ONE HUNDRED AND ELEVEN YEARS

THURSDAY, JUNE 30, 1994 NO. 4

### TCHS Freshman Jamboree Planned For Friday, July 1

This year TCHS wants to give all the upcoming freshman a grand welcome to their home for the next four years. To do so, the student council would like to invite all upcoming freshman to Tishomingo County High School this Friday. The jamboree will begin at 12:00 noon and conclude at 2:00 p.m. There will be new friends, crazy games, and lots of other activities will be fun. To really get to know each other, we would like everyone to bring with them a hidden or well known talent. So, if you can sing, bring your tapes, or dance, bring your shoes, because this will be one day you won't forget! We hope all of our new freshman will be at TCHS Friday, July 1, from 12:00 - 2:00 to start off your school year the right way. Among those participating in the Jamboree will be (sitting, from left) Rosie Christy, Tiffany Bonds, Kara Christy; (standing, from left) Brad Marlar and Reed Kent.

### Schools To Pay Fee For Trash Pick-up

Next school year all schools in Tishomingo County will be paying a fee for school garbage and school trash to be hauled away. This fee is based on the number of pick-ups per week and the volume of trash. The schools are going to be heavily involved in trying to reduce the amount of trash they can in order to hold down cost. Recycling will be a major part of this reduction effort, and the schools will be playing a vital role in educating the children and the community about waste management. Patrons of each of the schools can be of very great assistance to their local schools by not depending on the schools to get rid of their garbage except that generated by the school, and by supporting any recycling effort engaged in by the school, and by being an active participant in the new curbside service system being implemented by our local officials. The "dumpsters" set up on each campus will be for school purposes only. They are not intended for use by the general public and the school board asks your cooperation as we all embark on a different method of managing our waste.

### Tuition To Be Charged To Out-of-Area Students

Tuition is to be charged next year to students attending the schools of Tishomingo County. After months of research and debate, the School Board voted unanimously on June 17, 1994 to establish a set of nominal fees to be paid by students living outside the bounds of Tishomingo County. These fees will be used to defray the cost of purchasing books, materials, and supplies used in educating the out-of-county students. The basic fee for any out-of-county student registering for the first time - \$300 per year, while the basic fee for those who have been attending the schools of Tishomingo County will be \$200 per year. There is a decreasing price schedule for multiple-children families; and there are exemptions for long-term attendance and seniors and seniors of 1994-1995. Detailed information can be obtained by contacting Principals or the office of the Superintendent.

This new special project is much needed, and all students at the Tishomingo school will benefit.

The Alumni group urges everyone who has an interest in the Tishomingo school to help with this special project. Your interest and involvement will make this project a great success.

## Iuka Family Wins Case Before PSC

EDITOR'S NOTE: The following story was originally published in the Daily Corinthian and is courtesy of them.

In its final ruling, the Public Service Commission has sided with a family battling to get water service.

It has ordered the Tishomingo County Water District to provide the utility to Albert Shadburn. The Indian Creek resident filed a complaint after the new consolidated system left him and his neighbors out while water lines were laid to areas for new development, including property in Alabama.

The order requires the water district to provide Shadburn water within 120 days of the June 9 order.

The ruling follows a Feb. 3 recommended order from Northern Public Service Commissioner Bo Robinson that Shadburn be served. However, members of the water district board objected and asked for a hearing before all three commissioners. They lost in a unanimous ruling by the three Public Service Commission members.

Robinson's recommended order said the district had:

- Represented prior to the formation of the present Tishomingo County Water District that Shadburn and other landowners in present dry areas would be served with water and have failed to do so to date.

- Have begun construction with grant monies to serve areas of the certificated area to the exclusion of Shadburn and other landowners.

- Have begun construction to serve landowners of the State of Alabama in violation of Mississippi laws.

- Have discriminated against Shadburn and other residents by refusal and failure to serve them or give any reason why they should not be served.

- Have failed to properly spend funds equally to all residents of the certificated area.

- Have devalued Shadburn's property and other landowners in the area by failing to serve their property with adequate water.

"The whole world is turned right back up where it should be," said Lola Shadburn whose husband filed the complaint. "About 34 landowners will have water. These are long-time residents, who have lived there for 50 years and water has never

been out there."

She said she wanted to thank their attorney, Mike Cooke; U.S. Sen. Trent Lott, R-Miss.; PSC field representative Leon Fields and Robinson.

"There have been just so many people pulling for us," she said. "It's been a long thing. We just want to thank everybody."

The commission ruled that Tishomingo had the ability to serve Shadburn's area despite the utility's objections. The water district will be required to report on their progress in complying with the order every 30 days to the Public Utility Staff so it can be monitored by the commission.

## Letters to the Editor

Recently, a board meeting was called to hire a new police officer for the City of Iuka. The three Aldermen who were present, Herbert Booker, James Bates, and Bess Young, decided to bring up another issue, along with Police Chief Amos Bates and Mayor David Nichols. That issue was the gym equipment that was set up in the new truck-bay of the Fire Department. The two Aldermen who support the concept of physical fitness were not present at the meeting, as they had not been officially notified of the date and time of the meeting.

Alderman Booker brought up the issue by asking the Board what they were going to do with those weights in that Fire Department. The decision was made by the Board, along with Mayor Nichols, to find out who owned the equipment and have their department head, whether it be the Police Chief or the Fire Chief, to see that it be removed.

When questioned later by a firefighter, Mr. Booker stated that the reason for their decision was the "liability problem," that if someone got hurt, the city would have to pay for it. He also said that there were so many people working out down there (in the truck-bay) that you couldn't tell who was on duty and who wasn't.

Obviously, the Board of Aldermen has not thoroughly thought through the situation, or they would not have made such a hasty decision. The only people

who worked out on the equipment were city employees who have insurance coverage already, and the city would not have had to pay in case of an injury. As to the statement that you couldn't tell who was on duty and who wasn't the police and firemen know whether they're on duty or not. It shouldn't matter if Mr. Booker or anyone else can or can't tell who's on duty.

The Board of Aldermen, the Mayor and the citizens of Iuka all should be thankful that there are men in the Police and Fire Departments who care enough about themselves and their jobs to keep themselves physically fit. A person has to be in good physical condition to make it through rigorous training at both the Police Academy and the Fire Academy. Why shouldn't these men be able to maintain this condition for the jobs they do everyday?

There has also been some concern voiced about police and firemen working out while on duty. What is the harm in working out during a 12 or 16 hour shift at night when nothing is happening? The firemen have nothing to do but dispatch, and working out is far more productive than sitting around eating, smoking cigarettes, and watching TV. And is it not better for the policemen to be alert and aware, ready to roll should call come in, instead of being parked in a dark corner somewhere half asleep? Working out while on duty

shouldn't be something the Board has a problem with. There is a police phone and a fire phone in the new truck-bay, and there is easy access to radios. Working out in no way effects the response-readiness of either department.

If my house was on fire and I was trapped inside, needing a firefighter to rescue me, I'd feel a lot better if I knew that the firefighter was physically able to help me get out of the burning building. If my life was being threatened by a thief or killer, it would be good to know that the policemen responding to my call were in top condition and able to handle the situation. Apparently, most of the Board of Aldermen think it's all right to have police and firemen on duty who are unhealthy, overweight, and ineffectual, just waiting to go out and protect the citizens of Iuka from nasty criminals and raging fires.

If larger cities can provide gyms for their employers with taxpayers' money, surely the Board and the Mayor can allow these men to provide their own equipment to work out on, which has been the case until now. It seems as the city officials are trying to do everything within their power to ensure that the City of Iuka will have second-rate Police and Fire Departments now and always. As a citizen of Iuka and the wife of an Iuka Firefighter, I am very concerned by the thoughtfulness of this decision.

### Letter To The Editor

Dear Sir:

Below is a copy of a letter I, as a member of the National Committee to Preserve Social Security and Medicare, have been alerted to a disturbing new threat to our Social Security benefits.

There's a group of 32 men and women in Washington, D.C., who-right now! are plotting to draft recommendations that could wreck the Social Security system. They are called "Bi-Partisan Commission on Entitlements and Tax Reform". President Clinton has given them the go-ahead to come up with plans for cutting entitlement spending to reduce the budget deficit. What benefits will end up being cut, and by how much, may actually depend on whether you, seniors and I, take action right now. One message gram goes to the two co-chairmen of the entitlements commission. The other will go directly to our senators and representatives in Congress. Here is the message Gram:

To: Senator Bob Kerry of Nebraska, Co-Chairman  
Senator John Danforth of Missouri, co-chairman c/o Bi-Partisan Commission on Entitlements and Tax Reform, Washington, D.C. I want you to know that I am in favor of reducing the national deficit. But I strongly object to using Social Security as the engine for bal-

From: Stella Barrett, Iuka, MS  
Here is the 2nd message gram.  
To: Senator Thad Cochran  
Senator Trent Lott  
Representative Jamie L. Whitten  
c/o United States Congress

As a member of the National Committee to Preserve Social Security and Medicare, I will be closely monitoring the activities of the Bi-Partisan Commission on Entitlements and Tax Reform, and will vigorously oppose any attempts to make any unjustified cuts in my Social Security Benefits. You have pledged to represent my best interest in the Congress of the United States. Please do so!

From: Stella Barrett, Iuka, MS  
I feel sure all NCPSSM members will mail their letters so this is for you and your many readers of Tishomingo County News to do your best by mailing a letter on how you feel. I feel that this Bi-Partisan Commission is taking aim at you and me and other seniors and future retirees. Lets not let them! Lets have a say by all sending post cards and letters til they can't get in at the door! Its worked before - why not now? I hope that in spite of your aches and pains and the weather you'll get to the polls to vote!

You Don't Want This Kind of Reception

Many antennas were victims of the recent ice storm. When reinstalling these, be sure to practice good safety measures. Antennas can be hard to handle, so be careful. If an antenna you're installing comes into contact with an electrical line overhead, you'll be off the air, permanently. Make certain that your antenna can't contact any lines nearby; or to be really safe, get professional assistance.

As you go about your task of cleaning-up after the storm, please observe safety. Remember, all lines should be respected and treated as if hot. Do not assume that any electrical wire is without power.

### SENSITIVE TO BRIGHT LIGHT?

Some people squint to protect their eyes from too much light. Normal, healthy eyes can adjust to a range of brightness of well over a million to one, but just as skin color varies between individuals, so does the amount of protective pigment in the eye vary.

If you suffer from bright light that others seem comfortable with, don't suffer in silence! We often find that relief is obtained with relatively little density in what may appear to be a simple cosmetic eyeglass tint. Glasses with a 15 or 20% gradient tint may be all that is needed. Photosensitive lenses which darken in response to the sun's ultraviolet rays are also a remedy. Indoors, under office or factory fluorescent lighting, a 10% pink tint may work very well.

Squinting, however, may also be a sign of uncorrected astigmatism. We also see it among children who are becoming nearsighted. Don't let your child develop this habit if eyeglasses will cure the underlying problem.

## Nikki Rhodes & Derrick Tapp United In Lovely Garden Ceremony

Nikki Rhodes and Derrick Tapp were united in marriage on Saturday, April 16, 1994 at 5:30 in the evening. The ceremony took place at the home of Mike McRee in Iuka. Bro. Bud Gordon, of the First United Methodist Church in Iuka, officiated.

The bride is the daughter of Mr. and Mrs. Terry Rhodes of Tuscumbia, AL. She is the granddaughter of Mrs. Dora Singleton and the late Rindohl Singleton and Mr. and Mrs. Almer Rhodes all of Iuka. Mrs. Willie Mae Carson, also of Iuka, great grandmother of the bride. The groom is the son of Mr. and Mrs. Dale Tapp of Iuka. His grandparents are Mr. and Mrs. Earl Daugherty of Iuka and Mrs. Wala Tapp and the late Glenn Tapp of Tuscumbia.

The ceremony took place on the back terrace of the lovely anbellum McRee home. The terrace was accented with two large flower arrangements made of pink stargazer lilies and fresh flowers. Along with the arrangements were two seven-tiered candelabras setting the stage for the wedding party and the fifteen-tiered centering the bride and groom. Adding to the ceremony were white wooden chairs covering the courtyard. Singing the bride's choice selections were Mr. Daryl Woods and Ms. J.V. Lindsey, both of Tuscumbia. The selections included "Through the Eyes of

Love", "A Parents Prayer", "Only God Could Love You More," and "Household of Faith".

The bride, given in marriage by her father, wore an elegant full-length creation of white beaded bridal satin. The gown featured an off-the-shoulder scalloped sabrina neckline detailed with heavy beading and sequins. The fitted bodice and long fitted sleeves were adorned with beaded and sequined lace motifs. The back v-neckline was accented with strands of hanging pearls. The full skirt was enhanced at the back waist with a double tiered peplum and self fabric roses. The extended chapel length train was defined with beaded cut-out appliques cascading down the train to the lace edged hem. Serving the bride as maid of honor was Marcia Bowling of Tuscumbia. Bridesmaids were Tanya Crittenden, Ann Vance, Callie Rhodes, and Jamie Rhodes all of Tuscumbia. The attendants wore a country rose tea length dress made of crepe linen with a flowing white organza collar captured by a rose at the front neckline. ### National Award Winner

Mary Elizabeth McKee

The United States Achievement Academy announced today that Mary Elizabeth McKee has been named a United States National Award winner in Mathematics.

This award is a prestigious honor very few students can every hope to attain. In fact, the Academy recognizes less than 10% of all American high school students.

Mary Elizabeth, who attends Iuka Middle School was nominated for this National Award by Mrs. Tammy Hampton, a 5th grade teacher at the school.

Mary Elizabeth will appear in the United States Achievement Academy Official Yearbook, published nationally.

"Recognizing and supporting our youth is more important than ever before in America's history. Certainly United States Achievement Academy award winners should be congratulated and appreciated for their dedication to excellence and achievement," said Dr. George Stevens, Executive Director of the United States Achievement Academy.

The Academy selects USAA winners upon the exclusive recommendation of teachers, coaches, counselors or other school sponsors and upon the Standards of Selection set forth by the Academy. The criteria for selection are a student's academic performance, interest and aptitude, leadership qualities, responsibility, enthusiasm, motivation to learn and improve, citizenship, attitude and cooperative spirit, dependability, and recommendation from a teacher or director.

Mary Elizabeth is the daughter of Mr. and Mrs. Johnny McKee. The grandparents are Mr. and Mrs. Alfred D. Robinson of Iuka, MS and Mr. and Mrs. Robert Stringer of Iuka, MS.

### Governor Buys First License - 1-800-ASK FISH

Anyone wishing to fish and hunt in Mississippi will now have the easiest access in the country to buying licenses.

This morning at 10:00 Gov. Kirk Fordice purchased the very first Mississippi sportsman license via a new state of the art automated license system. The system is the first, and only one of its kind in the nation.

"By implementing this system Mississippi is taking a lead the rest of the country will soon follow," Fordice said. "Sportsmen across Mississippi, and the nation, can now purchase a fishing or hunting license by simply picking up the telephone. It is an accomplishment that the folks at the Department of Wildlife, Fisheries and Parks (MDWFP) and the people of Mississippi can truly be proud of."

For the past several months officials at the MDWFP have been working feverishly to get the system on line.

"This new system will have as much impact on the sportsmen who fish and hunt in Mississippi as anything else this department has ever accomplished," said Dr. Sam Polles, MDWFP executive director. "The sporting public will find this system convenient and user friendly."

The system allows folks to call 1-800-ASK-FISH 24-hours a day, 7-days a week and purchase a fishing or hunting license by using a Visa or MasterCard. A \$3 service charge is applied to the price of the license.

The service is funded by the Sportfishing Promotion Council (SPC), a division of the American Sportfishing Association.

"A lot of the credit for this pioneer project can be attributed to the tax dollars provided by the Sportfish Restoration Fund," said Joe Kuti, president of SPC.

Kuti added that the project,

which is a joint effort between private industries, state and federal agencies, will catapult Mississippians into the 21st century.

"It's an affordable 'On Ramp' to the Information Super Highway that provides better service to the public," Kuti said.

Folks can also call the toll-free number from anywhere in the country and get fishing information such as rules, regulations, fishing reports, what baits to use, handicap access and boat ramp accessibility.

"They are some of the most comprehensive reports I have ever listened to. Their importance to anglers is immeasurable," said Ron Garavelli, MDWFP chief of fisheries.

## Sardis Church News

By: Ova Reno

Herman and I visited Bobby Harper Wednesday morning. He requested I send in the 23 Psalm and dedicate it to him. I am very happy to do so. So here you are, Bobby. (1) The Lord is my Shepherd, I shall not want. (2) He maketh me to lie down in green pastures: He leadeth me beside the still waters. (3) He restoreth my soul: He leadeth me the paths of righteousness for His name's sake. (4) Yea, though I walk through the valley of the shadow of death, I will fear no evil: for Thou art with me: Thy rod and Thy staff they comfort me: (5) Thou preparest a table before me in the presence of mine enemies: Thou anointest my head with oil; my cup runneth over. (6) Surely goodness and mercy shall follow me all the days of my life: and I shall dwell in the house of the Lord forever. Amen!

John 11:35. Jesus Wept! Bobby also requested this verse to be dedicated to his friend, Jonathon Cagle. God bless you, boys.

Devotional: Conviction of the Word. Acts 2:37. Please read. Sunday School lesson: Faith

produces an obedience response to God's Word. Text: James 1:19-27; Verse 22: But be ye doers of the Word, and not hearers only, deceiving your own selves...This is a timely lesson for all of us today.

Sunday morning Bro. John read from 2nd. Timothy 4:1-8. Before he dies. Paul is giving Timothy several charges to keep, and they are for us also. Paul says he is ready to go in verse 6. Paul was not afraid to stand up for Christ. Would we stand up for Him? Think about it.

Sunday evening Bro. John read the key verse of the bible, John 3:16. There are 25 words in this verse, twelve before 'Son' and twelve after. The first twelve could stand for the fifteen tribes of Israel and the last twelve for the twelve Apostles, with God's 'Son' in the middle. There are a lot of sermons in this one verse.

Bro. Milton and Corrine Phifer visited his brother-in-law, Mr. Cleo Rogers Saturday at Ripley. Thursday they visited friends Edward and Virginia Rogers at Lexington, TN.

Herman and I visited Willard and Jewel Reno Friday afternoon. His son, William and grandson, Dale Reno came by for

a while.

The Wood reunion was held at Golden City Hall Sunday. Phelma, Bro. John and Burton Stockton attended in the afternoon. They saw a lot of kinfolks.

Please keep in mind the Sardis Community Reunion Saturday, August 6, 1994, beginning at 2:00 PM with lunch at 5:00 PM. Everyone bring a covered dish.

## Harmony FCE Club

The Harmony FCE Club met in the lovely home of Earl and Becky Walker with Nedra Walker as co-hostess for their June 20, 1994 meeting.

"Laws should be like clothes, made to fit the people they serve" stated the President, Lois Tucker, as she called the meeting to order.

Pledge of Allegiance to the flag was led by Nellie Taylor, Parliamentarian.

The devotional was given by Becky Walker using as her scripture, Luke 17:5-10, giving the responsibilities of a Christian. Prayer was led by Nedra Walker.

Minutes of the previous meeting were read by the

secretary.

Our visit to Timber Hills will be June 28, 1994 at 9:30 o'clock.

The County Council outing will be July 16, 1994 at Pickwick Inn at 11:00 o'clock.

Harmony Club family picnic will be July 18, 1994 at Mineral Springs Park.

Educational reports given were as follows: Food Safety by Becky Walker; Gout and Nutrition by Lois Tucker.

The program was on Food 'n Nutrition and pamphlets were passed out on "Understanding the New Food Labels".

Other members present were: Margie Davis, Opal Dean, Louise Sanderson and Vada Kay.

NAFCE Creed was read by Vada Kay.

Everyone is welcome to attend our meetings.

### County Agents Notes

By: Danny Owen, County Agent  
WATCH OUT FOR LATE BLIGHT ON TOMATOES  
Recently I received information from other parts of the state that we have a disease of

tomatoes and potatoes that is rare to our state. LATE BLIGHT was reported in Pike and Claiborne Counties in South Mississippi. It has infested sixty percent of the gardens and commercial fields down there. I wasn't concerned about it here in Tishomingo County until last week. It was discovered in a garden close to Tishomingo. Symptoms of the disease are similar to early blight but the leaves do

not turn yellow and then brown. There will be very little yellowing. Leaves will turn brown and fall off. It usually moves up the plant. There is no cure but you can use prevention treatments with a labeled fungicide. The disease can EASILY be spread by the wind. If you feel that your tomatoes or potatoes are infected with this disease, please give me a call at 423-7016.

### BOONEVILLE FEEDER PIG SALE CLOSURES AFTER 34 YEARS OF SERVICE

Because of small numbers of pigs the Booneville Feeder Pig Sale Board of Directors has decided to close the sale effective immediately. The July 14th sale scheduled for Booneville will be held at Bruce and the October 13th sale will be at Amory. There was some regret by Board Members. One stated that he hates that the sale has failed. But then another added that the sale did not fail. It fulfilled its goals. For 34 years it gave small swine producers a place to market their pigs. It is obvious that pork quality has improved dramatically in the past 3 decades and this is mostly due to producers who have learned better production practices along with sound genetic improvement. So the feeder pig sale fulfilled the need of the farmer and there is always the possibility the same need may arise again.

### HAY AND LIVESTOCK DAY TO BE HELD AT THE AGRI-CENTER IN VERONA

On Saturday, August 6, 1994, a Hay and Livestock Day will be held at the new Lee County Agri-Center located on Hwy. 145 South of Tupelo. The event will start at 9:00 and be completed by 2:30. Featured will be hay equipment manufacturers, feed and veterinary supply representatives, seed sales, and implement dealers. Producers may exhibit hay (square or round bales) to sell. If enough is exhibited that has been quality tested, a contest recognizing the Grand Champion Hay will be held. There will also be 30 minute presentations on hay storage and quality, quality hay in dairy operations, how bad hay costs producers, factors affecting quality, and profitable management practices for producers.

### Home Economics Tips

By: Barbara F. Guinn, Extension Home Economist

#### EXERCISE AT ANY AGE

No matter what your age, it's never too late to start exercising. Doctors at the Tufts-United States Department of Agriculture Human Nutrition Research Center on Aging agree. They found that 60-to-70-year old men were able to walk faster and perform routine tasks more easily after just 12 weeks of regular exercise.

Researchers also say that exercise may improve cardiovascular fitness, contribute to weight loss, reduce the risk of osteoporosis and help control stress. Listed are tips for adults beginning an exercise program.

1. See your doctor for a complete physical and obtain recommendations concerning any exercises to avoid.

2. Keep a weekly log of your activities to help track your progress.

3. Warm up and cool down. Stretch before and after exercising to provide more flexibility and reduce the risk of injury.

4. Breathe deeply as you exercise. Inhale from the abdomen.

5. Listen to your body. Pain usually indicates that you are performing an exercise incorrectly or putting too much strain on a joint or muscle group.

6. Begin any exercise program gradually and build up slowly to greater intensity and longer workouts.

7. Drink fluids both before and during vigorous exercise to prevent dehydration.

8. Wear the proper footwear and clothing for your activity.

9. Find an exercise partner. A partner helps keep you motivated and makes exercising more fun.

10. Select an activity that suits your lifestyle. Walking and swimming are good forms of exercise at almost any age.

Regular exercise can help you feel better, look better and enjoy life more fully.

## New Laws Taking Effect In July

Any person bringing guns or explosives onto public or private school grounds or school buses could be arrested on felony charges and face up to three years in prison upon conviction under one of a broad range of new state laws which take effect in July.

The law is primarily designed to help curb school violence and provide for weapon-free school zones. It allows certain exemptions -- if the weapons are to be

used for educational or school-sanctioned purposes, for example -- but also makes it a felony to encourage or assist a person under 18 years of age to carry firearms or explosives onto school property. Additional provisions include stiffer penalties against parents or guardians who knowingly allow a child to carry deadly weapons in violation of state laws, creation of a new Family Preservation program to steer children away from the paths of delinquency, and authorization for the Department of Education to maintain a Cen-

ter for Prevention of School Violence.

Among the top priorities of the session, the package also contains measures to reduce the legal age for minors to be tried as adults in felony cases from 18 to 17; provide for automatic expulsion of a student who possesses illegal drugs or deadly weapons or commits violence on school property; require school principals to immediately report criminal acts at schools to law enforcement officers; and make various revisions in laws involving the alternative schools program.

Several other major bills are due to take effect on or about July 1, including laws that will:

- Authorize an expansion of the 1987 four-lane highway program, establish a new program to assist in repair and reconstruction of local bridges, revise the formula for distribution of State Aid Road funds to the counties, and provide a plan for funding of highway improvements and related infrastructure projects in casino areas.

- Initiate a reduction in costs of car tags by allowing taxpayers to receive credit for ad valorem taxes on vehicles starting January 1, 1995; the legislation calls for a temporary diversion of money from the state's General Fund to help replace the revenue loss to cities and counties, along with a 2 percent increase in the sales tax on cars and light trucks starting in January 1995.

- Allow the jury in a capital murder case to impose a sentence of life imprisonment without parole, thus providing a third sentencing option in addition to death or life imprisonment with parole eligibility; also, requires at least 20 years be served before parole if the defendant receives a life-with-parole sentence.

- Permit a jury to order enhanced penalties in "hate" crimes involving racial or religious prejudice.

- Authorize an annual salary increase of \$1,848 (including annual increments) for certificated teachers with one or more years' experience; provide full funding of health insurance for full-time school employees, community college personnel, and public library workers.

State finances was a paramount issue throughout the 1994 session. Legislators adopted an overall General Fund budget totaling \$2.519 billion for the 1994-95 fiscal year and, in light of dramatic gains in the state's economy, were able to provide increased funding for public schools, universities, community colleges, mental health facilities, and other priority needs.

A \$25 fine may be imposed for violating the state's seat belt law under another law taking effect July 1, but only if the offender is convicted of another primary violation such as speeding or reckless driving. Further, child-restraint safety devices will now be required in vehicles for children up to 4 years old, boosting the age from 2 to 4.

## "Country Preacher! Tell Me About Tomorrow!"

"Boast not thyself of tomorrow; for thou knowest not what a day may bring." (Proverbs 27:1)

Tomorrow? Tomorrow is uncertain? I promised the church I'm blessed to serve that I will not try to tell the future. We need to be extremely careful about predicting the future because the Bible teaches there is much we don't know about tomorrow. However, I am going to renege somewhat and talk about tomorrow.

WHAT ABOUT TOMORROW? (1) GOD WILL STILL BE GOD! He will still be in control. He knows all things. What we need to know is Him! And we can know God through Jesus Christ. The Hebrews writer declares Jesus to be the "brightness of His glory, and the express image of His person." (Heb. 1:3) Jesus will still be calling tomorrow, "Believe on Me! Come unto Me! Follow Me!"

WHAT ABOUT TOMORROW? (2) GOD WILL STILL BE WORKING ALL THINGS FOR GOOD ACCORDING TO HIS PURPOSE. Are all things good? Certainly not, but God will be at work in His world and people. Moody declared that God used the terrible fire in Chicago to direct him down a different path.

WHAT ABOUT TOMORROW? (3) GOD WILL STILL BE PLEASED BY FAITH! The just shall live by faith. Yesterday! Today! And tomorrow! Without faith it is impossible to please God. How much we live tomorrow? By faith!

WHAT ABOUT TOMORROW? (4) GOD WILL STILL HONOR HIS PROMISES IN JESUS CHRIST. Check it out in Romans, chapter 8! No condemnation! No complications! No separation! To those who are in Christ Jesus!

WHAT ABOUT TOMORROW? (5) GOD WILL STILL EXPECT CHRISTIANS TO BE HIS WITNESSES IN THE WORLD. How? By word and deed! By being salt and light! By doing the right, good and true! By going and telling!

WHAT ABOUT TOMORROW? (6) GOD WILL STILL NOT BE WILLING THAT ANY SHOULD PERISH! God's desire is that all believe on the Lord Jesus and be saved. That all know Jesus and follow Him. Tomorrow? God will not be willing that any should perish.

WHAT ABOUT TOMORROW? (7) GOD WILL STILL ASSURE HIS CHILDREN OF AN ETERNAL HOME IN HIS GLORIOUS PRESENCE. Jesus said, "...that where I am, there ye may be also."

WHAT ABOUT TOMORROW? I don't know! But I know this sinner man is glad he is forgiven and in Christ. I know that my yesterdays, today, and tomorrows are in the hands of Him Who knows and holds all the tomorrows. And I know that you can know God through faith in His only begotten Son, Jesus Christ.

## The Fourth, Fireworks & Safety

Americans traditionally celebrate their nation's independence with fireworks, but unfortunately, this Fourth of July tradition has resulted in thousands of injuries due to the misuse of fireworks. "Many people forget that fireworks are not toys - they are explosive devices and should be handled with the greatest of care," states Christy Gilliland, Director of the Division of Disabilities Prevention of the Mississippi Department of Rehabilitation Services. "Families should attend only

community sponsored events and leave the fireworks to the experts. If parents and caregivers do decide to allow their children to use or observe fireworks at home, they should always supervise the use of fireworks, even sparklers and small firecrackers."

The Consumer Product Safety Commission reports that in 1992, 12,937 people were injured by fireworks. The majority of these injuries occurred because of the misuse of fireworks, especially by unsupervised children. Approximately 45 percent of those who receive emergency room treatment for firework-related injuries are children, with those ages 14 and under being the most vulnerable.

Miles Lane, a Jackson ten year old, knows first hand that fireworks can be dangerous. Lane will never forget the sky rocket which was accidentally shot into his mouth while he watched older children ignite fireworks. In addition to the cuts and burns, Miles later developed pneumonia. The doctors treated the pneumonia for months not knowing that a small plastic tip from the sky rocket was lodged in his lung causing the infection.

"One night when Miles was complaining of severe chest pain, he pulled the plastic tip out of his mouth," remembers Miles' mother, Amy Lane. "It just proves that anything can happen." Miles now advises other children to always have an adult present when using fireworks and to stand far away from people who are using fireworks.

Although sparklers are usually considered a safe form of fireworks, sparklers are the leading firework product involved in injuries to children under age 5. Sparklers can reach temperatures greater than 1000 degrees F at the tip and can cause serious contact burns or ignite clothing. Burns are the most

common type of firework related injury. The hands, legs or eyes are involved in percent of these injuries.

More fireworks are used in America's celebration of independence than for any holiday in the world. While people enjoy safe fire exhibits handled by commercial and commercial experts, fireworks are exploded amateurs in backyards, field neighborhoods across the country. If parents and caregivers decide that fireworks should be part of their celebration, they should follow some very important guidelines recommended by the Mississippi SAFE Coalition and the National KIDS Campaign:

\*Discuss safety procedures with your children. Tell children to "stop, drop and if their clothes catch fire, lie flat on the ground." Be sure they know how to call 911. Demonstrate how to extinguish fireworks by using water or an extinguisher.

\*Parents and caregivers should be the only source for fireworks and should be present every time fireworks are in use.

\*Read labels and carefully follow directions.

\*Never use fireworks indoors.

\*Never give fireworks to a small child.

\*Spectators should be a safe range before lighting fireworks.

\*Never aim fireworks at another person.

\*Never place your face or other body part over fireworks.

\*Never try to relight fireworks that malfunction.

\*Keep a bucket of water handy - especially if children are using sparklers.

\*Never carry fireworks in your pocket.

With the appropriate precautions, your Independence Day celebration can be festive and safe.

## Sincere Words of Appreciation

Words are inadequate to express our thanks for the outpouring of love and support from our family, friends and church through these six years of Mother's illness. So many of you have made the long trips to see Mom. It meant so much to her and us to see people from home. Thank you for the cards, calls, food, gifts and flowers during the years. These brightened many days for her.

Our hearts were so touched by those from here who made the trip to Germantown to be with us after hearing of her death that day.

Thank you for the memorials to her church and to the many other organizations in her memory. Thank you for the many beautiful flowers, food, cards, money and most of all, your presence and strengthening prayers.

Our special thanks to her great-nephew, Ed Kennedy, family friend, Bro. Caster Buse and her niece's husband, Bro. Jack Williams for their words of comfort, to the Phifer Singers and great-nieces for the songs and music, to the great-nephews who served as pallbearers, to the flower shops for the beautiful arrangements, to Cutshall Funeral Home for their excellent service, to the Sheriff and Police Departments for their service—you will always be loved by us.

Please continue to remember our family in prayer.

## Facts About The BIBLE BY JOHN LEHTI

### CONCUBINES, THE SAME AS HARLOTS? ... NO!

WESTERN CIVILIZATION HAS VIEWED A MAN'S CONCUBINE ON THE SAME LEVEL AS A PROSTITUTE—BUT NOT SO IN EARLY HEBREW SOCIETY! LARGE FAMILIES WERE ESSENTIAL FOR ECONOMICAL SECURITY AND POLYGAMY WAS COMMON. IN THOSE DAYS, A MARRIAGE CONTRACT AFFORDED THE HUSBAND-TO-BE A GENEROUS DOWRY FROM THE BRIDE'S FATHER—BUT THE HEBREW MAIDEN WHOSE FATHER WAS TOO POOR TO GIVE A DOWRY COULD BE A MAN'S WIFE IF HE PAID HER FATHER A SUM OF MONEY, THUS SHE ENTERED HIS HOUSE WITHOUT MARRIAGE CONTRACT AS A SECONDARY WIFE (CONCUBINE), BUT EVEN SO HER RIGHTS WERE PROTECTED BY LAW (DEUT. 21:10-14) AND HER CHILDREN HAD EQUAL RIGHTS WITH THE CHILDREN OF THEIR FATHER'S WIFE BY MARRIAGE!

USUALLY, HEBREW WOMEN EXPOSED THEIR FACES, ONLY HARLOTS VEILED THEIR FACES—SO THEY WOULD NOT BE RECOGNIZED AS THEY PLIED THEIR TRADE!

THE FIRST WIFE RULED THE HOUSEHOLD, ALL OTHER WIVES OR CONCUBINES WERE UNDER HER DOMINION!

NEVERTHELESS, EVEN THE OLD TESTAMENT POINTED TOWARD MONOGAMY. MOSAIC LAW (DEUT. 17:17) FORBIDS A KING "...TO MULTIPLY WIVES." HOSEA PREACHED MONOGAMY, MALACHI ADMIRES A HUSBAND'S LOYALTY TO THE "WIFE OF HIS YOUTH (2:14ff) AND LO, BY NEW TESTAMENT TIMES, A JEWISH HUSBAND USUALLY TOOK BUT ONE WIFE!

NEXT WEEK: LOT'S WIFE—SALT OR NOT?

## Bicycling Safety Measures Explained

As the combination of warm weather and the end of the school year brings out thousands of bicyclists, both these individuals and motorists should be particularly alert to prevent bicycle-motor vehicle collisions, according to the Department of Public Safety's Division of Public Safety Planning.

"All bicyclists are encouraged to wear helmets," said Donald O' Cain, the division's executive director, "and, like motorists, it's vital that they understand the meaning of street signs and do as they direct. Wearing helmets may seem to be unnecessary for bicyclists, but it should be remembered that these individuals have virtually no protection if the bicycle collides with a motor vehicle or other object. Helmets can mean the difference between life and death. Obeying stop signs, traffic lights and other traffic control devices is just as important for bicyclists as it is for motorists."

When travelling in the street, bicycle riders should be on the right side near the curb and travel the same way as motor vehicles. When more than one bicycle is involved, it is important to travel single file and never side by side.

Bicyclists never should ride at night unless their bicycles have sufficient reflectors and lights to be easily seen by oncoming motorists.

"Although bicycles are fun to ride, they are not toys," O'Cain noted. "Parents should be sure that their children understand bicycling safety measures, just as adult riders should understand them, and motorists should be particularly cautious when bicycles are on the roadway. Few tragedies can bring about the sadness that comes when a bicyclist, particularly a youthful bicyclist, is killed in a collision with a motor vehicle. Following simple safety rules can avert such tragedies."

## Reward Offered For Information

The Mississippi Trucking Association has authorized a \$10,000 reward for information leading to the arrest and conviction of the person or persons responsible for the death of truck driver, Herbert L. Newsome of Monroe, Louisiana. Mr. Newsome was shot as he drove

his 18-wheel tractor-trailer west on I-20 at U.S. 80 east of Brandon around 8:30 p.m. on Tuesday, June 9, 1994.

Jackie Rogers, President of the Mississippi Trucking Association, announced the unanimous action by the Mississippi Trucking Association Board of Directors. "This appears to be a senseless act perpetrated by a cold blooded killer randomly shooting at truckers," according to Rogers.

Anyone having information about this incident are asked to call the Mississippi Highway Patrol at 601-987-1212 and ask for the Criminal Investigation Bureau, or contact the Rankin County Sheriff's at 601-825-2217.

## Tenn-Tom Closed Between Locks D & E

Strong storms moving across northeast Mississippi Sunday night downed a high voltage TVA power line across the Tenn-Tom at mile marker 403.

"The line is partially submerged in Pool D of the waterway," said E. Patrick Robbins, Chief, Public Affairs, Mobile District. "Power has been cut off, but the line still poses a significant danger to boaters and others using the waterway."

"There were no injuries from the downed line," continued Robbins.

The waterway has been closed between Locks D and E until the line can be removed from Pool D.

Boat ramps at the Beaver Lakes and Walkers Levee areas on Pool D are closed for access until further notice.

"We do not know at this time exactly how long it will take to remove the line and make the area safe," said Robbins. "We will keep area residents, boaters and commercial traffic informed as information becomes available."

## State Image Film To Be Used To Recruit Industry....

A new film depicting the natural beauty, people, and business and industry of Mississippi will help recruit industry and change preconceived ideas about Mississippi which person both inside and outside the state may hold, officials said today.

Harmonies: A Mississippi Overture uses music as the unifying element of the montage of Mississippi scenes. Produced by the Mississippi Department of Economic and Community Development (MDECD) and

Imageworks, a Jackson film and video production company, Harmonies presents the beauty of the Mississippi landscape, the state's diverse business and industrial base, residents in rural and city settings, and the leisurely quality of life enjoyed by Mississippians.

"Harmonies provides a brief glimpse of life and work in Mississippi. Viewers will find in informative, poignant, beautiful, and humorous. This film will help tell Mississippi's story around the world and make every Mississippian proud."

The 24-minute film weaves scenes of the manufacturing of various products with their use in everyday life, from guitars, furniture, and pagers to catfish, wood products, and naval missile cruisers. These industries are set among a backdrop of Mississippi people, landscapes, and events.

Mississippi Educational Television Network will air Harmonies twice during the month of July for statewide audiences. Broadcast times are Saturday, July 16 at 7:30 p.m. and Sunday, July 17 at 5:30 p.m.

MDECD is also developing a teacher instructional booklet to accompany the film, which will be available for Mississippi secondary schools, Heidel said.

### Examine Home Gardens For Tomato Diseases

To many people summer just wouldn't be the same without fresh, homegrown tomatoes. But many diseases can rob home gardeners of their favorite summer treat.

Unfortunately, Mississippi's summer weather often provides a perfect environment for different types of tomato diseases.

Dr. Frank Killebrew, extension plant pathologist at Mississippi State University, said recent overcast and wet weather could cause disease problems for both home and commercial gardeners.

"Home gardens are vulnerable right now since many are in the beginning stages of production," Killebrew said. "Diseases such as early blight, blossom end rot, southern stem blight and spotted wilt virus can strike tomato plants quickly."

Home gardeners have reported cases of both early blight and late blight in tomato plants this year.

Early blight strikes the lower part of the tomato plant and works its way up, defoliating and damaging the stem, and eventually killing the plant.

Late blight, which has not been a problem in Mississippi for more than 20 years, has been reported in seven counties this year. The signs of this fungus are death of foliage, and brown blotches on the fruit which quickly turn black and rot.

"Both late and early blight are most severe during wet, humid conditions," Killebrew said. "We expect late blight problems to disappear with the warmer and drier conditions expected later in the season."

While growers can't control the weather, they can take steps to help prevent these fungi.

"We recommend a good fungicide application program to prevent problems," Killebrew said. "Make sure the fungicide contains either chlorothalonil or maneb -- these are available in many different brands from most garden stores."

A seven to 10 day preventative application while tomato plants are fruiting is recommended to control early blight.

Southern stem blight, another troublesome fungus, thrives when temperatures are in the low 80s and rainfall is frequent. This distinctive white fungus attacks the tomato plant at the base, and in a matter of days, the plant collapses and dies.

Although there are no sprays to control Southern stem blight, there are a few tricks to help avoid it.

"We recommend crop rotation, but that isn't always possible for a home garden," Killebrew said. "One trick to control stem blight in spring and fall gardens is to make a protective aluminum foil covering for the tomato plant's base."

To make the protective covering, wrap foil around the base of the young transplants, leaving about 2 inches of the covering above the soil and inserting about 1 inch into the soil.

In 1992, tomato spotted wilt virus plagued tomato crops throughout Mississippi, but so far the virus has not been a problem this year.

"We thought the virus would be serious this year, but problems have been spotty," Killebrew said. "There are not a lot of control measures for this virus, which is spread by thrips."

One disease that attacks the tomato plant's fruit directly is blossom end rot, caused by a shortage of calcium in the plant's tissues.

"Blossom end rot becomes a problem after long periods of dry weather followed by wet weather," Killebrew said. "Tomato plants need moisture to get enough calcium from the

soil."

The disease, which appears as a black spot at the blossom end of the tomato, can be prevented by watering plants during long periods of dry weather.
