 5:00 and end just before the ballgame starts. Tickets can be purchased from any band member or

band booster parent.

The IHS Band has been invited to Oxford on Saturday, September 29 to play with the Ole Miss Band at halftime. The game begins at 1:00.

Along with playing at Ole Miss, the band has accepted an invitation to play at the Northeast Community College homecoming activities October 27, 1990. The invitation was extended to the Iuka Band by Mr. Ricky Bishop, band director of Northeast Community College. Mr. Robert Bruce, band director of Iuka High School, said that this is definitely an honor to receive this invitation and the students are really excited to have this opportunity.

Come out and support our band, "The Pride of Iuka."

Advantage Checking Account, you earn competitive interest rates on balances over \$1,250. Not only do you have easy access to your money, there's no monthly service charge unless your balance falls below \$1,250. Plus, your first 35 checks or debit transactions are free.

There's no limit to the number of deposits you may make and FDIC Insured

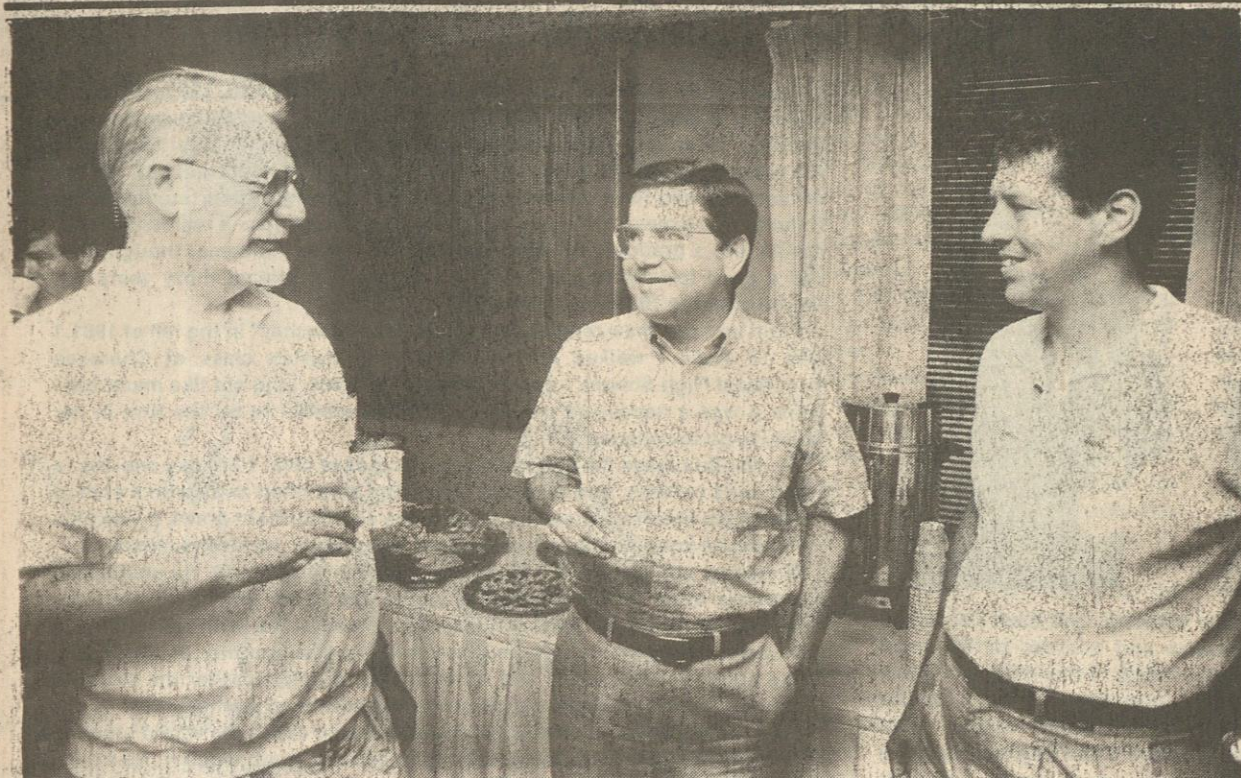

withdrawals. And of course, there's no penalty for early withdrawal.

So take advantage of SouthBank's *First Advantage* Account and earn like a long-term investment. It pays!

SOUTHBank
A Federal Savings Bank
Check With Us First!

Interest is calculated on an account's investable balance which is the collected balance (ledger balance less float) less 12% of deposits in interest-bearing transaction accounts including Savings accounts used to protect a Checking account from being overdrawn. The 12% reduction is primarily for reserves which banks are required to maintain with the Federal Reserve Bank. SouthBank therefore deducts the percentages (as stated above) from the collected balances, then pays interest on the resulting balances.

Showcase Theatre Hosts A Huge Yard Sale

A yard sale will be held in Mineral Springs Park in Iuka on October 13, 1990. If you would like to participate in this you can do so by bringing your yard sale items, new and used to the park on that morning and pay a fee of \$3.00. You must check in at the Log Cabin in the Park before you set up. We are sorry that you cannot bring your vehicles into the park. This damages the grounds.

All set up fees will be used for the needs of the Military Stationed in the Middle East. Something to remind them that we are behind them. If you need further information please contact Judy Walker at 423-6666. Also please remember if you have someone in your family that has been sent to the Middle East, call in their name and address.

It's A Girl!—Mr. and Mrs. Larry White of Florence, Alabama announce the birth of their daughter, Rachel Lauren, born Saturday, July 28, 1990 at Eliza Coffee Memorial Hospital. Students Participate In Bell Ringing—At the September meeting of the Chief Tishomingo Daughters of the American Revolution, a group of Iuka students participated in a very patriotic ceremony. All over the U.S. a ringing tribute was given to America. The students, along with all regular members and guests, enjoyed ringing different types of bells for several minutes. The group also held a balloon launch. The red, white, and blue balloons made a beautiful bouquet

for the meeting, and each contained the name and address of the local chapter inside. From left, are Mikie Hines, Ashlea Christy, Carla Whitehurst, Bridget Price, Pam Williams, and Chad Ray (seated). The students learned many valuable lessons by being involved in the historic meeting. An organization such as DAR helps foster an abiding love for our country, and it is beneficial for our young people to see this love displayed by all citizens.

Hero Club Officers—Tishomingo County Vo-Tech HERO Club elected the following as officers in the Morning Class: (left to right) President, Dana Ables, Belmont; Reporter, Wendy Kemp, Belmont; Treasurer, Connie

Chism, Belmont; Vice-President, Becky Peters, Burnsville; Activity Leader, Heather Robinson, Tishomingo; Secretary, Amy Reno, Tishomingo; and Historian, Lori Boyd, Belmont.

September has been designated as pasture improvement month; so this would be the ideal time to plant some winter grazing. Perhaps the best combination for the area is tall fescue and either Regal white clover or Kenland red clover. This combination of fescue and clover should be seeded on a prepared seedbed, you should plant 20 pounds of tall fescue with three pounds of Regal white or 6 to 8 pounds of Kenland red clovers per acre. After seeding a cultipacker or similar tool should be used to lightly cover the seed. This should be sown between September 1 and November 1.

Before seeding tall fescue and clover a soil test will provide information as to the amount of fertilizer and lime needed for establishment. In the absence of soil test use 250 pounds of 8-24-24 and one tone lime per acre.

Fescue has the ability to survive under a wide range of conditions such as high and low fertility, but since clover produces nitrogen for the fescue a high rate of nitrogen fertilizer added will eventually kill out your clover stand.

The ideal stage to graze a fescue-clover mixture is to turn on at a six-inch height and take off when grazed down to three inches high. This is, of course, not always possible; but rotating the cattle among three or more pastures will greatly benefit the grazing procedure. With a rotation

plan, the excess can be removed as hay and, if cut when grass is in early bloom stage, clover and grass will make excellent hay. The stage of growth for fescue and clover to make the best hay occurs in North Mississippi in early to mid-May. More information on establishment of a winter grazing program contact the Soil Conservation Service.

Vo-Tech News

The Metal Trades Department at the Tishomingo County Vo-Tech Center recently elected class officers. "To be eligible for office, students must have had at least one year's training in the Department, since a part of their responsibilities includes serving as Lead students in helping train new students," states Metal Trades instructor, Larry Brown.

The Metal Trades Department is able to better train young men and women for industry through the generous support of three local companies which have contributed metal and equipment: Monotech of Mississippi, the Heil Company, and Kaydee Metals of Belmont. We salute you for your help!

H.L. Shook Urged Caution For The Future

The late H.L. Shook, former administrator of the Iuka Special Municipal Separate School District wrote the following article to be printed in the 1964 school annual as an inspiration to the youth of our area. Now 26 years later one of our readers wants to share these words of wisdom with us today.

Mr. Shook began working with the Iuka School System in 1951 and retired in 1966 as a result of his diligent work our school, youth and community prospered greatly under his guidances and leadership.

We are living in a period when society is plagued with iconoclasts who would destroy ideals and principles centuries old and replace them with theories untried and unproved. This seems particularly true in the areas of government, political concepts, and social relationships.

It is my hope that Iuka High School may be providing all of its students

with means of stabilization that you who allow your school to give some direction to your lives may find merit in the old didactic couplet:

"Be not the first by whom the new is tried, Nor yet the last to lay the old aside."

In short, as I see it, some of these new concepts are full of danger and eventual destruction. Be cautious. Analyze carefully anything that differs materially from the heritage you have received from your fathers, but do not close your minds to newly discovered truths. Follow the advice of the great apostle: "Abhor that which is evil; cleave to that which is good."

Josh Billings, a famous American humorist, expressed the thought of this message, thus: "I honestly believe it is better to know nothing than to know what ain't so."

H.L. Shook

Thank You

Dear Friends,

Words are inadequate to express our appreciation for your concern over the loss of our house to fire June 26. You fought the fire and helped to get out what was saved. You brought food, clothing, groceries, clothing,

furniture, household goods, and money. You picked our vegetables from the garden and canned them. You helped us list the price everything in our house for the insurance company. You helped to clean, hang curtains, plumb, and work on electrical wiring in the house where we now live so that within 48 hours we had moved into a house that had set vacant for six years. You gave parties and showers in our honor. You sent cards and called us and prayed for us. You even gave up your bed a couple of nights for us. Most important of all—you were here! Your presence probably filled our greatest need during the first two weeks after the fire. We could go on and on and never tell all the ways we were blessed by you — our family and friends. Truly, Our faith in people has been lifted to new heights.

We began an attempt to write individual notes, but we see that it will be impossible to reach everyone with even a simple word of thanks. We hope that you will accept this means of our saying "Thank you." For every gesture of kindness on our behalf, we are truly grateful. Many, many thanks.

With love and appreciation,

Kendrick and Irene

The next club meeting will be on September 27th, at the Iuka Public Library with Mrs. Ann Bishop as hostess.

In Service

Airman Lori Braddock, a Satellite Communications Squadron, recently graduated from Mobility School Tinker Air Force Base, Okla.

Airman Braddock is the daughter of Eva Louise Wiginton of Glen, Ms. She is married to Mark Braddock of Iuka, Ms. She graduated from Iuka High School in 1989.

The course, commonly referred to as "Mob School", teaches Air Force combat communicators assigned to the active force and the Air National Guard how to survive in hostile environments, such as: deploying personnel and government property, driving 5-ton trucks to combat locations identified as redeployment and survivability practice sites.

Airman Braddock is one of 42 students who attended the course with Class 90-09.

In Service

Algernon B. Greenhill, son of Charles O. and Doris O. Greenhill of Cherokee, AL has been promoted in the U.S. Air Force to the rank of airman first class.

He is an apprentice structural specialist at Clark Air Base, Philippines.

Mr. Layne Harris of Belmont, Mississippi, a fifth year student at The University of Mississippi School of Pharmacy, will begin serving an externship at North MS Medical Center in Tupelo, MS this month. Mr. Harris the son of Mr. and Mrs. Hershel Harris of Belmont, MS will work under Mr. Harold Kornfuhrer in the externship. Mr. Kornfuhrer is a Clinical Instructor for The University of Mississippi School of Pharmacy. As a Clinical Instructor he is providing a valuable service as a health team member by serving as a preceptor for training pharmacy students at Ole Miss.

Students working in the clinical program gain valuable on the job training by having the opportunity to practice pharmacy under the direct supervision of Certified Clinical instructors.

ASCS Farm News

GRAZING PERIOD OPENS OCT. 1

The official grazing period will open October 1, for acreage conservation reserve (ACR), or land designated as conserving use (CU) for payment under the 1990 acreage reduction programs.

Farm program participants then will be authorized to graze their ACR and CU acreage. The cover crops must not be overgrazed because sufficient cover must be maintained to prevent wind and water erosion.

Farm program participants are not permitted to graze ACR or CU for payment land during the 5-month nongrazing period set by the State ASC committee. The nongrazing period in Tishomingo County runs from May 1 to September 30.

The 1990 farm program enrollment report shows that percent, or 2,000 acres of Tishomingo County cropland was diverted from production to ACR and CU for payment under this year's program. Farmers are required to plant certain grasses, legumes, small grains or other approved cover crops on these acres, or to maintain various conservation practices on the acreage. Adequate protection is required to guard against wind and water erosion and control measures must be used to prevent weeds, rodents and insects on the land.

To maintain farm program benefits, producers must comply with grazing and conservation regulations as stipulated in the program contract. Those who fail to do so will be out of compliance and could lose payments

and other farm program benefits. MULTIPLE COMMUNITY BOUNDARIES SET FOR ASC COMMITTEE ELECTIONS

On August 15, 1990, the Tishomingo County Agricultural Stabilization and Conservation Committee reviewed and set community boundaries for the ASCS community committee elections to be held between November 23 and December 3. "This is one of the first steps in administering the annual ASC committee elections," said Phillip Horn, County Executive Director.

He said that in compliance with changes required by the Food Security Act of 1985 the ASC committee set boundaries around ASC local administrative areas (LAA's) that help provide farmers with effective farm program administration through local representation.

Tishomingo County is divided into 3 local administrative areas. Only LAA number 1 will have an election.

A list of ASC communities, a boundary map, and the number of farms within each community area available to the public at the Tishomingo County ASCS Office. The ASC communities in Tishomingo County are as follows: Doskie, North Crossroads,

Vitamins, Minerals & Your Health

Spotlight on Vitamin C: Ascorbic Acid

We know that vitamin C, known chemically as *ascorbic acid*, prevents and cures *scurvy*, a disease first described during the Crusades. Signs and symptoms include poor appetite, weakness, anemia, swollen and inflamed gums, loose teeth, swollen wrist and ankle joints, and failure of wounds to heal. The Dutch discovered that feeding soldiers and sailors oranges, lemons, and limes prevented scurvy. To this day, an English sailor is known as a "limey."

Vitamin C has been promoted as beneficial in preventing or treating conditions as diverse as common cold and cancer. Usually, doses are advocated that are much larger than the approximately 100 mg adults need daily to prevent deficiency. Using vitamin C in non-deficiencies is controversial.

Sources of vitamin C include citrus fruits, raw leafy vegetables, strawberries, cabbage, green peppers, and tomatoes. One kiwi fruit contains over 250 mg of C, and a stalk of fresh broccoli contains over 150 mg. Many multiple vitamin/mineral supplements contain from 60 to 400 mg.

Because tobacco use adversely affects one's ability to utilize ascorbic acid, smokers probably need twice as much vitamin C as do non-smokers.

Card Of Thanks

We would like to thank everyone for the love and kindness shown during the illness and death of our mother Elsie McDuffy. There can never be words to express how much we appreciated the visits to her at home and in the hospital, the food, phone calls, cards, flowers, kind words, money and most of all your prayers.

A special thanks goes to the Doctors at the Segars Clinic and the management and staff of the Iuka Hospital for all your help and kindness shown to her so her last days could be a little brighter. Also we thank the people at Cutshall Funeral Home, Bro. John Hardwick, the Pallbearers, and the singers for their help in our time of need.

May God bless each of you,

Notice

EFFECTIVE NOVEMBER 1, 1990
In the event that the Iuka City Gas
Department should have to turn off
the gas for reasons of repair, the City
employees will not be permitted to
light furnaces, gas stoves or any
other gas burning equipment in
residents or businesses. This is due
to the prohibited cost of liability in-
surance to the City of Iuka, which is a
cost to the citizens.

COMBINED NOTICE

NOTICE TO PUBLIC OF NO SIGNIFICANT IMPACT ON THE
ENVIRONMENT AND NOTICE TO PUBLIC OF REQUEST FOR RELEASE OF
FUNDS

City of Iuka
P.O. Box 118
Iuka, MS 38852
601-423-3781

TO ALL INTEREST AGENCIES, GROUPS, AND PERSONS:

On or about October 13, 1990, the City of Iuka will request the Depart-
ment of Economic and Community Development, Division of Community
Development to release federal funds under Title I of the Housing and
Community Development Act of 1974, as amended, for the following
project:

Construction of sewer and gas lines to serve commercial site on U.S. 72
FINDING OF NO SIGNIFICANT IMPACT

It has been determined that such request for release of funds will not
constitute an action significantly affecting the quality of the human en-
vironment and, accordingly, the City of Iuka has decided not to prepare an
Environmental Impact Statement under the National Environmental Policy
Act of 1969 (PL 91-190). The reasons for such decisions not to prepare such
a statement is as follow:

The City did an Environment Assessment, so there is not a need for an Im-
pact Study.

An Environmental Review Record respecting the within project has been
made by the City of Iuka which documents the Environmental Review of the
project and more fully sets forth the reasons why such statement is not
required. This Environmental Review Record is on file at the above address
and is available for public examination and copying, upon request, at the
Iuka City Hall between the hours of 8:00 a.m. and 4:00 p.m.

No further environmental review of such project is proposed to be con-
ducted prior to the request for release of federal funds.

PUBLIC COMMENTS ON FINDING

All interested agencies, groups, and persons disagreeing with this
decision are invited to submit written comments for consideration by the
City of Iuka to the Board of Aldermen. Such written comments should be
received at the town hall on or before October 12, 1990. All comments so
received will be considered and the City of Iuka will not request the release
of federal funds or take any administrative action on the within project prior
to the date specified in the preceding sentence. The City of Iuka will under-
take the project described above with Block Grant funds from the
Mississippi Community Development Block Grant Program under Title I of
the Housing and Community Development Act of 1974, as amended. The
City of Iuka is certifying to the State that the Board of Aldermen and David
Nichols, in his official capacity as Mayor, consent to accept the jurisdiction
of the federal courts if an action is brought to enforce responsibilities in
relation to environmental reviews, decision-making, and action; and that
these responsibilities have been satisfied. The legal affect of the cer-
tification is that upon its approval, the City of Iuka may use the Block Grant
funds and the State will have satisfied its responsibilities under the
National Environmental Policy Act of 1969, as amended.

OBJECTIONS TO STATE RELEASE OF FUNDS

The State will accept an objection to its approval only if it is on one of the
basis set forth in 24CFR Part 58.75, and submitted in accordance with the
required procedure sent forth in 24CFR Part 58.76. Objections must be
prepared and submitted in accordance to Mr. Gary Anderson, Associate
Director, Mississippi Community Development Block Grant Program,
Division of Community Development, 301 West Pearl Street, Jackson,
Mississippi, 39203-3096 (ATTENTION: WILLIE HORTON).

Objections to the release of funds on bases other than those referenced
above will not be considered by the State. No objection received after Oc-
tober 29, 1990, will be considered by the State.

Notice

OF
INTENTION TO DIVERT OR
WITHDRAW FOR BENEFICIAL USE
THE PUBLIC WATERS OF THE
STATE OF MISSISSIPPI

Notice is hereby given that on the 4 day of September, 1990, Mrs. Elizabeth T. & Josephine T. Nicholson of Jackson, MS filed application (s) for a permit(s) to divert or withdraw the public waters of the State of Mississippi for beneficial use for Commercial purposes, subject to existing rights, the following amounts of water from the indicated sources:

Appl. No. MS-SW-02441 Volume 168.5 AFY
Rate 200.0 GPM
Source of Water: Tennessee River

and the point of diversion or withdrawal being located in:
NW 1/4 OF SW 1/4 OF SEC. 23, T2S, R11E, Tishomingo County.

Any person, firm, association, or corporation, deeming that the granting of the above application (s) will be truly detrimental to their rights to utilize the waters of said source, may protest in writing to the Permit Board of the State of Mississippi, P.O. Box 10631, Jackson, MS 39209, the granting of said permit (s), setting forth all reasons why said application(s) should not be approved.

Unless protested, the application will be taken up for consideration by the Permit Board of the State of Mississippi in its offices at 2380 Highway 80 West, Jackson, Mississippi, on, or after, the 9 day of OCTOBER, 1990, at 9:30 a.m., at which time all interested persons may appear and be heard.
