### Break-Ins At Three Local Medical Clinics, One Suspect Arrested

By: Angela Lambert

One suspect has been arrested and charged in the May 12th break-ins at three different medical clinics in Iuka, according to Iuka Police Chief Amos Bates.

Bates said the suspect, whose name he is withholding pending further investigation, broke into the offices of Podiatrist Dr. Ricky Bullard and Dr. Mounzer Soued of the Iuka Gastroenterology and Internal Medicine Clinic, both located in the Medical Arts Building, located on Kaki Street in Iuka.

The office of Dr. Ben Kitchens and Dr. Al Flannery, at the Iuka Family Clinic, also located on Kaki Street, was also broken into.

Taken from the offices were several items used in their practices, office equipment and a large amount of drug samples.

Also taken from the Iuka Family Clinic was a collection of Civil War relics.

Stolen Drugs

Police Officer Randy Stringer confirmed that most all of the stolen items had been recovered and returned to the physicians.

Bates said he would like to thank the concerned citizens who were able to give the police department information which pointed them in the right direction to be able to make the arrest. A special thank you also goes to Tishomingo County Investigator Steve Vatalaro for his assistance in the case.

At press time, the suspect, who is from the Iuka area, had been released on a \$20,000 bond.

### Maxwell Found Guilty, Sentenced To Death In Electric Chair In Pugh Case

By: Angela Lambert

Michael Craig Maxwell, 26, of Russellville, Ala. was sentenced to death in the electric chair for his part in the murders of Harold Pugh and his 11-year-old son Joey, a jury decided Thursday, May 14.

The jury in Jefferson County Alabama took less than two hours of deliberation Wednesday, May 13, before coming back with a guilty verdict. Then Thursday, the jurors took only an hour and a half to sentence Maxwell to death for the crimes. In Alabama, that means death in the electric chair.

This verdict comes approximately 10 months after the discovery of the bodies of the Pughs were found in the Tennessee River dead from gunshot wounds to the head.

Maxwell was the first of the suspects to be tried for the murder of the Pughs. Thomas Dale Ferguson is scheduled to go to trial in June in Mobile, Ala.

According to a statement by Maxwell, the vehicle of Harold

Pugh was needed to use in a bank robbery in Belmont. He said that Mark Moore, one of the other men involved in the bank robbery scheme, had ordered him and Thomas Dale Ferguson, Kino Graham and Donald Ray Risley to get a vehicle to use in the robbery and there should be no witnesses.

The group of men then approached Harold Pugh and his son as they were pulling in their boat in at the Cane Creek boat ramp. The men then allegedly took the Pughs up the river where Maxwell and Ferguson reportedly shot them in the head and dumped their bodies into the water, Maxwell's statement confirmed.

The stolen truck was used as a getaway vehicle during the robbery of Deposit Guaranty Bank in Belmont the next day. It was later found burned in a rural area outside of Belmont.

An appeal will be made in the case, according to Defense Attorney Ben Gardner.

### One Arrested On Drug Charges Following Domestic Disturbance

By: Angela Lambert

A disturbance at a home in Iuka Monday night has led to the arrest of one suspect on drug charges and charges of family disturbance.

Floyd Williams, 46, of Gaylon Drive in Iuka, remained in custody at press time and no bond had been set, according to Tishomingo County Sheriff David Smith.

Smith explained that the City of Iuka received a 911 call Monday night and City Police Officers Anita Mitchell and Chuck Dean were dispatched to the home of Williams. The Sheriff went on to explain that the officers called the county for back up because of what appeared to be a volatile domestic situation.

"When we arrived, Williams had a female subject around the neck out in the carport area and we could not determine if maybe he might have a gun in his hand,"

Smith said. "He pulled her into the kitchen of the house and I went in after him. Once inside, he reached beside the microwave and pulled out what we believe to be 4 to 5 rocks of crack [a form of cocaine]."

Smith said he grabbed the suspect and tried to bring him to the ground. When he would not cooperate, Smith was aided by the Iuka officers and Tishomingo County Deputies Rodney Pannell and Bobby Flynt.

Williams was charged with possession of cocaine with intent to distribute—over a gram and family disturbance.

Also arrested at the residence on charges of public drunkenness was Sissy Taylor, 37. Taylor was apparently behind the house at the time of the disturbance, according to Smith.

Confiscated at the time of the arrest was two pistols and a shotgun, Smith said.

That transition was commemorated for the eighth grade students at Burnsville Middle School on Sunday, May 17, with a tea, sponsored by the Education Committee of the Burnsville Area Chamber of Commerce.

"I'm here to tell you, our future is in very good hands," Smith said.

Later in the program, several awards were given to eighth grade students by their teachers.

Other entertainment was provided by the eighth grade band under the direction of band director Chris Holmes.

## Your Dental Health

### A More Relaxed Dental Visit

If you get nervous about having dental treatment, you're not alone. An estimated 35 million adults experience anxiety at the thought of a dental visit. But you can be an active participant in making your dental care pleasant and pain-free.

- Share your feelings with us. By bringing your fears out in the open, you will gain control of them. This should help you to relax.
- Set aside a stress-free time for your dental visit, when you won't be rushed or troubled by concerns. A Saturday or early morning appointment may be less stressful than hurrying to see the dentist on your lunch hour or after work.
- Try to identify specific fears. Uncomfortable childhood experiences or the fear of pain are understandable, yet they are often unrealistic given the modern, pain-free techniques now used in dentistry.
- During the dental visit, practice relaxation techniques to take your mind off of the treatment and to reduce tension. Focus on pleasant distractions such as soft music, a colorful poster, or practice deep slow breathing.
- Ask us to explain each step of the dental exam or procedure. The more you know about the reasons for a certain procedure and what will be done, the more relaxed you will be.
- Get a good night's sleep and eat a light breakfast the day of your appointment. To allow easier body movement, wear loose, comfortable clothes.
- Schedule short appointments by having different procedures done on different days, if possible. Also, arrange a break from lengthy procedures done on different days, if possible. Also, arrange a break from lengthy procedures now and then. If you are feeling any discomfort, you can signal the dentist to stop with a prearranged signal.
- Once the dental visit is over, praise yourself for a job well done, and treat yourself to a special reward.

## The Three Wishes

by Jennifer Marie Jones  
(Burnsville Middle School)

Once upon a time in Africa, there lived a poor farmer and his family. The farmer lived with his family in a shack in a very remote area.

The farmer worked hard to provide for his family, but it wasn't enough for him, his wife, and his three children. Most nights they went to bed hungry. The children couldn't go to school or learn how to read or write. They were lucky to have hand-me-down clothes and no shoes. The man had one horse he would use to ride to the market where he would trade crops for money. With this money the farmer bought food for him and his family, but it was barely enough.

When the farmer was

returning home one evening from the market, he passed by the home of a wealthy family. He saw garbage on his trail and dug through it trying to find things his family could use. He found a dusty old lamp which he carried home for the children to play with.

When the children started to rub off the dust, an eerie sound became louder and louder. Music was coming from the lamp and all different colors of smoke. Out of the smoke appeared a beautiful woman with fancy clothes that were decorated with gold.

The woman said, "You get three wishes. What would you like for your first wish and I will grant it." The family couldn't agree on what they wanted, so they finally agreed the children would get one wish, the farmer would get one wish, and the mother would get one wish.

The farmer said, "I will go first." He said, "I would like enough gold to buy a nice house and have plenty of food for my family." The ground started to rumble and fifty big sacks of gold appeared. The farmer went to town the next day and bought a nice house with electricity, running water, and a bathroom.

He carried his family to see

the house the next day. It was a long trip for the barefoot children. When they arrived all the family was amazed. The children spent the rest of the day turning on and off lights, water, and flushing the commode. They had never seen anything like this in their young lives. Their father and mother knew such things existed, but had never had them for themselves.

The farmer still had money left. He carried the family to market. The children and their mother had never seen so many people before. They were embarrassed when they saw the other people weren't dressed rags and had on shoes. The father spent the rest of his money on clothes and shoes for his family and himself.

When they returned home they had plenty of clothes, but no food or furnishings in their house. The mother and children were anxious to use their wishes, so the mother said it is my turn now. She wished for furniture and food for the family. The food and furniture immediately appeared. The family feasted for days.

Now the family was broke again and had no food. It was time for the children's wish. The children wanted toys for themselves but weren't greedy. They decided to make a wish that would help the whole family forever. They wished for everlasting food and money. This was the best wish yet. The Genie said, "Every time you get hungry food will appear, and every time you are broke money will appear."

When the family awoke the next morning, they had food and money on the table. The parents

said, "we are going to enroll you children in school." The children were very pleased with the idea. They went shopping for school supplies, and when they arrived at school they were the best dressed kids there.

The other children at school begin to talk. So did the other people in town. They wondered why such poor people could become so wealthy in just one week. Family did not tell of the Genie.

The children had heard of school before, but had never been there. They were so happy to be able to go that they decided to be the best students there. And they were. They were such good students that they all went to college and became doctors so they could go to the remote areas and help other children who lived as they used to and did not receive medical help.

The children again proved they were not greedy by donating their time to other people.

The whole family lived happily ever after.

## Notice Of Change In Collections Of Past Due Accounts For TCEPA

Tishomingo County Electric's policy has always been to grant, subject to management approval, occasional extensions of time to pay electric bills. Unfortunately, a number of individual consumers have abused this privilege and caused additional collection efforts and created chronic past due balances.

This abuse has caused the board of directors to establish a more rigid collection policy for past due balances:

1. Approximately 3 to 4 days after the due date of the bill, a past due notice will be mailed to the customer at the same address as stated on the bill. This past due notice will give a date after which service will be terminated. No additional notice will be given.

2. TCEPA's collector will be required to terminate service if the account has a past due balance when he arrives unless the total past due balance is paid to him.

3. Customers who have not received an extension of time to

pay within the preceding twelve (12) calendar months may be granted an extension subject to management approval. No more than one extension will be granted in any twelve month period.

4. This policy becomes effective April 3, 1998. All past due balances must be paid by this date.

5. Collections will continue in March under existing policy.

TCEPA provides the following payment options:

1. An automatic draft service for customers who wish to pay electric bills without the worry of missing due dates.

2. Level payment plan for customers with approved credit history.

3. Due date change to the 5th of the month for customers on Social Security or once-a-month retirement benefits with approved credit history.

4. Drop box payment receptacles at the Iuka office and Belmont City Hall.

### Watch For Striped Beetles In Gardens And Fields

I have gotten several calls about beetles completely destroying some gardens and truck patches. They are the striped cucumber beetle but they will readily feed on any cucurbit plant. The larval stage of this insect is the corn root worm, so you will also find them feeding on corn plants, although you probably won't see as much damage on corn. These in question were eating squash, cantaloupe, and watermelon. There would be hundreds of these beetles on one or two plants. Needless to say, these plants won't survive long! On the good side, these beetles shouldn't be hard to control. Sevin dust or liquid Sevin should do a good job. Just make sure that you keep a close watch on your garden.

### Fungus-Free Fescue

You may have heard many things concerning fungus-free fescue. Fungus-free fescue will not take the abuse as will the old fungus infected fescue. However, cattle will not abuse the old fescue as they will the fungus-free. They will overgraze the fungus-free rapidly so make sure to leave 3 to 4 inches of growing leaf material and don't let them graze it to the ground. Try to grow the fungus-free fescue in separate pastures and put cattle on warm-season pasture during the hot, dry

periods of summer and keep mind that fescue is a cool season grass.

### Guidelines For Marketing Forest Products

1) Follow a marketing procedure, don't merely sell timber. 2) Become knowledgeable about local market conditions, measurement units, and prices. Get professional forestry help preparing for a timber sale. Know how much timber you have and where it is located. 5) "On the stump" until market conditions and prices are satisfactory. 6) Get the best possible price. 7) Improve condition of your timberland with the harvest. 8) Maintain records for your timber account all sale activities and costs. Coordinate the efforts of a forester and an attorney in drafting a timber sale agreement or contract. 10) Check your tax situation before you make a timber sale. For more detailed information on these steps, contact the Extension Office at 423-7016.

### Last Area Pesticide Disposal Day

There will be a pesticide disposal day Thursday, May 28th from 8:00 a.m. to 2:00 p.m. at the Tippah County Fairgrounds in Ripley. This will be the last one held in the area. There will be no fees charged for disposing of these pesticides. In the future, there will probably be a substantial cost. If you have questions, please don't hesitate to call me.

### Flea Control

Flea infestation takes place in three places, on the pet, in the home and in the yard. To effectively control the situation, you have to be treated, the pet, the home and the yard.

The easiest way to control the flea is to understand how fleas work. The flea's strength comes from its numbers. Female fleas lay thousands of eggs in their life cycle. Female fleas can grow to an adult in 30 days. This is why heavy infestations can seem overwhelming.

The flea has four distinct life stages: Adult, Egg, Larvae, and Pupa. Here is what happens - the adult lays thousands of eggs on the pet or in the yard. The eggs then hatch to the larvae stage, at this stage they appear to be small and worm-like, they feed on flea feces and debris. At this point they then encase themselves in a cocoon. They make from hair, carpet fiber, etc...in this pupae stage they wait until emerging as an adult, and the cycle starts again.

The flea's weakness is in the way they reproduce, they always take a blood-meal from the animal, the eggs then fall to the carpet or floor as the animal moves about.

There are any number of products that will do a satisfactory job of killing the adult flea, however, research has shown a typical infestation breaks down as follows: adults 1%, eggs 34%, larvae 57% and pupae 8%. So you can see that the use of these products ignore 99% of the infestation.

We recommend products that not only kill the adult fleas, but also kill the pre-adult stages so they never become adult biting fleas.

We use products in the home and on the animal that contain a growth hormone, it speeds up the biological progression, causing the pre-adult. This activity is available in the Ovitrol flea egg collar. This collar continuously applies precor to the animal so that no flea egg laid on this animal for 120 days will ever hatch.

We will be happy to discuss total control of fleas on the pet, the home, and in the yard, and the products we recommend. We will give you a sheet on each product with our recommendations for their use.

## Waste Pesticide Program Scheduled For Thursday, May 28th....

Farmers and others in Tishomingo County who have waste pesticides on hand are urged to take part in a waste pesticide disposal program on Thursday, May 28.

The one-time program offers farmers, chemical dealers, and others a no-cost, environmentally safe way to dispose of these products through a licensed contractor, according to Tishomingo County Agent Danny Owen who is coordinating the program locally.

To take part, those with waste pesticides should bring their products directly to the collection site from 8 a.m. to 2 p.m. The program will be held on Thursday, May 28, only and will not be repeated in the immediate area, Mr. Owen said.

Danny Owen said there is no

charge to take part in the program, but participants are responsible for safely transporting waste pesticides to the collection site in Ripley at the Tishomingo County Fairgrounds. Only waste pesticides will be accepted at the collection site. Empty pesticide containers and products other than pesticides are not eligible for the program.

A licensed hazardous waste contractor at the collection site will collect, analyze, and dispose of the products out of state according to environmental laws.

Waste pesticides include leftover, cancelled, suspended, or otherwise unusable pesticide products. Pesticides include: insecticides, herbicides, fungicides, and plant growth regulators.

The collection programs

## New Arrival In Brown Home

coordinated by the Mississippi Department of Agriculture and Commerce, with assistance from the Mississippi Cooperative Extension Service, Farm Bureau, and other agencies. Funds to support the program are paid through pesticide registration fees.

According to Danny Owen, the local collection is one of six held across the state in May and June. No other events will be held in connection with the program.

Mr. Owen emphasized that those with waste pesticides should plan to take advantage of the free service, since it will be their last opportunity to do so.

"Anyone with waste pesticides should make every effort to bring them in on Thursday, May 28, because this opportunity will not be coming our way again," he said.

For more information, contact Danny Owen at 423-7016.

## FLASHPOINT

### A WEEKLY LOOK AT THE IUKA FIRE DEPARTMENT

The Iuka Fire Department has chosen a site in Mineral Springs Park for its first Heritage Day exhibit. The department will be set up under the trees on the west side of the park near the yellow swings. The exhibit will include Fire Engine #1, the big red-and-white E-1 truck that is always a hit with the kids. Also on display will be the various pieces of equipment firefighters use on the job. Fire department personnel will be on hand to answer questions and assist children in touring the fire truck. Another activity for the kids will be the chance to put out a fake fire using an actual fire hose.

One of the most important aims of the department's participation in this year's Heritage Day is to educate people about fire safety and prevention. The department is making available to the public free pamphlets detailing ways to practice fire safety and advice on how to prevent fires. Child and invalid window stickers for the home will be available as well.

The exhibit will be a fun experience for the entire family with something of interest to people of all ages. Not only will there be the opportunity to learn

something new, but the kids will leave with helium-filled balloons and stick-on firefighter badges. The day promises to be one filled with good things, and the Iuka Fire Department wants to be a part of yours. Come by and see us in Mineral Springs Park on Heritage Day, June 6.

## Old Tishomingo Traces

By: June Bullard

My great-grandfather William Henry Bullard and his wife Rebecca Billings were the parents of thirteen children. Their ninth child was Thomas Henry Bullard born 15 December 1864 in Tishomingo County. Uncle Tom married his first wife Susie Tackett (born 16 April 1868) on 21 March 1889. They had twelve children: Julia, Thomas W., Dewey, Alva Lee, Birdie, Bertha, Florence, Walter, Ed, Owen, Mattie and Luther.

One of Tom's brothers was John B. "Dock" Bullard. First, Uncle Dock married Wheeler Ann Walker and they had four children: Laura, Jenny, Floyd Austin, and Doskie. Aunt Wheeler Ann died in 1898, and Uncle Dock married secondly Bette Tigner. Uncle Dock and Aunt Bette had six children: Pony, Charlie, Bill, Wesley, George and Gola. Aunt Susie Tackett Bullard and Uncle Dock Bullard both died in April 1916. These untimely deaths left Tom with approximately ten motherless children as two had died in childhood, and Bette with ten fatherless children, four step-children and six of her own.

Six months later in October 1916, Uncle Tom and Aunt Bette decided to marry so their twenty children would have a complete set of parents. Tom and Bette had one daughter Lessie. Lessie married Doug Mansel. They always attended the Bullard Family Reunions. Lessie would jokingly say that she had more brothers and sisters than anyone else in Tishomingo County. All of the 21 children got along well and loved each other as full brothers and sisters. The lone survivor of this large family is Owen Bullard, age 94, who lives near Iuka in the Pleasant Hill Community.

As with most large families, kinfolk would come together, sit around large dinner tables and tell jokes and tales about each other. This family was no exception. I composed the following poem about one of the

tales I had heard repeatedly since childhood. I cannot swear to the truthfulness of it, but Owen told me he also had heard something about this incident. I entitled the poem, "Haint in the Tater Patch." (My apologies to the real poets of the world.)

*There's a story about Uncle Tom and Aunt Bette,  
As fine a couple as could be found,  
Yet,*

*They lived before indoor plumbing  
was even a wish.*

*For privacy they had to "go" behind  
a bush.*

*Tom was a good man, but afraid of the  
dark.*

*So he kept a dog that would bark  
At all strangers, sinners or saints,*

*Because, like most Bullards, Tom was  
afraid of haints.*

*It was a dark, still night to help set the  
scene.*

*All day Bette had peeled apples, some  
were green.*

*Their farmhouse was shrouded in a  
dense fog.*

*Off in the distance the grunt of a hog.  
They had gone to bed for the night.*

*Bette was dressed in a flannel gown of  
white.*

*In her stomach she got a severe  
cramp.*

*She said, "Tom, git up and light the  
lamp!"*

*Tom reached for his overalls and took  
out a match.*

*And struck it on the headboard with a  
scratch.*

*Bette jumped out of bed telling Tom to  
hurry.*

*Outside it was very dark and scary.*

*Tom said, "Bette, can't it wait 'til  
mornin'?"*

*She yelled, "Tom, I'm givin' you  
warnin'!"*

*He ran to the kitchen to grab a stick  
For protection, and he was very quick.*

*While Tom went to the kitchen, Bette  
went into the night.*

*Mother Nature's urgent call overrode  
her fright.*

*By the garden she was doing her  
"job" in a half-squat.*

*Tom came to the door her figure he  
did spot.*

*Tom craned his neck and peered  
through the screen.*

*The crouching pale figure looked  
mighty mean.*

*"Bette, thar's a haint over by the tater  
patch!"*

*He called out as he slammed the door  
and put up the latch*

*Being outside Bette was scared out of  
her wits.*

*Inside Tom was nearly having fits.*

*Bette jerked up her bloomers, her  
"job" about done*

*And to the door she made a frantic  
run.*

*She beat on the door and began to  
yell.*

*Tom thought she was a devil from  
hell.*

*Bette didn't know she was the haint  
Tom had seen.*

*She thought a monster was chasing  
her, looking mean.*

*Bette screamed like a wild cat, then  
began to cry.*

*"Tom, let me in before I die!"*

*Finally, he recognized his wife's  
voice.*

*He jerked the door open, he had no  
choice.*

*Tom seeing Bette, realized what he  
had done.*

*To save face he said he was having  
some fun.*

*Bette wasn't amused by his nasty  
trick.*

*She said, "Tom, stoop over 'n I'll give  
you a kick!"*

### Courtney's Community Chats By Courtney Compton

Some men see things as they are and say why. I dream things and say why not. Mr. Steve Van Matre wrote this saying I recently stumbled upon. Everytime I read it I'm reminded of a child's compassionate innocence. Through the eyes of a child we are given hope to believe in anything our hearts desires. A child's attitude is usually positive. That optimism eventually rubs off on everyone it touches. Even when things don't turn out the way they should a simple word from a child makes everything a little better.

An adult can still be a kid at heart just by laughing a lot more and smiling a whole lot. When we forget about our childhood and stop looking through innocent eyes we never get to see just what the world has to offer. So don't see things as they are and say why! Remind yourself of the child within who dreams things and always says why not! P.S. Special hello to my little pal Courtney and all the good sports who recently participated in the Potato Bowl so professionally.

### Parents, Teachers, Staff Members and Taxpayers:

The Tishomingo County School Board meets the second and fourth Monday of each month at the Central office (unless otherwise announced), beginning at 5:30 p.m.

The next meeting of the School Board will be held off-site at Burnsville School starting at 5:30 p.m.

All of these meetings are open to the public. If you have an interest in the schools and students—and in how the decisions are made that affect them—take time to attend these meetings. If you are unable to attend, keep in touch with the school board member elected from your district.

If you would like to bring concerns or comments before the Board of Education, keep in mind that a newly adopted rule states that if a group or individual wishes to address the board, they must first contact the Central Office by Wednesday of the week before the meeting. Also, a spokesperson for all groups must be designated.

To clean asphalt tile, damp-mop for day-to-day cleaning. Don't use solvent-based wax; the solvent can soften the tile.

## Sardis Church News

By: Ova Reno

Children need love, especially when they do not deserve it. (Harold S. Hulbert) Luke 6:36. Be ye therefore merciful, as your Father also is merciful. Central Truth of Lesson. Forgive as Christ forgave you. You are of the world if you can't forgive. Devotional: The Golden Rule. 1. bet you already know what I am fixing to write. Matthew 7:12.

Therefore all things

whatsoever you would that men should do to you, do ye even so to them: for this is the law and the prophets. You treat others like you would like to be treated. Lesson Text: How often shall I forgive? Matthew 18: 21-28, 32-35. Verse 21. Then came Peter to Him and said, Lord, how oft shall my brother sin against me, and I forgive him? till seven times? Jesus saith unto him, I say not unto

thee, until seven times: but, until seventy times seven. That adds up to 490 times. That means don't ever stop forgiving.

Peter probably thought he was showing great faith and love when he offered to forgive seven times, didn't the Rabbi's write that three times were enough but our Lord says seventy times seven. Verses 23:34.

Here's what happens when you get forgiveness but won't forgive others. A servant owed a lot of money to the king. It was a great sum. The king had the right to take all the man had and could sell his wife and children but the man put up such a pitiful story that

the king forgave him the whole debt. But another servant owed the king's servant only a little money but threatened to put him in prison and sell his wife and children, but his friends told the king what he

had done. The king took him and threw him into prison. Jesus concluded the parable with a serious warning: so likewise shall my heavenly Heavenly Father do also unto you, if ye from your hearts forgive not everyone his brother their trespasses.

Sunday morning Bro. John read the much beloved story of Zacchaeus. Luke 19:1-3. This is the only time in the Bible that he

is mentioned. He had heard of Jesus and he had wanted to meet him, but the crowds were too thick and they were all so tall that he couldn't see over their heads. I guess the crowd was moving slowly for Zacchaeus ran ahead and climbed the Sycamore tree. I can just picture his excitement as he waited, for he had wanted so bad to see this Man that everyone was talking about. You know we don't have to climb a tree to see Jesus. The Bible says He is only an arms length away, stretch out your arm, He is standing at the tips of your fingers. Don't turn Him away.

Zacchaeus didn't turn Him

away he took Jesus home with Him. Sunday night Bro. John took his message from Titus 2:1-15. Looking for that blessed Hope. Verse 13: Looking for that blessed hope, and the glorious appearance of the Great God and our Savior Jesus Christ. Men looked for the rapture in that day, proving there is no definite time element in Scripture for this event. I heard a cat cry on my front porch and I looked out and it was a Cat Bird walking across my porch.

Hi, Caddy.

### Mutual Funds and Moral Convictions

(Editor's note: Following is an update of a previous column.)

What do personal moral convictions have to do with investing? For some people, a lot.

Many people, because of personal values, refuse to invest in companies whose businesses violate their principles. For example, environmentalists may not invest in lumber companies, vegetarians might not invest in food companies that use meat in their products, those opposed to smoking may not buy tobacco stocks, and so on.

When selecting individual securities, it's seldom a problem to find out if the company you're considering violates your personal principles. A little research using reports from Moody's, Standard & Poor's or Value Line research services generally uncovers a company's complete product line. A phone call or letter to the company's headquarters can bring you an informative annual report. Not only will it provide a list of current products, but also an outline of future plans, products and prospects. If these do not correspond with your convictions, simply don't invest in this particular company.

But what if you're investing in mutual funds?

Today, mutual funds invest not only for the individual investor, but also for

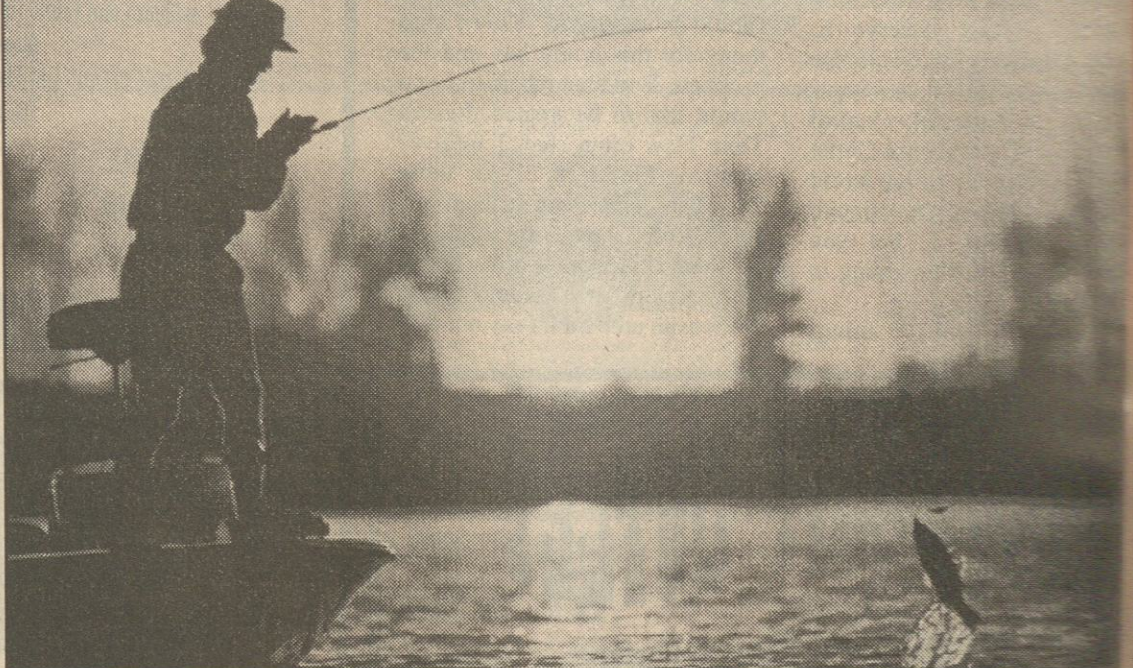

major retirement plans, endowments, trusts, colleges and more. Retirement dollars are part of your company's multimillion-dollar plan, unfortunately have little or no say in how your money is invested.

When it comes to buying mutual funds yourself, however, mutual annual reports provide lists of stock holdings. But with more than 8,000 funds available, this is a lengthy process. In addition, the funds invest in so many different companies that it may be difficult to find one with absolutely no investments that violate your principles.

For example, one of the largest of socially responsible funds is the tobacco industry. However, half of the nation's largest mutual funds own tobacco stocks, with a total of about \$3 billion -- and that's only the largest funds. An estimated 1,500 mutual funds hold tobacco stocks.

What is "responsible" boils down to a matter of individual conscience. If you're concerned about the moral implications of your investments, it is possible to invest in quality mutual funds and still do right.

## What's It Worth? A New Bass Boat.

Wouldn't  
you  
rather  
be  
fishing?

The intentional misuse of agricultural chemicals to control nuisance animals can harm domestic animals or even people. It's against the law. You can be fined and/or sent to jail for using agricultural chemicals in baits. Fines can be as much or more than the price of a new 20 ft. bass boat.

There are simple, legal ways to control animal nuisance. For more information, call the U.S. Department of Agriculture Animal Damage Control Division.

You can make a difference in the responsible use of agricultural chemicals. Intentional misuse of these products should be reported to your local law enforcement and to your state department of agriculture.

## Facts About The BIBLE BY JOHN LEHTI

### THE HEBREW "GAMAL"

THE NAME FOR CAMEL IN ARAMAIC IS "GAMAL" — ALSO, IN ANCIENT PHOENICIAN, GAMAL IS THE NAME FOR THIS STURDY BEAST OF BURDEN! THROUGHOUT THE BIBLE THERE ARE FREQUENT MENTIONS OF CAMELS — USUALLY ACCOUNTS OF CAMELS BEARING WEALTH, SUCH AS HAZAEL, ASSYRIAN PRINCE, BEARING GIFTS THAT WERE TOTALED AS "FORTY CAMELS" BURDENS WORTH OF EVERY GOOD THING OF DAMASCUS! (II KINGS 8:9) ALTHOUGH THEY WERE THOUGHT OF AS BEASTS OF BURDEN, THE ONE HUMP DROMEDARY WAS SWIFT OF FOOT AND COULD TRAVEL AT SPEEDS OF 8 TO 10 MILES PER HOUR AND KEEP GOING FOR 18 HOURS OUT OF THE 24 — THAT NO HORSE COULD DO! THE FACT THAT THE FIRST STOMACH OF THE CAMEL HAS COLLECTIONS OF WATER CELLS WHICH THE ANIMAL CAN DRAW ON WHEN NO OTHER WATER IS AVAILABLE MAKES THIS BEAST A PERFECT CONVEYANCE FOR DESERT AND ITS SANDY WASTES! ADD TO THAT THE CAMEL'S HUMP AS A STOREHOUSE OF FOOD FOR ITS SYSTEM, WHEN FOOD IS SCARCE, AND YOU KNOW WHY MANY MEN PUT UP WITH ITS MEAN TEMPER, WHICH CAMELS ARE SAID TO HAVE!!

**Legal Notice****NOTICE OF DETERMINATION FOR PROJECT  
MUNICIPAL GAS AUTHORITY OF MISSISSIPPI**

The Municipal Gas Authority of Mississippi's mission is to use the best business practices and opportunities to offer its member municipalities and their citizens the most stable and cost effective supply of natural gas which it might receive. It is the intent of the Authority to purchase a ten (10) year supply of a portion of the gas needed by implementing a prepaid purchase contract financed by the Mississippi Development Bank which will result in locking in a supply at a price substantially below market rates (the "Project").

The Authority has reviewed the future gas needs of its member municipalities taking into account the economic and efficiencies to be achieved by the Project and the cost of existing alternative gas supply issues. The Authority has engaged the engineering firm of Allen & Hoshall, Ltd., to prepare a feasibility study of the Project examining the future gas needs of the members.

The Authority has determined that the Project to provide a portion of the gas needs of its members with a prepaid purchase of a supply of gas which can be achieved at below market rates is both appropriate and cost effective while meeting the needs of the member municipalities for a stable supply of gas.

It is the intent of the Authority to finance the Project through the Mississippi Development Bank, which will issue bonds in an amount not to exceed Eighty-Five Million Dollars (\$85,000,000) for the Authority's Project. The Project has been approved by the Board of the Authority and by resolutions adopted by over sixty percent (60%) of the membership.

A meeting of the Municipal Gas Authority of Mississippi will be held on June 9, 1998, at 1:30 p.m. in its offices at 6000 Lakeover Road, Jackson, Mississippi, at which time the Authority will hear any objections or protest to the Project.

**STAR Student/Teacher Named From Tishomingo County High—** Earning the honor of STAR student at Tishomingo County High School for the 1997-98 school year is Brent H. Bonds (right). Brent was able to designate a teacher who he felt made a significant contribution to his academic achievement. Brent chose Malcolm Brown (left) as STAR Teacher.

## Bonds/Brown Named STAR Student/Teacher at TCHS

Brent H. Bonds, 17, has been named as STAR (Student-Teacher Achievement Recognition) Student for the 1997-98 school year by the Mississippi Economic Council, sponsor of the program.

Brent is the son of Thomas G. and Wanda C. Bonds of Iuka. While at TCHS, he has participated in the band, FCS, Student Council, Academic Team, Beta Club, Foreign Language Club, Teacher's Aide, MS Model Security Council, FBLA, Science Club, A/B honor roll (4 years), Hall of Fame, Who's Who—Most Intellectual, Top 10 percent of class, selected to attend MS Governor's School, Who's Who Among American High School Students, and

National Honor Society.

Among Brent's outside of school activities were participation in the 4-H Club, the Boy Scouts and Explorer Program, private art and guitar classes, involved in Lads to Leaders training program through his church, where he, along with a partner, won the debate competition last year, and he serves as a Sunday School teacher.

Brent plans to attend Mississippi State University and major in mechanical engineering.

The Tishomingo County High School senior will be honored during the Education Celebration portion of the MEC's Annual membership Meeting on April 16 in Jackson.

Star Students are selected on

the basis of academic excellence. American College Test scores and scholastic averages are considered in designation of the school's STAR Student, explained Bob Pittman of Jackson, MEC president.

"The STAR Program encourages and promotes academic achievement among Mississippi's high school seniors," he said.

Each STAR Student is asked to designate a STAR Teacher, the classroom teacher who has made the greatest contribution to the student's scholastic achievement. Brent has chosen Malcolm E. Brown as STAR Teacher this year.

Malcolm Brown of Iuka has been a teacher for 11 years. At Tishomingo County High School,

he teaches chemistry, physics and physical science. He holds an associates degree in science from Northeast Mississippi Community College and Bachelor and Masters degrees from the University of Mississippi. This is Brown's third time to be selected as a STAR Teacher. Previously he was selected in 1993, 1994 and 1997.

All 500-plus STAR Students and STAR Teachers will receive recognition from the Council; and the top 20 STAR Students, named ALL-STAR Scholars, and their STAR Teachers will be presented scholarship awards. The highlight of the Education Celebration will be the naming of the Mississippi STAR Student and STAR Teacher.
