Saturday Accident Claims Life of Burnsville Man

by Pamela McRae

An early Saturday morning accident near Burnsville claimed the life of a Burnsville man and injured a passenger in the sports utility vehicle he was driving.

Mississippi State Troopers responded to the intersection of Mississippi Highway 365 and County Road 294 at about 4:40 a.m. Saturday, according to Trooper Ray Hall, Public Affairs Officer with the Mississippi Highway Patrol.

Rickey Whirley, 27, of Burnsville, was attempting to turn off County Road 294 onto 365 when he apparently lost control of the

1995 Ford Explorer he was driving, said Hall. After losing control, the vehicle overturned and then collided into an embankment. Whirley was pronounced dead on the scene.

Joseph Kain, 19, also of Burnsville, was a passenger in Whirley's vehicle, and was treated and released from North Mississippi Medical Center, according to Tishomingo County Coroner Mack Wilemon.

Neither Whirley nor Kain was wearing a seat belt. The accident remains under investigation, said Hall.

Circuit Clerk Clarifies Reasons Names Rejected on Petition

For the last fourteen months, Charles Aldridge, of Iuka, has been soliciting signatures on a petition to allow Tishomingo County voters the right to vote allowing the sale of alcohol to become legal in the currently dry county. Recently he turned in a partial list, some 2,500 names, to the Tishomingo County Circuit Clerk to certify, and many were rejected for various reasons. Though Aldridge has told people many times, apparently many people who signed were not registered to vote in the county, signed the petition more than once. Some also had addresses that did not agree with those on file with the election commis-

The petition needs approximately 2,690 valid signatures.

This week, Tishomingo County Circuit Clerk Donna Dill offered the following breakdown of the accepted and rejected signatures:

Name submitted as of June 7th:	2569
Accepted names:	1743
Rejected names:	826
• Not registered to vote in county:	454
• Names purged from voter roll because they have moved from county or state; have passed away since signing petition; or purged according to state law for other reasons:	57
• Signed more than once:	209
• Names that could not be read:	11
• Names only-provided no other information:	5
• Signatures did not match the signatures on file in the State Wide Election Management System for the person signing petition:	50
• Signatures that appeared to be signed by one person for several people:	40

Anyone that has any questions should contact the Circuit Clerk's Office at 423-7026 and we will be glad to assist you.

Family and Friends Mourn Death of Former Teacher Alma Ruth Daugherty

Former Iuka teacher Alma Ruth Daugherty died last week after a two-year battle with lung cancer.

A retired school teacher, Ms. Daugherty touched many young lives during her long career. She started her teaching career at an early age at the old Central School north of Iuka, later teaching in Tuscaloosa, AL for six years and in the Iuka school system for 30 years. During that time she also coached girls' junior high basketball at Iuka.

Alma Ruth Biggs Daugherty, of Iuka, Mississippi, died Friday, June 3, 2011, at her residence.

She was a graduate of Iuka High School and attended North Mississippi Community College where she played on the Tiger basketball team. She graduated from Mississippi State University with a Masters Degree in Education and was an avid Mississippi State fan and loved to watch MSU sports.

Since her retirement Ms. Daugherty had spent her time devoted to her family, especially her grandchildren.

She was a member of Harmony United Methodist Church and enjoyed talking and visiting with her neighbors in the Harmony Community.

Funeral services were at 10:00 a.m., Monday, June 6, at Cutshall Funeral Home Chapel in Iuka, with Rev. Jon Kaufman and Rev. Ann Kaufman officiating. Interment followed in Oak Grove Cemetery. Pallbearers were Trip Lomenick, Glen Ray Harris, Benny Parrish, Glenn Whitlock, Paul Whitlock, and

Alma Ruth Daugherty

James Crowell. Cutshall Funeral Home of Iuka, MS was entrusted with the arrangements.

Survivors include one son, John Dennis Daugherty and wife, Tommy Jean, of Iuka, MS; one brother, Johnny Biggs of Iuka, MS; two sisters, Rayma Biggs and Mary Louise Biggs, both of Iuka, MS; two grandchildren, Monica Jean Daugherty and Colton Dennis Daugherty and many nieces and nephews.

She was preceded in death by her husband, D. S. Daugherty; her parents, Charlie and Blanche Biggs; and three brothers, Howard, Jessie, and Alton Biggs.

Memorials may be made to the American Cancer Society, P.O. Box 22718, Oklahoma City, OK 73123-1718; by phone by calling 800-ACS-2345; or online at www.cancer.org.

An online guestbook can be accessed at www.cutshallfuneralhome.com.

New Bridge - Fourth District Supervisor Steve Thorne and neighbors of the new Dennis Bridge met last week. From left are James Thorn, Steve Thorne, Charles Monroe and Thomas Parrish. Mr. Monroe was the first to cross the bridge, as he had been closely observing the progress of the construction for the past few months. He was also the first person to have crossed the previous bridge, which dated from the 1930s, in an automobile.

New Bridge Opens at Dennis

by Pamela McRae

The new and improved Dennis bridge reopened this week after being closed to traffic for about a year and a half.

Replacing the wooden bridge over the railroad track is a wide, concrete deck bridge. The old one was technically two-lane - for brave drivers - but the new one is wide enough for five cars, and definitely not too risky for tractor-trailers to cross, which was previously a concern. It's supports have foundations on pilings driven some 80 feet into the ground.

When Steve Thorne inspected the bridge shortly after becoming fourth district supervisor in 2008, he found rotting timbers on the bridge that had allowed traffic to cross over the train tracks at least since the 1930s. Though it meant an extra three-mile drive to the main highway for residents on the east side of the bridge, he closed it, since it was unsafe, and began pursuing funding to get it replaced.

His persistence paid off when

funding was secured from the Local & State Bridge Program (LSBP), a state program that administers funds from a federal program to help replace old wooden bridges in Mississippi. But, simply applying for the money doesn't guarantee a bridge replacement - applicants are competing against counties and districts from all over the state.

His efforts have meant that Tishomingo County has not had to pay a dollar for the new bridge, which is built to state and federal safety and construction standards. The total cost of \$382,856 was covered by the LSBP.

That's a good thing, since county funds for road repair are very limited.

Dennis a Booming Town in Early 1900s

The Dennis bridge crosses over the railroad in an area that used to be the center of the bustling town of Dennis, which used to be larger than Belmont, with a lumber mill adjoining the railroad near the bridge, according to

Charles Monroe, who lives within sight of the bridge he used to cross four times a day on bicycle to his job as postmaster at the Dennis Post Office. Monroe, and Supervisor Thorne are pleased that the bridge replacement was done in such a way as to maintain the usability of the railroad.

The availability of a rail connection was what helped Dennis be a major, economically thriving town in this county in the decades before World War II, and they hope it will help attract industry to the area in the future. Rail travel and freight transfer abilities are becoming more important, along with water freight access, as petroleum prices increases cause industries all over the world to look for more economically feasible transportation.

Materials for the construction of the lock and dam at Bay Springs Lake all arrived in the area by train, and were picked up in Dennis, recalled Monroe, and James Thorn, who lives near the bridge, too.

State Program Offering Help for Safe Room or Shelters

Recent storm activity has many people looking into getting some kind of easily accessible shelter in times of threatening weather. Thankfully, Mississippi Emergency Management is now accepting applications for its "A Safe Place To Go" program. The program provides homeowners with grant funds to help install a safe room.

Through the program, the state can reimburse up to 75% of the eligible costs, not to exceed \$4,000, for a single family safe room.

A safe room is an interior shelter in a small, windowless room that is easily accessible for an entire family. Safe rooms may be built into a home or placed below ground.

Homeowners with internet access are encouraged to apply by visiting www.msema.org and clicking the "safe rooms" link. Free internet access is also available at most public libraries.

Homeowners must apply with MEMA and be accepted to the reimbursement program before beginning construction.

To qualify for reimbursements, the safe room/shelter must be constructed according to FEMA's design plans and construction criteria. Details are available at www.fema.gov. Homeowners have until July 31st, 2011 to apply.

House and Senate Candidates Finalized for 2011 Elections

Because the decennial census was not received from the U.S. Secretary of Commerce by the Governor by January 1, 2011, the qualifying deadline for State House and Senate seats was extended by the State Legislature to June 1st.

Party candidates submitted qualifying papers to their respective parties. Only independent candidates submit qualifying papers to the Secretary of State. Please note, the following list is a list of candidates who have submitted qualifying papers in their respective parties. Party executive committees must still meet to determine if a candidate meets all qualifications for the office sought.

In Tishomingo County,

which includes House Districts 1 and 19, and Senate Districts 4 and 5, the following candidates are listed with the Secretary of State's office:

House District 1

Lester "Bubba" Carpenter(R) - incumbent

Thomas McCarley (D)

Rex Weathers (D)

House District 19-

Randy P. Boyd (R)

Mark Duvall (D) - incumbent

Brad Underwood (D)

Jamie Franks (D)

Senate District 4-

John Orman (R)

Rita Potts Parks (R)

Eric Powell (D) - incumbent

Senate District 5-

Forest Grove Man Offers \$100 Reward for Vandalized Property

by Pamela McRae

A Forest Grove man is offering a \$100 reward for information leading to the arrest of a person who damaged vehicles in his yard, and a neighbor's yard, last week.

According to Lloyd Hutcheson, of 61 County Road 96, he woke up Friday morning to find nine flat tires - four on his lawn mower, three on his truck, two on his car, and one each on his granddaughter's car, and a friend's car. He said that, additionally, tires were also punctured at a neighbors's home nearby. The

neighbor, a cousin of Lloyd's, had five tires flattened and some items stolen, too.

Altogether, thousands of dollars in damage was done, said Hutcheson.

The incident is currently under investigation, said Tishomingo County Sheriff Glenn Whitlock.

Hutcheson asks anyone who has information regarding the vandalism to contact the sheriff's department at 423-7000.

**Bruce Receives
Eagle Scout Award**

Alan Clay Bruce, 17, of Diamondhead, received his Eagle Scout award during an Eagle Court of Honor under the direction of Scout Master Terry King and Assistant Scout Leaders Karen Monju and Jack Allen. The ceremony was held on Sunday, May 15 at St. Thomas Episcopal Church in Diamondhead. The award, Boy Scouting's highest award, was presented to him by former Scout Master of Troop 20, Mike Monju.

In attendance at the ceremony were Alan's grandparents Dr. and Mrs. Jerry Stone and Joy Bruce; family and friends, and members of Troop 20 and their families. The opening and closing prayers were given by The Reverend Bill White. Justin Holly, Channing Plouffe, Brett Monju, Danny Smith, and Sasha King served as Color Guard. Pine Burr Area Field Director, Philip Wright presented Jack T. Allen, Alan's mentor, with a plaque recognizing his contributions to Troop 20.

Alan began scouting in September of 2000 as a Tiger Cub in Scout Pack 20 and holds the distinction of being the only Eagle Scout in his troop to have earned every rank of Scouting. As a Webelos, he earned the Arrow of Light. As a Boy Scout, Alan attended summer and winter camps at Camp Tiak in Mississippi and Camp Woodruff in Georgia. He earned 24 merit badges and served Troop 20 as Assistant Pa-

Cabbage Galore!

Aaron Carson of Jones Subdivision in Iuka harvested this gigantic cabbage from his garden on Memorial Day. It weighed more than 11 lbs. and was still growing but Mr. Carson couldn't resist pulling the cabbage and cooking it on the smoker. He cooked half the cabbage and gave a neighbor the other half. It was enjoyed for several days as both slaw and stewed cabbage. Mr. Carson has been growing cabbage for some 40 years and this is only the second time he has grown one this large. Pretty good for inside the city limits of Iuka!

Antioch Free Will Baptist Church Homecoming

Antioch Free Will Baptist Church will be having their annual homecoming on Sunday, June 19, 2011. Sunday School is scheduled for 10:00. Preaching will be at 11:00 and lunch will be served at noon in the fellowship hall.

The featured singers for the afternoon will be The Heimen from Corinth, MS.

Bro. Michael Edwards and the congregation cordially invite everyone to join us in this celebration service.

Also, it is time for the cemetery to be mowed and maintained. Anyone wanting to contribute to the upkeep of the cemetery please send your contribution to Doyle Rorie, 146 County Road 219, Burnsville, MS 38833

Confederate Memorial for Martin F. Adams

There will be a Confederate Memorial dedication Saturday, 10 a.m., July 9th, 2011 at the Old Point Cemetery, west of Bethlehem Church in Tishomingo County. Confederate soldier Martin F. Adams fought in the 14th Mississippi Infantry Volunteer, Co. D. He also fought along with his son, Sergeant Marquis D. Lafayette Adams in the 26th Mississippi Reg., Co. A under Captain D.M.B. Reid. From the book "The Tishomingo Connection" by Ester Welch Adams, we find by 1857, Martin fought the Northeast section of 23-4-9. The grave lies about a mile southwest of the village of Holcut in Tishomingo County.

His relatives and descendants are numerous in this area today with names of Adams, Sades, King, Pace, Ellis, Gray, Jones, Bonds, Crane, Rushing, White, Woodley, Glen, Stockton, Bostick, Shackelford, Holder, Madden, Robinson, Gholson, Hayes, Busick, Hanon, Taylor, Taylor, Harwell, Barnes, Seago, Hale, Smith, Owens, Moore, Honeycutt, Skinner, Hale, Mayo, Davis, Stricklen, Gilliland, Lindsey, Maper, Robertson, Berlin, Miller, Mikally, Dixon, Garrison, Ferguson, Kelly, Tinsley, Terry, just to name a few. Members of the Colonel William P. Rogers Camp, Corinth, will be in charge of the dedication.

Yarber-Mann to Wed June 25th

Jody Yarber and Kenneth Reed of Tishomingo are pleased to announce the engagement of their daughter, Samantha Nicole Yarber to Jesse Mann. Jesse is the son of John and Reda Mann of Iuka. The bride-elect is the daughter of Sarah Yarber and John Yarber of Tishomingo and Carlos Chandler of Corinth. Miss Yarber is a 2008 graduate of Corinth High School and attended North Mississippi Community College. She is now attending the Mississippi University for Women pursuing a degree in nursing. The prospective groom

is the grandson of Ms. Jeanette Mann and the late Brian Mann of Iuka and the late Lucian and Reba McMahon of Iuka. Mr. Mann is a 2008 graduate of Tishomingo County High School and attended Northeast Mississippi Community College. He is attending Mississippi State University pursuing an engineering degree. The couple will exchange vows at 11:00 a.m. on June 25, 2011 at Oakland Baptist Church in Corinth, Mississippi. A reception will follow at the church. All family and friends are invited to attend. After a brief honeymoon, the couple will reside in Columbus, Mississippi.

Webb-Smith To Wed June 18th

Laura Jo Webb and William Edward Smith, Jr. have chosen June 18, 2011 for their wedding. The ceremony will be held at the University of North Alabama with Dr. John Brock and Bro. Chris Underwood officiating. A reception will follow on campus. The bride-elect is the daughter of Larry and Brenda Webb of Tishomingo, Miss. She is the granddaughter of Joy Strickland and the late Eural Wayne "Pro" Strickland of Tishomingo, Miss. and the late Odell and Mary Willard Webb of Burnsville, Miss. Miss Webb is a graduate of Tishomingo High School and the University of North Alabama with a Bachelor of Science degree in Management and a Master of Business Administration degree. She is currently employed as a Field Representative for United States Congressman Mo Brooks. The prospective groom is the son of William and Christine Smith of Florence. He is the grandson of the late Floyd and Nina Waldrep of Red Bay and the late Robert and Kate Smith of Florence. Mr. Smith is a graduate of Bradshaw High School and received a Bachelor of Arts degree in Political Science and a Master of Business Administration degree from the University of North Alabama. He received a Juris Doctor from Cumberland School of Law of Samford University and is currently an attorney and owner of the Law Office of William E. Smith, Jr. in Florence. He is also a former Lauderdale County Commissioner and a former University of North Alabama Alumni President.

Johnson-Watson To Wed June 18th

Ricky and Patricia Johnson of Burnsville are pleased to announce the engagement and forthcoming marriage of their daughter, Kayla Marie Johnson, to Wesley Adam Watson of Iuka. Wesley is the son of Donna L. Watson and Monty Lee Brumley of Iuka and Bobby Watson of Burnsville. The bride-elect is the granddaughter of Callie and Travis Bates and the late Jessie Bates of Ripley and the late Nettie J. Johnson of Burnsville and the late James "Popeye" Wilson West of Midway. Miss Johnson is a 2007 graduate of Tishomingo County High School. She

is currently employed at 72 Express in Burnsville. The prospective groom is the grandson of Billy Joe and the late Mary Faye Luttrell of Iuka and the late Henry and Lavonia Watson of Burnsville. Mr. Watson is a 1996 graduate of Tishomingo County High School. He is currently employed at Fernon South in Iuka. The couple will exchange vows at 7 p.m. on June 18, 2011 at the home of Debbie Johnson in Burnsville. A reception will follow at the home of Debbie Johnson. No local invitations are being sent. All family and friends are invited to attend.

Tishomingo Countian Earns EMCC Alumni Scholarship

Millicent Blair "Millicent" of Iuka has been awarded a \$250 scholarship from Northeast Mississippi Community College by the college's Alumni Association. A graduate of Tishomingo County High School, she is the daughter of Mal E. Brown. At Iuka High School, she was a member of the Chess Club, Fellowship of Christian Athletes, SADD, HOSA. Brown was a member of the Lady's Basketball team. Northeast's alumni association awards a \$250 scholarship to a student who attends high school in one of its five supporting counties (Alcorn, Hinds, Tippah, Tishomingo and Union) and Lee County. The recipients must be high school seniors entering Northeast for the fall term. Awards are based on academic achievement, leadership ability, outstanding character, personal qualities, and financial need.

Financial Aid Information is Free for College Bound Students

Don't be taken in by something that sounds too good to be true.

Parents of college-bound students are probably hearing lots of sales pitches from companies that promise to help them find financial aid to pay for college, according to KHEAA—Alabama.

There's no need to pay for this kind of information. It can be obtained free by working with your guidance counselor, checking out sources in the library, doing free online scholarship searches or contacting the financial aid office of the college you plan to attend.

If you decide to use a company to help you find financial aid, make sure you're dealing with a reputable one. The Federal Trade Commission cautions students to be especially skeptical about scholarship search companies and websites that make these claims.

"You've been selected by a national foundation to receive a scholarship." Check with a guidance counselor or The Foundation Center at www.fdncenter.org to find out if the foundation is legitimate. Be especially wary if you're notified that you're a

finalist in a scholarship contest you didn't enter.

"We'll do all the work." It's highly unlikely that the company will fill out all the applications for all the financial aid sources it sends you.

"I just need your credit card or bank account number to hold this scholarship." Never give these numbers to a person or company you're not sure about. You could find your credit card maxed out and your bank account cleaned out.

"This scholarship will cost some money." Some legitimate scholarships do have up-front fees, but they shouldn't be more than \$5 or \$10.

"You're guaranteed to get money for college or your money back." Read the fine print. If it sounds too good to be true, it probably is.

KHEAA is a non-profit agency established in 1966 to improve student access to college. It provides information about financial aid and financial literacy at no cost to students and parents. KHEAA partners with Overture Technologies to provide the KHEAA Student Loan Marketplace.

2010 Annual Drinking Water Quality Report
Hokut-Cairo Water Association
PWS# 0590007
May 2011

We're pleased to present to you this year's Annual Quality Water Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. Our water source is from wells drawing from the Gordo Aquifer.

The source water assessment has been completed for our public water system to determine the overall susceptibility of its drinking water supply to identified potential sources of contamination. A report containing detailed information on how the susceptibility determinations were made has been furnished to our public water system and is available for viewing upon request. The wells for the Hokut-Cairo Water Association have received lower to moderate susceptibility rankings to contamination.

If you have any questions about this report or concerning your water utility, please contact S.L. Umfress at 662-423-8281. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are held on the first Monday of the month at 5:00 PM at the Hokut-Cairo Water Office.

We routinely monitor for constituents in your drinking water according to Federal and State laws. This table below lists all of the drinking water contaminants that were detected during the period of January 1st to December 31st, 2010. In cases where monitoring wasn't required in 2010, the table reflects the most recent results. As water travels over the surface of land or underground, it dissolves naturally occurring minerals and, in some cases, radioactive materials and can pick up substances or contaminants from the presence of animals or from human activity; microbial contaminants, such as viruses and bacteria, that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife; inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm-water runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming; pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm-water runoff, and residential uses; organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations and septic systems; radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities. In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some constituents. It's important to remember that the presence of these constituents does not necessarily indicate that the water poses a health risk.

In this table you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

Action Level - the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Maximum Contaminant Level (MCL) - The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG) - The "Goal"(MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRDLG) - The level of a drinking water disinfectant below which there is no known or expected risk of health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

Parts per million (ppm) or Milligrams per liter (mg/L) - one part per million corresponds to one minute in two years or a single penny in \$10,000.

Parts per billion (ppb) or Micrograms per liter (µg/L) - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

* Most recent sample. No sample required for 2010.

As you can see by the table, our system had no violations. We're proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some constituents have been detected however the EPA has determined that your water is SAFE at these levels.

We are required to monitor your drinking water for specific constituents on a monthly basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. In an effort to ensure systems complete all monitoring requirements, MSCH now notifies systems of any missing samples prior to the end of the compliance period.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Our water system is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/SAFEwater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing for \$10 per sample. Please contact 601.576.7582 if you wish to have your water tested.

All sources of drinking water are subject to potential contamination by substances that are naturally occurring or man made. These substances can be microbes, inorganic or organic chemicals and radioactive substances. All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline 1-800-426-4791.

The Hokut-Cairo Water Association works around the clock to provide top quality water to every tap. We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.

Healthy Relationship News

Why do so many Olympic athletes sacrifice their career, education, and future livelihood for a chance at the gold? Why do athletes sacrifice, endure pain, push their bodies beyond their limits, and pass up other opportunities? The answer: they want to win. And why do they want to? BECAUSE IT'S WORTH IT. Last week we compared marriage to physical fitness and what to pack to get you from to improve your marriage. Not sure what to pack? Ask yourself the following questions. Is your spouse frustrated by an emotional connection you have with someone else? Is your spouse uncomfortable with physical contact you have with your spouse's friends? Does your spouse feel that you give more attention to the TV than you do them? Is your intimacy with someone else interfering with the potential intimacy you could have with your spouse? Physically or emotionally. Do you spend too much time and energy on work, a hobby, or with a particular person? Do yourself a favor, ASK YOUR SPOUSE those same questions! I bet you'll be surprised by the answers. If you couldn't think of anything to refrain from doing that would improve your marriage, I bet your spouse can suggest something. Ask your spouse!

Legal Notices

PUBLIC NOTICE

The Federal Emergency Management Agency (FEMA), hereby gives notice to the public of its intent to reimburse eligible applicants for eligible costs to repair or replace facilities damaged by the Severe Storms, Tornadoes, Straight-Line Winds, and Associated Flooding occurring April 15, 2011 to April 28, 2011. This notice applies to the Public Assistance (PA), Individual Assistance (IA), and Hazard Mitigation Grant (HMG) programs implemented under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207.

Under major disaster declaration FEMA-DR-1375-MS signed by the President on April 28, 2011 and amended May 1, 2011, May 9, 2011, and May 18, 2011, the following counties have been designated adversely affected by the disaster and eligible for PA funding: Adams, Attala, Chickasaw, Choctaw, Clarke, Clay, Colbert, Greene, Itasca, Holmes, Jasper, Kemper, Lafayette, Marshall, Monroe, Montgomery, Neshoba, Newton, Pike, Quitman, Smith, Tishomingo, Tunica, Webster, and Winston. The following counties have been designated adversely affected by the disaster and eligible for IA funding only: Calhoun, Grenada, Leflore, and Sunflower. The following counties have been designated adversely affected by the disaster and eligible for HMG funding only: Benton, Carroll, Carroll, Franklin, Itasca, Leflore, and Sunflower. Additional counties may be designated at a later date without further public notice. Hazard Mitigation Grant Program (HMG) funding is available statewide.

The public notice concerns activities that may affect historic properties, activities that are to be conducted on historic properties, and changes more detailed review, including study of alternate locations. Subsequent

property and function or well-being, or may result in continuing vulnerability to flood damage. Presidential Executive Orders 13582 and 13583 require that all federal actions in or affecting the floodplain or wetlands be reviewed for opportunities to relocate and evaluated for social, economic, historical, environmental, legal, and safety considerations. Where there is no opportunity to relocate, FEMA is required to undertake a detailed review to determine what measures may be taken to minimize future damages. The public is invited to participate in the process of identifying alternatives and analyzing their impacts. FEMA has determined that for certain types of facilities there are normally no alternatives to restoration in the floodplain or wetland. These are facilities that meet all of the following criteria: 1) FEMA's estimate of the cost of repairs is less than 50% of the cost to replace the entire facility and is less than \$100,000; 2) the facility is not located in a floodway; 3) the facility has not sustained major structural damage in a previous Presidential declared flooding disaster or emergency; and 4) the facility is not a hospital, generating plant, emergency operations center, or a facility that contains dangerous materials. FEMA intends to provide assistance for the restoration of these facilities to their pre-disaster condition, except that certain measures to mitigate the effect of future flooding or other hazards may be included in the work. For example, a bridge or culvert restoration may include a larger waterway opening to decrease the risk of future washouts.

For routine activities, this will be the only public notice published. Other activities and activities that are to be conducted on historic properties, and changes more detailed review, including study of alternate locations. Subsequent

public notices regarding such projects will be published if necessary, as more specific information becomes available. In many cases, an applicant may have started facility restoration before federal involvement. Even if the facility must undergo detailed review and analysis of alternate locations, FEMA will fund eligible restoration at the original location if the facility is functionally dependent on its floodplain location (e.g., bridges and flood control facilities), or the project facilities are open space use, or the facility is an integral part of a larger network that is impractical or uneconomical to relocate, such as a road. In such cases, FEMA must also examine the possible effects of not restoring the facility, minimizing floodplain or wetland impacts, and determining both that an overriding public need for the facility clearly outweighs the Executive Order requirements to avoid the floodplain or wetland, and that the site is the only practicable alternative. The State of Mississippi and local officials will confirm to FEMA that proposed actions comply with all applicable state and local floodplain management and wetland protection requirements.

FEMA intends to provide PA program funding for disaster-related emergency housing. These actions may adversely affect a floodplain or wetland, or may result in continuing vulnerability to floods. These actions may include repair, restoration, or construction of housing or private bridges, purchase and placement of these trailers or manufactured housing units, or repair of structures as minimum protective measures. This will be the only public notice concerning these actions.

FEMA also intends to provide HMG funding to the State of Mississippi to mitigate future disaster damages. These projects may include construction of new facilities, modification of existing

undamaged facilities, relocation of facilities out of floodplains, demolition of structures, or other types of projects to mitigate future disaster damages. In the course of developing project proposals, subsequent public notices will be published if necessary as more specific information becomes available.

The National Historic Preservation Act requires federal agencies to take into account the effect of their undertakings on historic properties. These actions or activities affecting buildings, structures, districts or objects 45 years or older or that affect archaeological sites or undisturbed ground will require further review to determine if the property is eligible for listing in the National Register of Historic Places (Register). If the property is determined to be eligible for the Register and FEMA's undertaking will adversely affect it, FEMA will provide additional public notices. For historic properties not adversely affected by FEMA's undertaking, this will be the only public notice.

As noted, this may be the only public notice regarding the above-described actions under the PA, IA, and HMG programs. Interested persons may obtain information about these actions or a specific project by writing to the Federal Emergency Management Agency, Joint Field Office, 502 Clinton Center Drive, Suite 2000, Clinton, MS 39056 or by calling (601) 926-5400. Comments should be sent in writing. Terry Quales, Federal Coordinating Official, at the above address within 15 days of the date of this notice.

Longtime Tupelo Director Honored For Main Street Career

Debbie Brangenberg was recently honored at the 2011 National Main Street Conference for her long-term career in Main Street.

Brangenberg has 22 years of service as a Main Street professional in Mississippi and has served as the executive director of the Downtown Tupelo Main Street Association since 1991.

At the closing session of this year's conference in Des Moines, Iowa, National Trust President Stephanie Meeks recognized Main Street directors with more than 20 years experience.

"The National Trust for Historic Preservation is proud to have had a strong leader such as Debbie Brangenberg as a partner for the past 22 years," said Doug Loesch, Director of the National Trust Main Street Center.

"Her work to preserve and revitalize downtown Tupelo has been outstanding and her leadership skills are one of the reasons that the National Trust Main Street Center selected Tupelo as a demonstration project last year," he said.

Brangenberg has also been recognized for her service by the Mississippi Main Street Association (MMSA). During her long tenure, Downtown Tupelo has won several state Main Street awards. In 2010, Brangenberg was awarded the Charles O. Beasley Scholarship Award for Main Street Manager of the Year.

"We are very proud and honored to have Debbie recognized as one of the Main Street Directors with over 20 years of service," said Bob Wilson, MMSA

Debbie Brangenberg

Executive Director. "Debbie is a colleague I have worked with and admired through the years as well as a great friend."

Brangenberg has gotten the business community involved in downtown Tupelo and has worked on several successful projects, including the redevelopment of the Fairpark District in downtown Tupelo for which Brangenberg was Project Coordinator. The Tupelo Fairpark District won a Phoenix Award for Excellence in Brownfield Redevelopment in 2009.

Brangenberg provides leadership for the many events put on by the Downtown Tupelo Main Street Association, which include the very successful Tupelo Elvis Festival, the Elvis Birthday Celebration, St. Patrick's Day Parade, Chili Festival, Children's Halloween Carnival, Holiday Open House, Fairpark Tree Lighting, Reed's Christmas Parade and the Tupelo Farmers Market.

Debbie has a home on Pickwick Lake and enjoys weekends in the Iuka area.

Money Available For Recreational Boating Access

The Mississippi Department of Wildlife, Fisheries, and Parks is offering assistance to Municipal, County and other government entities to develop or improve recreational boating access facilities on public lakes and rivers.

New developments or repairs/improvements to existing facilities including boat launching ramps, courtesy piers, restrooms, parking lots and fishing cleaning stations/pavilions are eligible. Eligible projects will be reimbursed 75% of the construction cost.

Please contact the Mississippi Department of Wildlife, Fisheries, and Parks for additional information at 601-432-2300 or on the agency web site at www.mdwfp.com.

Tishomingo Industries Pizza Party

The Pilot Club of Iuka had the pleasure of hosting a "pizza party" for the clients and staff of Tishomingo Industries on May 27th. There was an assortment of pizzas with Coke to drink followed with cookies and home-made ice cream for dessert. The director of the center made the ice cream and it was delicious.

After lunch, they played "Springtime Jingo" until everyone won two prizes - pudding and Pringles, which they really enjoyed. Club members, Beth White, Tiffany Johnson, Jo Rusk and Marcell Senter enjoyed the party and visiting with the clients. Other guests were Ham and Ashton Johnson. Everyone had a good time!!!

Burnsville Public Library Summer Reading Program

Hey Kids!!! We have an exciting new Summer Reading Program which starts on June 6 and runs all the way through June 30. We have lots of exciting prizes including a brand new mountain bike for the kid who reads the most books for the entire month. We also have lots of exciting and cool activities planned including a "salad garden" where we will be planting enough vegetables to

make our own salad at the end of the month. We will also have games including a jump rope contest with lots of prizes for the games too. How can you participate in such fun? Well all you have to do is read! We have a wonderful selection of books to choose from so we have something for everyone! For more information please call 662-427-9258. We hope to see you there!
