Accusations Not Confirmed

Accusations against a local law enforcement officer which were published in area daily newspapers last week have not been confirmed by state investigators.

Terry Cox, an investigator with the District Attorney's Office, told the Tishomingo County News Tuesday, December 6, that the District Attorney's office and the U.S. Attorney's office believe that any comments concerning an investigation of Tishomingo County Sheriff Johnny Nunley for any misconduct including bribery, are "premature and improper".

Cox further stated that he "could not confirm or deny that an investigation against Nunley is underway."

For several months rumors and accusations have circulated attempting to connect the sheriff with the recent charges of bribery against an auxiliary deputy in Tishomingo County. This newspaper has been told on numerous occasions by the Justice Department that if any further charges were made in the case they would notify the press.

No one other than Larry Wilson, auxiliary deputy, was named in the statement released by the U. S. Attorney's office in September outlining the events surrounding Wilson's involvement in the bribery case.

The policy of this newspaper is to print the facts as they are released from the proper authorities.

Home Economics Tips

EIGHT "GREEN" TIPS FOR
NEW HOME BUILDERS

Here are a few ideas for new home builders or remodelers to consider that will help save the environment by saving energy, saving water, and saving landfill space.

1. Build a recycling center. This could be a bin with compartments under the counter, in the kitchen, in the porch, basement or garage. Put it where it is handy and easy to use so that you will use it. And make it easy to transport the items to wherever they will be collected. Consider a recycling chute from the kitchen to the garage with a small hanged door on the wall between the kitchen and garage.

2. Build an under-the-counter bin for collecting vegetable scraps to put in the compost pile. This will save water and energy by reducing the use of the garbage disposer.

3. Look for energy-savings appliances for your new home. Read the tags on the appliances for the energy efficiency ratings.

4. Buy energy-saving compact fluorescent light bulbs for the light fixtures. These light bulbs fit into fixtures designed for regular incandescent light bulbs but they are actually small fluorescent lamps that use half as much energy as regular light bulbs. Do not be put off by initial high cost—they will save you money in the long run.

5. Consider a programmable thermostat. These thermostats let you preset the temperature

designed for certain times of the day. Because they can be set to automatically reduce the temperature when you are away or asleep and return the temperature to a comfortable level when you are home, they can save you money.

6. Buy bathroom fixtures which use less water. Low-flow shower heads use about half as much heated water as regular shower heads. New low-flush toilet fixtures use only a fraction of the water that a regular toilet uses. Equip faucets with screw-on aerators that slow the flow of water from the faucet.

7. Consider a point-of-use water heater in a half-bath located far from the main water heater. These small units provide a small amount of hot water on demand and eliminate the need for piping hot water from the larger water heater. However, remember to provide a flue for venting exhaust fumes from small gas heaters.

8. Install a clothesline and use it on nice days instead of your clothes dryer.

Warm Up Winter With A Delicious Cranberry-Apple Pie

(NAPS)—On a cold autumn or winter day, there is nothing more comforting than a slice of homemade pie warm from the oven. This recipe for an old-fashioned Cranberry-Apple Pie is a seasonal favorite as it combines the fresh taste of flavorful apples with tart cranberries to create a mouthwatering dessert.

This simple recipe uses Minute® Tapioca to thicken the fruit filling and help maintain the bright crimson color of the berries. Tapioca is a natural thickener and will not affect the true color or flavor of this beautiful dessert. This pie bakes for just an hour and leaves your kitchen with a wonderful home-baked-dessert aroma. What's more, you'll be left with a warm and delicious seasonal treat you'll be proud to serve to friends and family!

Cranberry-Apple Pie
3 cups diced peeled apples
1 cup cranberries
1 1/2 cups sugar
3 tablespoons Minute Tapioca
1/4 teaspoon salt
1 package (15 ounces) refrigerated pie crust
1 tablespoon margarine or butter

Heat oven to 400° F.
Mix fruit, sugar, tapioca and salt in large bowl. Let stand 15 minutes.

Prepare pie crusts as directed on package. Line 9-inch pie plate with 1 of the pie crusts. Fill with fruit mixture. Dot with margarine. Cut second pie crust into 1/2-inch strips. Arrange in lattice design over fruit mixture. Seal and flute edge.

Bake 60 minutes or until juices form bubbles that burst slowly. Cool.

Makes 8 servings.
Note: For a golden top crust, brush pie crust strips with beaten egg before baking.

Minute is a registered trademark of Kraft General Foods, Inc.

Prevent Frozen Pipes

Last winter nearly a quarter-million homes nationally and approximately 36,000 in Mississippi were damaged when water pipes froze and broke, spewing water over walls, floors, furniture and appliances.

With winter fast approaching, State Farm Insurance, the nation's and Mississippi's largest insurer of homes, warned of the potential for frozen pipe damage, pointing out that this is one of the most prevalent yet least recognized catastrophes.

"Aside from hurricanes, frozen pipes rank at the top in terms of both the number of people put through the trauma and inconvenience of having their homes damaged and claim costs," said Lu Mixon of State Farm's Public Affairs Department.

For example, since 1984, State Farm has paid over 300,000 frozen pipes catastrophe claims, 20,355 in Mississippi. This translates into insurance industry claims over that period ap-

proaching 1.5 million.

Last winter, frozen pipes accounted for more than half of the 120,000 winter storm damage claims State Farm paid at a cost of \$240 million. The toll in Mississippi was \$15.5 million. State Farm's most costly frozen pipe catastrophe ever, in 1989, produced 65,000 homeowners claims at a cost of \$184 million, making it the company's seventh costliest of any kind.

"Yet, this is the one kind of catastrophe that people can prevent," Mixon said. "Obviously, you can't do anything to stop a hurricane, a tornado or an earthquake, but most likely you

can keep pipes from freezing."

Here are some tips as to how:

*Leave the heat on and set no lower than 55 degrees. If no one will be home for several days, have someone check the home daily to make sure the heat is on.

*Open cabinet doors under sinks on outside walls to let in warm air.

*Insulate pipes most susceptible to freezing. Typically, these are near outer walls, in crawl spaces and in the attic.

*Disconnect all garden hoses. If there is an indoor valve, shut off and drain the water supply to outdoor faucets.

*If pipes do freeze, don't try to thaw a pipe with an open flame or torch. Be careful of electric shock in areas of standing water.

*Make sure all family members know the location of the home's water shut-off valve. If a pipe bursts, shutting off the water promptly can help minimize damage.

SAFETY FIRST

You Don't Want This Kind of Reception

Many antennas were victims of the recent ice storm. When reinstalling these, be sure to practice good safety measures. Antennas can be hard to handle, so be careful. If an antenna you're installing comes into contact with an electrical line overhead, you'll be off the air, permanently. Make certain that your antenna can't contact any lines nearby; or to be really safe, get professional assistance.

As you go about your task of cleaning-up after the storm, please observe safety. Remember, all lines should be respected and treated as if hot. Do not assume that any electrical wire is without power.

WHAT IS A CATARACT?

A cataract is a clouding of the normally clear and transparent lens of the eye. It is not a tumor or a new growth of skin or tissue over the eye, but a fogging of the lens itself. Normally, the lens of the eye is clear. When a cataract develops, the lens becomes cloudy, not unlike a frosted window.

Located near the front of the eye, the lens focuses light on the retina which is at the back of the eye. Light passes through it to produce a sharp image on the retina. When a cataract forms, the lens can become so opaque and unclear that light cannot be easily transmitted to the retina.

Often, however, a cataract covers only a small part of the lens and, if sight is not greatly impaired, there is no need to remove the cataract. If a large portion of the lens becomes cloudy, sight can be partially or completely lost until the cataract is removed. If you vision is becoming blurred or less sharp, you should arrange for an eye examination.

REPLACING YOUR PET

We've all heard people who have recently lost their pets declare that they'll never get another. In the midst of their grief they can't face the prospect of going through that kind of heartache again. Either that or they feel that no callow young puppy or kitten can possibly replace the old friend they lost—that it would somehow be wrong to even try.

Fortunately, most people get over these initial feelings. For the others, those who would deny themselves the friendship and comfort of another pet, here are some thoughts to consider.

Rather than "insulting" or "tarnishing" the memory of a lost pet by acquiring another, the act itself is the highest compliment. It says that your old friend brought so much pleasure and joy to your life that you cannot imagine living without another such companion. Also, the newcomer does not replace your former pet as much he or she becomes a new friend, bringing new qualities, games, routines to your relationship.

As for the prospect of suffering another loss, you must weigh that against all the love and joy you would otherwise miss.

Thanksgiving Special For Smith Family

Thanksgiving Holidays were "special" this year for Mrs. Edith Smith of Iuka. She had a lot to be thankful for, all of her family together for several days. Her daughter, Peggy Haller, and husband Gary Haller along with their granddaughter, Amber Martin, of Phoenix, Arizona were home for the first time in six years. They were joined by the rest of the family here. They were: Paul and Shirley Gibbs, Danny and Cheryl Gibbs of Mt. Juliet, Tenn.; Paula and Jessica Bailey

of Nashville, Tenn.; Ricky Gibbs of Knoxville, Tenn.; L.W., Gail, Holly and Brandy Smith and Mandy Meeks of Iuka.

Other family members to enjoy the "bountiful" Thanksgiving dinner with them were: Kermit and Ruth Harp of Paden; Betty and Boats Bryson of Belmont.

Mrs. Lois Smith of Tishomingo; Billy and Marie Harp of Iuka with their friend, Cathy Alder, of Seattle, Washington were guest in the afternoon.

Lots of picture taking and "good eating", was enjoyed all day.

Shirley came a few days early to help with the preparation and decorate for Christmas since they wouldn't all get home again at that time. Decorations and lights were beautiful. L.W. and Gail had a hand in that also.

County Agents Notes

By: Danny Owen, County Agent
PROPER DISPOSAL OF
ANTIFREEZE

Antifreeze (ethylene or propylene glycol) used as a freeze protection in water cooled engines is changed periodically because the rust inhibitor breaks down. The basic compound is still present in its original form. It should not be dumped on the ground or left in containers so that pets can consume it. The glycol will crystallize in the kidneys resulting in death of the animal. According to the manufacturer, proper disposal is by flushing with plenty of water into a sewer or septic system. Since antifreeze is biodegradable when diluted, the bacteria in the septic system will break the compound down to harmless carbon, hydrogen and oxygen. Antifreeze

should not be poured into a storm drain, since it may quickly be carried directly into a water supply before it has a chance to break down.

WAIT UNTIL THE PROPER TIME TO PRUNE FRUIT TREES

Generally speaking, the earlier in the dormant season you prune, the earlier the tree tends to flower. Prune blocks that you've had frost problems with last. You may event wait until early bloom to start. Wounds actually heal faster and reduce the chance for pest entrance into the trees. Growers with a small number of trees may want to wait until the threat of frost is over before pruning. Brush removal is important in insect and disease control. Remove the brush and burn it immediately.

LIVESTOCK CHORES

During this time of year, some of the work includes feeding hay

and tending fences. Hopefully our producers have enough hay for this winter. When feeding, buying or selling, it is a good idea to know the quality of the hay. The only way is to take a sample and have it analyzed. Call our office for more information about getting your hay tested.

Most cattlemen want a good outside fence to hold their livestock from the public, but many are choosing to use electric fences to separate cattle inside the main fence. A good place to look and discuss fencing is at trade shows, field day exhibits, and at various cattlemen's functions throughout the year. Electric fences can save time, feed, and money.

The skin is the largest organ of the body, accounting for about 16 percent of total weight.

Letter To The Editor

To The Citizens Of Tishomingo County:

I want to express my appreciation to those of you who have commended me on my letter to the editor that was recently published in the Tishomingo County News. There are more intelligent citizens here than I thought. Many of you have told me that you just don't take the time to express your opinion using the freedom of the press, or you don't know how to put your opinions on paper, or you are afraid that you may make someone mad: if your opinion differs from there's. If that's the case I don't want anything to do with them anyway.

Many of you have brought things to my attention about the matter at hand that I did not realize would be a positive impact on the county such as the part-time employees may have full-time employment at the park and resort with additional employees also being hired. The state and federal government officials neglect this county for the obvious reason if the county doesn't want to help itself why should they appropriate money

here and leave out a county that is willing to do its part. This would make Tishomingo County a "FREE-LOADER" which is the lowest class anything can become.

Here are a few don'ts for those of you who are still too ignorant to realize the true facts and benefits:

Don't complain about the quality of education or the condition of the educational facilities in the county.

Don't complain about the rock crusher road being too rough or narrow each time you meet a truck and almost have an accident.

Don't complain about the traffic on 25 Highway and wishing that it were four-laned.

Don't complain about the paved road in the county being rough and in need of repair.

Don't complain about the gravelled roads in the county being washed away and rough as a washboard or not being able to keep your vehicle clean because of the dust in dry weather and mud in wet weather.

Don't complain about business not being too good due to the lack of sales. The money from the resort and the alcohol tax will be used as matching funds to assist the county in receiving money from the state and federal

government.

There are other counties in Mississippi, many states, and several other countries and continents that you can move to if you don't want Tishomingo County to prosper.

Letter To The Editor

We are writing you this letter today simply because we are concerned with the Health Care people of this area.

On Thursday night, November 24th, Thanksgiving, our Dad was taken to our area hospital - with chest pains - he is one that is or has never been sick so we knew when he asked for help something was wrong.

He was admitted that evening around 7 or 8 p.m. and put in a room with a heart monitor - although the ER Doctor stated (Quote) "All he had was a bad case of indigestion and possibly a gall bladder attack".

Although he was admitted and two IV's were going, he seemed to not be getting any better.

The family was very concerned but we were told the test that was done showed only abnormalities. The ER doctor at that point was upset because we did not think our Dad was getting the care he needed by a physician, so we asked for our Dad to be transferred. The ER doctor became very agitated and called us up to talk to us and told us the best thing for us to do was go home and get some sleep the last thing Daddy needed in his room was a hell-raising family, and for us to come back in the morning. By this time he had his 4th IV, which was blood thinner and nitroglycerin. "Please tell me if all Daddy had was indigestion and gall bladder attack why did he have all these IV's?"

At our request he called ECM and a cardiologist. But it was unreal what he said to him. He told him that all Daddy had was a bad case of indigestion and a gall bladder attack but he wanted him shipped out of his hospital. We were really surprised the cardiologist took Daddy. But he was transferred and the doctor was waiting on him upon arrival - It did not take them 20 minutes to figure out Daddy had a Heart Attack. What if he had stayed at our home town facility? His family doctor was not on call therefore he had to wait til morning to see him. We, the people of Tishomingo County, if we don't start speaking out and taking action against carelessness, who knows what it will cause us in the future! This is supposed to be a place where we can count on getting the care we need.

I was told that me nor my family would have to worry about this ER doctor giving us Health Care again yet he is still employed with this facility. Words cannot explain the attitude of this doctor and the rude way this family was treated. Everywhere you go there is excitement in the air about our new hospital. May we suggest we need something besides dermatologists and trainees in our ER. It is a pitiful shame we have to go out of town to get the Health Care needed.

Thank You Tishomingo County From The March Of Dimes

The Trace Division of the March of Dimes would like to thank all of the area volunteers and supporters of our annual Campaign for Healthier Babies for 1994. The Trace Division came in at \$196,000 raised for the March of Dimes fight against birth defects. There are so many caring people responsible for this success. The March of Dimes would like to say to all who helped that you are truly making a healthier future for Mississippi's babies. One day when your children or grandchildren start their families, there will be even more resources available to help insure a healthy birth.

The March of Dimes focuses on the prevention of birth defects, teen pregnancy, and infant mortality. The two tools used to combat these problems are education and research. The March of Dimes supplies free educational materials to health professionals within the community that promote pre-natal care. An example of a successful research project funded by the March of Dimes is the screening test for PKU. Now all babies born are screened for this disorder which is treatable. If it not treated, it can lead to mental retardation or death.

The Trace Division is making plans for 1995. We need your

help in the upcoming year. For those who are participants and volunteers presently, we look forward to your continued support. To anyone who may be interested in joining the March of Dimes' volunteer family, please call our office - 844-6901.

We also urge all health professionals or educators to call for a free catalog concerning our educational materials. The March of Dimes wants to be a resource to your community!

20th Century Club

The regular monthly meeting of the Iuka 20th Century Club was held on November 10 at the Country Cupboard restaurant. Mildred Hill, president, called the meeting to order.

It was announced the fruit-cakes were in and would sell for \$8 for a 3 lb. cake. Pecans would be in shortly and would sell for \$6 for a 1 lb. shelled package. The pecans would be this year's harvest which meant they were a little later than usual this year.

The Iuka Christmas parade will be held this year on December 1 at 6:00 p.m. The parade will end in Mineral Springs Park. This year the park is to be decorated early in time for the parade. The club voted to again decorate the arch entrance close to the Youth Center.

Again this year, the club voted to honor the best outdoor decorations for Christmas. Judging would be on December 3, 10, 17, and 24. The prize would be a poinsettia plant awarded each week to the winner.

The club again agreed to sponsor two names from the Angel Tree for Christmas.

The club agreed to have some members attend the leadership meeting in Huntsville, AL on Saturday, November 12, 1994. The meeting is being presented by the Zig Ziggler foundation.

The club members again drew names for Christmas. The Christmas social will be held at Nancy Daugherty's home on December 15, at 6:30. Because the Christmas parade is on the regular meeting night of December 1, it was decided to hold the next regular meeting on December 8.

Zenobia Oaks gave an inspirational program on leadership. Since good leaders have to have good followers, the job of

Constitution Week, September 17-23, was celebrated by the U.S. History students at Tishomingo County High School. Daily activities were planned to make this an educational and exciting week. One activity included donating money to help renovate Constitution Hall in Washington, D.C. The students collected \$50.00 to contribute to this worthy cause. Mrs. Mildred Hill and Ms. Marquerite Nixon, members of the Chief Tishomingo Chapter, Daughters of the American Revolution, accepted this money on behalf of the national organization. Arrabelle Jourdan, hostess, helped serve the desert plate. The white elephant was won by Willadean Thorne. The following members were present: Mildred Hill, Zenobia Oaks, Jewel Kitchens, Geraldine McGill, Arrabelle Jourdan, Joy Kitchens, Nancy Daugherty, Willadean Thorne, Fredda Sanderson, Judy Vaughn and Nancy Beard.

Jr. Auxiliary Meeting Changed

The Tishomingo County Junior Auxiliary's monthly meeting has been changed to December 12 in order to organize the Angel Tree gifts. The meeting will be held at the Old Courthouse at 6:30 p.m.

Large Crowd Attends Opening Of Iuka Hospital

The newly completed Iuka Hospital, 1711 Curtis Drive, was overflowing with enthusiastic visitors Sunday, December 4, during the facility's open house, despite the dismal weather.

About 600 visitors attended the grand opening festivities that lasted from 2 to 4 p.m. at the modern \$8.7 million health care complex. Among the areas toured by guests were a fully-equipped surgical suite and office space for surgeon Adel Abdel-Hafiz, M.D., areas dedicated to physical therapy, respiratory therapy, educational services, a convenient and expanded emergency services area, large lab, pharmacy, a food court which will be open to the public, 40 private hospital rooms and an eight-bed Intensive Care Unit [ICU].

North Mississippi Health Services Interim Chief Executive Officer Gerald D. Wages said the Iuka Hospital is one of the only new health care facilities that has been built in these times when health care is seeing a decline in many areas.

Even with the vast improvements of the new hospital there are mixed emotions among hospital staff members and physicians about the move from the old facility which opened 35 years ago in January of 1959. Dr. Kelly Segars, medical staff chairman told the audience that last Monday morning he realized he was pulling into his parking space for the last time at the old hospital - the same one he had been parking in since he became a member of the medical staff there in 1960. He expressed that the employees will help the new hospital have the same atmosphere as the old facility, even though the surroundings will be different.

After touring the facility, visitors were making lots of positive remarks concerning the new building's contemporary design, decorating and additional services.

The new hospital will be fully operational by today, December 8. The old facility will be converted completely into a nursing home by a private company.

Sardis Church News

By: Mrs. Ova Reno

Copied from the Belmont Tri-County News of March 22, 1937. West Belmont: Miss Helen Payne has returned home after an extended visit with friends near Baldwin.

Central Truth of our first Sunday School lesson for this quarter. Jesus' example of service is our pattern. Central Truth of the lesson: Like Jesus you teach by what you say and what you do. Text: John 13:3, 4, 12-17. Also 1st Corinthians 9:19-23. Jesus teaches His disciples a lesson in humbleness by washing their feet, and Paul tells us what we should do toward sinners to gain them for Christ.

Devotional: Passing on the Truth: 2nd Timothy 2:2. And the things that thou hast heard of me among witnesses, the same commit thou to faithful men, who shall be able to teach others also.

Subject of Bro. John's sermon Sunday morning was: "What is Jesus to you today--What does He mean to you?" What did He mean to Mary, Martha and Lazarus? Please read. Text: John 11:1-36.

Title of Bro. John's sermon Sunday night was: "Things God has done, what has He done for you?" Text: 1st Corinthians 2:1-10. Also read Isaiah 64:4, to go with verse 9. But as it is written,

eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love Him. Isn't that something?

Our sympathy goes to the Parrish Family of Tishomingo in the loss of their loved one and to the Bro. Coleman Bumpus family of Iuka route. Bro. Bumpus helped us do a lot of carpentry work at Sardis Church. We will never forget him. May God bless you all.

Phelma Stockton was too ill to attend Church Sunday and Sunday night. Help us pray she will soon be well. Sis. Burton Stockton also needs our prayers as she was sick Sunday night and couldn't attend church.

Seven members of Sardis Church attended the funeral of Bro. Coleman Bumpas at Cutshall Funeral Home in Iuka Sunday afternoon.

Christmas Party

Tishomingo County Fine Arts Guild will have their Christmas party Saturday, December 10th at the Key West Inn at 2:00 p.m. to 4:00 p.m. Members bring a small gift and something for refreshment. Also bring a guest with you.

There will be no monthly meeting this Thursday, but be sure and come to the party. Call 427-8286 or 423-6768 for information.

Special Christmas Services Monday

Everyone is invited to attend a special Christmas week service at the historic Episcopal Church of Our Savior on Eastport Street in Iuka at 5:00 p.m. on Monday, December 19, 1994.

Tishomingo FCE Club's November Meeting

The Tishomingo Family and Community Education Club met at the home of Ms. Eva Mae Strickland on Tuesday night, November 15.

The president, Mrs. Johnnie Strickland, called the meeting to order, and Ms. Stephanie McNutt read the thought of the month: "Feed your faith, and your doubts will starve to death."

Ms. Katie Strickland led the group in the pledge to the flag.

Ms. Shirley Thorne gave a good devotion using as her scripture Psalm 100 and then read a poem, "I Thank Him", followed by a prayer.

Shirley read the minutes of the previous meeting, and Johnnie gave the financial report.

Club members were thrilled that our Christmas tree won first place at the Holiday House at the Midway School Building on November 4 and 5.

Tentative plans were made for the club to take the students from Timber Hills out to eat during the month of December.

Everyone enjoyed seeing an interesting film on "Food Safety". Between 1 and 3 million cases of food poisoning occur in the United States each year. Salmonella is a form of bacteria that can cause illness and is fatal in about 1 out of every 100 cases. To be reasonably sure that chicken and turkey meat is free of dangerous bacteria, use a thermometer and cook at 165 degrees, as most harmful germs are killed at this temperature.

Our next meeting, which everyone is looking forward to, will be the club's Christmas party

at the Dennis Restaurant on December 9 when secret pals will be revealed.

The meeting was adjourned with Katie and Stephanie reading the NAFCE creed.

A potluck meal was enjoyed by everyone, and Ms. Louise Puckett was the lucky winner of the door prize.

Others present, not already mentioned, were Mrs. Willard Strickland, Ms. Michelle Strickland, and Mrs. Gail Strickland. We were proud to have Mrs. Opaline Crouse and Ms. Louise Puckett visiting with

us, and we were even prouder when Louise decided to join the club. Welcome to the club, Louise. We were also proud to have two "little homemakers" visiting with us, and we were even prouder when Louise decided to join the club. Welcome to the club, Louise. We were also proud to have two "little homemakers" visiting with us, Ms. Stephanie McNutt and Ms. Katie Strickland.

Deputy Visits Headstart Center

The Iuka Headstart had a special guest on Monday, December 5, 1994 during the study of Community Helpers.

Deputy Sheriff Tommy Rolliugh, of the Iuka Police Department, came to the Center and discussed the importance of not talking to or taking candy

from strangers, not using drugs or alcohol, and only dialing 911 in a true emergency - not just for fun!

Mr. Rolliugh allowed the children to sit in his patrol car and run the siren and lights. Mr. Rolliugh also described items he carries with him at all times; his radio, MACE, handcuffs, gun, and beeper. He demonstrated how a policeman handcuffs

someone on Scott Jarrett of Unit II. Mr. Rolliugh stressed that Policemen are your friends and there to help you when needed. The children loved his visit and asked him to return soon!

Teachers are Unit I Barbara McGaha, Nellie Bugg; Unit II Villa Ledgewood, Janette Morgan and Unit III, Susan Barrett and Mary Wright.

Tishomingo Celebration Successful Despite Rain

The rain fell to dampen the Christmas spirit as the citizens of Tishomingo came out in spite of the weather to sing carols, visit with merchants and register for gifts, drink hot chocolate, and have the children's pictures made with Santa. Activities originally scheduled for the walking track area at First American Bank were moved under the awnings along main street and inside businesses. Although sponsored by the Tishomingo Chamber of Commerce, this was truly a community effort. Tishomingo Elementary School students decorated Christmas trees, one for each grade, placed along the bank walking track. The Tishomingo County Vo-Tech students constructed lighted Christmas Tree decorations on the street and helped put up and light the live trees. Tishomingo Grain Elevator carried lighting to its height with a tree high above

town. The banks and several businesses provided refreshments. Church choirs from the Tishomingo Church of Christ, Forest Grove Baptist, Tishomingo Baptist, Tishomingo Methodist and Carter's Branch Baptist provided Christmas music throughout the night. Heil Company contributed \$100 for the Grand Prize drawing and Sunflower added a whole ham. Each Merchant held store drawings as well. The winners in the home lighting competition were Aaron Thomas and Steve and Cora Taylor.

The Chamber of Commerce also expressed appreciation to the Volunteer Fire Department members who cleaned the streets in preparation for the night. The night was truly a celebration of community reflecting the love and good wishes of the season.

Facts About The BIBLE BY JOHN LEHTI

MONEY IS THE ROOT OF ALL EVIL—WRONG!

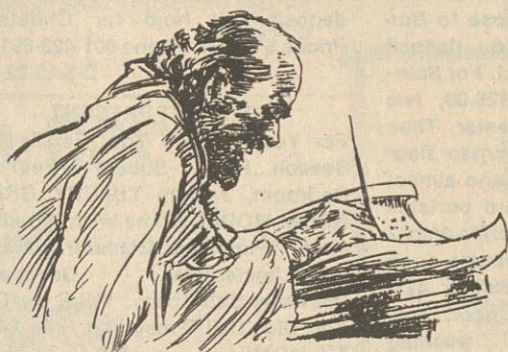

HOW MANY TIMES HAVE WE HEARD THIS SAID AND ACCEPTED IT WITH NO FURTHER THOUGHT? HOW MANY TIMES HAVE WE SEEN IT HANGING AS A MOTTO ON A WALL OR OVERHEARD A GRANDFATHER INTONE IT SAGELY TO SOME YOUNGSTER? HUNDREDS UPON HUNDREDS OF TIMES—AFTER ALL, IT'S STRAIGHT OUT OF THE BIBLE, RIGHT? BUT FEW OF US HAVE EVER REALIZED IT'S A BLATANT MISQUOTE!

THIS SAYING IS FOUND IN ONE PLACE, AND IN ONE PLACE ONLY, IN THE ENTIRE BIBLE! PAUL THE APOSTLE WROTE IT IN HIS FIRST LETTER TO TIMOTHY THE YOUNG EVANGELIST WHO WAS A DEVOTED FOLLOWER OF PAUL. IT CAN BE FOUND IN 1 TIMOTHY, CHAPTER 6, VERSE 10. PAUL WROTE, FROM LAODICEA, THE FOLLOWING "THE LOVE OF MONEY IS THE ROOT OF ALL EVIL..."

IN OTHER WORDS, PAUL WAS ADVISING YOUNG TIMOTHY THAT NOT MONEY ITSELF, BUT MAN'S INNATE GREED OR DESIRE FOR IT, WAS THE REAL TROUBLE-MAKER, THE REAL "ROOT OF ALL EVIL"—HIS FURTHER ADVICE WAS TO FOREGO THE PURSUIT OF GREAT WEALTH AND LUXURY AND RATHER BEND ALL EFFORTS TOWARDS A SEARCH FOR WISDOM AND A PURER LIFE DEDICATED TO GOD.

NEXT WEEK: BIBLES, BIBLES, AND MORE BIBLES! ALSO A BIG SURPRISE!!

THIS DEVOTIONAL & DIRECTORY IS MADE POSSIBLE BY THESE BUSINESSES WHO ENCOURAGE ALL OF US TO ATTEND WORSHIP SERVICES.

Mammography Unit Travels To Area

North Mississippi Medical Center's Mobile Mammography Unit will be located at various locations during December to provide women with convenient access to mammography services.

The Mobile Mammography

Unit will be at the following locations: Dec. 5-7 Golden Family Medical Clinic, 74 Red Bay Road; Dec. 8-9 Iuka Hospital, 1777 Curtis Drive; Dec. 12-14 Saltillo Family Medical Clinic 353 Mobile Street; Dec. 15-16 Baldwin Family Medical Clinic 745 Highway 45 South; Dec. 19-23 Iuka Hospital 1777 Curtis Drive.

Two types of mammograms are available. A screening mammogram is used to detect breast cancer, and oftentimes the test detects cancer long before it can be found by physician examination or other methods of diagnosis. Screening mammograms are available through self referral. Diagnostic mam-

mograms can rule out or confirm the presence of breast disease abnormalities, which may lead to cancer.

The cost of a screening mammogram is \$65. The results of a mammogram are read by a radiologist, who specializes in interpreting x-ray, ultrasound and other imaging studies.

Appointments for all mammography services are scheduled in advance. To schedule a screening mammogram, call (601)841-4158 or 1-800-DESK (1-800-843-3375). Appointments for diagnostic mammograms are scheduled with a woman's physician.
