State & Local Officials Tour Yellow Creek Port

A recent visit by some state and local officials to the Yellow Creek Port gave them a birdseye view of the capacity and transportation services that the facility has to offer.

The port authority, which has been operating since 1974, is located in the northeast corner of the county on the Tennessee River and Tennessee-Tombigbee Waterway. It provides a barge, rail, and truck terminal. Among its services, the port authority provides cargo loading and unloading with storage including humidity controlled buildings and also markets industrial properties.

One special guest on the tour, Jimmy Heidel, Executive Director of the Mississippi Department of Economic and Community Development, stated that he was impressed with this area and was glad to tour the port facility, as well as the industrial park. "The port authority, a State Agency, serves this area with not only storage requirements, but offers the best cost effective means of transportation--water, rail and truck. The port is one of the best in the state with equipment, excellent storage buildings and with good leadership."

Arranging and also participating in the tour was Mississippi's District 1 Representative Harvey Benderman. "We are glad that Jimmy Heidel and his wife, JoAnna, visited this area. We kept them very busy for two days and Jimmy was excited about this area's potential, especially the tourism aspect with the abundance of water, recreation and other important projects," Benderman said. He also stated that Heidel indicated that the Governor would participate in a visit to the area as soon as arrangements can be made.

Eugene Bishop, Director of the Yellow Creek Port Authority, expressed appreciation to Rep. Benderman for arranging the two-day tour with Heidel and also stated that he appreciated the Burnsville Area Chamber of Commerce for acting as hosts.

"We certainly thank Jimmy for taking time from his busy schedule to tour our area. We wanted to simply show him what this area has to offer. Since we respect contact his office, we believe showcasing this area will only improve our chances for attracting more job opportunities to this area," Bishop said.

The port business is increasing with an even greater potential in the future. Travis Childers, President of the Port Board said, "I and the other eight board members from the four surrounding counties are encouraged with the potential the port terminal and Industrial Park offers to this area. It is very satisfying that the port is operating in the black with close to \$200,000 profit this year. The board members and the port employees are a good team of dedicated workers."

At the time of tour by the group, port employees were busy loading a unique cargo onto barges. "We handled the new cargo for the company, Construction Products of Jackson, Tenn., who fabricated 21 concrete bridge beams. Each beam is 38 feet long and weighed approximately 60 tons each. During the tour, we were finishing the third barge load. The company trucked some smaller and lighter beams to the bridge site however, the larger beams had to be barged to the site in Alabama where Highway 72 is being four laned across Elk River near Rogersville," Bishop said. "I am impressed with the port's work crew because we had a crane out of service for repairs and they performed most of the repairs and got the crane back in service in a short time. With the good crew and good work attitude, we were able to perform this operation. Now that the port demonstrated the capability to handle this cargo, the company indicated that this will allow them to be competitive and it also opens the opportunity to bid on

projects that are a long distance from their facility."

According to Robert Stringer, Operation Superintendent, "the handling of cargo thru the port is what we have done for sometime. The new cargo, however, like the concrete bridge beams, requires special attention because it requires a two crane operation. Placement of a load into a floating barge takes good coordination of the operation because the barge moves with each load. We primarily handle the loading & the unloading of rolled coiled steel sheets used to make pipes, furniture, lawn mowers, bicycles, refrigerators, air conditioners, electrical conduit boxes, etc. on barges. Also, we handle billets and steel I-Beams and we are the distribution center for the mobile home industry for the southeast area. We handle other products like hardwood timber length logs, sand, gravel, barge lids and coal." He continued "We have some more big lifts coming up because Monotech continues to fabricate some big components and bring them to the port on a special railcar for barge shipments. Because of the port's potential to attract customers with large heavy lifts, a new larger capacity crane would help up with our operation."

"The traffic flow through the port has been very good recently," said port crane operators Jerry Thacker and Bobby Walden. "We have worked some overtime recently to keep our customer's loading requirements on schedule. We like handling new cargo like the 138 feet long concrete bridge beams."

To The Voters Of Burnsville

Thank you for the vote that I received during the general election of June 8, 1993.

I appreciate you being kind enough to allow me into your home to discuss my views on the direction our town should proceed.

It is my prayer that we could join hands and support our Mayor and board of aldermen. If Burnsville is to reach its potential, this must be done. We should unite in our efforts and avoid division.

Thank you,
Harvey E. Pendergrast

Father's Day

This Sunday, June 20, is Father's Day. On this day, we should take time to remember the men in our lives who have been our examples, our advisors, our protectors --- our friends. These men may come in the form of fathers, but they can also be grand or great grandfather. One thing that is for sure, they make a real difference. Don't forget your special men this weekend.

Three-year-old Daniel Cummings finds great pleasure spending time with his great granddaddy Pat Cummings of Iuka. Pat, who is 85-years-old, has seven children, 17 grandchildren and 27 great grandchildren. His youngest great grandchild was recently born in Germany.

Daniel is the son of Nickey and Janie Cummings of Burnsville. He is the grandson of Paul and Emogene Cummings and Charles and Suzanne Martin, all of Iuka. Great grandparents include Alton and Remell Laird of Burnsville, Pat and Artie Cummings, Rip and Jewel Pruitt, and Fred Martin, all of Iuka.

Thank You

I would like to take this opportunity to say thank you for making my campaign for Alderman a success, I will do my best to serve you to the best of my ability, again thank you.

James Cosby

Absentee Ballots Questioned In Iuka Municipal Election

David Nichols may have been declared the winner in Iuka's mayoral race after Tuesday's election, but Republican candidate J.R. Long could be turning to the courts for a final ruling.

The Iuka Municipal Election Commission declared the incumbent Mayor as the official winner with a tally of 503 votes to Long's 498. According to Richard Bowen, attorney for Long, the discrepancy over the final count lies in the absentee ballots.

"I asked that the absentee ballots not be allowed as a part of the total count due to the fact that they have not been initiated by poll workers. It is required that all ballots have the initial of a poll worker otherwise they could have come from anywhere," Bowen explained. "The absentee ballots (which are yellow, while the regular ballots are white) totaled 15 for Long and 31 for Nichols. None of the poll workers would say that they initiated the ballots."

Totals minus the absentee ballots give Long a total of 483 while Nichols would come up short with a total of 472, according to Bowen.

The next step Long will be taking is the official examination of the ballot box, absentee ballots and other procedures, Bowen said. "I have signed a letter to be served to the Iuka Municipal Election Commission asking for the opportunity for this examination Friday at 3 p.m. at City Hall. With this major irregularity with the absentee ballots, I fully expect that we will be filing for an election contest with the Circuit Court," the attorney stated. He went on to explain that the election contest would provide that a Circuit Court Judge from outside the district by brought in and a jury would be appointed to hear the case. Then it would be up to them as to whether or not to allow the absentee votes to count in the election.

Please accept my sincere thanks for the overwhelming vote of confidence you gave me on Tuesday, June 8. It is indeed an honor to be elected to serve as your Mayor for the next four years. A mandate from the people is the highest compliment one can receive.

As we begin together the numerous tasks that lie ahead, I remain committed to serving your needs, within the scope of my authority, to the best of my ability.

MILK

"MYTH-INFORMATION"

Some foods, milk in particular, have been the target of many modern-day myths. These myths and old wives tales persist partly because of a lack of education, and partly because of our need for simple, easy answers in a complex world. Take the following quiz to find out if you are "myth-informed" about milk:

1. Does warm milk induce sleep? While much remains to be learned about the influence of milk and food in general on sleep, cow's milk is alleged to induce sleep. It is the tryptophan in milk, an essential amino acid, that is thought to be responsible for this effect. Tryptophan is a precursor of the brain transmitter, serotonin, which scientific evidence suggests has sedative properties. However, there's really a very small amount of tryptophan in a glass of milk so it may be psychological - milk as a "comfort food" that helps people relax.

2. Is buttermilk high in fat? The name "buttermilk" is a misnomer; it is actually low in fat and calories. Its thickness does not come from butter, but from the lactic acid that is added to either low-fat or skim milk to produce a "culture". This bacterial growth coagulates some of the milk protein, resulting in a pleasantly tart milk with a characteristic buttery flavor and smooth, thick body.

3. Should I avoid milk when I have a cold? Some people believe that eliminating milk from their diet when they have a cold will alleviate stuffiness. Although it is commonly thought that milk and dairy products produce mucus, findings to date have failed to support this effect. There is no reason, therefore, for cold sufferers to eliminate milk and other dairy foods from their diets.

4. Should athletes avoid milk before competition? Some coaches and athletes still believe that milk consumed before a competition causes "cottonmouth," loss of endurance, stomach upset and constipation. However, cottonmouth is usually caused by emotional stress and fluid loss. Insufficient oxygen, not milk intake, is responsible for the muscle fatigue. The stomach upset sometimes associated with milk may occur because of emotional stress prior to competition. Finally there is no evidence that milk is constipating when consumed in normal amounts. Emotional stress, drugs such as antacids, and the misuse of laxatives are usually the culprit.

5. Does milk promote acne? There is no medical proof that any specific food causes acne. In fact, most dermatologists believe that diet has little effect on this skin disorder. Several other factors, including genetic susceptibility, skin type, hormone activity, and exposure to environmental pollutants are usually to blame. Acne also can be aggravated by excessive heat, friction and stress.

6. Isn't milk just for kids? Your body goes through many stages during life, but it always needs calcium. Ninety-nine percent of the calcium in your body is in your bones and teeth. The other one percent is used for your heart to beat, for your muscles to contract and relax, for your blood to clot, and for your nerves to transmit messages. Since your body can't make its own calcium, it's up to you to supply it. Two to three servings of milk or other dairy foods are recommended daily for adults over 25. Pregnant and nursing women should consume four servings daily. When

all is said and done, many adults continue to enjoy the fresh, natural attributes of milk just for the taste of it.

Special Handicap Hunting Area To Open

It isn't even summer yet but here's an article concerning hunting for the upcoming Fall season! But this is not just your run-of-the-mill hunting story; this is a bit of information for the physically disadvantaged sportsman.

We outdoorsmen with no physical restraints, other than being a bit lazy sometimes, are well aware of the physical toll that hunting, and especially deer hunting, places on the body. This toll is exceedingly great on those hunters who are physically handicapped but yet still have a deep love for the sport.

The U.S. Army Corps of

Engineers has sponsored a special handicap hunt for the past years, but starting with the 1994 hunting season the Co will go a step further: an area approximately 450 acres will be set aside exclusively for physically disadvantaged hunters. This site, the Riverside Wildlife Management area, is located in Greene County, Alabama, about 25 miles south of Aliceville. The area has a well developed network, ample food plots planted to supplement the native vegetation and is in a program of intensive wildlife management.

Details concerning permits be forthcoming; however, all of state hunters will need an Alabama hunting license and seven day permit to satisfy requirements.

For further information (601)327-2142 and talk to one of the Wildlife Biologists at the Columbus Area Office of Tennessee-Tombigbee way.

SHAKE THE SALE LIGHTLY, USE HERBS INSTEAD

As we become more health conscious in food choices, one culprit seems to be sodium or salt. Replace that salt shaker with the flavor of herbs.

Herbs are available in several forms - dried leaves, ground or fresh in most larger supermarkets. But if you have a green thumb, you might like to grow your own.

Herbs can be grown in a window box or in a large garden. Wherever you plant them, be sure they are convenient to the kitchen so you can easily snip the succulent leaves to add to the many foods you prepare this summer. Here are some of the more common herbs and kinds of foods they frequently enhance.

Basil: A member of the mint family, basil adds a pleasant pungent flavor to a variety of dishes. It is commonly combined with oregano in Italian cooking, but is milder flavored than oregano and is wonderful by itself or combined with other herbs. Use just about anything with pasta, fish, chicken and vegetables.

Chervil: Use like parsley, but

expect much more flavor -- similar to tarragon. Use the subtle flavor of chervil to enhance vegetables, sauces, fish, poultry, rice and soups.

Cilantro: Also called Mexican parsley, cilantro is actually the tender leafy sprig of coriander. This piquant herb provides a unique lemony flavor to salsa and other Mexican dishes. Fresh cilantro is also used in oriental cooking. For lively flavor and bright color, add it to salads and dressings, marinated vegetables and chilled pasta dishes.

Chives: One of the easiest herbs to grow, it is a member of the onion family and adds a mild onion flavor to foods. The bright green color of snipped chives makes an attractive garnish for many foods. Most popular in potatoes and omelets, it can be added anywhere a mild onion flavor is needed.

Marjoram: Adds a fragrant, sweet and spicy flavor to vegetables and meats. It is commonly used in many processed meats. For optimum flavor, add toward the end of cooking.

Mint: Once you start a mint plant, it is hard to contain. Adds a delightful refreshing flavor to desserts, beverages and lamb. The delicate leaves make a pretty garnish.

Oregano: This pungent, peppery herb is a common flavoring

in tomato sauces and other Italian and Mexican dishes. Stronger than some other herbs. Also good in eggs, sauces, soups, stews and vegetables. Several varieties available.

Parsley: the All-American herb. Frequently used as a garnish either as a sprig or snipped atop foods. Relatively mild flavor. Can be used in most meat, sauce, soup, stew and vegetable dishes.

Rosemary: This herb has a very distinctive flavor when used alone. Adds a nice balance when combined with other herbs. Try with vegetables, soups, stews and meats.

Sage: A seasoning we most often associate with stuffings. Also good to season meat and poultry dishes as well as vegetables, salads and salad dressings.

Savory: Another member of the mint family, this herb adds a subtle flavor to vegetables and sauces.

Tarragon: This unique anise-flavored herb works wonders in many foods, such as dips, vegetables, poultry dishes and sauces. Popular addition to vinegars and oils as well as salad dressings.

Thyme: a minty, citrus-like flavor characterizes this herb used frequently in addition to vegetables, meats and sauces.

INSIGHT INTO EYESIGHT

DR. PHILLIP GRAY,
OPTOMETRIST

Vision Affects Personality
When the response to stress is inappropriate and we do not adapt easily, we may get ourselves into all kinds of trouble: high blood pressure, ulcers, and even emotional disturbances. As long as we can handle the stress and return to normal, we are healthy. However, if we are unable to shift back to relaxation, the stress will ultimately overtax us and result in illness.

The eyes in particular have a critical stake in our psychological/physiological make-up. The brain receives more sensory stimulation from the eyes than it does from any of our other senses. Eyes are the outposts of the brain.

Numerous studies have documented that people with similar visual problems often share similar personality characteristics. One survey was able to detect more than 3/4 of the near-sighted children who participated. Such a finding indicates that it might be possible to determine those who might become myopic (near-sighted) and suggest ways to avoid it, such as through vision therapy.

Visitors of Mrs. Pauline Grisham recently have been Mrs. David Yeager and daughters Misty, and Marcy, from Fort Leonardwood, Mo. Mrs. Kevin Blankenship and daughter Kristi of Savannah, and Mrs. Tommy Tucker of Pickwick.

Mr. and Mrs. Robert Taylor spent the weekend in Branson, Mo.

Mrs. Dorothy Vaughn and daughter, Dena and grandson, Trey, of Huntsville, Ala. Other visitors were Kathryn Philbin and children and Mrs. Gladys Moore of St. Louis, Ill. visited with Mr. and Mrs. George Puckett.

Mrs. Teresa Caston and friends Bobby King of Stewart, Fla. visited with Mr. and Mrs. David Daniel over the weekend.

Michael and Deborah Darley of Everett, WA are visiting with the Rev. Bob Brant and family.

Mr. and Mrs. Holbert Hill of Cabott, Ark. spent last weekend with Mr. and Mrs. Edmond Puckett.

W.T. Akers and Divey Middleton, of Sheffield spent Monday with Mr. and Mrs. Bill Middleton.

Closing the DAR year was a time of remembrance and fellowship for the members of the Chief Tishomingo Chapter. Fast becoming a tradition is the DAR luncheon where the members bring delicious casseroles, breads, and deserts.

Following the meal, Regent Dobbins reflected on her first year as regent. She thanked the members who have offered help and support. Much work has been accomplished, but much more is left to be done. Assisting in the DAR ritual were Regent Dobbins and Vice-Regent Hill. Several students helped with the ritual also. Christy Greenaway led the Pledge of Allegiance. She is the daughter of Mr. and Mrs. Bobby Greenaway. Rachael Moyers, the daughter of Mr. and Mrs. Joe Moyers, read the American's Creed. Amanda Smith, the daughter of Mr. and Mrs. Tim Smith, read the preamble to the U.S. Constitution. Finally, Ashley Bonds read several amendments from the Constitution. Ashley is the daughter of Mr. and Mrs. Larry Bonds. These young ladies are students at the Tishomingo County High School. They are members of FBLA and TCHS Band. Ashley is a cheerleader for the TCHS Braves. All of these students are involved in helping make their community, church, and school a better place. We

were very honored to have them participate in our program. Regent Dobbins read the President General's message to us. The National Society is beginning a renovation of the famous Constitution Hall. We hope to be a part of this exciting project.

Donna Huey conducted the program section of the meeting with a film on the DAR home Rosalie. This was a most interesting and informative program. The Mississippi Daughters own this beautiful home so it was indeed exciting to learn more about this.

From left: Mildred Hill, Amanda Smith, Ashley Bonds, Rachel Moyers, Christy Greenaway, Martha Dobbins.

In Memory Of Our Daddy Melvin Huffman

You may think we've forgotten all the special things we used to do when you were just our daddy and we were just a kid.

You may think we've forgotten all the ways you showed you cared, the silent looks the helpful hand the words of encouragement. You were always there when we needed you even though we didn't always agree with each other. (If everyone had a daddy like you what a wonderful world this would be).

We know what it means to have someone to believe in us. You gave us the chance to make the most of ourselves and to be the best that we could be. You may think we've forgotten but, Daddy we never could, for your in everything we see that is strong, kind and good. If a flower could grow in Heaven everytime we think of you, you could walk forever in your own garden. For all you did we're proud of you. All our love.

monitored by TVA received good or fair health ratings in the report. Poor ratings on five lakes resulted primarily from low dissolved oxygen and nonpoint sources of pollution.

Nonpoint pollution, such as water runoff from farms and cities, is the single largest problem on the system, according to the report.

"We've come a long way since the first RiverPulse report last year," said TVA Chairman John Waters, who originally directed the report to the public because of his commitment to the river. "Public response has been overwhelmingly positive and clearly indicative of interest in water

quality information." Waters said TVA has implemented many of the public's suggestions in this year's report.

RiverPulse condenses results of about 8,000 tests each year to answer the three questions most often asked: Is it safe to swim? Is it safe to eat the fish? And What is the overall health of my lake?

While the Tennessee River is in good shape overall, Waters said, it has problems that need attention, such as nonpoint source pollution.

"TVA is committed to helping address these problems, but it will take a cooperative effort from government at all levels, industry and the public," said

CHILD DEVELOPMENT CENTER

Ribbon Cutting Officially Opens Child Care Center

The new Tishomingo County Child Development Center, located on the premises of the Tishomingo County Magnet High School, drew praise from local and state officials, as well as parents, during the official ribbon cutting ceremony Friday, June 4.

Jeannie Forrester, Educational Adviser with the office of the Governor, said at the ceremony that our first goal is to see that our children enter school ready to learn. In order to do this, programs such as this one are essential.

Betty Altman, State Supervisor of Home Economics with the

State Department of Education, commended all of those involved for having the vision for a center of this type that helps not only the parents and children but also the high school students who are in the child care classes.

Jimmy Heidel, Executive Director of the Mississippi Department of Economic and Community Development stated that this is one of the first child care centers to be put into the public school system and it will serve as a model for other school districts.

Heidel, along with 3-year-old Jesse Bryson Mann, cut the ribbon that officially marked the facilities opening.

The center, which is funded by the Department of Economic and Community Development and the Department of Human Ser-

vices, is part of the Tishomingo County Special Municipal Separate School District because it is used as a lab for the vocational child-care classes.

According to Sylvia Ferguson, director of the center, children of Tishomingo County residents, children of teachers and children of students at the school are all eligible to use the facility. Youngsters are taken from ages 6 weeks to school age during the regular school session. During the summer the age is extended to included students up to the third grade.

The current staff of adults and students at the center include Margie Williams, Melanie Johnson, Paula Gaines, Gail Skelton, Ricky Higginbottom, Carrie Cain and Misty Murray.

If this should happen, there will be an additional re-connect fee, plus the unpaid balance must be paid in full, before service can resume.

National Award Winner Kelli King

The United States Achievement Academy announced today that Kelli King has been named a United States National Award winner in Mathematics.

This award is a prestigious honor very few students can ever hope to attain. In fact, the Academy recognizes less than 10% of all American high school students.

Kelli King, who attends Iuka Middle School was nominated for this National Award by Tammy Hampton, a Math teacher at the school.

Kelli King will appear in the United States Achievement Academy Official Yearbook, published nationally.

"Recognizing and supporting our youth is more important than

ever before in America's history. Certainly United States Achievement Academy award winners should be congratulated and appreciated for their dedication to excellence and achievement," said Dr. George Stevens, Executive Director of the United States Achievement Academy.

The Academy selects USAA winners upon the exclusive recommendation of teachers, coaches, counselors or other school sponsors and upon the Standards of Selection set forth by the Academy. The criteria for selection are a student's academic performance, interest and attitude, leadership qualities, responsibility, enthusiasm, motivation to learn and improve, citizenship, attitude and cooperative spirit, dependability, and recommendation from a teacher or director.

Kelli King is the daughter of Jackie and Wanda King. The grandparents are Mildred Hollander of Iuka and Maudie Black of Iuka.

Legal Notice

RESOLUTION

WHEREAS, the County of Tishomingo, Mississippi, desires to enhance and promote tourism, and retirement in the County of Tishomingo, Mississippi; and

WHEREAS, the County of Tishomingo, Mississippi, desires to generate funds for such promotion by way of certain assessments on lodging in the County of Tishomingo, Mississippi, and on the costs of occupancy or rooms at the hotels and motels located in the County of Tishomingo, Mississippi; and

WHEREAS, on the 17th day of March, 1993, the Tishomingo County Board of Supervisors passed a resolution requesting that the legislature of the State of Mississippi authorize the imposition of a tax on room rentals in hotels and motels within Tishomingo County; and

WHEREAS, legislation was enacted subsequently authorizing said imposition of a tax on occupancy in hotels and motels located in Tishomingo County;

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of the County of Tishomingo County, Mississippi, that the County of Tishomingo, Mississippi, effective July 1, 1993, does hereby impose a two percent (2%) tax on the gross proceeds from room rentals of motels and hotels within Tishomingo County, said imposition and assessment to be levied and applied as defined in House Bill No. 1656 as passed by the legislature, signed by the governor, a true and correct copy being attached hereto, and incorporated herein fully as if stated within this resolution.

Said legislation is as follows:

HOUSE BILL NO. 1656

AN ACT TO AUTHORIZE A TWO PERCENT TOURIST TAX, SUBJECT TO REFERENDUM, TO BE LEVIED ON THE GROSS INCOME OF HOTEL AND MOTEL ROOM RENTALS IN TISHOMINGO COUNTY FOR THE PURPOSE OF PROVIDING FUNDS FOR THE PROMOTION OF TOURISM AND RETIREMENT IN THE COUNTY; AND FOR RELATED PURPOSES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. As used in this act, the term "hotel" or "motel" means any establishment engaged in the business of furnishing or providing rooms intended or designed for lodging or sleeping purposes for transient guests, which establishment consists of five (5) or more guests rooms and does not encompass any hospital, convalescent or nursing home, or sanitarium, or any hotel-like facility operated by or in connection with a hospital or medical clinic providing rooms exclusively for patients and their families.

SECTION 2. (1) For the purpose of providing funds for the promotion of tourism and retirement, the Board of Supervisors of Tishomingo County, Mississippi, in its discretion, may levy, assess and collect from every person, firm and corporation operating a hotel or motel in Tishomingo County a tax that may be cited as a "tourist tax," which shall be in addition to all other taxes and assessments imposed by the county, as provided in this act.

(2) Such tax shall be an amount not to exceed two percent (2%) of the gross proceeds from room rentals of hotels and motels in the county, excluding charges for telephone, laundry and similar services. The tax shall not be levied upon or collected from

gross proceeds of nontaxable room rentals for day meetings that do not serve as overnight sleeping accommodations or room rentals to residential guests of a hotel or motel.

(3) Persons liable for the tax imposed pursuant to this act shall pay the amount of tax to the gross proceeds from room rentals and shall collect, insofar as practicable, the amount of the tax due by him from the person receiving the services at the time of payment for the services.

(4) Such tax shall be collected and paid to the State Tax Commission on a form prescribed by the State Tax Commission, in the same manner that state sales taxes are computed, collected and paid; and the full extent of the provisions and all other provisions of Chapter 65, Title 2, Mississippi Code of 1972, shall apply as necessary to the implementation and administration of this act.

(5) The proceeds of the tax, less three percent (3%) to be retained by the State Tax Commission to defray the costs of collection, shall be paid to the Tishomingo Development Foundation on or before the fifteenth day of the month following the month in which collected by the State Tax Commission for the purpose of providing operating funds for the foundation to promote and enhance the development of tourism and retirement in Tishomingo County.

(6) The proceeds of the tax shall not be considered by the county as general fund revenues but shall be paid directly to the Tishomingo Development Foundation and dedicated solely for the purpose of carrying out programs and activities which are designated by the Tishomingo Development Foundation and designed to attract tourists and retirees to Tishomingo County, Mississippi.

SECTION 3. Before the tax authorized by this act shall be imposed, the board of supervisors shall adopt a resolution declaring their intention to levy the tax, setting forth the amount of such tax, and establishing the date on which the tax initially shall be levied and collected. Notice of the tax shall be published once each week for at least three (3) consecutive weeks in a newspaper having a general circulation in Tishomingo County, the first publication of which shall be made not less than twenty-one (21) days prior to the date on which the tax initially shall be levied and collected. If, within the time of giving notice, twenty percent (20%) or less hundred (100), whichever is less, of the qualified electors of Tishomingo County, Mississippi, shall file a written petition against the levy of such tax, then such tax shall not be levied unless authorized by a majority of the qualified electors of Tishomingo County voting at an election to be called and held for the purpose. At least thirty (30) days prior to the effective date of the tax as herein provided, the board of supervisors shall furnish to the State Tax Commission a certified copy of the resolution evidencing such tax.

SECTION 4. Before the expenditure of the proceeds of any tax authorized by this act, a budget reflecting the anticipated receipts and expenditures shall be approved by the Board of Supervisors of Tishomingo County. The first budget of receipts and expenditures shall cover the period beginning with the effective date of the tax and ending with the end of the county's fiscal year, and thereafter, the budget shall be on the same fiscal basis as the budget of Tishomingo County.

SECTION 5. Accounting for receipts and expenditures of the funds derived from the proceeds of the tax authorized by this act shall be made separately from the accounting of receipts and expenditures of the general fund and any other funds of Tishomingo County. The records reflecting the receipts and expenditures of these funds shall be audited annually by an independent certified public accountant, and the accountant shall make a written report of his audit to the Tishomingo Development Foundation. The audit shall be made and completed as soon as practicable after the close of the county's fiscal year, and copies of the report of the audit shall be filed with the Clerk of the board of supervisors within fifteen (15) days after receipt thereof by the Tishomingo Development Foundation. The expenses of this audit may be paid from the funds derived pursuant to Section 2 of this act.

SECTION 6. This act shall take effect and be in force from and after its passage.

ASCS FARM NEWS

By: Phillip A. Horn
County Executive Director

FARMERS RESPONSIBLE FOR STORED GRAIN

"Tishomingo County producers are totally responsible for maintaining the quality and quantity of more than 10,000 bushels of grain stored on their

farms," Agricultural Stabilization and Conservation Service (ASCS) official Horn said.

Whether the grain is under regular price support loan, or in the grain reserve, Horn said it must be inspected regularly for insects, mold growth and other infestations year round.

In determining a producer's eligibility for price support loans or the reserve program ASCS considers the condition of both the storage structure and the grain stored within the structure. "Although the grain is approved for loan, any deterioration caused by insects or moisture is fully the farmer's responsibility," Horn said.

The market value of infested grain may be substantially reduced if the number of insect-damaged kernels is sufficient to lower the grade of the grain. Discounts against the price paid per bushel are often assessed by the buyer if live insects are present in the grain.

Farm-stored grain should be inspected and probed at least once a month, and more often if problems arise, Horn said. "We encourage producers to be particularly alert to moisture and insect problems, and to take corrective measures when necessary."

The ASCS official said producers who are in doubt as to the quality of farm-stored grain should contact the county ASCS office as soon as possible.

T.C.H.S. Chorus Showstoppers--

The Tishomingo County High School Showstoppers is a performing choral group which consists of students in Mrs. Barbara Hudson's chorus class as well as other talented students. The group was involved in two major performances during the 1992-93 school year. In December Showstoppers presented "Trimming the Tree at Town Square", and in April performed a musical rendition called "Where in the

World is Peter Cottontail?" They also performed for Iuka, Burnsville, and Tishomingo eighth grade students who visited TCHS for orientation. The group sang favorite selections from the 1950's through today including "Rock Around The Clock", "Stop in the Name of Love", "Lean on Me", and a medley of hits from Sister Act.

Showstoppers has several performing engagements planned for summer vacation. It also has been selected to perform at Walt Disney World in Orlando, Florida. Anyone interested in

scheduling Showstoppers for future engagements should call Tishomingo County High School at 423-7300.

Members of the group include (back row, from left) Wayne Lowe, Kathryn Tucker, Christy Thorn, Jason Robertson, Kerri Bonds, Sissy Higdon, Amy Skinner, Ferrin Rainey; (kneeling, from left) Kendra Lockridge, Shelina Caston, Amanda Roberts, Christy Monroe, Melissa Kennedy, Donna Burcham; (front, from left) Kim Bobo and Melissa White. Not pictured, Joey Brown, Leland Hendrix, Sidney Whitehurst, Courtney Compton and Amanda Buchanan.

William Bonds of Iuka visited Florence, Ala. Tupelo, Pickwick, and Wal-Mart in Iuka passing out brochures and free passes to children for the Indian Show on Heritage Day in Iuka. Mr. Bonds along with other committee members worked hard to make Heritage Day 1993 a success.
